4. UNDP implements a policy of zero tolerance on proscribed practices, including fraud, corruption, collusion, unethical practices, and obstruction. UNDP is committed to preventing, identifying and addressing all acts of fraud and corrupt practices against UNDP as well as third parties involved in UNDP activities. 9.3 Technical Proposal (see prescribed form in RFP Section 6);
9.4 Financial Proposal (see prescribed form in RFP Section 7);

10. Clarification of Proposal

10.1 Proposers may request clarifications of any of the RFP documents no later than the date indicated in the Data Sheet (DS no. 16) prior to the proposal submission date. Any request for clarification must be sent in writing via courier or through electronic means to the UNDP address indicated in the Data Sheet (DS no. 17). UNDP will respond in writing, transmitted by electronic means and will transmit copies of the response (including an explanation of the query but without identifying the source of inquiry) to all Proposers who have provided confirmation of their intention to submit a Proposal.
10.2 UNDP shall endeavor to provide such responses to clarifications in an expeditious manner, but any delay in such response shall not cause an obligation on the part of UNDP to extend the submission date of the Proposals, unless UNDP deems that such an extension is justified and necessary.

11. Amendment of Proposals

11.1 At any time prior to the deadline of Proposal submission, UNDP may for any reason, such as in response to a clarification requested by a Proposer, modify the RFP in the form of a Supplemental Information to the RFP. All prospective Proposers will be notified in writing of all changes/amendments and additional instructions through Supplemental Information to the RFP and through the method specified in the Data Sheet (DS No. 18).

11.2 In order to afford prospective Proposers reasonable time to consider the amendments in preparing their Proposals, UNDP may, at its discretion, extend the deadline for submission of Proposals, if the nature of the amendment to the RFP justifies such an extension.

C. PREPARATION OF PROPOSALS

12. Cost

The Proposer shall bear any and all costs related to the preparation and/or submission of the Proposal, regardless of whether its Proposal was selected or not. UNDP shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the procurement process.

13. Language

The Proposal, as well as any and all related correspondence exchanged by the Proposer and UNDP, shall be written in the language(s) specified in the Data Sheet (DS No 4). Any printed literature furnished by the Proposer written in a language other than the language indicated in the Data Sheet, must be accompanied by a translation in the preferred language indicated in the Data Sheet. For purposes of interpretation of the Proposal, and in the event of discrepancy or inconsistency in meaning, the version translated into the preferred language shall govern. Upon conclusion of a contract, the language of the contract shall govern the relationship between the contractor and UNDP.

14. Proposal Submission Form

The Proposer shall submit the Proposal Submission Form using the form provided in Section 4 of this RFP.

15. Technical Proposal Format and Content

Unless otherwise stated in the Data Sheet (DS no. 28), the Proposer shall structure the Technical Proposal as follows:
15.1 Expertise of Firm/Organization – this section should provide details regarding management structure of the organization, organizational capability/resources, and experience of organization/firm, the list of projects/contracts (both completed and on-going, both domestic and international) which are related or similar in nature to the requirements of the RFP, and proof of financial stability and adequacy of resources to complete the services required by the RFP (see RFP clause 18 and DS No. 26 for further details). The same shall apply to any other entity participating in the RFP as a Joint Venture or Consortium.

15.2 Proposed Methodology, Approach and Implementation Plan – this section should demonstrate the Proposer’s response to the Terms of Reference by identifying the specific components proposed, how the requirements shall be addressed, as specified, point by point; providing a detailed description of the essential performance characteristics proposed; identifying the works/portions of the work that will be subcontracted; and demonstrating how the proposed methodology meets or exceeds the specifications, while ensuring appropriateness of the approach to the local conditions and the rest of the project operating environment. This methodology must be laid out in an implementation timetable that is within the duration of the contract as specified in the Data Sheet (DS nos. 29 and 30).

Proposers must be fully aware that the products or services that UNDP requires may be transferred, immediately or eventually, by UNDP to the Government partners, or to an entity nominated by the latter, in accordance with UNDP’s policies and procedures. All proposers are therefore required to submit the following in their proposals:

a) A statement of whether any import or export licences are required in respect of the goods to be purchased or services to be rendered, including any restrictions in the country of origin, use or dual use nature of the goods or services, including any disposition to end users; and

b) Confirmation that the Proposer has obtained license of this nature in the past, and have an expectation of obtaining all the necessary licenses, should their Proposal be rendered the most responsive.

15.3 Management Structure and Key Personnel – This section should include the comprehensive curriculum vitae (CVs) of key personnel that will be assigned to support the implementation of the proposed methodology, clearly defining the roles and responsibilities vis-à-vis the proposed methodology. CVs should establish competence and demonstrate qualifications in areas relevant to the TOR.

In complying with this section, the Proposer assures and confirms to UNDP that the personnel being nominated are available for the Contract on the dates proposed. If any of the key personnel later becomes unavailable, except for unavoidable reasons such as death or medical incapacity, among other possibilities, UNDP reserves the right to consider the proposal non-responsive. Any deliberate substitution arising from unavoidable reasons, including delay in the implementation of the project of programme through no fault of the Proposer shall be made only with UNDP’s acceptance of the justification for substitution, and UNDP’s approval of the qualification of the replacement who shall be either of equal or superior credentials as the one being replaced.
15.4 Where the Data Sheet requires the submission of the Proposal Security, the Proposal Security shall be included along with the Technical Proposal. The Proposal Security may be forfeited by UNDP, and reject the Proposal, in the event of any or any combination of the following conditions:

   a) If the Proposer withdraws its offer during the period of the Proposal Validity specified in the Data Sheet (DS no. 11), or;

   b) If the Proposal Security amount is found to be less than what is required by UNDP as indicated in the Data Sheet (DS no. 9), or;

   c) In the case the successful Proposer fails:

      i. to sign the Contract after UNDP has awarded it;
      ii. to comply with UNDP’s variation of requirement, as per RFP clause 35; or
      iii. to furnish Performance Security, insurances, or other documents that UNDP may require as a condition to rendering the effectivity of the contract that may be awarded to the Proposer.

16. Financial Proposals

The Financial Proposal shall be prepared using the attached standard form (Section 7). It shall list all major cost components associated with the services, and the detailed breakdown of such costs. All outputs and activities described in the Technical Proposal must be priced separately on a one-to-one correspondence. Any output and activities described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, as well as in the final total price.

17. Currencies

All prices shall be quoted in the currency indicated in the Data Sheet (DS no. 15). However, where Proposals are quoted in different currencies, for the purposes of comparison of all Proposals:

   a) UNDP will convert the currency quoted in the Proposal into the UNDP preferred currency, in accordance with the prevailing UN operational rate of exchange on the last day of submission of Proposals; and

   b) In the event that the proposal found to be the most responsive to the RFP requirement is quoted in another currency different from the preferred currency as per Data Sheet (DS no. 15), then UNDP shall reserve the right to award the contract in the currency of UNDP’s preference, using the conversion method specified above.

Proposals submitted by two (2) or more Proposers shall all be rejected if they are found to have any of the following:

   a) they have at least one controlling partner, director or shareholder in common; or
   b) any one of them receive or have received any direct or indirect subsidy from the other/s; or
   c) they have the same legal representative for purposes of this RFP; or
   d) they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about, or influence on the Proposal of, another Proposer regarding this RFP process;
e) they are subcontractors to each other’s Proposal, or a subcontractor to one Proposal also submits another Proposal under its name as lead Proposer; or
f) an expert proposed to be in the team of one Proposer participates in more than one Proposal received for this RFP process. This condition does not apply to subcontractors being included in more than one Proposal.

18. Documents Establishing the Eligibility and Qualifications of the Proposer

The Proposer shall furnish documentary evidence of its status as an eligible and qualified vendor, using the forms provided under Section 5, Proposer Information Forms. In order to award a contract to a Proposer, its qualifications must be documented to UNDP’s satisfaction. These include, but are not limited to, the following:

a) That, in the case of a Proposer offering to supply goods under the Contract which the Proposer did not manufacture or otherwise produce, the Proposer has been duly authorized by the goods’ manufacturer or producer to supply the goods in the country of final destination;
b) That the Proposer has the financial, technical, and production capability necessary to perform the Contract; and
c) That, to the best of the Proposer’s knowledge, it is not included in the UN 1267/1989 List or the UN Ineligibility List, nor in any and all of UNDP’s list of suspended and removed vendors.

19. Joint Venture, Consortium or Association

If the Proposer is a group of legal entities that will form or have formed a joint venture, consortium or association at the time of the submission of the Proposal, they shall confirm in their Proposal that: (i) they have designated one party to act as a lead entity, duly vested with authority to legally bind the members of the joint venture jointly and severally, and this shall be duly evidenced by a duly notarized Agreement among the legal entities, which shall be submitted along with the Proposal; and (ii) if they are awarded the contract, the contract shall be entered into, by and between UNDP and the designated lead entity, who shall be acting for and on behalf of all the member entities comprising the joint venture.

After the Proposal has been submitted to UNDP, the lead entity identified to represent the joint venture shall not be altered without the prior written consent of UNDP. Furthermore, neither the lead entity nor the member entities of the joint venture can:

   a) Submit another proposal, either in its own capacity; nor
   b) As a lead entity or a member entity for another joint venture submitting another Proposal.

The description of the organization of the joint venture/consortium/association must clearly define the expected role of each of the entity in the joint venture in delivering the requirements of the RFP, both in the Proposal and the Joint Venture Agreement. All entities that comprise the joint venture shall be subject to the eligibility and qualification assessment by UNDP.

Where a joint venture is presenting its track record and experience in a similar undertaking as those required in the RFP, it should present such information in the following manner:

   a) Those that were undertaken together by the joint venture; and
b) Those that were undertaken by the individual entities of the joint venture expected to be involved in the performance of the services defined in the RFP.

Previous contracts completed by individual experts working privately but who are permanently or were temporarily associated with any of the member firms cannot be claimed as the experience of the joint venture or those of its members, but should only be claimed by the individual experts themselves in their presentation of their individual credentials.

If a joint venture’s Proposal is determined by UNDP as the most responsive Proposal that offers the best value for money, UNDP shall award the contract to the joint venture, in the name of its designated lead entity. The lead entity shall sign the contract for and on behalf of all other member entities.

20. Alternative Proposals

Unless otherwise specified in the Data Sheet (DS nos. 5 and 6), alternative proposals shall not be considered. Where the conditions for its acceptance are met, or justifications are clearly established, UNDP reserves the right to award a contract based on an alternative proposal.

21. Validity Period

Proposals shall remain valid for the period specified in the Data Sheet (DS no. 8), commencing on the submission deadline date also indicated in the Data Sheet (DS no. 21). A Proposal valid for a shorter period shall be immediately rejected by UNDP and rendered non-responsive.

In exceptional circumstances, prior to the expiration of the proposal validity period, UNDP may request Proposers to extend the period of validity of their Proposals. The request and the responses shall be made in writing, and shall be considered integral to the Proposal.

22. Proposer’s Conference

When appropriate, a proposer’s conference will be conducted at the date, time and location specified in the Data Sheet (DS no. 7). All Proposers are encouraged to attend. Non-attendance, however, shall not result in disqualification of an interested Proposer. Minutes of the proposer’s conference will be either posted on the UNDP website, or disseminated to the individual firms who have registered or expressed interest with the contract, whether or not they attended the conference. No verbal statement made during the conference shall modify the terms and conditions of the RFP unless such statement is specifically written in the Minutes of the Conference, or issued/posted as an amendment in the form of a Supplemental Information to the RFP.

D. SUBMISSION AND OPENING OF PROPOSALS

23. Submission

23.1 The Financial Proposal and the Technical Proposal Envelopes MUST BE COMPLETELY SEPARATE and each of them must be submitted sealed individually and clearly marked on
the outside as either “TECHNICAL PROPOSAL” or “FINANCIAL PROPOSAL”, as appropriate. Each envelope MUST clearly indicate the name of the Proposer. The outer envelopes shall bear the address of UNDP as specified in the Data Sheet (DS no.20) and shall include the Proposer’s name and address, as well as a warning that state “not to be opened before the time and date for proposal opening” as specified in the Data Sheet (DS no. 24). The Proposer shall assume the responsibility for the misplacement or premature opening of Proposals due to improper sealing and labeling by the Proposer.

23.2 Proposers must submit their Proposals in the manner specified in the Data Sheet (DS nos. 22 and 23). When the Proposals are expected to be in transit for more than 24 hours, the Proposer must ensure that sufficient lead time has been provided in order to comply with UNDP’s deadline for submission. UNDP shall indicate for its record that the official date and time of receiving the Proposal is the actual date and time when the said Proposal has physically arrived at the UNDP premises indicated in the Data Sheet (DS no. 20).

23.3 Proposers submitting Proposals by mail or by hand shall enclose the original and each copy of the Proposal, in separate sealed envelopes, duly marking each of the envelopes as “Original Proposal” and “Copy of Proposal” as appropriate. The 2 envelopes shall then be sealed in an outer envelope. The number of copies required shall be as specified in the Data Sheet (DS No. 19). In the event of any discrepancy between the contents of the “Original Proposal” and the “Copy of Proposal”, the contents of the original shall govern. The original version of the Proposal shall be signed or initialed by the Proposer or person(s) duly authorized to commit the Proposer on every page. The authorization shall be communicated through a document evidencing such authorization issued by the highest official of the firm, or a Power of Attorney, accompanying the Proposal.

23.4 Proposers must be aware that the mere act of submission of a Proposal, in and of itself implies that the Proposer accepts the General Contract Terms and Conditions of UNDP as attached hereto as Section 11.

24. Deadline for Submission of Proposals and Late Proposals

Proposals must be received by UNDP at the address and no later than the date and time specified in the Data Sheet (DS nos. 20 and 21).

UNDP shall not consider any Proposal that arrives after the deadline for submission of Proposals. Any Proposal received by UNDP after the deadline for submission of Proposals shall be declared late, rejected, and returned unopened to the Proposer.

25. Withdrawal, Substitution, and Modification of Proposals

25.1 Proposers are expected to have sole responsibility for taking steps to carefully examine in detail the full consistency of its Proposals to the requirements of the RFP, keeping in mind that material deficiencies in providing information requested by UNDP, or lack clarity in the description of services to be provided, may result in the rejection of the Proposal. The Proposer shall assume the responsibility regarding erroneous interpretations or conclusions made by the Proposer in the course of understanding the RFP out of the set of information furnished by UNDP.
25.2 A Proposer may withdraw, substitute or modify its Proposal after it has been submitted by sending a written notice in accordance with Clause 23.1, duly signed by an authorized representative, and shall include a copy of the authorization (or a Power of Attorney). The corresponding substitution or modification of the Proposal must accompany the respective written notice. All notices must be received by UNDP prior to the deadline for submission and submitted in accordance with RFP Clause 23.1 (except that withdrawal notices do not require copies). The respective envelopes shall be clearly marked “WITHDRAWAL,” “SUBSTITUTION,” or MODIFICATION”.

25.3 Proposals requested to be withdrawn shall be returned unopened to the Proposers.

25.4 No Proposal may be withdrawn, substituted, or modified in the interval between the deadline for submission of Proposals and the expiration of the period of proposal validity specified by the Proposer on the Proposal Submission Form or any extension thereof.

26. Proposal Opening

UNDP will open the Proposals in the presence of an ad-hoc committee formed by UNDP of at least two (2) members. If electronic submission is permitted, any specific electronic proposal opening procedures shall be as specified in the Data Sheet (DS no. 23).

The Proposers’ names, modifications, withdrawals, the condition of the envelope labels/seals, the number of folders/files and all other such other details as UNDP may consider appropriate, will be announced at the opening. No Proposal shall be rejected at the opening stage, except for late submission, for which the Proposal shall be returned unopened to the Proposer.

27. Confidentiality

Information relating to the examination, evaluation, and comparison of Proposals, and the recommendation of contract award, shall not be disclosed to Proposers or any other persons not officially concerned with such process, even after publication of the contract award.

Any effort by a Proposer to influence UNDP in the examination, evaluation and comparison of the Proposals or contract award decisions may, at UNDP’s decision, result in the rejection of its Proposal.

In the event that a Proposer is unsuccessful, the Proposer may seek a meeting with UNDP for a debriefing. The purpose of the debriefing is discussing the strengths and weaknesses of the Proposer’s submission, in order to assist the Proposer in improving the proposals presented to UNDP. The content of other proposals and how they compare to the Proposer’s submission shall not be discussed.

E. EVALUATION OF PROPOSALS

28. Preliminary Examination of Proposals

UNDP shall examine the Proposals to determine whether they are complete with respect to
minimum documentary requirements, whether the documents have been properly signed, whether or not the Proposer is in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's list of suspended and removed vendors, and whether the Proposals are generally in order, among other indicators that may be used at this stage. UNDP may reject any Proposal at this stage.

29. Evaluation of Proposals

29.1 UNDP shall examine the Proposal to confirm that all terms and conditions under the UNDP General Terms and Conditions and Special Conditions have been accepted by the Proposer without any deviation or reservation.

29.2 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other documentation provided, applying the evaluation criteria, sub-criteria, and point system specified in the Data Sheet (DS no. 32). Each responsive Proposal will be given a technical score. A Proposal shall be rendered non-responsive at this stage if it does not substantially respond to the RFP particularly the demands of the Terms of Reference, which also means that it fails to achieve the minimum technical score indicated in the Data Sheet (DS no. 25). Absolutely no changes may be made by UNDP in the criteria, sub-criteria and point system indicated in the Data Sheet (DS no. 32) after all Proposals have been received.

29.3 In the second stage, only the Financial Proposals of those Proposers who achieve the minimum technical score will be opened for evaluation for comparison and review. The Financial Proposal Envelopes corresponding to Proposals that did not meet the minimum passing technical score shall be returned to the Proposer unopened. The overall evaluation score will be based either on a combination of the technical score and the financial offer, or the lowest evaluated financial proposal of the technically qualified Proposers. The evaluation method that applies for this RFP shall be as indicated in the Data Sheet (DS No. 25).

When the Data Sheet specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:

<table>
<thead>
<tr>
<th>Rating the Technical Proposal (TP):</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>TP Rating</strong> = (Total Score Obtained by the Offer / Max. Obtainable Score for TP) x 100</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Rating the Financial Proposal (FP):</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>FP Rating</strong> = (Lowest Priced Offer / Price of the Offer Being Reviewed) x 100</td>
</tr>
</tbody>
</table>

**Total Combined Score:**

\[
\frac{(TP \text{ Rating}) \times (\text{Weight of TP, e.g. 70\%})}{(FP \text{ Rating}) \times (\text{Weight of FP, e.g., 30\%})} + \text{Total Combined and Final Rating of the Proposal}
\]
29.4 UNDP reserves the right to undertake a post-qualification exercise aimed at determining, to its satisfaction the validity of the information provided by the Proposer. Such post-qualification shall be fully documented and, among those that may be listed in the Data Sheet (DS No.33), may include, but need not be limited to, all or any combination of the following:

a) Verification of accuracy, correctness and authenticity of information provided by the Proposer on the legal, technical and financial documents submitted;
b) Validation of extent of compliance to the RFP requirements and evaluation criteria based on what has so far been found by the evaluation team;
c) Inquiry and reference checking with Government entities with jurisdiction on the Proposer, or any other entity that may have done business with the Proposer;
d) Inquiry and reference checking with other previous clients on the quality of performance on ongoing or previous contracts completed;
e) Physical inspection of the Proposer’s offices, branches or other places where business transpires, with or without notice to the Proposer;
f) Quality assessment of ongoing and completed outputs, works and activities similar to the requirements of UNDP, where available; and
g) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.

30. Clarification of Proposals

To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Proposer for a clarification of its Proposal.

UNDP’s request for clarification and the response shall be in writing. Notwithstanding the written communication, no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP Clause 32.

Any unsolicited clarification submitted by a Proposer in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.

31. Responsiveness of Proposal

UNDP’s determination of a Proposal’s responsiveness will be based on the contents of the Proposal itself.

A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.

If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Proposer by correction of the material deviation, reservation, or omission.

32. Nonconformities, Reparable Errors and Omissions
Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.

Provided that a Proposal is substantially responsive, UNDP may request the Proposer to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Proposer to comply with the request may result in the rejection of its Proposal.

Provided that the Proposal is substantially responsive, UNDP shall correct arithmetical errors as follows:

a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price, in which case the line item total as quoted shall govern and the unit price shall be corrected;

b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and

c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to the above.

If the Proposer does not accept the correction of errors made by UNDP, its Proposal shall be rejected.

A. Background

Almost 6 years into the protracted conflict, Syria is witnessing a deepening economic crisis, loss of infrastructure services, and deteriorating coping mechanisms and livelihoods breakdown, millions of people have been thrust into poverty, while population internal movement and displacement, loss of assets, the impact of unilateral coercive measures, and weakened social protection schemes have further compounded vulnerabilities across the country.

As a response to the emerging needs of the Syrian population, UNDP focuses on building the resilience of the affected population in Syria through stabilizing their livelihoods and strengthening their capacities to cope with shocks and negative impact of the crisis. It focuses on rehabilitation of community infrastructure and basic services, social cohesion, and various livelihoods and economic recovery initiatives. The livelihoods and economic recovery initiatives include five areas of: agriculture livelihoods; active labour market; micro-small and medium enterprises (MSMEs) including entrepreneurship development and access to finance; private sector development and persons with disabilities and social protection.

All the interventions have special focus on vulnerable groups (women-headed households, people with disabilities and youth).

UNDP plans to scale up its initiatives on livelihoods and economic recovery in line with UNDP’s globally adapted the three-track (Track A, B and C) approach of the UN Policy for Post-Conflict Employment
Creation, Income Generation and Reintegration (2009) for its livelihoods and economic recovery programming in crisis situations. Track A programming responds to the urgent needs of crisis-affected groups with interventions to help stabilize livelihoods. Track B programming focuses on medium- to long-term local economic recovery, including interventions to boost sustainable employment, income generation, and reintegration. Track C programming focuses on long-term employment creation and inclusive economic growth. Interventions in Track C help to strengthen the national systems and policies that are needed in order to sustain the progress achieved in Tracks A and B. These three tracks are represented through all phases of recovery, however their intensity peaks at different times in the post-crisis period, as shown on the left in a contiguum.

UNDP Syria aims at ensuring sustainability of its interventions in the aforementioned four thematic areas in line with this three-track approach. In this regard, it is important to design the interventions based on local market options available in each geographical area. For instance, vocational and skills training should be designed based on demands of local markets.

**B. Purpose and objectives**

The purpose of this consultancy will be to develop an understanding of markets in Tartous, Damascus, Aleppo, Latakia, Homs, Hama, Al-Hasaka, Deir Ezzor, Raqqa, Da’ra) area in order to inform appropriate programme design and targeting, including the feasibility and appropriateness of various livelihoods and employment interventions including agriculture livelihoods; active labour market; micro-small and medium enterprises (MSMEs) including entrepreneurship development and access to finance; and persons with disabilities (PwDs) and social protection with a focus on market support options as a means to support access to sustainable livelihoods and economic recovery for conflict-affected vulnerable
populations including IDPs, returnees, women-headed households, youth and persons with disabilities. The objectives of this market analysis will be to:

- Understand the dynamics of local market systems which will help UNDP design interventions that improve longer-term access to basic needs and strengthen livelihoods.
- Mitigate the impact of a crisis to identify which area of the markets may be affected and how it will be affected. Accordingly, design immediate interventions that can protect and/or reinforce the market before the crisis strikes.
- Improve UNDP preparedness to respond to the needs of major returns of Syrian refugees from hosting countries (i.e. Lebanon, Jordan, Turkey etc.) by understanding the impact it will have on the critical market systems, analysing the degree to which the markets will be able to respond to the expected needs of the affected population of hosting communities, IDPs, returnees with a focus on vulnerable populations including women-headed households, youth and persons with disabilities.
- Provide a baseline picture: of how critical markets function when they are not under stress (during a non-crisis or reference time). This can then be monitored, updated, and compared with the current situation.
- Identify the most appropriate modalities for meeting needs and ensuring sustainability linked to local markets in selected areas; and to establish trader willingness and capacity to work with UNDP/partners for possible livelihoods and economic recovery programmes with a focus on the four thematic areas;
- Build UNDP staff (both in Damascus and field offices) capacity in market analysis and change approaches and attitude towards market based programming.
- Assess the impact of the crisis on selected critical market systems in selected geographical areas;
- Consolidate existing information on market systems for selected critical markets;
- Determine the current state of the market for selected critical commodities/services and identify critical factors affecting supply and capacity to respond to demand- in selected areas; (this will imply creating market baselines for selected critical market systems items to inform response analysis);
- Recommend market support interventions with concrete suggestions to facilitate the delivery of UNDP crisis response;
- Recommend market monitoring indicators and approach to ensure the update of the market
analysis as the situation evolves;

- Build UNDP staff capacity: in market analysis and change approaches and attitude towards market based programming.
- Ensure this market analysis with conflict sensitivity lens, and mainstreaming gender and disability.

C. Scope

The analysis will look at critical market systems and the overall functioning of market in Tartous, Damascus, Aleppo, Latakia, Homs, Hama, Al-Hasaka, Deir Ezzor, Raqqa, Da’ra. The key questions for the analysis will be finalised at the beginning of the work, but it is expected that they will cover the aforementioned four areas as following:

1) Active labour market:
- Identify and analyse the sectors and sub-sectors with high potentials for sustainable and decent job opportunities for both female and male.
- Identify and analyse the demanded type and level of skills for each sector, both technical and workplace core skills. Identify the optimal vocational and skills training approaches to best equip youth with the necessary skills for sustainable and decent job creation.
- Map and analyse the capacity of vocational and skills training service providers including the ones specialised for persons with disabilities.

2) MSME support including entrepreneurship development and access to finance
- Map and analyse types of MSMEs that are potential for growth and decent job creations in economic recovery process in each area, especially for women and youth.
- Analyse conflict impacts on private sectors in each area.
- Analyse the current MSMEs (self-employment in formal and informal ways) situation including the ones owned and/or ran by PwDs and women.
- Map and analyse existing business development services (BDS) as incubation and acceleration for MSMEs.

3) Agricultural livelihoods
- Analyse if and how the targeted areas relay on agricultural livelihoods (agriculture and livestock) including food processing and other bi-products in pre-crisis situation and comparison to the
current situation.

- Analyse how land and water access has been affected by the crisis and further on agricultural livelihoods practice in each area.
- Identify and analyse opportunities and challenges for access to market and finance for agricultural-based livelihoods, in particular for women in rural areas
- Identify potential approaches for decent job creation through agricultural-based livelihoods

4) **PwDs and social protection**

- Identify successful approaches and types of job creations for PwDs and analyse enabling factors.
- Identify emerging market needs to provide specialised services for PwDs (e.g. medical equipment etc.)
- Map and analyse existing cash based interventions by different entities, targeting vulnerable populations including PwDs with a perspective of market conditions.

**D. Key Activities**

The service provider/bidder is expected to undertake the following activities:

- Develop action plan including planned timeline and work plan, literature review of all relevant secondary sources, detailed methodology / approach, planned stakeholders to be consulted and sampling framework, data collection and analysis tools, qualitative and quantitative protocols for data collection and analysis
- Desk review of relevant document and secondary data.
- Conduct two to three days in-room training on market analysis methodology for data collectors, and UNDP Staff.
- Conduct consultation meetings with Key informants in each defined area including:
  - Relevant government ministries
  - Chamber of Commerce in each defined area.
  - Chamber of industry in each defined area.
  - Municipalities and governorates.
  - The commission of SMEs development.
• Agriculture directorate in each defined area.
• NGOs active in economic development/livelihoods in the target areas.

➢ Qualitative and quantitative data collection in each targeted area.
➢ Data Analysis and verification workshop.
➢ Present a draft report to be presented to UNDP.
➢ Submit the final report with all supporting documents including the primary and secondary data, a list of stockholder’s analysis framework and key recommendations.

E. **Methodology & work plan**

While the specifics of the methodology will have to be defined by the successful bidder, the existing market analysis tools that are combined of qualitative and quantitative assessments can be used through adjusting to the scope of this assignment\(^2\):

- EMMA: Emergency Market Mapping and Analysis
- PCMA: Pre-Crisis Market Analysis
- RAM: Rapid Assessment of Market
- MAG: Market Analysis
