

Pre-bid Meeting RE Decade Report

17 September 2018

what is the report for

- “Celebrate” 10 years of Renewable Energy Law (R.A. 9513)
- “inspire and educate” and advocate
- provide a credible knowledge base
- history, accomplishments, milestones, and indicative ways forward to develop the RE energy industry

expectations: design and format

- innovative designs, maps, illustrations and powerful photos that will captivate the target audience as regards the accomplishments of the RE Act
- convey or translate technical information and policy issues into simple language and messages
- address a broad range of audience
- Extensive narratives, comprehensive policy or technical reviews are not expected

- **Sector 1:** Institutions directly engaged in the power industry (RE & non-RE)
 - officials & technical staff of LGUs, concerned government agencies
 - Power developers, electric cooperatives/distribution utilities
 - financing institutions (private and government)
 - local and international organizations with programs or initiatives on RE, climate adaptation and mitigation
- **Sector 2:** Consumer associations, advocates of RE technologies, academe, research organizations and civil society organizations who are in the field of RE and environment

technical format

- Writing style: Balance between technical and non-technical writing
- Pages: the estimated length is 100-150 pages
- Pictures and illustrations and graphs, maps, figures and tables may take as much as 60% of the entire content or space
- All photography and illustrations must be original
- Magazine size.
- Color: Full color to be printed in glossy paper. (clarification: other materials e.g matte, partially recycled paper may be recommended, 17 Sept 2018)

data/information sources

- DOE: www.doe.gov.ph , Renewable Energy Management Bureau
- Other sources/expert opinion: clarify, support, or encourage critical thinking on the RE industry
- Other secondary data/stories from practitioners: National RE Board, RE associations, NEA, NPC, Philippine Electricity Market Corporation etc.
- No private product or company advertisement or endorsement

outline: key contents (not mandated outline)

A. General overview of Energy Industry

B. Brief History of RE Industry in the Philippines

C. Statistics on RE based on National RE Plan (2008-2018)

- maps (location of first RE projects after the 2008; ongoing RE projects)
- graphs and statistics on RE

D. Status and Accomplishments under RA 9513 (2008-2018)

- Renewable Portfolio Standards (on-grid and off-grid)
- Green Energy Options Program
- Net Metering
- Feed in tariff, etc

E. Challenges and Lessons learned (from DOE, experts, industry members)

F. Moving Forward

coordination

- UNDP: contracting
- Editorial board: message and content
- Project management unit: coordination with UNDP, DOE and Editorial board

time line

Contract signing : 09 October 2018

Ready to print: 03 December 2018

Energy month: 18 December 2018

clarifications: payment shall be made within 5 working days from approval of output, e.g. inception report, drafts, final report (17Sept 2018)
