

**Scope of Work**  
**Rehabilitation of Health Centre Building in Sabratha, Libya**

**BACKGROUND:**

UNDP's project 'Strengthening Local capacities for Resilience and Recovery' is a three-year EU funded initiative, aiming at supporting local authorities in Libya to respond to the many conflict and human mobility induced challenges - by strengthening the local resilience and recovery mechanisms - that impact negatively citizens' access to essential services, sources of livelihoods, the social cohesion and security of communities.

The project aims at responding to the many conflict and human mobility induced challenges - by strengthening the local resilience and recovery mechanisms - that impact negatively citizens' access to essential services, sources of jobs and livelihoods, the social cohesion and security of communities. Target beneficiaries are host communities – including internally displaced persons (IDPs) and returnees – migrants and refugees.

The project is built around 3 outputs: (1) Better provision of basic services at local level and increase access for most vulnerable groups from host communities - including Internally Displaced Populations (IDPs) and returnees - as well as migrants and refugees is ensured; (2) Local authorities and administrations are supported in fulfilling their role and responsibilities with a focus on enforcing local stability and community security (3) Local economic recovery/development, including job creation and livelihoods are supported.

The project – which will be implemented through conflict-sensitive approach - will offer support to local actors in achieving concrete results in three areas: 1) service delivery; 2) social cohesion and community security; and 3) livelihoods and local economic recovery/development. Within the second output, the project will support local governments to enhance local stability and security for the entire population in the selected locations. Strengthened collaboration between local authority staff, immigration officials and rule of law institutions is needed to effectively identify potential victims, provide necessary assistance to current victims.

**PROJECT DESCRIPTION:**

Sabratha Health Center is located in the Sabratha city center of residential area, located in 12°29'6.02"E and 32°47'28.86"N that had suffered a fighting during the last war, which led to some destruction/damages in this area.
