- 10.2 UNDP shall endeavor to provide such responses to clarifications in an expeditious manner, but any delay in such response shall not cause an obligation on the part of UNDP to extend the submission date of the Proposals, unless UNDP deems that such an extension is justified and necessary.

11. Amendment of Proposals

- 11.1 At any time prior to the deadline of Proposal submission, UNDP may for any reason, such as in response to a clarification requested by a Proposer, modify the RFP in the form of a Supplemental Information to the RFP. - 11.2 In order to afford prospective Proposers reasonable time to consider the amendments in preparing their Proposals, UNDP may, at its discretion, extend the deadline for submission of Proposals, if the nature of the amendment to the RFP justifies such an extension.

C. PREPARATION OF PROPOSALS

12. Cost

The Proposer shall bear any and all costs related to the preparation and/or submission of the Proposal, regardless of whether its Proposal was selected or not. UNDP shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the procurement process.

13. Language

The Proposal, as well as any and all related correspondence exchanged by the Proposer and UNDP, shall be written in the language (s) specified in the **Data Sheet** (DS No 4). Any printed literature furnished by the Proposer written in a language other than the language indicated in the **Data Sheet**, must be accompanied by a translation in the preferred language indicated in the **Data Sheet**. For purposes of interpretation of the Proposal, and in the event of discrepancy or inconsistency in meaning, the version translated into the preferred language shall govern. Upon conclusion of a contract, the language of the contract shall govern the relationship between the contractor and UNDP.

14. Proposal Submission Form

The Proposer shall submit the Proposal Submission Form using the form provided in Section 4 of this RFP.

15. Technical Proposal Format and Content

Unless otherwise stated in the **Data Sheet** (DS no. 28), the Proposer shall structure the Technical Proposal as follows:

- 15.1 Expertise of Firm/Organization – this section should provide details regarding management structure of the organization, organizational capability/resources, and experience of organization/firm, the list of projects/contracts (both completed and on-going, both domestic and international) which are related or similar in nature to the requirements of the RFP, and proof of financial stability and adequacy of resources to complete the services required by the RFP (see RFP clause 18 and DS No. 26 for further details). The same shall apply to any other entity participating in the RFP as a Joint Venture or Consortium.
- 15.2 Proposed Methodology, Approach and Implementation Plan – this section should demonstrate the Proposer's response to the Terms of Reference by identifying the specific components proposed, how the requirements shall be addressed, as specified, point by point; providing a detailed description of the essential performance characteristics proposed; identifying the works/portions of the work that will be subcontracted; and demonstrating how the proposed methodology meets or exceeds the specifications, while ensuring appropriateness of the approach to the local conditions and the rest of the project operating environment. This methodology must be laid out in an implementation timetable that is within the duration of the contract as specified in the **Data Sheet** (DS nos. 29 and 30).

Proposers must be fully aware that the products or services that UNDP requires may be transferred, immediately or eventually, by UNDP to the Government partners, or to an entity nominated by the latter, in accordance with UNDP's policies and procedures. All proposers are therefore required to submit the following in their proposals:

- a) A statement of whether any import or export licences are required in respect of the goods to be purchased or services to be rendered, including any restrictions in the country of origin, use or dual use nature of the goods or services, including any disposition to end users; and
 - b) Confirmation that the Proposer has obtained license of this nature in the past, and have an expectation of obtaining all the necessary licenses, should their Proposal be rendered the most responsive.
- 15.3 Management Structure and Key Personnel – This section should include the comprehensive curriculum vitae (CVs) of key personnel that will be assigned to support the implementation of the proposed methodology, clearly defining the roles and responsibilities vis-à-vis the proposed methodology. CVs should establish competence and demonstrate qualifications in areas relevant to the TOR.

In complying with this section, the Proposer assures and confirms to UNDP that the personnel being nominated are available for the Contract on the dates proposed. If any of the key personnel later becomes unavailable, except for unavoidable reasons such as death or medical incapacity, among other possibilities, UNDP reserves the right to consider the proposal non-responsive. Any deliberate substitution arising from unavoidable reasons, including delay in the implementation of the project of programme through no fault of the Proposer shall be made only with UNDP's acceptance of the justification for substitution, and UNDP's approval of the qualification of the replacement who shall be either of equal or superior credentials as the one being replaced.

15.4 Where the **Data Sheet** requires the submission of the Proposal Security, the Proposal Security shall be included along with the Technical Proposal. The Proposal Security may be forfeited by UNDP, and reject the Proposal, in the event of any or any combination of the following conditions:

- a) If the Proposer withdraws its offer during the period of the Proposal Validity specified in the **Data Sheet** (DS no. 11), or;
- b) If the Proposal Security amount is found to be less than what is required by UNDP as indicated in the **Data Sheet** (DS no. 9), or;
- c) In the case the successful Proposer fails:
 - i. to sign the Contract after UNDP has awarded it;
 - ii. to comply with UNDP's variation of requirement, as per RFP clause 35; or
 - iii. to furnish Performance Security, insurances, or other documents that UNDP may require as a condition to rendering the effectivity of the contract that may be awarded to the Proposer.

16. Financial Proposals

The Financial Proposal shall be prepared using the attached standard form (Section 7). It shall list all major cost components associated with the services, and the detailed breakdown of such costs. All outputs and activities described in the Technical Proposal must be priced separately on a one-to-one correspondence. Any output and activities described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, as well as in the final total price.

17. Currencies

All prices shall be quoted in the currency indicated in the **Data Sheet** (DS no. 15). However, where Proposals are quoted in different currencies, for the purposes of comparison of all Proposals:

- a) UNDP will convert the currency quoted in the Proposal into the UNDP preferred currency, in accordance with the prevailing UN operational rate of exchange on the last day of submission of Proposals; and
- b) In the event that the proposal found to be the most responsive to the RFP requirement is quoted in another currency different from the preferred currency as per **Data Sheet** (DS no. 15), then UNDP shall reserve the right to award the contract in the currency of UNDP's

preference, using the conversion method specified above.

Proposals submitted by two (2) or more Proposers shall all be rejected if they are found to have any of the following :

- a) they have at least one controlling partner, director or shareholder in common; or
- b) any one of them receive or have received any direct or indirect subsidy from the other/s; or
- c) they have the same legal representative for purposes of this RFP; or
- d) they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about, or influence on the Proposal of, another Proposer regarding this RFP process;
- e) they are subcontractors to each other's Proposal, or a subcontractor to one Proposal also submits another Proposal under its name as lead Proposer; or
- f) an expert proposed to be in the team of one Proposer participates in more than one Proposal received for this RFP process. This condition does not apply to subcontractors being included in more than one Proposal.

18. Documents Establishing the Eligibility and Qualifications of the Proposer

The Proposer shall furnish documentary evidence of its status as an eligible and qualified vendor, using the forms provided under Section 5, Proposer Information Forms. In order to award a contract to a Proposer, its qualifications must be documented to UNDP's satisfaction. These include, but are not limited to, the following:

- a) That, in the case of a Proposer offering to supply goods under the Contract which the Proposer did not manufacture or otherwise produce, the Proposer has been duly authorized by the goods' manufacturer or producer to supply the goods in the country of final destination;
- b) That the Proposer has the financial, technical, and production capability necessary to perform the Contract; and
- c) That, to the best of the Proposer's knowledge, it is not included in the UN 1267/1989 List or the UN Ineligibility List, nor in any and all of UNDP's list of suspended and removed vendors.

19. Joint Venture, Consortium or Association

If the Proposer is a group of legal entities that will form or have formed a joint venture, consortium or association at the time of the submission of the Proposal, they shall confirm in their Proposal that : (i) they have designated one party to act as a lead entity, duly vested with authority to legally bind the members of the joint venture jointly and severally, and this shall be duly evidenced by a duly notarized Agreement among the legal entities, which shall be submitted along with the Proposal; and (ii) if they are awarded the contract, the contract shall be entered into, by and between UNDP and the designated lead entity, who shall be acting for and on behalf of all the member entities comprising the joint venture.

After the Proposal has been submitted to UNDP, the lead entity identified to represent the joint venture shall not be altered without the prior written consent of UNDP. Furthermore, neither the lead entity nor the member entities of the joint venture can:

- a) Submit another proposal, either in its own capacity; nor

- b) As a lead entity or a member entity for another joint venture submitting another Proposal.

The description of the organization of the joint venture/consortium/association must clearly define the expected role of each of the entity in the joint venture in delivering the requirements of the RFP, both in the Proposal and the Joint Venture Agreement. All entities that comprise the joint venture shall be subject to the eligibility and qualification assessment by UNDP.

Where a joint venture is presenting its track record and experience in a similar undertaking as those required in the RFP, it should present such information in the following manner:

- a) Those that were undertaken together by the joint venture; and
- b) Those that were undertaken by the individual entities of the joint venture expected to be involved in the performance of the services defined in the RFP.

Previous contracts completed by individual experts working privately but who are permanently or were temporarily associated with any of the member firms cannot be claimed as the experience of the joint venture or those of its members, but should only be claimed by the individual experts themselves in their presentation of their individual credentials.

If a joint venture's Proposal is determined by UNDP as the most responsive Proposal that offers the best value for money, UNDP shall award the contract to the joint venture, in the name of its designated lead entity. The lead entity shall sign the contract for and on behalf of all other member entities.

20. Alternative Proposals

Unless otherwise specified in the **Data Sheet** (DS nos. 5 and 6), alternative proposals shall not be considered. Where the conditions for its acceptance are met, or justifications are clearly established, UNDP reserves the right to award a contract based on an alternative proposal.

21. Validity Period

Proposals shall remain valid for the period specified in the **Data Sheet** (DS no. 8), commencing on the submission deadline date also indicated in the **Data Sheet** (DS no. 21). A Proposal valid for a shorter period shall be immediately rejected by UNDP and rendered non-responsive.

In exceptional circumstances, prior to the expiration of the proposal validity period, UNDP may request Proposers to extend the period of validity of their Proposals. The request and the responses shall be made in writing, and shall be considered integral to the Proposal.

22. Proposer's Conference

When appropriate, a proposer's conference will be conducted at the date, time and location specified in the **Data Sheet** (DS no. 7). All Proposers are encouraged to attend. Non-attendance, however, shall not result in disqualification of an interested Proposer. Minutes of the proposer's conference will be either posted on the UNDP website, or disseminated to the individual firms who have registered or expressed interest with the contract, whether or not they attended the conference. No verbal statement made during the conference shall modify the terms and

conditions of the RFP unless such statement is specifically written in the Minutes of the Conference, or issued/posted as an amendment in the form of a Supplemental Information to the RFP.

D. SUBMISSION AND OPENING OF PROPOSALS

23. Submission

- 23.1 The Financial Proposal and the Technical Proposal Envelopes MUST BE COMPLETELY SEPARATE and each of them must be submitted sealed individually and clearly marked on the outside as either “TECHNICAL PROPOSAL” or “FINANCIAL PROPOSAL”, as appropriate. Each envelope MUST clearly indicate the name of the Proposer. - 23.2 Proposers must submit their Proposals in the manner specified in the **Data Sheet** (DS nos. 22 and 23). When the Proposals are expected to be in transit for more than 24 hours, the Proposer must ensure that sufficient lead time has been provided in order to comply with UNDP’s deadline for submission. UNDP shall indicate for its record that the official date and time of receiving the Proposal is the actual date and time when the said Proposal has physically arrived at the UNDP premises indicated in the **Data Sheet** (DS no. 20).
- 23.3 Proposers submitting Proposals by mail or by hand shall enclose the original and each copy of the Proposal, in separate sealed envelopes, duly marking each of the envelopes as “Original Proposal” and “Copy of Proposal” as appropriate. The 2 envelopes shall then be sealed in an outer envelope. The number of copies required shall be as specified in the **Data Sheet** (DS No. 19). In the event of any discrepancy between the contents of the “Original Proposal” and the “Copy of Proposal”, the contents of the original shall govern. The original version of the Proposal shall be signed or initialed by the Proposer or person(s) duly authorized to commit the Proposer on every page. The authorization shall be communicated through a document evidencing such authorization issued by the highest official of the firm, or a Power of Attorney, accompanying the Proposal.
- 23.4 Proposers must be aware that the mere act of submission of a Proposal, in and of itself, implies that the Proposer accepts the General Contract Terms and Conditions of UNDP as attached hereto as Section 11.

24. Deadline for Submission of Proposals and Late Proposals

Proposals must be received by UNDP at the address and no later than the date and time specified in the **Data Sheet** (DS nos. 20 and 21).

UNDP shall not consider any Proposal that arrives after the deadline for submission of Proposals.

Any Proposal received by UNDP after the deadline for submission of Proposals shall be declared late, rejected, and returned unopened to the Proposer.

25. Withdrawal, Substitution, and Modification of Proposals

- 25.1 Proposers are expected to have sole responsibility for taking steps to carefully examine in detail the full consistency of its Proposals to the requirements of the RFP, keeping in mind that material deficiencies in providing information requested by UNDP, or lack clarity in the description of services to be provided, may result in the rejection of the Proposal. The Proposer shall assume the responsibility regarding erroneous interpretations or conclusions made by the Proposer in the course of understanding the RFP out of the set of information furnished by UNDP.
- 25.2 A Proposer may withdraw, substitute or modify its Proposal after it has been submitted by sending a written notice in accordance with Clause 23.1, duly signed by an authorized representative, and shall include a copy of the authorization (or a Power of Attorney). The corresponding substitution or modification of the Proposal must accompany the respective written notice. All notices must be received by UNDP prior to the deadline for submission and submitted in accordance with RFP Clause 23.1 (except that withdrawal notices do not require copies). The respective envelopes shall be clearly marked "WITHDRAWAL," "SUBSTITUTION," or "MODIFICATION".
- 25.3 Proposals requested to be withdrawn shall be returned unopened to the Proposers.
- 25.4 No Proposal may be withdrawn, substituted, or modified in the interval between the deadline for submission of Proposals and the expiration of the period of proposal validity specified by the Proposer on the Proposal Submission Form or any extension thereof.

26. Proposal Opening

UNDP will open the Proposals in the presence of an ad-hoc committee formed by UNDP of at least two (2) members. If electronic submission is permitted, any specific electronic proposal opening procedures shall be as specified in the **Data Sheet** (DS no. 23).

The Proposers' names, modifications, withdrawals, the condition of the envelope labels/seals, the number of folders/files and all other such other details as UNDP may consider appropriate, will be announced at the opening. No Proposal shall be rejected at the opening stage, except for late submission, for which the Proposal shall be returned unopened to the Proposer.

27. Confidentiality

Information relating to the examination, evaluation, and comparison of Proposals, and the recommendation of contract award, shall not be disclosed to Proposers or any other persons not officially concerned with such process, even after publication of the contract award.

Any effort by a Proposer to influence UNDP in the examination, evaluation and comparison of the Proposals or contract award decisions may, at UNDP's decision, result in the rejection of its Proposal.

In the event that a Proposer is unsuccessful, the Proposer may seek a meeting with UNDP for a debriefing. The purpose of the debriefing is discussing the strengths and weaknesses of the Proposer's submission, in order to assist the Proposer in improving the proposals presented to UNDP. The content of other proposals and how they compare to the Proposer's submission shall not be discussed.

E. EVALUATION OF PROPOSALS

28. Preliminary Examination of Proposals

UNDP shall examine the Proposals to determine whether they are complete with respect to minimum documentary requirements, whether the documents have been properly signed, whether or not the Proposer is in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's list of suspended and removed vendors, and whether the Proposals are generally in order, among other indicators that may be used at this stage. UNDP may reject any Proposal at this stage.

29. Evaluation of Proposals

29.1 UNDP shall examine the Proposal to confirm that all terms and conditions under the UNDP General Terms and Conditions and Special Conditions have been accepted by the Proposer without any deviation or reservation.

29.2 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other documentation provided, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet** (DS no. 32). Each responsive Proposal will be given a technical score. A Proposal shall be rendered non-responsive at this stage if it does not substantially respond to the RFP particularly the demands of the Terms of Reference, which also means that it fails to achieve the minimum technical score indicated in the **Data Sheet** (DS no. 25). Absolutely no changes may be made by UNDP in the criteria, sub-criteria and point system indicated in the **Data Sheet** (DS no. 32) after all Proposals have been received.

29.3 In the second stage, only the Financial Proposals of those Proposers who achieve the minimum technical score will be opened for evaluation for comparison and review. The Financial Proposal Envelopes corresponding to Proposals that did not meet the minimum passing technical score shall be returned to the Proposer unopened. The overall evaluation score will be based either on a combination of the technical score and the financial offer, or the lowest evaluated financial proposal of the technically qualified Proposers. The evaluation method that applies for this RFP shall be as indicated in the **Data Sheet** (DS No. 25).

When the Data Sheet specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:

--

<p><u>Rating the Technical Proposal (TP):</u></p> <p>TP Rating = (Total Score Obtained by the Offer / Max. Obtainable Score for TP) x 100</p> <p><u>Rating the Financial Proposal (FP):</u></p> <p>FP Rating = (Lowest Priced Offer / Price of the Offer Being Reviewed) x 100</p> <p><u>Total Combined Score:</u></p> $\frac{(TP \text{ Rating}) \times (\text{Weight of TP, e.g. 70\%}) + (FP \text{ Rating}) \times (\text{Weight of FP, e.g., 30\%})}{\text{Total Combined and Final Rating of the Proposal}}$
--

29.4 UNDP reserves the right to undertake a post-qualification exercise aimed at determining, to its satisfaction the validity of the information provided by the Proposer. Such post-qualification shall be fully documented and, among those that may be listed in the **Data Sheet** (DS No.33), may include, but need not be limited to, all or any combination of the following :

- a) Verification of accuracy, correctness and authenticity of information provided by the Proposer on the legal, technical and financial documents submitted;
- b) Validation of extent of compliance to the RFP requirements and evaluation criteria based on what has so far been found by the evaluation team;
- c) Inquiry and reference checking with Government entities with jurisdiction on the Proposer, or any other entity that may have done business with the Proposer;
- d) Inquiry and reference checking with other previous clients on the quality of performance on ongoing or previous contracts completed;
- e) Physical inspection of the Proposer's offices, branches or other places where business transpires, with or without notice to the Proposer;
- f) Quality assessment of ongoing and completed outputs, works and activities similar to the requirements of UNDP, where available; and
- g) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.

30. Clarification of Proposals

To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Proposer for a clarification of its Proposal.

UNDP's request for clarification and the response shall be in writing. Notwithstanding the written communication, no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP Clause 32.

Any unsolicited clarification submitted by a Proposer in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.

31. Responsiveness of Proposal

UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself.

A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.

If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Proposer by correction of the material deviation, reservation, or omission.

32. Nonconformities, Reparable Errors and Omissions

Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.

Provided that a Proposal is substantially responsive, UNDP may request the Proposer to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Proposer to comply with the request may result in the rejection of its Proposal.

Provided that the Proposal is substantially responsive, UNDP shall correct arithmetical errors as follows:

- a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price, in which case the line item total as quoted shall govern and the unit price shall be corrected;*
- b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and*
- c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to the above.*

If the Proposer does not accept the correction of errors made by UNDP, its Proposal shall be rejected.

F. AWARD OF CONTRACT

33. Right to Accept, Reject, or Render Non-Responsive Any or All Proposals

UNDP reserves the right to accept or reject any Proposal, to render any or all of the Proposals as non-responsive, and to reject all Proposals at any time prior to award of contract, without incurring any liability, or obligation to inform the affected Proposer(s) of the grounds for UNDP's action. Furthermore, UNDP shall not be obliged to award the contract to the lowest price offer.

UNDP shall also verify, and immediately reject their respective Proposal, if the Proposers are found to appear in the UN's Consolidated List of Individuals and Entities with Association to Terrorist Organizations, in the List of Vendors Suspended or Removed from the UN Secretariat Procurement Division Vendor Roster, the UN Ineligibility List, and other such lists that as may be established or recognized by UNDP policy on Vendor Sanctions. (See <http://www.undp.org/content/undp/en/home/operations/procurement/protestandsanctions/> for details)

34. Award Criteria

Prior to expiration of the period of proposal validity, UNDP shall award the contract to the qualified Proposer with the highest total score based on the evaluation method indicated in the **Data Sheet** (DS nos. 25 and 32).

35. Right to Vary Requirements at the Time of Award

At the time of award of Contract, UNDP reserves the right to vary the quantity of services and/or goods, by up to a maximum twenty five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.

36. Contract Signature

Within fifteen (15) days from the date of receipt of the Contract, the successful Proposer shall sign and date the Contract and return it to UNDP.

Failure of the successful Proposer to comply with the requirement of RFP Clause 35 and this provision shall constitute sufficient grounds for the annulment of the award, and forfeiture of the Proposal Security if any, and on which event, UNDP may award the Contract to the Proposer with the second highest rated Proposal, or call for new Proposals.

37. Performance Security

A performance security, if required, shall be provided in the amount and form provided in Section 9 and by the deadline indicated in the **Data Sheet** (DS no. 14), as applicable. Where a Performance Security will be required, the submission of the said document, and the confirmation of its acceptance by UNDP, shall be a condition for the effectivity of the Contract that will be signed by and between the successful Proposer and UNDP.

38. Bank Guarantee for Advanced Payment

Except when the interests of UNDP so require, it is the UNDP's preference to make no advanced payment(s) on contracts (i.e., payments without having received any outputs). In the event that

the Proposer requires an advanced payment upon contract signature, and if such request is duly accepted by UNDP, and the said advanced payment exceeds 20% of the total proposal price, or exceed the amount of USD 30,000, UNDP shall require the Proposer to submit a Bank Guarantee in the same amount as the advanced payment. A bank guarantee for advanced payment shall be furnished in the form provided in Section 10.

39. Vendor Protest

UNDP's vendor protest procedure provides an opportunity for appeal to those persons or firms not awarded a purchase order or contract through a competitive procurement process. In the event that a Proposer believes that it was not treated fairly, the following link provides further details regarding UNDP vendor protest procedures:

Section 3: Terms of Reference (TOR)⁵

A. *Financing for SDGs Implementation in ASEAN*

B. *Project Description*

Countries across the Asia-Pacific region have set high ambitions for progress across a wide-ranging, interconnected sustainable development agenda. Progress toward the MDGs was mixed, with major successes in areas such as poverty reduction but unfinished business in others. The Sustainable Development Goals (SDGs) raise ambitions higher, calling for further progress across a wider range of issues. Critically there is greater recognition of the integrated, interconnected nature of these challenges and the opportunities and trade-offs that this agenda presents.

The *3rd International Conference on Financing for Development* (FfD) in July 2015, a gathering of high-level political representatives, including Heads of State and Government, and Ministers of Finance, Foreign Affairs and Development Cooperation, resulted in the [Addis Ababa Action Agenda](#) (AAAA). This document provides a new global **framework for financing sustainable development that aligns all financing flows and policies with economic, social and environmental priorities** and sets out a comprehensive set of policy actions by Member States to support mobilization of the means for a global transformation adopted as the 2030 Agenda for Sustainable Development. The AAAA assumes that countries will use their own national development strategies to respond to the SDGs, and **calls on Governments to establish Integrated National Financing Frameworks (INFFs)**.

Mobilizing and effectively managing finance for the SDGs presents significant challenges for governments, in particular for their fiscal planning and budgeting capacity. Many developing countries are asking for support from UNDP to help them manage development finance at national level, as they contend with an increasingly complex finance landscape, as domestic public and private resources increase, and as the sources of external resources diversify. UNDP's Bangkok Regional Hub is the Secretariat of the [Asia Pacific Development Effectiveness Facility \(AP-DEF\)](#), a country-led platform chaired by the Government of Bangladesh, which facilitates regional dialogue, cooperation, and sharing of country knowledge and experiences on development finance and cooperation.

Under the umbrella of AP-DEF, in 2016 UNDP published a regional report, [Achieving the SDGs in the Era of the Addis Ababa Action Agenda: Progress on Establishing Integrated National Financing Frameworks in the Asia Pacific Region](#). The report presented data on the changing landscape of development finance in the region. It also explored in detail for the first time the concept of an Integrated National Financing Framework (INFF), identifying six Building Blocks of an INFF, and discussing steps being taken by countries in the region to establish INFFs to support more coherent management of diverse forms of development finance to achieve their national development priorities and the SDGs (See Box 1). The report drew on the [Development Finance Assessments](#) (DFA), a methodology which provides a country-level assessment of development finance sources and makes recommendations for reforms to

⁵ This document serves as a guide to Requestor on how to write the TOR for the RFP, by suggesting contents. This document is not to be shared with Proposers in this current state and form. The TOR actually written by the Requestor shall be the TOR that will be attached to this part of the RFP.

strengthen an INFF.

With reference to the above regional context, and building on the existing body of work, **in 2017 UNDP will support a program of work to continue to respond to demand** for country-level and regional evidence and analysis on Integrated National Financing Frameworks and approaches to harnessing and managing finance for the SDGs. **As part of this program of work, this assignment will focus on supporting Financing for SDGs Implementation in ASEAN.**

Box 1 – Integrated National Financing Frameworks (INFFs)

To move ahead on the 2030 Agenda, countries will need to consider their current and future financing frameworks for delivering the SDGs. This Agenda requires both significant increases in resources as well as changes in the way existing resources are used and prioritized, calling for more effective and integrated approaches to managing public and private finance to achieve sustainable development. INFFs can help governments develop a holistic vision of fiscal planning and management that transcends traditional public financial management and identify incentives to align resources of a private nature. As such, INFFs provide government with a comprehensive overview of the various entry points and options available as well as an understanding of how to use them strategically.

As many countries are establishing INFFs, it is clear that doing so is an ambitious long-term endeavour, but findings also demonstrate that a number of on-going policy and institutional reforms in the area of public finance and results-based management provide countries with a good starting basis to build upon. An INFF is seen to have the following building blocks:

- **Institutional coherence** for establishing and managing an INFF; aspects will include leadership and political buy-in at highest level of government, as well as institutional arrangements and coordination at various political, technical, and working levels
- A **national development vision/plan with a well-articulated set of priorities and results** related to the SDG agenda, including costed targets and indicators; the costed targets and indicators set out in the long and medium term, and annually
- An **overall financing strategy** that links national development results with sources of finance, with attention to long term, medium term, and annual results
- **Financing policies for specific finance flows:** domestic public, international public, domestic private, international private
- A **system for monitoring and evaluation** of the effective use of finance for results, in various time frames
- An **enabling environment for accountability and dialogue** for the use of finance for results

C. Scope of Services, Expected Outputs and Target Completion

The scope of this assignment will focus on the **ASEAN-China-UNDP 2017 partnership on Financing for SDGs Implementation in ASEAN:**

UNDP and ASEAN have a long history of collaboration, and in 2016 partnered with China on a Symposium event to consider key challenges in the ASEAN region to address the twin principles of ‘Leaving No One Behind’ as articulated in the 2030 Agenda, and ‘People-Centered’ development as emphasized in the ASEAN Vision 2025 (See Box 2).

Building on the success of this initiative, the theme of the ASEAN-China-UNDP partnership and Symposium in 2017 will be *Financing for SDGs Implementation in ASEAN*. The objective is to support ASEAN countries to exchange experiences and learn from each other how to attract, leverage, and effectively manage different sources of finance for sustainable development. To inform the dialogue and achieve these objectives, UNDP will support ASEAN countries to gather data on their country-specific finance landscape and provide analysis of the enabling environment for aligning finance with sustainable development, using the concept of the INFF. **The research agenda for the Symposium will take the approach of country-by-country review and analysis, which recognizes the importance of country context, therein providing a solid evidence base to consider regional dimensions of the development finance landscape among ASEAN countries.**

This initiative will be strongly anchored in the ASEAN Community Vision 2025 and its three Blueprints, and complementarities with Agenda 2030. There will be a focus on framing the research within the ASEAN Vision 2025 priority of narrowing the development gap between ASEAN countries. It will also consider China's experience of poverty reduction as the world's largest developing country, and will support China's efforts to deepen its relationship with ASEAN.

Box 2 - ASEAN-China-UNDP Partnership

On 19th September 2016 the ASEAN-China-UNDP Partnership concluded a successful Symposium that brought together key government officials, leading think tanks, development practitioners and partners to share ideas and knowledge on **how to move forward effectively in the ASEAN region to address the twin principles and challenges of 'Leaving No One Behind' as articulated in the 2030 Agenda and 'People-Centered' development emphasized in the ASEAN Vision 2025.**

These principals are considered **key challenges for the ASEAN region as outlined in the "Final Assessment of MDGs in ASEAN" jointly produced by the ASEAN Secretariat and UNDP.** This report stressed the critical importance of addressing inequalities and urged countries to focus on the most vulnerable and remote populations who have not been properly reached by development efforts. **At the Symposium participants discussed how to tackle these challenges.** First, the drivers of inequality must be identified and addressed, in particular for those who lack access to basic services. Second, as was learned from the MDGs, investment is needed to overcome key bottlenecks. Key accelerators with benefits across the SDGs include investment in health, education and women's empowerment – especially for those left behind.

Underlining this all is the issue of financing. No single-source of finance is sufficient for achieving the SDGs which UNCTAD estimates at close to \$3 trillion annually. It will require combined efforts of foreign direct investment, domestic taxation, and creative blended private and public resources to finance the ambitions of the 2030 Agenda and Vision 2025.

Development Assistance totaled just \$10 billion in ASEAN countries in 2013, while other international in-flows have grown significantly with more than \$ 130 billion in Foreign Direct Investment made in ASEAN countries in 2014. Remittances too have grown as an inflow to the region up to \$47 billion by 2012. **An innovative approach is needed that will blend the different financial sources into effective financing for sustainable development. It is these issues that will be focus of the ASEAN-China-UNDP Partnership in the coming years, with the 2017 program of work and Symposium dedicated to the issue of Financing the SDGs in ASEAN countries.**

Source: Concept Note: ASEAN-China-UNDP Partnership 2017-2018

UNDP has an existing strong engagement to support ASEAN countries on Financing for Development and recognizes the importance of anchoring analysis of the finance landscape to a given country context. It

has developed the [Development Finance Assessment](#) (DFA), a tool to respond to the growing demand from countries in the region to establish evidence and analysis, and to introduce policy and institutional reforms for managing the increasing complexity of domestic and international sources of finance for development. In the Asia-Pacific region, UNDP has supported eleven countries to undertake a DFA. This includes five ASEAN countries: [Vietnam](#), [Lao PDR](#), [the Philippines](#), Cambodia [completed, publication forthcoming], and Myanmar [unpublished interim report].

The service provider will be expected to produce **the following package of deliverables** for the ASEAN-China-UNDP Symposium:

1a. Country Specific Analysis (Country Papers) Using UNDP's Development Finance Assessment (DFA) Methodology

For each of the ten countries of ASEAN a research paper on the development financing landscape will be prepared for the Symposium. The format of the paper will be based on UNDP's DFA Methodology⁶, with a view to having country papers of consistent format, length, and style, for comparability. Each country paper will be approximately 20 pages in length (excluding annexes), and should include the following:

- Introduction: overview of socio-economic context
- Financing Landscape: quantitative data on finance flows, covering public and private, domestic and international, and trends in these flows over the past 10 years
- Enabling Environment for Linking Finance with the SDGs: summarize the degree to which the Government has a framework in place for managing (all flows of) finance for development results. The lens of analysis should be the six building blocks of the INFF; the section should describe the baseline of progress for each building block as well as any gaps
- Conclusion: summary of key findings, areas for further work and analysis, good practices to share with other countries.

The country studies should draw on existing and/or preliminary work, including existing DFA reports. For those five countries which have completed a DFA, the country study should include an update on how the recommendations have been taken forward. **The final content and format of the country studies will take into account country context, and will be decided during the inception phase of the assignment, in consultation with counterparts in each country.**

1b. Regional Analytical Paper (Symposium Background Document), Synthesizing Country Papers

Based on these country studies, the service provider will also produce a regional analytical paper, a background paper for the Symposium, to inform dialogue at the Symposium. This paper should reflect the regional nature of finance flows both into ASEAN and across ASEAN countries. It should include an aggregate of the quantitative findings on the finance landscape- all types of finance- both of individual flows and by type of finance. Similarly, it should provide an overview of trends and approaches taken by countries to bring more coherence to the management of finance for the SDGs, using the framework of

⁶ The DFA Methodology is structured around two main components: (1) establishing the baseline of an INFF in the country by analyzing the extent to which each of the six building blocks are in place; and (2) making recommendations for reforms to improve the management of development finance and its alignment to development results by strengthening the INFF. In completing the first part (INFF baseline) the DFA includes both a quantitative mapping of development finance flows – public, private; domestic, external- as well as an analysis of the enabling environment – including policies, institutional arrangements- for managing development finance.

the INFF. The analysis and presentation of the regional paper should be strongly linked to findings and recommendations for advancing ASEAN Vision 2025, and recommendations for localizing the ASCC Blueprint and Agenda 2030.

In addition to drawing together and analyzing the findings and conclusions of the country studies, the regional paper should look in depth at specific financing issues or financing flows around which there should be regional cooperation within ASEAN, and between ASEAN and China, to maximize the impact of these finance flows for sustainable development impact. The proposed content of the regional paper is as follows (to be decided during course of the project, possibly after initial findings of the country studies are available):

- Analysis of key financing trends, based on findings of country papers (10 ASEAN countries)
- Analysis of intra-regional financing issues
- Recommendations for localizing ASEAN Vision 2025/ASCC Blueprint 2025 and Agenda 2030
- Conclusions and recommendations for follow up to the Symposium

1c. ASEAN Data Hub and Knowledge Platform on Financing the SDGs

Under the umbrella of AP-DEF, UNDP is planning to establish a regional data hub to support countries as they strengthen policies and institutional structures for more effective management of financing for development. This online platform will present information about financing trends, policies and institutional reforms, and is envisioned as a regionally-focused interactive online platform for convening and facilitating knowledge exchange on leveraging finance for the SDGs.

The data hub will support knowledge exchange between countries (Governments, but also their national and international partners in development) about approaches to responding to the increasingly complex financing landscape and how Integrated National Financing Frameworks (INFFs) are being used to mobilize and channel all types of financing toward sustainable development results. The data hub will also be highly relevant for regional and global processes, particularly related to Financing for Development.

To fulfil these objectives, the data hub is envisioned to offer data and analysis across three areas, focusing initially on ASEAN countries:

- Data on the financing landscape
- Data on policy and institutional reforms, in relation to the building blocks of an INFF (an index)
- Qualitative information on policy and institutional reforms related to INFFs

Content across the three areas will include factual information as well as analysis. See Box 3 for a description of the three areas.

Box 3 – Proposed Content of Data Hub and Knowledge Sharing Platform on Financing the SDGs

Financing landscape: The hub will present a comprehensive overview of trends in financing across and within the ASEAN region. It will present data on domestic and international, public and private sources of finance, alongside progress toward SDG results. It will build on the data developed AP-DEF regional reports, as well as findings from ASEAN DFA country studies. Data will be presented in a visually engaging manner, with clear graphs, infographics and other visualizations that highlight key evidence about trends and issues in the financing landscape within and between ASEAN countries.

Index: Building on the 2016 AP-DEF regional report, *Achieving the SDGs in the Era of the Addis Ababa Action Agenda*, the data hub will present data on the proposed index of progress in establishing INFFs. This index will draw from a number of existing sources of information on institutional setups and policies related to the financing frameworks in place at the country level. The aim is to highlight ongoing reforms and stimulate knowledge sharing, so it will be framed in this way rather than as an external accountability exercise to see whether countries are making progress in establishing INFFs.

Qualitative policy information: Alongside the index, the data hub will present qualitative information about policies and institutional reforms that helps build up a fuller picture of the context and progress in establishing integrated national financing frameworks. The index can give insight into the basic setup of many of the building blocks of an integrated national financing framework, but cannot easily provide answers to questions such as the effectiveness of the institutional mechanisms or policies that exist.

With reference to the above, the service provider is expected to develop a model and concept for the data hub which can be presented at the Symposium, with a view to demonstrating the value and usefulness of such a data hub to ASEAN country Governments, ASEAN Secretariat, and relevant stakeholders. The data hub model should utilize the findings from the Symposium research agenda (country studies and regional report), and the service provider should also take the opportunity of the consultation and research phase of the country studies to seek inputs from potential user groups on how the data hub can be developed to meet their needs.

- The data hub model will involve demonstrating an offline prototype including:
 - collecting, standardizing and organizing the data on finance in ASEAN countries that is to be presented in the data hub;
 - developing the index for the INFF, drawing on existing indices used by Governments (e.g. SDG indicators, PEFA indicators, GPEDC indicators, etc), and designing its presentation and accessibility as part of the data hub
 - collecting, analyzing and presenting the qualitative policy information on INFFs in ASEAN countries
 - presenting content (quantitative data and qualitative analysis and information) in ways that are accessible to the audience and which communicate key messages. This includes proposing (and producing) the choice of graphs, visualizations and statistics presented, as well as thinking through the way the data hub is organized so that the content is clear

The ASEAN-China-UNDP Symposium will be an opportunity to present the data hub concept and refine the concept to meet the needs of the target user groups.

Target Completion of Deliverables: Please see summary in table below:

Deliverables	Target Completion Date
Detailed work plan including: a) annotated outline of ASEAN country studies including proposed data sources, case studies b) annotated outline of regional ASEAN study, including proposed focus issues	Within 10 days of signing of contract
Submission of: a) first drafts of country studies and regional analytical paper	Week 8
Submission of: a) final drafts of country studies and regional analytical paper, for internal/external peer review b) annotated outline of data hub structure, proposed data presentation and infographics	Week 13
Submission of: a) final papers (country and regional) for Symposium b) final presentation of data hub model	Week 18
Completion of: a) Presentation of research findings and demonstration of data hub model at Symposium event	Week 21

E. Institutional Arrangement

The service provider will report to the UNDP Advisor on Governance and Development Effectiveness, based in the Bangkok Regional Hub. Responsibilities include the following:

- The service provider manages and ensures the quality of deliverables prepared by a number of different analysts/researchers into coherent final products, including proof-reading, thorough copy-editing, and submission of graphics, according to commonly applied international standards;
- The service provider maintains regular communication with UNDP for guidance and updates to ensure deliverables are on track.

The service provider will share with UNDP full data sets used for informing the analysis for all interim and final deliverables described in the scope of work for this assignment. The data provided will be owned by UNDP and is not to be used by the contractor for any other purpose.

F. Duration of the Work

The expected duration of this project is 21 weeks. The project is expected to commence on 3rd April with a completion date of 22nd August 2017. Given that the research agenda is being developed as an input for the ASEAN Symposium which will take place on 21-22 August 2017, there is very limited scope for adjustment of the timelines or submission of interim deliverables, and no scope for delaying the final deliverables unless the date of the Symposium event is postponed.

G. Location of Work

Travel to six countries is required as part of the contract, to conduct research and hold consultations as an input to the country studies. The countries for field missions are Philippines, Lao PDR, Indonesia, Thailand, Myanmar, and Vietnam. Three working days for each country is the suggested duration. In

addition, travel to the ASEAN Symposium in Chiang Rai, Thailand in August, to present the research findings, is expected (2 working days).

I. Scope of Proposal Price and Schedule of Payments

The contract payments will be made based on fixed output-based payment milestones, upon satisfactory submission and certification of acceptance by UNDP. Two weeks review time required by UNDP to certify acceptance.

In computing the contract price, the service provider must include all fees and costs (professional fees, travel and living allowance, taxes, and any other fees or costs).

The outputs/deliverables for each payment milestone are specified in the table below.

Deliverables	Deadlines	Payment schedule
Detailed work plan including: c) annotated outline of ASEAN country studies including proposed data sources, case studies d) annotated outline of regional ASEAN study, including proposed focus issues	Within 10 days of signing of contract	10%
Submission of: b) first drafts of country studies and regional analytical paper	Week 8	25%
Submission of: c) final drafts of country studies and regional analytical paper, for internal/external peer review d) annotated outline of data hub structure, proposed data presentation and infographics	Week 13	25%
Submission of: c) final papers (country and regional) for Symposium d) final presentation of data hub model	Week 18	20%
Completion of: b) Presentation of research findings and demonstration of data hub model at Symposium event	Week 21	20%

J. Criteria for Selecting the Best Offer

Combined Scoring method – where the qualifications and methodology will be weighted a maximum of 70%, and combined with the price offer which will be weighted a maximum of 30%; Only bids being technically qualified, will be considered for financial evaluation.

L. Annexes to the TOR

Bidders are encouraged to review the materials and information on the following website:

<http://www.asia-pacific.undp.org/content/rbap/en/home/ourwork/democratic-governance-and-peacebuilding/ap-def.html>, in particular the AP-DEF 2016 report, examples of DFA country reports, and the DFA methodology/approach as outlined in the resource “DFA as a tool for linking finance with results”.
