

Question and Answer

ITB 667 18-Installation of UG OG Feeders from Al Mansur SS to Neighborhoods, West Mosul

	Question submitted bidders	Answer by Technical/Procurement Team
1	In item no. 4 in the boq of the bid mentioned about you didn't mention a re-pavement after the excavation kindly clarify if there is a re-pavement or not.	As it's indicated in the BoQ item 4 "... site reinstatement should be same as the existing layers and all required materials to complete the entire work..." the site has to be reinstatement as before starting the excavation works, accordingly if the existing site contains pavement so the contractor is obliged to do so.
