

Empowered lives.
Resilient nations.

Date: 12th November 2018

ADDENDUM 01 - RESPONSES TO QUESTIONS ASKED DURING SITE VISIT:

ITB-731-18: Renovation of Old Al Danadan Water Treatment Plant-West Mosul-Ninawa Governorate.

Based on the site visit, the following questions were asked and with responses given during the site visit.

All interested potential bidders to note that the bid submission deadline has been extended from 14th November 2018 to 21st November 2018.

Item No:	BIDDER QUESTIONS	UNDP RESPONSES
1 Civil	Is it possible to fill the clarifiers with the debris on the plant site?	The contractor shall remove all debris around the clarifiers to a dump area and then back fill the clarifiers with new layer of clean sub base
2 Civil	Should the underground reservoir back fill?	Upper roof of the reservoir shall be broken and then back filled with layers of clean sub base
3 Mechanical	Should the old pipes, fittings, compressed filters and existing pumps in the lift and low lift be removed?	All old pipes, fittings, compressed filters and pumps shall be removed and transferred to the warehouse of Directorate of Textile Factory, Ninawa Governorate
4 Mechanical	Where would the new compact unit be installed?	The new compact unit shall be installed in the yard near the high lift building on the plant site
5 Electrical	How many transformers are to be repaired and installed?	Two old transformers shall be repaired. One of them to be installed on the plant site and the other one handed over to Directorate of Textile Factory, Ninawa Governorate. Please note one new transformer shall be purchased and installed on the plant as indicated in the BOQ.

This Addendum I form an integral part of the ITB-731/18.

All other Terms and Conditions in this ITB will remain unchanged.

Yours sincerely

Piero Emanuele Franceschetti
