Obtainable Score for TP) x 100</p> <p><u>Rating the Financial Proposal (FP):</u></p> <p>FP Rating = (Lowest Priced Offer / Price of the Offer Being Reviewed) x 100</p> <p><u>Total Combined Score:</u></p> <p>Combined Score = (TP Rating) x (Weight of TP, e.g. 70%) + (FP Rating) x (Weight of FP, e.g., 30%)</p> </div>

Section 5. Terms of Reference

I. POSITION INFORMATION	
Position Title	National Firm/Institute/Organization for delivery of awareness, training and mentoring services to 8,000 youth on entrepreneurship
Duty Station	Activities to be carried out in the following Provinces: Khyber Pakhtunkhwa, Sindh and Balochistan
Project	Youth Empowerment Programme
Engagement Modality	Professional Services
Period of assignment/services	18 months, with effect from the date of signing of the contract.
Justification	<p>The project needs to recruit a firm/organization/institute for the following reasons:</p> <p>Under the Youth Empowerment Programme, UNDP promotes entrepreneurship through targeted training to vulnerable youth who wish to start or expand their own businesses thus directly contributing to SDG 8- Decent Work and Economic Growth. The Youth Empowerment Programme is exploring alternative channels to deliver entrepreneurial training to micro entrepreneurs as part of the Youth Empowerment Programme included blended learning with a mix of classroom, online and Interactive voice response (IVR) content. UNDP is particularly keen to promote female entrepreneurship. It plans to select at least one organization that has relevant background, experience and valid expertise in the identification and needs assessment of vulnerable youth, delivery of training, capacity development and mentorship services as well as monitoring and evaluation of micro entrepreneurship/business development programmes.</p>
II. RESPONSIBILITIES	
<p>1. Background:</p> <p>With a large portion (32%) of youth in Pakistan poverty-stricken and uneducated with no vocational and life skills, a big segment of the society remains vulnerable to violence and extremism. Investment in skills development and employment opportunities for youth is needed to reduce conflict but also help establish a foundation for long-term economic growth and prosperity in Pakistan. UNDP's Youth Empowerment Programme caters to the comprehensive global strategy that places youth at the forefront of its development work. It is a multi-pronged strategy aimed at creating pathways for the economic empowerment and constructive engagement of youth in Sindh and Khyber Pakhtunkhwa.</p> <p>Since 2016, the Program has made considerable headway in equipping young people with the necessary skills and knowledge to become successful in an increasingly competitive market environment and promote social cohesion in their respective communities by assuming leadership roles. The Program has an extensive research component which aims at institutionalizing informed decision making on youth, peace, and development in Khyber Pakhtunkhwa and Sindh.</p> <p>In 2018, the programme is exploring new and innovative avenues for skill and entrepreneurial trainings to facilitate youth economic empowerment. In this regard, UNDP is currently developing a mobile application which will be used to deliver entrepreneurial trainings to youth in Pakistan. The application will have a human-</p>	

centric approach which will incorporate a market relevant and up to date training content for online training and mentoring. In order to test the effectiveness of the content and the application, UNDP seeks to train an initial batch of 8,000 youth in the provinces of Khyber Pakhtunkhwa, Sindh and Balochistan. To do so, UNDP requires the services of a firm/organization/institution to support in the identification of potential/existing entrepreneurs in the aforementioned provinces (based on selection criteria which will be jointly developed by UNDP and the partner), carry out a total of 5 day training sessions with 8,000 selected youth (split into 2 sessions per person of 2 and 3 days respectively) using the UNDP approved materials (a blend of traditional classroom based, mobile IVR and e-learning tools including a mobile application which is currently being designed to ensure easier access to content for those with SMART phones), provide group/individual mentoring services during/between and after the training for a period of up to 3 months post-training and ensure quality monitoring and evaluation of the effectiveness of the training. Given the emphasis placed by UNDP on promoting female economic empowerment, at least 50% of the trainees should be female.

Based on the experience of the project, it has been realized that a comprehensive approach is required to support youth in establishing micro-enterprises, that caters to different skill requirements pertinent to challenges of starting a business and business development.

Due to limited employment opportunities and saturation of the job market, it has been observed that there is an immense motivation pulling youth towards entrepreneurship as opposed to being employed. While this trend can have a positive impact of creating employment opportunities and economic independence, it also highlights several social, cultural, and economic barriers preventing them to setup sustainable businesses. In light of these revelations it is observed that a 360-degree approach to entrepreneurship is required which not only focuses on the training aspect of the entrepreneurship journey but also focuses on the following pertinent issues in the entrepreneurial journey.

1. Generating a sustainable income
2. Understanding of trainees as to what being an entrepreneur means
3. Motivation of youth to start their own enterprise
4. Training to enable youth to set their own micro-enterprises. This includes market know-how, opportunities, bookkeeping, managing customers, use of social media, etc.
5. Capacity of the existing organizations to support micro-entrepreneurs
6. Developing market-linkages
7. Obtaining micro-credit to support the establishment of the micro-enterprises
8. Means of verifying micro-enterprise established by youth

Scope of Work

Youth Empowerment Programme of UNDP is seeking proposals from organizations for the delivery of the entrepreneurship skills trainings in the targeted areas of Khyber Pakhtunkhwa and Sindh. The organization will support entrepreneurship and self-employment interventions for young women and men, ensuring that they are increasingly built on lessons from the field operations and utilize blended methods of learning (classroom based and e-learning). The organization will strengthen entrepreneurial skills and competence for women and men and better understand how to make young people aware of specific opportunities for starting up a business, including understanding of existing value chains and the opportunities for linking young women and men into them. It will also seek to understand success factors affecting small and micro enterprise development - especially critical for informal economies lacking access to mentors, capital, and markets - particularly insofar as how they relate to women and men.

In particular, the contracting organization needs to carry out the following activities:

1. Identify potential candidates for the micro-entrepreneurship training (based on selection criteria developed jointly by UNDP and the partner) and ensuring 50% of proposed trainees are female.

2. Conduct Training Need Assessment (TNA) for the potential micro-entrepreneurs. Special consideration should be put in place to ensure that the training plan helps facilitate the active participation of young women, particularly young women who are already economically active or who have family obligations. Childcare facilities can be considered if required.
3. Review content finalized by UNDP (including a mobile application which is currently being designed by UNDP to ensure easier access to content for those with SMART phones) and provide suggestions on improvement of the content based on the needs assessments.
4. Deliver training to 8,000 youth using the finalized content. As UNDP is looking to devise a model for mass-training on micro-entrepreneurship skills, training plans which seek to reach the maximum number of trainees in the least amount of funds will be preferred. Use of technology and innovation to ensure low-cost access to micro-entrepreneurship training is encouraged.
5. Provide mentorship services to the trained youth (at least 3 group mentoring sessions and 3 individual sessions per person trained). Again, special measures may need to be put in place to ensure women are able to attend these mentoring sessions.
6. Carry out effective monitoring and evaluation of the training programme and suggest improvements.
7. Provide a platform for market linkages and further support to the trainees by supporting in the distribution of grants/equipment to selected micro-entrepreneurs for the duration of the contract.
