14. Proposal Submission Form

The Proposer shall submit the Proposal Submission Form using the form provided in Section 4 of this RFP.

Any deliberate substitution arising from unavoidable reasons, including delay in the implementation of the project of programme through no fault of the Proposer shall be made only with UNDP's acceptance of the justification for substitution, and UNDP's approval of the qualification of the replacement who shall be either of equal or superior credentials as the one being replaced.

17. Currencies

All prices shall be quoted in the currency indicated in the **Bid Event**. However, where Proposals are quoted in different currencies, for the purposes of comparison of all Proposals:

- a) UNDP will convert the currency quoted in the Proposal into the UNDP preferred currency, in accordance with the prevailing UN operational rate of exchange on the last day of submission of Proposals; and
- b) In the event that the proposal found to be the most responsive to the RFP requirement is quoted in another currency different from the preferred currency as per **Bid Event**, then UNDP shall reserve the right to award the contract in the currency of UNDP's preference, using the conversion method specified above.

18. Documents Establishing the Eligibility and Qualifications of the Proposer

The Proposer shall furnish documentary evidence of its status as an eligible and qualified vendor, using the forms provided under Section 5, Proposer Information Forms. In order to award a contract to a Proposer, its qualifications must be documented to UNDP's satisfaction. These include, but are not limited to, the following:

- f) an expert proposed to be in the team of one Proposer participates in more than one Proposal received for this RFP process. This condition does not apply to subcontractors being included in more than one Proposal.

All entities that comprise the joint venture shall be subject to the eligibility and qualification assessment by UNDP.

Where a joint venture is presenting its track record and experience in a similar undertaking as those required in the RFP, it should present such information in the following manner:

- a) Those that were undertaken together by the joint venture; and
- b) Those that were undertaken by the individual entities of the joint venture expected to be involved in the performance of the services defined in the RFP.

Previous contracts completed by individual experts working privately but who are permanently or were temporarily associated with any of the member firms cannot be claimed as the experience of the joint venture or those of its members, but should only be claimed by the individual experts themselves in their presentation of their individual credentials.

If a joint venture's Proposal is determined by UNDP as the most responsive Proposal that offers the best value for money, UNDP shall award the contract to the joint venture, in the name of its designated lead entity. The lead entity shall sign the contract for and on behalf of all other member entities.

20. Alternative Proposals

Unless otherwise specified in the **Data Sheet** (DS nos. 5 and 6), alternative proposals shall not be considered. Where the conditions for its acceptance are met, or justifications are clearly established, UNDP reserves the right to award a contract based on an alternative proposal.

Proposals shall remain valid for the period specified in the **Data Sheet** (DS no. 8), commencing on the submission deadline date also indicated in the **Data Sheet** (DS no. 21). A Proposal valid for a shorter period shall be immediately rejected by UNDP and rendered non-responsive.

In exceptional circumstances, prior to the expiration of the proposal validity period, UNDP may request Proposers to extend the period of validity of their Proposals. The request and the responses shall be made in writing, and shall be considered integral to the Proposal.

22. Proposer's Conference

When appropriate, a proposer's conference will be conducted at the date, time and location specified in the **Data Sheet** (DS no. 7). All Proposers are encouraged to attend. Non-attendance, however, shall not result in disqualification of an interested Proposer. Minutes of the proposer's conference will be uploaded on the system. No verbal statement made during the conference shall modify the terms and conditions of the RFP unless such statement is specifically written in the Minutes of the Conference, or issued/posted as an amendment in the form of a Supplemental Information to the RFP.

D. SUBMISSION AND OPENING OF PROPOSALS

23. Submission

23.1 The Financial Proposal and the Technical Proposal Envelopes MUST BE COMPLETELY SEPARATE and uploaded separately in the system and clearly named as either "TECHNICAL PROPOSAL" or "FINANCIAL PROPOSAL", as appropriate. Each document shall include the Proposer's name and address. The file with the "FINANCIAL PROPOSAL" must be encrypted with a password so that it cannot be opened nor viewed until the Proposal has been found to pass the technical evaluation stage. Once a Proposal has been found to be responsive by passing the technical evaluation stage, UNDP shall request the Proposer to submit the password to open the Financial Proposal. The Proposer shall assume the responsibility for not encrypting the financial proposal..

23.2 In the unlikely and exceptional event that the Proposers encounter technical problems when submitting the proposal in the system, then the Proposal can be sent via email as instruction in the Data Sheet (DsNo. XX). Proposers are however strongly advised to undertake all necessary efforts, including requesting support from UNDP, to submit the Proposal through the online system. In all cases, email submission must be authorized and accepted by UNDP prior to the submission deadline indicated. *Proposals submitted via email which **does not have prior authorization** by UNDP will **not be accepted**.*

23.3 Proposers must be aware that the mere act of submission of a Proposal, in and of itself, implies that the Proposer accepts the General Contract Terms and Conditions of UNDP as attached hereto as Section 11.

24. Withdrawal, Substitution, and Modification of Proposals

25.1 Proposers are expected to have sole responsibility for taking steps to carefully examine in detail the full consistency of its Proposals to the requirements of the RFP, keeping in mind that material deficiencies in providing information requested by UNDP, or lack clarity in the description of

services to be provided, may result in the rejection of the Proposal. The Proposer shall assume the responsibility regarding erroneous interpretations or conclusions made by the Proposer in the course of understanding the RFP out of the set of information furnished by UNDP.

- 25.2 A Proposer may withdraw, substitute or modify its Proposal after it has been submitted by cancelling or editing their bid in the system.

25. Confidentiality

Information relating to the examination, evaluation, and comparison of Proposals, and the recommendation of contract award, shall not be disclosed to Proposers or any other persons not officially concerned with such process, even after publication of the contract award.

Any effort by a Proposer to influence UNDP in the examination, evaluation and comparison of the Proposals or contract award decisions may, at UNDP's decision, result in the rejection of its Proposal.

In the event that a Proposer is unsuccessful, the Proposer may seek a meeting with UNDP for a debriefing. The purpose of the debriefing is discussing the strengths and weaknesses of the Proposer's submission, in order to assist the Proposer in improving the proposals presented to UNDP. The content of other proposals and how they compare to the Proposer's submission shall not be discussed.

E. EVALUATION OF PROPOSALS

26. Preliminary Examination of Proposals

UNDP shall examine the Proposals to determine whether they are complete with respect to minimum documentary requirements, whether the documents have been properly signed, whether or not the Proposer is in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's list of suspended and removed vendors, and whether the Proposals are generally in order, among other indicators that may be used at this stage. UNDP may reject any Proposal at this stage.

27. Evaluation of Proposals

29.1 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other documentation provided, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet** (DS no. 32). Each responsive Proposal will be given a technical score. A Proposal shall be rendered non-responsive at this stage if it does not substantially respond to the RFP particularly the demands of the Terms of Reference, which also means that it fails to achieve the minimum technical score indicated in the **Data Sheet** (DS no. 25). Absolutely no changes may be made by UNDP in the criteria, sub-criteria and point system indicated in the **Data Sheet** (DS no. 32) after all Proposals have been received.

29.2 In the second stage, only the Financial Proposals of those Proposers who achieve the minimum technical score will be opened for evaluation for comparison and review. The overall evaluation score will be based either on a combination of the technical score and the financial offer, or the lowest evaluated financial proposal of the technically qualified Proposers. The evaluation method that applies for this RFP shall be as indicated in the **Data Sheet** (DS No. 25).

When the Data Sheet specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:

Rating the Technical Proposal (TP):

$$\text{TP Rating} = (\text{Total Score Obtained by the Offer} / \text{Max. Obtainable Score for TP}) \times 100$$

Rating the Financial Proposal (FP):

$$\text{FP Rating} = (\text{Lowest Priced Offer} / \text{Price of the Offer Being Reviewed}) \times 100$$

Total Combined Score:

$$\frac{(\text{TP Rating}) \times (\text{Weight of TP, e.g. 70\%}) + (\text{FP Rating}) \times (\text{Weight of FP, e.g., 30\%})}{\text{Total Combined and Final Rating of the Proposal}}$$

29.3 UNDP reserves the right to undertake a post-qualification exercise aimed at determining, to its satisfaction the validity of the information provided by the Proposer. Such post-qualification shall be fully documented and, among those that may be listed in the **Data Sheet** (DS No.33), may include, but need not be limited to, all or any combination of the following :

- a) Verification of accuracy, correctness and authenticity of information provided by the Proposer on the legal, technical and financial documents submitted;
- b) Validation of extent of compliance to the RFP requirements and evaluation criteria based on what has so far been found by the evaluation team;
- c) Inquiry and reference checking with Government entities with jurisdiction on the Proposer, or any other entity that may have done business with the Proposer;
- d) Inquiry and reference checking with other previous clients on the quality of performance on ongoing or previous contracts completed;
- e) Physical inspection of the Proposer's offices, branches or other places where business transpires, with or without notice to the Proposer;
- f) Quality assessment of ongoing and completed outputs, works and activities similar to the requirements of UNDP, where available; and
- g) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.

28. Clarification of Proposals

To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Proposer for a clarification of its Proposal.

UNDP's request for clarification and the response shall be in writing. Notwithstanding the written communication, no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP Clause 32.

Any unsolicited clarification submitted by a Proposer in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.

29. Responsiveness of Proposal

UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself.

A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.

If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Proposer by correction of the material deviation, reservation, or omission.

30. Nonconformities, Reparable Errors and Omissions

Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.

Provided that a Proposal is substantially responsive, UNDP may request the Proposer to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Proposer to comply with the request may result in the rejection of its Proposal.

Provided that the Proposal is substantially responsive, UNDP shall correct arithmetical errors as follows:

- a)* if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price, in which case the line item total as quoted shall govern and the unit price shall be corrected;
- b)* if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- c)* if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to the above.

If the Proposer does not accept the correction of errors made by UNDP, its Proposal shall be rejected.

F. AWARD OF CONTRACT

31. Right to Accept, Reject, or Render Non-Responsive Any or All Proposals

UNDP reserves the right to accept or reject any Proposal, to render any or all of the Proposals as non-responsive, and to reject all Proposals at any time prior to award of contract, without incurring any liability, or obligation to inform the affected Proposer(s) of the grounds for UNDP's action. Furthermore, UNDP shall not be obliged to award the contract to the lowest price offer.

UNDP shall also verify, and immediately reject their respective Proposal, if the Proposers are found to appear in the UN's Consolidated List of Individuals and Entities with Association to Terrorist Organizations, in the List of Vendors Suspended or Removed from the UN Secretariat Procurement Division Vendor Roster, the UN Ineligibility List, and other such lists that as may be established or recognized by UNDP policy on Vendor Sanctions. 33. Right to Vary Requirements at the Time of Award

At the time of award of Contract, UNDP reserves the right to vary the quantity of services and/or goods, by up to a maximum twenty five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.

34. Contract Signature

Within fifteen (15) days from the date of receipt of the Contract, the successful Proposer shall sign and date the Contract and return it to UNDP.

Failure of the successful Proposer to comply with the requirement of RFP Clause 35 and this provision shall constitute sufficient grounds for the annulment of the award, and forfeiture of the Proposal Security if

any, and on which event, UNDP may award the Contract to the Proposer with the second highest rated Proposal, or call for new Proposals.

35. Performance Security

A performance security, if required, shall be provided in the amount and form provided in Section 9 and by the deadline indicated in the **Data Sheet** (DS no. 14), as applicable. Where a Performance Security will be required, the submission of the said document, and the confirmation of its acceptance by UNDP, shall be a condition for the effectivity of the Contract that will be signed by and between the successful Proposer and UNDP.

36. Bank Guarantee for Advanced Payment

Except when the interests of UNDP so require, it is the UNDP's preference to make no advanced payment(s) on contracts (i.e., payments without having received any outputs). In the event that the Proposer requires an advanced payment upon contract signature, and if such request is duly accepted by UNDP, and the said advanced payment exceeds 20% of the total proposal price, or exceed the amount of USD 30,000, UNDP shall require the Proposer to submit a Bank Guarantee in the same amount as the advanced payment. A bank guarantee for advanced payment shall be furnished in the form provided in Section 10.

37. Vendor Protest

UNDP's vendor protest procedure provides an opportunity for appeal to those persons or firms not awarded a purchase order or contract through a competitive procurement process. In the event that a Proposer believes that it was not treated fairly, the following link provides further details regarding UNDP vendor protest procedures:

Advocacy & Media Campaign Development

Title of the Project: “Achieving Kuwait 2035 Vision Towards Persons with Disability Project”

This institutional development assignment is implemented within the framework of the Project: “Achieving Kuwait 2035 Vision Towards Persons with Disability Project”. The project is supported by the United Nations Development Programme (UNDP) Kuwait office and implemented by the Public Authority for Disabled Affairs of Kuwait.

Background of the project

The Public Authority for Disabled Affairs

The Public Authority for Disabled Affairs (PADA)⁶ of Kuwait is responsible for all matters related to care and rehabilitation of Persons with Disabilities. Its mandate includes, inter alia, setting the disability policy; setting regulations and procedures for care and rehabilitation of PWDs and developing and overseeing an integrated action plan responsible for all aspects of Persons with Disabilities’ welfare in coordination with relevant government entities. Furthermore, care and rehabilitation centers were recently, in 2016, transferred to the responsibility of PADA. PADA was established as per law no.8 for 2010⁷ as a governmental entity. The law is concerned with protecting the rights of Persons with Disabilities in Kuwait and covers their inclusion in society, rehabilitation, and employment in addition to care and other government services and entitlements. PADA developed a five-year strategy 2014 – 2019, which includes 15 themes and goals and provides a guiding framework for implementation, and has an annual development plan.

Project Description

The project “Achieving Kuwait 2035 Vision Towards Persons with Disability” supports PADA to enhance its human capacities and organizational effectiveness towards achieving its mandate. It supports its efforts at integration of PWDs in schools, employment, and social life in partnership with CSOs working for disabilities and supports it to ensure an inclusive physical environment for PWDs. The project will continue until December 2018. It seeks to achieve three outputs:

- Output 1.1: Enhanced human capacities and institutional effectiveness for prevention, early detection, diagnosis, and rehabilitation of disabilities.
- Output 1.2: Co-ordinated and well organized efficient efforts towards removal of barriers to social, economic and educational inclusion of persons with disability.
- Output 1.3: Increased technical expertise and organizational capacities for implementation of Universal Design and country wide use of technology enablers.

Inclusion

The term “Inclusion” means a shift in approach from “rescuing” Persons with Disabilities with charity work to making investments that would remove the environmental/physical, cultural, economic, communication, mobility and attitudinal barriers that prevent them from achieving their full potential as citizens with rights and responsibilities. According to a report by UNICEF, *“the underestimation of the abilities of people with disabilities is a major obstacle to their inclusion and to the provision of equal opportunities. Dismissive attitudes exist throughout society”* including among PWDs themselves who often, due to external confirmation, underestimate their own abilities. Misconceptions and ignorance about the nature and causes of impairments, serious underestimation of their potential and capacities, and other impediments to equal opportunity and treatment render PWDs marginalized and excluded. Furthermore, the stigma associated with having disabilities is another barrier that impacts acknowledgement of their existence and prevents their participation in mainstream society. This is generally more exacerbated for females with disabilities than males, who are at double disadvantage in many

⁶ <http://www.pada.gov.kw>

⁷ The law no.10 for 2010 on Disability available at <http://www.pada.gov.kw:8000/MainLaw.aspx>

societies. Inclusion of disability in the mainstream political and social discourse would sensitize decision makers, service providers, employers, and the public to understand disability as part of the human condition. Interaction of healthy individuals with persons with disabilities through social integration opportunities would minimize exclusion. Building consciousness that full health and full disability include a wide range between them, that disability could be permanent or temporary, and that the human condition is transient as any one person, or his/her child, is prone to disabilities at any time is key to shifting responses at all levels. This kind of messaging is required to achieve change in the realities of persons with disabilities. Shifting mentalities is a slow process that needs to take place within a parallel change in the legal and policy environment as well as the physical environment and all services. Only when all these barriers are removed or minimized, would persons with disabilities be able to acquire their rights and participate fully in society.

Scope of Work

The purpose of this assignment is to contribute to removing societal and attitudinal barriers to inclusion of PWDs by designing an advocacy and media campaign that would be implemented by PADA and its partners. The campaign is expected to influence attitudes of the whole society towards Persons with Disabilities from being viewed as passive recipients of care and protection to full members of the society. It is expected to influence views of decision-makers, politicians, professionals, families, peers and Persons with Disabilities (PWDs) themselves. In this assignment, the consultants would develop the strategy of the campaign and design its various products for dissemination and replication. The assignment would contribute to Output 1.2 of the project as above.

More specifically, the consultants undertaking this assignment would be responsible for the following tasks:

1. Develop an advocacy and media campaign strategy in consultation with PADA and other stakeholders as follows:

- a. Develop and submit an inception report for the assignment
- b. Conduct a stakeholder mapping to identify the various categories in society and the expected impact of targeting each.
- c. Define and describe the main strategy and the tactics and techniques for the campaign that are both suitable and effective from a social and cultural perspective. Include innovative and memorable campaigns involving Persons with Disabilities themselves
- d. Develop “scientifically” various options for the key messages and slogans of the campaign in a way that is sensitive to disability issues and that ensures a positive campaign outcome.
- e. Identify the various media outlets: written, audio and visual including social media for dissemination of the campaign products based on criteria such as those with the highest views and reach to people in Kuwait and are most influential to convey the messages. Include the role of media as well and when and how they are expected to cover campaign activities.
- f. Develop an implementation plan for the campaign including all the activities with a timeframe. The campaign should consider national and international “*key moments*” in the duration of the campaign and opportunities that would be beneficial for pushing forward its messages such as the International Day of Persons with Disabilities or other.
- g. Conduct consultation sessions with PADA, Civil Society Organizations, the Public Authority of Youth and Sports and other stakeholders to get their views throughout the preparation of the above. Include Persons with Disabilities in the consultations to the extent possible.
- h. Submit options, draft and final versions of the above for approval.

2. Develop a brand for the campaign and design the various advocacy and media products based on the campaign strategy

- a. Develop options for a logo and a design concept for the various campaign products. The products should accommodate, when possible, logos of PADA, UNDP and GSSCPD and any other governmental or civil society partners in the campaign.
- b. Develop conceptual options for and produce a TV spot and a radio commercial.

- c. Develop the design for billboards, mall booths, flyers, handouts, stickers, bus banners and/or other distributable items as well as digital products as per the strategy.
 - d. Develop options, draft and final designs of the above for approval.
 - e. Design and structure a webpage for the campaign to be linked to PADA website that demonstrates the brand.
 - f. Submit brand book to be a reference guide for all brand essence mentioned above, to ensure consistent communication and implementation of the brand.
 - g. Submit all finalized products in print or digital form or in both when applicable. The quality of submissions should be high resolution and allow for flexibility in reproductions and dissemination through different media to the extent possible.
3. Conduct training/workshop for the public relations staff to understand how to implement the media aspects of the plan, and to ensure consistent and effective communication: the training should include:
- i. Brand strategy overview
 - ii. Brand identity and image
 - iii. Brand guidelines and applications (with examples)
 - iv. Details of the campaign implementation plan.

Required Approaches

- **Gender approach:** the consultants should ensure gender analysis and gender sensitivity in all aspects of the assignment and be aware and address gender considerations in the messages and various products of the campaign. This includes analyzing the different experiences of both males and females with disabilities and in the targeted male and female populations.
- **Participation and ownership:** the consultants should ensure ownership of the campaign by PADA senior management, relevant staff, civil society organizations where applicable as well as Persons with Disabilities. The approach is therefore expected to be consultative and inclusive.
- **Innovation and cultural sensitivity** the consultants should select messages and utilize techniques that are innovative and culturally appropriate and effective. Sufficient understanding of the societal culture in Kuwait is key to a successful campaign.
- **Capacity Development approach:** whenever feasible, the consultants should work closely with staff from relevant departments such as the Public Relations Unit to enable the transfer of know-how.
- **cultural behavior**
