for**

Study on opportunities of installing modern energy powered technologies in the selected agriculture value chains and their financing opportunities

Following written inquiries received by deadline and the following table show the query raised and response provided:

Query 1:	<i>I would like to seek a clarification related to the workshop proposed to be organised with FIs and Value Chain stakeholders as part of the review of the study findings/outcomes. It is not clear adequately from the ToR who is supposed to organise this workshop – whether the selected service provider should organise or UNNATI A2F project team will organise this workshop?</i>
Response 1:	UNNATI A2F team will organize the workshop and cost related to the workshop will also be covered by UNNATI A2F. The workshop will be organized in Biratnagar. The national experts are expected to facilitate the workshop and collect the feedback on the draft report.
