RFP evaluation methodology will be based on a cumulative analysis scheme where a total score is obtained upon the combination of weighted technical and financial attributes. The weight of the technical proposal – 60% (600 points) and the weight of the financial proposal - 40% (400 points)

Prior to evaluation of the proposals, UNDP shall determine whether proposals are complete with respect to minimum documentary requirements, whether or not the Proposer is in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's list of suspended and removed vendors, whether the proposals are generally in order, whether proposal validity is respected, whether the full range of items is covered for the quoted LOT, whether bidders are compliant with General Terms and Conditions and other. UNDP may reject any proposal at this stage.

Step 1 - Technical evaluation criteria (weighted) – maximum obtainable points – 600.

Technical evaluation criteria are summarized in the table below. Technical proposals must obtain minimum 420 points (70% of 600 points) to proceed to financial evaluation.

Step 2 - Financial evaluation (weighted) – maximum obtainable points –400:

Financial proposals are not to be opened until the technical proposals have been evaluated. Only proposals achieving minimum 420 points in the technical evaluation will be opened. Any proposals that do not meet the minimum technical score requirement will be rejected as being non-responsive (technically non-compliant).

Maximum number of points will be assigned to the financial proposal resulting in the lowest cost. The points for other proposals will be assigned according to the formula:

$$\frac{(\text{max score} \times \text{lowest price proposal} (\$))}{\$ \text{price of proposal}} = \text{score for price proposal (x)}$$

The total score for each Bidder will be calculated by summing up technical score and financial score.

Evaluation tables for technical proposals and financial proposals follow on the next two pages. The obtainable number of points specified for each evaluation criterion indicates the relative significance or weight of the LOT in the overall evaluation process.
