1. BACKGROUND

Cross-Cutting Capacity Development (CCCD) in the GEF context refers to the targeted support provided to countries to strengthen their capacities to meet their commitments under the Rio Conventions and other Multilateral Environment Agreements (MEAs). Capacity development comprises that set of capabilities needed to sustain and strengthen functional environmental management systems at the global level, recognizing that these systems must build upon national governance and management systems. In 2004, Trinidad and Tobago conducted a National Capacity Self-Assessment (NCSA) exercise in order to assess capacity issues, needs and priorities with respect to the country's implementation of the Convention on Biological Diversity (CBD), the United Nations Convention to Combat Desertification (UNCCD), and the United Nations Framework Convention on Climate Change (UNFCCC) (collectively known as the Rio Conventions) along with other aspects of environmental management. The NCSA results indicated that the country's implementation of the Rio Conventions was poor, particularly with regards to the current legislation and policy framework, institutional capacity and primary obligations. Appropriate communication between focal points and stakeholders was also ranked as poor, along with stakeholder awareness and involvement. **For detailed information, please refer to Annex 1**

CAPACITY DEVELOPMENT FOR IMPROVED MANAGEMENT OF MULTILATERAL ENVIRONMENTAL AGREEMENTS FOR GLOBAL ENVIRONMENTAL BENEFITS

LOCAL CONSULTANT: MAPPING & CAPACITY ASSESSMENT OF CIVIL SOCIETY ORGANIZATIONS (CSOs)

Duty Station: Port of Spain, Trinidad and Tobago

Type of contract: Individual Contract

Timeframe of Assignment: 80 days within the period November 2018 – March 2019

Language(s) Required: English

1. Background

Cross-Cutting Capacity Development (CCCD) in the GEF context refers to the targeted support provided to countries to strengthen their capacities to meet their commitments under the Rio Conventions and other Multilateral Environment Agreements (MEAs). Capacity development comprises that set of capabilities needed to sustain and strengthen functional environmental management systems at the global level, recognizing that these systems must build upon national governance and management systems. In 2004, Trinidad and Tobago conducted a National Capacity Self-Assessment (NCSA) exercise in order to assess capacity issues, needs and priorities with respect to the country's implementation of the Convention on Biological Diversity (CBD), the United Nations Convention to Combat Desertification (UNCCD), and the United Nations Framework Convention on Climate Change (UNFCCC) (collectively known as the Rio Conventions) along with other aspects of environmental management. The NCSA results indicated that the country's implementation of the Rio Conventions was poor, particularly with regards to the current legislation and policy framework, institutional capacity and primary obligations. Appropriate communication between focal points and stakeholders was also ranked as poor, along with stakeholder awareness and involvement.

The Capacity Development for Improved Management of Multilateral Environmental Agreements for Global Environmental Benefits project that is being implemented by the Ministry of Planning and Development (MPD) aims to strengthen the ability of the Government of the Republic of Trinidad and Tobago (GoRTT) to create, leverage and maintain synergies for the national implementation of MEAs and strengthen integrated approaches to environmental management, including meeting MEAs' guidance and national reporting requirements to increase national and global environmental benefits. The first outcome, of this project will focus on assessing and structuring an improved consultative and decision-making process that effectively integrates global environmental objectives into the existing environmental management framework in Trinidad and Tobago. Under the second outcome, project resources will be used to support activities to better align projects funded by the Green Fund of Trinidad and Tobago (GFTT) with the implementation of MEAs obligations in Trinidad and Tobago; hence contributing to national environmental benefits and by extension to global environmental benefits.

2. Scope of Work

Civil Society Organisations (CSOs) have made a strong contribution to natural resource management in Trinidad and Tobago. This is likely to increase in the future, when considering the environmental issues in the country, including the need to adapt and mitigate climate change. However, the lack of coordination has led to some duplications and sub-optimal impact. This outputs of this consultancy will help develop the capacity of CSOs staff and volunteers to increase their knowledge on MEAs but also their capacity in implementing MEAs obligations in Trinidad and Tobago.

The consultancy will contribute to the fulfilment of the following project aims:

- To result in improved contributions from the CSO sector, faith-based organizations, academia, and private sector to implement MEAs;
- To result in increased quality and quantity of applications for environmental projects submitted by CSOs to the GFTT that contribute to the implementation of MEAs obligations in Trinidad and Tobago.

The scope of this consultancy is to:

- Conduct a mapping exercise of CSOs to increase the understanding of the impacts of the CSOs' existence in the country on the implementation of MEAs, through aggregating the CSOs' activities, analyzing the distribution of activities by the CSOs through mapping their activities; and support coordinated future implementation of MEAs among the CSOs.

- Conduct a capacity assessment of CSOs and statutory bodies that are involved in the implementation of relevant MEA obligations to support the development of their capacity to access project funding from the GFTT. This support will include activities seeking to increase the quality of project proposals submitted to the fund by CSOs in order to increase the implementation of MEAs in Trinidad and Tobago.

The assessment should be participatory, consultative and should recognize the multiple dimensions of capacity and include individual capacity (relevant skills and abilities) and organizational capacity (governance, structures, processes, etc.). It is expected that the assessment will involve broad consultation with CSOs and statutory bodies to help collect and validate information.

MEAs included in this project are:

- Convention on Biological Diversity (CBD);
- United Nations Framework Convention on Climate Change (UNFCCC);
- United Nations Convention to Combat Desertification (UNCCD);
- Cartagena Protocol on Biological Safety;
- Kyoto Protocol;
- Paris Agreement;

The Project Consultant has the following principal responsibilities, as well as other related tasks that the Project Team may identify as necessary for the success of the Project in attaining its objectives:

- Conduct a capacity assessment of CSOs and statutory bodies involved in environmental conservation, remediation, reforestation, conservation, and environmental education and public awareness with specific reference to implementation of relevant MEA obligations. This includes an assessment of the organization's capacity in terms of project/programme planning, implementation, monitoring and evaluation, and financial management, as well as an overview and analysis of the capacity strengths and weaknesses across all CSOs and statutory bodies. The assessment should be well defined to analyze the dynamics that explain present capacity and identify driving forces for change to ensure effectiveness of future capacity development efforts towards the implementation of MEAs;
 - Identify key capacity constraints/gaps, demands and bottlenecks for CSOs and statutory bodies, with respect to alignment of applications with MEA obligations, to access funding from the GFTT;
 - Based on the output of the capacity assessment and gap analysis, identify specific, prioritized institutional capacity development needs of CSOs and statutory bodies to be addressed in order to increase access to funding from the GFTT, and develop a CSO capacity development strategy and action plan to address these needs including opportunities, programmes, and products that will enhance the ability of CSOs to develop projects aligned with MEAs implementation;

6. PROHIBITION ON ASSIGNMENT; MODIFICATIONS

The Individual contractor may not assign, delegate, transfer, pledge or make any other disposition of the Contract, of any part thereof, or of any of the rights, claims or obligations under the Contract except with the prior written authorization of UNDP, and any attempt to do so shall be null and void. The terms or conditions of any supplemental undertakings, licenses or other forms of Contract concerning any goods or services to be provided under the Contract shall not be valid and enforceable against UNDP nor in any way shall constitute a contract by UNDP thereto, unless any such undertakings, licenses or other forms of contract are the subject of a valid written undertaking by UNDP. No modification or change in the Contract shall be valid and enforceable against UNDP unless provided by means of a valid written amendment to the Contract signed by the Individual contractor and an authorized official or appropriate contracting authority of UNDP.

7. SUBCONTRACTORS

In the event that the Individual contractor requires the services of subcontractors to perform any obligations under the Contract, the Individual contractor shall obtain the prior written approval of UNDP for any such subcontractors. UNDP may, in its sole discretion, reject any proposed subcontractor or require such subcontractor's removal without having to give any justification therefore, and such rejection shall not entitle the Individual contractor to claim any delays in the performance, or to assert any excuses for the non-performance, of any of his or her obligations under the Contract. The Individual contractor shall be solely responsible for all services and obligations performed by his or her subcontractors. The terms of any subcontract shall be subject to, and shall be construed in a manner that is fully in accordance with, all of the terms and conditions of the Contract.

8. USE OF NAME, EMBLEM OR OFFICIAL SEAL OF THE UNITED NATIONS

The Individual contractor shall not advertise or otherwise make public for purposes of commercial advantage or goodwill that it has a contractual relationship with UNDP, nor shall the Individual contractor, in any manner whatsoever, use the name, emblem or official seal of UNDP, or any abbreviation of the name of UNDP, in connection with his or her business or otherwise without the written permission of UNDP.

9. INDEMNIFICATION

The Individual contractor shall indemnify, defend, and hold and save harmless UNDP, and its officials, agents and employees, from and against all suits, proceedings, claims, demands, losses and liability of any kind or nature, including, but not limited to, all litigation costs and expenses, attorney's fees, settlement payments and damages, based on, arising from, or relating to: (a) allegations or claims that the use by UNDP of any patented device, any copyrighted material or any other goods or services provided to UNDP for its use under the terms of the Contract, in whole or in part, separately or in combination, constitutes an infringement of any patent, copyright, trademark or other intellectual property right of any third party; or (b) any acts or omissions of the Individual contractor, or of any subcontractor or anyone directly or indirectly employed by them in the performance of the Contract, which give rise to legal liability to anyone not a party to the

Contract, including, without limitation, claims and liability in the nature of a claim for workers' compensation.

10. INSURANCE:

The Individual contractor shall pay UNDP promptly for all loss, destruction or damage to the property of UNDP caused by the Individual contractor, or of any subcontractor, or anyone directly or indirectly employed by them in the performance of the Contract.

The Individual contractor shall be solely responsible for taking out and for maintaining adequate insurance required to meet any of his or her obligations under the Contract, as well as for arranging, at the Individual contractor's sole expense, such life, health and other forms of insurance as the Individual contractor may consider to be appropriate to cover the period during which the Individual contractor provides services under the Contract.

The Individual contractor acknowledges and agrees that none of the insurance arrangements the Individual contractor shall, in any way, be construed to limit the Individual contractor's liability arising under or relating to the Contract.

11. ENCUMBRANCES AND LIENS

The Individual contractor shall not cause or permit any lien, attachment or other encumbrance by any person to be placed on file or to remain on file in any public office or on file with UNDP against any monies due to the Individual contractor or to become due for any work done or against any goods supplied or materials furnished under the Contract, or by reason of any other claim or demand against the Individual contractor.

12. FORCE MAJEURE; OTHER CHANGES IN CONDITIONS

In the event of and as soon as possible after the occurrence of any cause constituting *force majeure*, the Individual contractor shall give notice and full particulars in writing to UNDP of such occurrence or cause if the Individual contractor is thereby rendered unable, wholly or in part, to perform his or her obligations and meet his or her responsibilities under the Contract. The Individual contractor shall also notify UNDP of any other changes in conditions or the occurrence of any event, which interferes or threatens to interfere with the performance of the Contract. Not more than fifteen (15) days following the provision of such notice of *force majeure* or other changes in conditions or occurrence, the Individual contractor shall also submit a statement to UNDP of estimated expenditures that will likely be incurred for the duration of the change in conditions or the event. On receipt of the notice or notices required hereunder, UNDP shall take such action as it considers, in its sole discretion, to be appropriate or necessary in the circumstances, including the granting to the Individual contractor of a reasonable extension of time in which to perform any obligations under the Contract or suspension thereof.

Force majeure as used herein means any unforeseeable and irresistible act of nature, any act of war (whether declared or not), invasion, revolution, insurrection, or any other acts of a similar nature or force, *provided that* such acts arise from causes beyond the control and without the fault or negligence of the Individual contractor. The Individual contractor acknowledges and agrees that, with respect to any obligations under the Contract that the Individual contractor must perform in or for any areas in which UNDP is engaged in, preparing to engage in, or disengaging from any peacekeeping, humanitarian or similar operations, any delay or failure to perform such obligations arising from or relating to harsh conditions within such areas or to any incidents of civil unrest occurring in such areas shall not, in and of itself, constitute *force majeure* under the Contract

13. TERMINATION

Either party may terminate the Contract, in whole or in part, upon giving written notice to the other party. The period of notice shall be five (5) days in the case of contracts for a total period of less than two (2) months and fourteen (14) days in the case of contracts for a longer period. The initiation of conciliation or arbitral proceedings, as provided below, shall not be deemed to be a "cause" for or otherwise to be in itself a termination of the Contract. UNDP may, without prejudice to any other right or remedy available to it, terminate the Contract forthwith in the event that: (a) the Individual contractor is adjudged bankrupt, or is liquidated, or becomes insolvent, applies for moratorium or stay on any payment or repayment obligations, or applies to be declared insolvent; (b) the Individual contractor is granted a moratorium or a stay or is declared insolvent; (c) the Individual contractor makes an assignment for the benefit of one or more of his or her creditors; (d) a Receiver is appointed on account of the insolvency of the Individual contractor; (e) the Individual contractor offers a settlement in lieu of bankruptcy or receivership; or (f) UNDP reasonably determines that the Individual contractor has become subject to a materially adverse change in financial condition that threatens to endanger or otherwise substantially affect the ability of the Individual contractor to perform any of the obligations under the Contract.

In the event of any termination of the Contract, upon receipt of notice of termination by UNDP, the Individual contractor shall, except as may be directed by UNDP in the notice of termination or otherwise in writing: (a) take immediate steps to bring the performance of any obligations under the Contract to a close in a prompt and orderly manner, and in doing so, reduce expenses to a minimum; (b) refrain from undertaking any further or additional commitments under the Contract as of and following the date of receipt of such notice; (c) deliver all completed or partially completed plans, drawings, information and other property that, if the Contract had been completed, would be required to be furnished to UNDP thereunder; (d) complete performance of the services not terminated; and (e) take any other action that may be necessary, or that UNDP may direct in writing, for the protection and preservation of any property, whether tangible or intangible, related to the Contract that is in the possession of the Individual contractor and in which UNDP has or may be reasonably expected to acquire an interest.

In the event of any termination of the Contract, UNDP shall only be liable to pay the Individual contractor compensation on a pro rata basis for no more than the actual amount of work performed to the satisfaction of UNDP in accordance with the requirements of the Contract. Additional costs incurred by UNDP as a result of termination of the Contract by the Individual contractor may be withheld from any amount otherwise due to the Individual contractor by UNDP.

14. NON-EXCLUSIVITY

UNDP shall have no obligation respecting, and no limitations on, its right to obtain goods of the same kind, quality and quantity, or to obtain any services of the kind described in the Contract, from any other source at any time.

15. TAXATION:

Article II, section 7, of the Convention on the Privileges and Immunities of the United Nations provides, *inter alia*, that the United Nations, including its subsidiary organs, is exempt from all direct taxes, except charges for public utility services, and is exempt from customs restrictions, duties and charges of a similar nature in respect of articles imported or exported for its official use. In the event any governmental authority refuses to recognize the exemptions of the United Nations from such taxes, restrictions, duties or charges, the Individual contractor shall

immediately consult with UNDP to determine a mutually acceptable procedure. UNDP shall have no liability for taxes, duties or other similar charges payable by the Individual contractor in respect of any amounts paid to the Individual contractor under this Contract, and the Individual contractor acknowledges that UNDP will not issue any statements of earnings to the Individual contractor in respect of any such payments.

16. AUDITS AND INVESTIGATIONS

Each invoice paid by UNDP shall be subject to a post-payment audit by auditors, whether internal or external, of UNDP or by other authorized and qualified agents of UNDP. The Individual contractor acknowledges and agrees that UNDP may conduct investigations relating to any aspect of the Contract or the award thereof, and the obligations performed thereunder.

The Individual contractor shall provide full and timely cooperation with any post-payment audits or investigations hereunder. Such cooperation shall include, but shall not be limited to, the Individual contractor's obligation to make available any relevant documentation and information for the purposes of a post-payment audit or an investigation at reasonable times and on reasonable conditions. The Individual contractor shall require his or her employees, subcontractors and agents, if any, including, but not limited to, the Individual contractor's attorneys, accountants or other advisers, to reasonably cooperate with any post-payment audits or investigations carried out by UNDP hereunder.

If the findings or circumstances of a post-payment audit or investigation so warrant, UNDP may, in its sole discretion, take any measures that may be appropriate or necessary, including, but not limited to, suspension of the Contract, with no liability whatsoever to UNDP.

The Individual contractor shall refund to UNDP any amounts shown by a post-payment audit or investigation to have been paid by UNDP other than in accordance with the terms and conditions of the Contract. Such amount may be deducted by UNDP from any payment due to the Individual contractor under the Contract.

The right of UNDP to conduct a post-payment audit or an investigation and the Individual contractor's obligation to comply with such shall not lapse upon expiration or prior termination of the Contract.

17. SETTLEMENT OF DISPUTES:

Amicable Settlement: UNDP and the Individual contractor shall use their best efforts to amicably settle any dispute, controversy or claim arising out of the Contract or the breach, termination or invalidity thereof. Where the parties wish to seek such an amicable settlement through conciliation, the conciliation shall take place in accordance with the Conciliation Rules then obtaining of the United Nations Commission on International Trade Law ("UNCITRAL"), or according to such other procedure as may be agreed between the parties in writing.

Arbitration: Any dispute, controversy or claim between the parties arising out of the Contract, or the breach, termination, or invalidity thereof, unless settled amicably, as provided above, shall be referred by either of the parties to arbitration in accordance with the UNCITRAL Arbitration Rules then obtaining. The decisions of the arbitral tribunal shall be based on general principles of international commercial law. For all evidentiary questions, the arbitral tribunal shall be guided by the Supplementary Rules Governing the Presentation and Reception of Evidence in International Commercial Arbitration of the International Bar Association, 28 May 1983 edition. The arbitral tribunal shall be empowered to order the return or destruction of goods or any property, whether tangible or intangible, or of any confidential information provided under the Contract, order the termination of the Contract, or order that any other protective measures be taken with respect to the goods, services or any other property, whether tangible or intangible, or of any confidential information provided under the Contract, as appropriate, all in accordance with

the authority of the arbitral tribunal pursuant to Article 26 (“Interim Measures of Protection”) and Article 32 (“Form and Effect of the Award”) of the UNCITRAL Arbitration Rules. The arbitral tribunal shall have no authority to award punitive damages. In addition, unless otherwise expressly provided in the Contract, the arbitral tribunal shall have no authority to award interest in excess of the London Inter-Bank Offered Rate (“LIBOR”) then prevailing, and any such interest shall be simple interest only. The parties shall be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such dispute, controversy or claim.

18. LIMITATION ON ACTIONS

Except with respect to any indemnification obligations in Article 9, above, or as are otherwise set forth in the Contract, any arbitral proceedings in accordance with Article 17, above, arising out of the Contract must be commenced within three (3) years after the cause of action has accrued.

The Parties further acknowledge and agree that, for these purposes, a cause of action shall accrue when the breach actually occurs, or, in the case of latent defects, when the injured Party knew or should have known all of the essential elements of the cause of action, or in the case of a breach of warranty, when tender of delivery is made, except that, if a warranty extends to future performance of the goods or any process or system and the discovery of the breach consequently must await the time when such goods or other process or system is ready to perform in accordance with the requirements of the Contract, the cause of action accrues when such time of future performance actually begins,

19. PRIVILEGES AND IMMUNITIES

Nothing in or relating to the Contract shall be deemed a waiver, express or implied, of any of the privileges and immunities of the United Nations, including its subsidiary organs.
