

Ministry of  
Environment,  
Climate Change,  
Disaster  
Management  
and Meteorology  
(MECDM)

The United Nations Development Programme (UNDP) is the UN's global development network, advocating for change and connecting countries to knowledge, experience and resources to help people build a better life. We are on the ground in 166 countries working with them on their own solutions to global and national development challenges. As they develop local capacity, they draw on the people of UNDP and our wide range of partners.

UNDP strives to support the Pacific by coordinating UN activities at country level and through direct policy advice in four key areas: Poverty Reduction and attainment of the MDGs, Strengthening Institutions of Democratic Governance, Crisis Prevention and Recovery and Sustainable Environmental Management. UNDP provides services to the Pacific through the Multi-Country Office in Fiji, Joint UN Presences in Federated States of Micronesia, Kiribati, Nauru, Marshall Islands, Palau, Tuvalu and Vanuatu, as well as projects in each of the 10 countries.

Empowered lives.  
Resilient nations.
