Answers:

عرض الشبكة الداخلية " البطانة هو 200 سم وقطر الفتحة هو 24 سم وليس سم2 وطول الخيط بالعينية من العقدة للعقدة 12 سم فا اذا كان عرض الشبكة 180 حتى 200 سم يكون عدد العينان 8-9 سم

The width of the inner net is 200 cm, and the opening diameter is 24 cm not cm², the thread long of the opening from knot to knot is 12 cm, therefore if the net width 180 to 200 cm; the openings will be 8 – 9.

All other terms and conditions remain unchanged.
