TERMS OF REFERENCE

Support to the implementation of the Strategic Plan of the Visitor Center in Radhime

Project:	Improving coverage and effectiveness management of marine and coastal protected areas –phase II
Type of Contract:	Institutional contract
Location:	Vlora, Albania
Duration:	12 months

1. Background and introduction

UNDP has supported the Albanian Government to improve the coverage and management effectiveness of Albania's network of marine and coastal protected areas as an essential complement to its network of terrestrial protected areas, and, contributes to Albania's obligations under different UN Conventions and the EU accession process. Significant achievements were made in the Vlora region by catalyzing the involvement of stakeholders, supporting the establishment of a clear institutional and legal framework for M CPA designation and management. The current project is focused on developing a scientifically designed, stakeholder supported network of MCPAs to effectively protect 30% of representative marine and coastal habitats of Albania.

Among others, the project focus is given to intensifying and strengthening management activities for Karaburun-Sazani MPA, strengthening institutional support and ensuring that relevant authorities, administrations and stakeholder groups have the necessary capacities and tools to sustain the management and monitoring of the MCPAs network. It goes without saying, that multiple stages of development are needed before an Albanian ecologically representative M CPA network is fully realized and can provide coastal communities with sustained benefits from the marine and coastal environment.

One of the project outcomes is to support the functionality of the Visitor Centre of Karaburun-Sazan Marine Park to raise the awareness and educate local communities and MPA user groups on the values and benefits of MCPAs and increase their engagement in the MPA management.

On June 2018 was developed the Strategic Plan for the Visitor Center (SPVC) of Karaburun-Sazan Marine Park in Radhima, Vlora (SPVC). This document has defined the mission and management structure of the Visitor Centre, its financial/ business plan and also includes an environmental education and awareness raising program. The SPVC is conceived to address the needs and

expectations of local communities (Vlora, Orikumi) and other user groups (e.g. tourists, nature-based tourism service providers).

The aim of Action Plan is to shift visitor information provision towards collaboration and on taking information to the visitor, rather than expecting the visitor to come to the information.

Businesses such as visitor attractions, hotels and accommodation, retailers, restaurants, travel agents, transport operators, car rental companies, petrol stations and post offices have an opportunity to increase business and customer satisfaction by providing visitor information as part of their service.

The vision for the Action Plan is in line with the vision of the Visitors Center and further supports the general efforts to position the Marine Protected Area Karaburun-Sazan as a must-visit inclusion for all visitors to the region and nationwide. Similar cases in the Mediterranean have demonstrated that such efforts bring growth in tourism visitation and expenditure, in addition to improved customer sentiment and latent demand for the region's products.
