UNDP-Batticaloa: Lot 2

Scope of work: Rehabilitation of Ponnankanikiraman Main Access roads with Culverts Puthumandapathay GN, Vavununatheevu DS division, Batticaloa- District

Project Title: Support for Sustainable Resettlement in Sri Lanka (SSRS)

• Background information of the project

The Peacebuilding Priority Plan (PPP) serves as the framework for a coordinated Government, United Nations (UN) and development partner response to peacebuilding in Sri Lanka. The Plan focuses on four pillars, including transitional justice, reconciliation, governance, and resettlement and durable solutions. This project will support the pillars of the PPP through sustainable resettlement of recently released lands. It will contribute to promoting accountability for victims of the conflict; sustainable return, resettlement and integration of conflict-displaced persons; peaceful coexistence; and strengthening institutions for equal and transparent access to services. The overall intended impact is to improve the wellbeing of conflict-affected communities for sustainable return and reconciliation.

The key activities:

Rehabilitation of Ponnankanikiraman Main Access roads with Culverts Puthumandapathay GN, Vavununatheevu DS division, Batticaloa- District.

Objective of this project intervention:

The scope of this initiative is to provide an integrated socio-economic assistance for returned and resettled families in the selected GN divisions of Batticaloa, kilinochchi, Mullaitivu and Jaffna Districts. This project anticipates reaching maximum of 570 families enabling them towards sustainable resettlement.

The objectives of this initiative is to support returned and resettled families with sustainable livelihood assistance and to improve capacity of resettled communities to engage in productive measures including community collective-engagement and re-integration, small business development, value addition for local resources, establishing market linkages, employment generation, enhance access to government services delivery and make returned and resettled communities to be socially accountable for their grievances and to make them take-part in the durable solutions for conflict-affected displacement.

• Involved parties (Govt. CSOs. Etc.)

District Secretariat, Divisional Secretary-Vavunatheevu , Predeshiya Saba, Grass root level Government officers.

• Targeted beneficiaries:

50 families as direct beneficiaries and indirectly another 150-200 families or passers by.

- **Expected results/achievements**

Renovation of this road had also been requested by the village people during the participatory need assessment. The main access road would facilitate the villagers to access village and their main resettled area and paddy lands and also market their Paddy and other Livelihood products as well as access to public services such as education, medical care and other civil and administrative services. Nearly 50HHs families would benefit from improved accessibility and increased marketing opportunities. Particularly in rainy season the damaged roads lead difficulties in travelling since flood waters overflow and submerge part of the roads its lead to cut off the access to the village from outside. The improved access road condition would not only benefit villagers but also the adjoining villages.

The Contractor should mobilize required resources and implement the project in accordance with the bill of quantity and technical guidelines of UNDP. Construction materials (Majority of them) if needed in bulk would be required to be transported from either Batticaloa town or from Vavunatheevu. Skilled and unskilled labour force could be available in the vicinity of project site. Storage facilities for construction materials at site need to be provided for.
