Description of Requirements

Context of the Requirement	<p>With support from the Government of Norway, the UN-REDD Programme, in partnership with the Regional Community Forestry Training Centre (RECOFTC), assisted the Government of Myanmar (GoM) and other stakeholders to develop a “REDD+ Readiness Roadmap” in the period July 2012-August 2013. Some initial support to the implementation of the Roadmap was provided through the UN-REDD Targeted Support window during 2014-15. In early 2015, Myanmar was invited to submit an Expression of Interest for a UN-REDD National Programme, and subsequently to make a presentation on this Expression of Interest to the 14th and 15th meetings of the UN-REDD Policy Board. The Policy Board provisionally approved the allocation of USD 5,554,370 to the Myanmar UN-REDD National Programme (‘The Programme’). This decision became operational following the confirmation of availability of funds provided to the interim governance body on July 6, 2016. The signature of the National Programme Document was completed on 15th November 2016, with a duration of 4 years. The first funds transfer from the MPTF-O occurred in November 2016. A draft National REDD+ Strategy has been prepared and has gone through several consultation processes, and currently has identified 47 “policies and measures” (PAMs) as being required to reduce emissions from Myanmar’s forests. Implementation of the National REDD+ Strategy will require participation from a wide range of stakeholders. National and sub-national NGO’s/CSO’s may play a number of roles. They may play a role in implementation of some PAMs (for example, “Implement incentivized community co-managed monitoring programmes”; and “Support improved income potential from traditional livelihoods”); but will also be involved in collection of information for the Safeguards Information System, in the establishment of a “grievance redress mechanism”, and in grassroots capacity building. These activities will require contribution from a network of multiple NGO’s/CSO’s, many of whom require capacity building in the advocacy, networking and monitoring skills required for their participation.</p>
Implementing Partner of UNDP	Direct Implementation by UNDP (Project- ID. 00098442)
Brief Description of the Required Services	<p>The objective of this contract is “to build advocacy, networking and monitoring skills among national and local NGO’s/CSO’s so as to facilitate their participation in REDD+ implementation.”</p> <p>In order to achieve this objective, the contractor will conduct 5 capacity building events (see below) for participants from national level CSO’s/NGO’s (at least 6) and state/regional CSOs/NGO’s (See Annex)</p>

	<p>covering technical aspects of REDD+ and proposed PAMs (one day) and development of advocacy, networking and monitoring skills (3 days).</p> <p>Such events will be organized in five locations (see Annex for more details):</p> <ol style="list-style-type: none"> 1. Monywa, local NGO's/CSO's from Sagaing and Chin. <p>Each event may consist of up to half day devoted to training on technical issues and 2.5 days on skill development.</p> <p>Approach.</p> <p>The UN-REDD PMU will provide the contractor with a list of national and sub-national NGO's/CSO's that have been engaged in REDD+ readiness events. The contractor will be responsible for supplementing this list with additional organizations. For sub-national NGO's/CSO's, preference will be given to those which have demonstrated capacity to work alongside EAO's.</p> <p>The contractor will be responsible for developing agendas for each event. For the awareness raising on REDD+, the materials to be used will be provided by the UN-REDD PMU and the UN-REDD PMU will identify trainers. For the skill development, the contractor is responsible for developing/providing the materials to be used and identifying/mobilizing skills trainers.</p> <p>Ahead of each event, or during the opening ceremony of each event, the contractor will undertake a pre-event capacity assessment. At the end of each event, the contractor will conduct a post-event assessment and will include in the event report the results from the pre-assessment and post-assessment.</p> <p>The contractor will submit a report for each event within two weeks of the close of the event, reporting on participation, the training/skills building provided, results of the pre- and post-assessments; additional feedback from participants, and lessons learned through the event on REDD+ implementation, required capacities, and the conduct of capacity building events. The reported lessons will be incorporated into the design of subsequent events.</p>

	Within three weeks of the final event, the contractor will submit an overall report, complementing the 5 event reports, summarizing the impact achieved and identifying further capacity building requirements.

Building advocacy, networking and monitoring skills for national and local NGOs

Project Title:	UN-REDD National Programme
Type of Contract:	Professional Service Agreement (NGO registered in Myanmar)
Duration:	70 days in September-December 2018
Location:	Yangon with travel to Dawei, Taunggyi, Mandalay, and Monywa

1. BACKGROUND

With support from the Government of Norway, the UN-REDD Programme³, in partnership with the Regional Community Forestry Training Centre (RECOFTC), assisted the Government of Myanmar (GoM) and other stakeholders to develop a “REDD+ Readiness Roadmap” in the period July 2012-August 2013.

Some initial support to the implementation of the Roadmap was provided through the UN-REDD Targeted Support window during 2014-15. In early 2015, Myanmar was invited to submit an Expression of Interest for a UN-REDD National Programme, and subsequently to make a presentation on this Expression of Interest to the 14th and 15th meetings of the UN-REDD Policy Board. The Policy Board provisionally approved the allocation of USD 5,554,370 to the Myanmar UN-REDD National Programme (‘The Programme’). This decision became operational following the confirmation of availability of funds provided to the interim governance body on July 6, 2016.

The signature of the National Programme Document was completed on 15th November 2016, with a duration of 4 years. The first funds transfer from the MPTF-O occurred in November 2016.

A draft National REDD+ Strategy has been prepared and has gone through several consultation processes, and currently has identified 47 “policies and measures” (PAMs) as being required to reduce emissions from Myanmar’s forests.

Implementation of the National REDD+ Strategy will require participation from a wide range of stakeholders. National and sub-national NGO’s/CSO’s may play a number of roles. They may play a role in implementation of some PAMs (for example, “*Implement incentivized community co-managed monitoring programmes*”; and “*Support improved income potential from traditional livelihoods*”); but will also be involved in collection of information for the Safeguards Information System, in the establishment of a “grievance redress mechanism”, and in grassroots capacity building. These activities will require contribution from a network of multiple NGO’s/CSO’s, many of whom require capacity building in the advocacy, networking and monitoring skills required for their participation.

³ The UN-REDD Programme is the United Nations Joint collaborative initiative on Reducing Emissions from Deforestation and forest Degradation (REDD+) in developing countries. The Programme builds on the convening role and technical expertise of the Food and Agriculture Organization of the United Nations (FAO), the United Nations Development Programme (UNDP) and the United Nations Environment Programme (UNEP)

Ahead of each event, or during the opening ceremony of each event, the contractor will undertake a pre-event capacity assessment. At the end of each event, the contractor will conduct a post-event assessment and will include in the event report the results from the pre-assessment and post-assessment.

The contractor will submit a report for each event within two weeks of the close of the event, reporting on participation, the training/skills building provided, results of the pre- and post-assessments; additional feedback from participants, and lessons learned through the event on REDD+ implementation, required capacities, and the conduct of capacity building events.
