**B. PROJECT DESCRIPTION OR BACKGROUND**

The commercial production of soy, beef and palm oil is a dominant economic force in many national and developing rural economies. Worldwide, the livelihoods of 2.5 billion people depend on agriculture. However, our growing global population, rising incomes and changing diets will continue to increase demand for agricultural commodities and put more pressure on the planet's finite natural resources. Soy, beef and palm oil are considered to be among the biggest drivers of tropical deforestation today. The consequences include losses to habitats and biodiversity, rising carbon dioxide levels which contribute to climate change as well as the degradation of essential ecosystem services such as clean water and fresh air which we depend on for our very survival.

Despite the progress made through standards and supply-chain initiatives, weaknesses in the underlying enabling environment limit change at a larger scale. An effective enabling environment consists of elements such as clear public policies, a well-functioning legal framework, clarity regarding land-use planning, effective enforcement mechanisms, accessible credit structures, and effective farmer extension services. As a result of the absence of these elements, work on commodity sustainability remains less effective than it could be, and costlier and more time-consuming than it should be. Improving the enabling environments will increase the chances of sector-wide

change to sustainable production practices.

UNDP established the Green Commodities Programme (GCP) in 2009 in recognition of the importance of global agricultural commodities and how they contribute to economic, social and environmental sustainability and the need to strengthen UNDP's support and leadership in the field. GCP was initiated with seed funding from UNDP and was tasked to evolve into a global programme supporting UNDP's Strategic Plan, building on almost a decade of GEF-supported projects mainstreaming ecosystem services into productive landscapes. GCP's global targets, objectives and delivery strategies are based on inclusive and sustainable growth and development – combining governments and markets in agriculture through public private partnerships and democratic dialogue processes. GCP's focus on strengthening the livelihoods of smallholder producers within commodity supply chains and reducing environmental footprints, particularly deforestation, through public private partnerships can be key for UNDP's ambitions to reduce poverty, reduce deforestation and engage the private sector in SDGs.

UNDP GCP works to improve the economic, social and environmental performance of agricultural and marine commodity sectors. GCP works within agricultural commodity production in countries of UNDP operation where the programme can have significant impact on rural livelihoods, mitigate climate change, and maintain the ecosystem services and resilience of landscapes and seascapes.

In 2017 implementation began on the GEF-funded Good Growth Partnership (GGP), led by UNDP GCP and carried out in collaboration with Conservation International, the International Finance Corporation, UN Environment, the World Wildlife Fund and the governments of Indonesia, Paraguay, Brazil and Liberia. The GGP is a commodities-focused integrated approach pilot programme, *"Taking Deforestation out of Commodity Supply Chains,"* consisting of 5 GEF-funded child projects working across production, financing, and demand, with coordination and integration of the partnership led by the UNDP GCP through the Adaptive Management and Learning (A&L) project. This programme is advancing an integrated value chain approach to tackling the underlying root causes of deforestation from beef, palm oil, and soy, which together account for nearly 70% of deforestation globally.

Working with a full range of stakeholders, from small-scale producers to national governments and global corporations, the Good Growth Partnership promotes a holistic approach to sustainability that encompasses entire commodity supply chains and looks at where the layers of the supply chain integrate and overlap to enhance financial incentives and demand for sustainably produced agricultural commodities. By combining forces, the Good Growth Partnership aims to provide a model of wide-scale systemic reform that capitalizes on the strengths of each partner.

The GGP Production project, led by UNDP GCP, works to improve the enabling environment for sustainable commodity production through platforms, policy reform, and farmer training and support.

The GGP Demand Project builds on WWF's long history of engaging with corporations and consumers by helping to raise awareness and strengthen demand for sustainably produced beef, palm oil and soy among consumers, policymakers, companies and investors. The project has specific interventions to address the information needs of each of these groups.

The Good Growth Partnership is working with major commodity buyers and traders through learning exchanges, workshops and training to build demand for reduced deforestation commodities. WWF additionally directly engages institutional investors to mobilize collective demand for transparency in Asian palm oil supply chains. WWF also works with key stakeholders to train and disseminate guidelines on best practices for sustainable investment. Consumer awareness-raising efforts focus on major Indonesian cities. This includes campaigning and

engaging national media to promote the link between unsustainable palm oil production and the products consumers regularly buy.

Under the GGP Transactions Project, UN Environment’s Finance Initiative and the International Finance Corporation work closely with banks and related institutions to help make sustainable financing more accessible for businesses, farmers and producers who require additional capital to invest in more environmentally sound practices. It involves identifying, developing and promoting the adoption of financial products such as green bonds and impact investment structures as well as subsidies and co-financing models that support sustainable business practices. The Partnership also works with the finance sector to improve best practices and reduce the risk associated with financing the sustainable commodity sector.

The GGP Brazil project is led by Conservation International, and combines the production, demand, and transactions streams into a single project in that country.

The GGP Adaptive Management & Learning child project supports an active community of practice – the Green Commodities Community – through which practitioners from GGP projects, countries, and partners as well as the broader sustainable commodities community share knowledge and learn from each other. The child project also produces and disseminates knowledge products that meet the needs of its community members. It is currently seeking to produce a knowledge product on gender that will help its community members and gender practitioners at large to better mainstream gender in agricultural commodities supply chains, with a focus on soy, beef and palm oil.

Gender is a priority issue for the GEF and UNDP, and all GGP child projects strive to mainstream gender through their interventions and approaches. In addition, the integrated/supply chain approach of the GGP provides an opportunity to identify where the most effective entry points are for gender in a commodity supply chain, including production, demand, and financing.

At this stage, each target production country (Brazil, Liberia, Indonesia and Paraguay) has completed or is in the process of completing a gender study identifying key challenges for women in the target commodities supply chains, mostly on the production side, as well as recommendations for improved gender mainstreaming in country interventions. A demand-focused gender study has also been carried out with a global focus, and special consideration of the roles that women play throughout the supply chain; no specifically transactions-focused study is planned at this point, however there are significant overlaps with the themes of the work being done under the demand project.

The GGP is thus now seeking a gender consultant to 1) help formulate and obtain a consensus among the GGP partners on a key research question to meet the above needs, 2) research the question, 3) produce a knowledge product, receiving the inputs of the Community of Practice along the way.

**C. PURPOSE**

The purpose of this assignment is to enhance knowledge and disseminate good practices in mainstreaming gender considerations in all aspects of agricultural commodity supply chains.

Though the assignment directly relates to the Good Growth Partnership target commodities (beef, soy, and palm oil) and the target countries (Brazil, Liberia, Indonesia and Paraguay), its findings and final publication will benefit other sustainable commodities projects in other geographies.

The specific topics for the research will be determined with the GGP partners during the course of the consultancy.

#### **D. SCOPE OF WORK**

The assignment will be based upon literature review, consultation with GGP partners, and expert interviews (as needed).

The findings and recommendations will be captured in a final publication which will be disseminated through the GGP-led Green Commodities Community (GCC) and Good Growth Conference (GGC) and made publicly available through the GGP website.

##### Phase 1: Desk Review and Formulation of Research Question

The first phase of work will consist of a preliminary desk review of GGP programme documents and gender analyses, and the preparation of potential research questions. The consultant is expected to engage with the GGP gender working group and other members of the partnership to present the identified research questions; the final question will be selected by this group; the Monitoring, Evaluation, and Learning (MEL) Specialist; and the GGP Global Project Manager.

These documents will include:

- GGP gender strategy
- GGP theory of change
- GGP project briefs
- GGP project log frames
- Gender sections of the GGP project documents
- GGP gender mainstreaming strategy
- GGP gender analyses and action plans from Brazil, Indonesia, Liberia, and Paraguay
- Demand project gender report

##### Phase 2: Draft Knowledge Product

Building on a comprehensive literature review supplemented by interviews of GGP partners and external parties (relevant members of the GCC, and other agricultural commodities supply chain practitioners), a knowledge product will be produced on the topic selected during phase 1.

This knowledge product is expected to be a robust reference document (20 pages max) that:

- outlines the issue,
- extracts and analyzes best practices from other agricultural initiatives case studies where more gender work has already been done,
- derives a set of good practices for practitioners involved in any sustainable commodity supply chains initiatives,
- provides concrete guidance for implementing the recommended good practices in GGP projects and target countries.

##### Phase 3: Validation of Findings

The draft knowledge product will be presented to the GGP Global Project Manager, MEL Specialist, and GCP Senior Advisor for Learning and Impact for a first round of feedback. A subsequent presentation will be made to the gender learning stream of the Green Commodities Community for discussion and validation.

#### Phase 4: Final Publication

Feedback received during the validation phase will be incorporated into the final version of the knowledge product, which will then be subject to final review. There is a possibility that the consultant will be asked to present the final publication at the Good Growth Conference, which is the annual in-person event for the Green Commodities Community.

UNDP's GCP has oversight of this assignment and several partners will need to be consulted to ensure that the final deliverables are agreed and coherent. As outlined below, this assignment will take place in four inter-related phases and the selected contractor will be responsible for working through the following key activities.

However, to the extent that any such intellectual property or other proprietary rights consist of any intellectual property or other proprietary rights of the Individual contractor: (a) that pre-existed the performance by the Individual contractor of its obligations under the Individual Contract, or (b) that the Individual contractor may develop or acquire, or may have developed or acquired, independently of the performance of its obligations under the Individual Contract, UNDP does not and shall not claim any ownership interest thereto, and the Individual contractor grants to UNDP a perpetual license to use such intellectual property or other proprietary right solely for the purposes of and in accordance with the requirements of the Contract. At the request of UNDP, the Individual contractor shall take all necessary steps, execute all necessary documents and generally assist in securing such proprietary rights and transferring or licensing them to UNDP in compliance with the requirements of the applicable law and of the Individual Contract. Subject to the foregoing provisions, all maps, drawings, photographs, mosaics, plans, reports, estimates, recommendations, documents and all other data compiled by or received by the Individual contractor under the Individual Contract shall be the property of UNDP, shall be made available for use or inspection by UNDP at reasonable times and in reasonable places, shall be treated as confidential and shall be delivered only to UNDP authorized officials on completion of work under the Individual Contract.

#### **4. CONFIDENTIAL NATURE OF DOCUMENTS AND INFORMATION**

Information and data that are considered proprietary by either UNDP or the Individual contractor or that are delivered or disclosed by one of them ("Discloser") to the other ("Recipient") during the course of performance of the Individual Contract, and that are designated as confidential ("Information"), shall be held in confidence and shall be handled as follows. The Recipient of such Information shall use the same care and discretion to avoid disclosure, publication or dissemination of the Discloser's Information as it uses with its own similar information that it does not wish to disclose, publish or disseminate, and the Recipient may otherwise use the Discloser's Information solely for the purpose for which it was disclosed.

The Recipient may disclose confidential Information to any other party with the Discloser's prior written consent, as well as to the Recipient's employees, officials, representatives and agents who have a need to know such confidential Information solely for purposes of performing obligations under the Individual Contract. Subject to and without any waiver of the privileges and immunities of UNDP, the Individual contractor may disclose Information to the extent required by law, *provided that* the Individual contractor will give UNDP sufficient prior notice of a request for the disclosure of Information in order to allow UNDP to have a reasonable opportunity to take protective measures or such other action as may be appropriate before any such disclosure is made. UNDP may disclose Information to the extent as required

pursuant to the Charter of the United Nations, resolutions or regulations of the General Assembly or its other governing bodies, or rules promulgated by the Secretary-General. The Recipient shall not be recluded from disclosing Information that is obtained by the Recipient from a third party without restriction, is disclosed by the Discloser to a third party without any obligation of confidentiality, is previously known by the Recipient, or at any time is developed by the Recipient completely independently of any disclosures hereunder. These obligations and restrictions of confidentiality shall be effective during the term of the Individual Contract, including any extension thereof, and, unless otherwise provided in the Individual Contract, shall remain effective following any termination of the Individual Contract.

#### **5. TRAVEL, MEDICAL CLEARANCE AND SERVICE-INCURRED DEATH, INJURY OR ILLNESS**

If the Individual contractor is required by UNDP to travel beyond commuting distance from the Individual contractor's usual place of residence, and upon prior written agreement, such travel shall be at the expense of UNDP. Such travel shall be at economy fare when by air.

UNDP may require the Individual contractor to submit a Statement of Good Health from a recognized physician prior to commencement of work in any offices or premises of UNDP or before engaging in any travel required by UNDP or connected with the performance of the Individual Contract. The Individual contractor shall provide such a Statement of Good Health as soon as practicable following such request, and prior to engaging in any such travel, and the Individual contractor warrants the accuracy of any such Statement, including, but not limited to, confirmation that the Individual contractor has been fully informed regarding the requirements for inoculations for the country or countries to which travel may be authorized.

In the event of the death, injury or illness of the Individual contractor which is attributable to the performance of services on behalf of UNDP under the terms of the Individual Contract while the Individual contractor is traveling at UNDP expense or is performing any services under the Individual Contract in any offices or premises of UNDP, the Individual contractor or the Individual contractor's dependents, as appropriate, shall be entitled to compensation equivalent to that provided

under the UNDP insurance policy, available upon request.

## **6. PROHIBITION ON ASSIGNMENT; MODIFICATIONS**

The Individual contractor may not assign, delegate, transfer, pledge or make any other disposition of the Individual Contract, of any part thereof, or of any of the rights, claims or obligations under the Individual Contract except with the prior written authorization of UNDP, and any attempt to do so shall be null and void. The terms or conditions of any supplemental undertakings, licenses or other forms of Individual Contract concerning any goods or services to be provided under the Individual Contract shall not be valid and enforceable against UNDP nor in any way shall constitute an Individual Contract by UNDP thereto, unless any such undertakings, licenses or other forms of Individual Contract are the subject of a valid written undertaking by UNDP.

No modification or change in the Individual Contract shall be valid and enforceable against UNDP unless provided by means of a valid written amendment to the Individual Contract signed by the Individual contractor and an authorized official or appropriate contracting authority of UNDP.

## **7. SUBCONTRACTORS**

In the event that the Individual contractor requires the services of subcontractors to perform any obligations under the Individual Contract, the Individual contractor shall obtain the prior written approval of UNDP for any such subcontractors. UNDP may, in its sole discretion, reject any proposed subcontractor or require such subcontractor's removal without having to give any justification therefore, and such rejection shall not entitle the Individual contractor to claim any delays in the performance, or to assert any excuses for the non-performance, of any of its obligations under the Individual Contract. The Individual contractor shall be solely responsible for all services and obligations performed by its subcontractors. The terms of any subcontract shall be subject to, and shall be construed in a manner that is fully in accordance with, all of the terms and conditions of the Individual Contract.

## **8. USE OF NAME, EMBLEM OR OFFICIAL SEAL OF THE UNITED NATIONS**

The Individual contractor shall not advertise or otherwise make public for purposes of commercial advantage or goodwill that it has a contractual relationship with UNDP, nor shall the Individual contractor, in any manner whatsoever, use the name, emblem or official seal of UNDP, or any abbreviation of the name of UNDP, in connection with its business or otherwise without the written permission of UNDP.

## **9. INDEMNIFICATION**

The Individual contractor shall indemnify, defend, and hold and save harmless UNDP, and its officials, agents and employees, from and against all suits, proceedings, claims, demands, losses and liability of any kind or nature, including, but not limited to, all litigation costs and expenses, attorney's fees, settlement payments and damages, based on, arising from, or relating to: (a) allegations or claims that the use by UNDP of any patented device, any copyrighted material or any other goods or services provided to UNDP for its use under the terms of the Individual Contract, in whole or in part, separately or in combination, constitutes an infringement of any patent, copyright, trademark or other intellectual property right of any third party; or (b) any acts or omissions of the Individual contractor, or of any subcontractor or anyone directly or indirectly employed by them in the performance of the Individual Contract, which give rise to legal liability to anyone not a party to the Individual Contract, including, without limitation, claims and liability in the nature of a claim for workers' compensation.

## **10. INSURANCE**

The Individual contractor shall pay UNDP promptly for all loss, destruction or damage to the property of UNDP caused by the Individual contractor, or of any subcontractor, or anyone directly or indirectly employed by them in the performance of the Individual Contract. The Individual contractor shall be solely responsible for taking out and for maintaining adequate insurance required to meet any of its obligations under the Individual Contract, as well as for arranging, at the Individual contractor's sole expense, such life, health and other forms of insurance as the Individual contractor may consider to be appropriate to cover the period during which the Individual contractor provides services under the Individual Contract. The Individual contractor acknowledges and agrees that none of the insurance arrangements the Individual contractor may make shall, in any way, be construed to limit the Individual contractor's liability arising under or relating to the Individual Contract.

## **11. ENCUMBRANCES AND LIENS**

The Individual contractor shall not cause or permit any lien, attachment or other encumbrance by any person to be placed

on file or to remain on file in any public office or on file with UNDP against any monies due to the Individual contractor or to become due for any work done or against any goods supplied or materials furnished under the Individual Contract, or by reason of any other claim or demand against the Individual contractor.

## **12. FORCE MAJEURE; OTHER CHANGES IN CONDITIONS**

In the event of and as soon as possible after the occurrence of any cause constituting *force majeure*, the Individual contractor shall give notice and full particulars in writing to UNDP of such occurrence or cause if the Individual contractor is thereby rendered unable, wholly or in part, to perform its obligations and meet its responsibilities under the Individual Contract. The Individual contractor shall also notify UNDP of any other changes in conditions or the occurrence of any event, which interferes or threatens to interfere with its performance of the Individual Contract. Not more than fifteen (15) days following the provision of such notice of *force majeure* or other changes in conditions or occurrence, the Individual contractor shall also submit a statement to UNDP of estimated expenditures that will likely be incurred for the duration of the change in conditions or the event. On receipt of the notice or notices required hereunder, UNDP shall take such action as it considers, in its sole discretion, to be appropriate or necessary in the circumstances, including the granting to the Individual contractor of a reasonable extension of time in which to perform any obligations under the Individual Contract.

If the Individual contractor is rendered permanently unable, wholly or in part, by reason of *force majeure* to perform its obligations and meet its responsibilities under the Individual Contract, UNDP shall have the right to suspend or terminate the Individual Contract on the same terms and conditions as are provided for below, under "Termination", except that the period of notice shall be five (5) days instead of any other period of notice. In any case, UNDP shall be entitled to consider the Individual contractor permanently unable to perform its obligations under the Individual Contract in the case of the Individual contractor's suffering any period of suspension in excess of thirty (30) days.

*Force majeure* as used herein means any unforeseeable and irresistible act of nature, any act of war (whether declared or not), invasion, revolution, insurrection, or any other acts of a similar nature or force, *provided that* such acts arise from causes beyond the control and without the fault or negligence of the Individual contractor. The Individual contractor acknowledges and agrees that, with respect to any obligations under the Individual Contract that the Individual contractor must perform in or for any areas in which UNDP is engaged in, preparing to engage in, or disengaging from any peacekeeping, humanitarian or similar operations, any delay or failure to perform such obligations arising from or relating to harsh conditions within such areas or to any incidents of civil unrest occurring in such areas shall not, in and of itself, constitute *force majeure* under the Individual Contract.

## **13. TERMINATION**

Either party may terminate the Individual Contract, in whole or in part, upon giving written notice to the other party. The period of notice shall be five (5) days in the case of Individual Contracts for a total period of less than two (2) months and fourteen (14) days in the case of contracts for a longer period. The initiation of conciliation or arbitral proceedings, as provided below, shall not be deemed to be a "cause" for or otherwise to be in itself a termination of the Individual Contract.

UNDP may, without prejudice to any other right or remedy available to it, terminate the Individual Contract forthwith in the event that: (a) the Individual contractor is adjudged bankrupt, or is Article II, section 7, of the Convention on the Privileges and Immunities of the United Nations provides, *inter alia*, that the United Nations, including its subsidiary organs, is exempt from all direct taxes, except charges for public utility services, and is exempt from customs restrictions, duties and charges of a similar nature in respect of articles imported or exported for its official use. In the event any governmental authority refuses to recognize the exemptions of the United Nations from such taxes, restrictions, duties or charges, the Individual contractor shall immediately consult with UNDP to determine a mutually acceptable procedure. UNDP shall have no liability for taxes, duties or other similar charges payable by the Individual contractor in respect of any amounts paid to the Individual contractor under this Individual Contract, and the Individual contractor acknowledges that UNDP will not issue any statements of earnings to the Individual contractor in respect of any such payments.

liquidated, or becomes insolvent, applies for moratorium or stay on any payment or repayment obligations, or applies to be declared insolvent; (b) the Individual contractor is granted a moratorium or a stay or is declared insolvent; the Individual contractor makes an assignment for the benefit of one or more of its creditors; (c) a Receiver is appointed on account of the insolvency of the Individual contractor; (d) the Individual contractor offers a settlement in lieu of bankruptcy or receivership; or (e) UNDP reasonably determines that the Individual contractor has become subject to a materially adverse change in its financial condition that threatens to endanger or otherwise substantially affect the ability of the Individual contractor to perform any of its obligations under the Individual Contract.

In the event of any termination of the Individual Contract, upon receipt of notice of termination by UNDP, the Individual

contractor shall, except as may be directed by UNDP in the notice of termination or otherwise in writing: (a) take immediate steps to bring the performance of any obligations under the Individual Contract to a close in a prompt and orderly manner, and in doing so, reduce expenses to a minimum; (b) refrain from undertaking any further or additional commitments under the Individual Contract as of and following the date of receipt of such notice; (c) deliver all completed or partially completed plans, drawings, information and other property that, if the Individual Contract had been completed, would be required to be furnished to UNDP thereunder; (d) complete performance of the work not terminated; and (e) take any other action that may be necessary, or that UNDP may direct in writing, for the protection and preservation of any property, whether tangible or intangible, related to the Individual Contract that is in the possession of the Individual contractor and in which UNDP has or may be reasonably expected to acquire an interest. In the event of any termination of the Individual Contract, UNDP shall only be liable to pay the Individual contractor compensation on a *pro rata* basis for no more than the actual amount of work performed to the satisfaction of UNDP in accordance with the requirements of the Individual Contract. Additional costs incurred by UNDP resulting from the termination of the Individual Contract by the Individual contractor may be withheld from any amount otherwise due to the Individual contractor from UNDP.

#### **14. NON-EXCLUSIVITY**

UNDP shall have no obligation respecting, and no limitations on, its right to obtain goods of the same kind, quality and quantity, or to obtain any services of the kind described in the Individual Contract, from any other source at any time.

#### **15. TAXATION**

Article II, section 7, of the Convention on the Privileges and Immunities of the United Nations provides, *inter alia*, that the United Nations, including its subsidiary organs, is exempt from all direct taxes, except charges for public utility services, and is exempt from customs restrictions, duties and charges of a similar nature in respect of articles imported or exported for its official use. In the event any governmental authority refuses to recognize the exemptions of the United Nations from such taxes, restrictions, duties or charges, the Individual contractor shall immediately consult with UNDP to determine a mutually acceptable procedure. UNDP shall have no liability for taxes, duties or other similar charges payable by the Individual contractor in respect of any amounts paid to the Individual contractor under this Contract, and the Individual contractor acknowledges that UNDP will not issue any statements of earnings to the Individual contractor in respect of any such payments.

#### **16. AUDIT AND INVESTIGATION**

Each invoice paid by UNDP shall be subject to a post-payment audit by auditors, whether internal or external, of UNDP or by other authorized and qualified agents of UNDP at any time during the term of the Individual Contract and for a period of two (2) years following the expiration or prior termination of the Individual Contract. UNDP shall be entitled to a refund from the Individual contractor for any amounts shown by such audits to have been paid by UNDP other than in accordance with the terms and conditions of the Individual Contract.

The Individual contractor acknowledges and agrees that, from time to time, UNDP may conduct investigations relating to any aspect of the Individual Contract or the award thereof, the obligations performed under the Individual Contract, and the operations of the Individual contractor generally relating to performance of the Individual Contract. The right of UNDP to conduct an investigation and the Individual contractor's obligation to comply with such an investigation shall not lapse upon expiration or prior termination of the Individual Contract. The Individual contractor shall provide its full and timely cooperation with any such inspections, post-payment audits or investigations. Such cooperation shall include, but shall not be limited to, the Individual contractor's obligation to make available its personnel and any relevant documentation for such purposes at reasonable times and on reasonable conditions and to grant to UNDP access to the Individual contractor's premises at reasonable times and on reasonable conditions in connection with such access to the Individual contractor's personnel and relevant documentation. The Individual contractor shall require its agents, including, but not limited to, the Individual contractor's attorneys, accountants or other advisers, to reasonably cooperate with any inspections, post-payment audits or investigations carried out by UNDP hereunder.

#### **17. SETTLEMENT OF DISPUTES**

*Amicable Settlement:* UNDP and the Individual contractor shall use their best efforts to amicably settle any dispute, controversy or claim arising out of the Individual Contract or the breach, termination or invalidity thereof. Where the parties wish to seek such an amicable settlement through conciliation, the conciliation shall take place in accordance with the Conciliation Rules then obtaining of the United Nations Commission on International Trade Law ("UNCITRAL"), or according to such other procedure as may be agreed between the parties in writing.

*Arbitration:* Any dispute, controversy or claim between the parties arising out of the Individual Contract, or the breach, termination, or invalidity thereof, unless settled amicably, as provided above, shall be referred by either of the parties to arbitration in accordance with the UNCITRAL Arbitration Rules then obtaining. The decisions of the arbitral tribunal shall be based on general principles of international commercial law. For all evidentiary questions, the arbitral tribunal shall be guided by the Supplementary Rules Governing the Presentation and Reception of Evidence in International Commercial Arbitration of the International Bar Association, 28 May 1983 edition. The arbitral tribunal shall be empowered to order the return or destruction of goods or any property, whether tangible or intangible, or of any confidential information provided under the Individual Contract, order the termination of the Individual Contract, or order that any other protective measures be taken with respect to the goods, services or any other property, whether tangible or intangible, or of any confidential information provided under the Individual Contract, as appropriate, all in accordance with the authority of the arbitral tribunal pursuant to Article 26 ("Interim Measures of Protection") and Article 32 ("Form and Effect of the Award") of the UNCITRAL Arbitration Rules. The arbitral tribunal shall have no authority to award punitive damages. In addition, unless otherwise expressly provided in the Individual Contract, the arbitral tribunal shall have no authority to award interest in excess of the London Inter-Bank Offered Rate ("LIBOR") then prevailing, and any such interest shall be simple interest only. The parties shall be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such dispute, controversy or claim.

#### **18. LIMITATION ON ACTIONS:**

Except with respect to any indemnification obligations in Article 7, above, or as are otherwise set forth in the Individual Contract, any arbitral proceedings in accordance with Article 17 above, arising out of the Individual Contract must be commenced within three years after the cause of action has accrued.

The Parties further acknowledge and agree that, for these purposes, a cause of action shall accrue when the breach actually occurs, or, in the case of latent defects, when the injured Party knew or should have known all of the essential elements of the cause of action, or in the case of a breach of warranty, when tender of delivery is made, except that, if a warranty extends to future performance of the goods or any process or system and the discovery of the breach consequently must await the time when such goods or other process or system is ready to perform in accordance with the requirements of the Individual Contract, the cause of action accrues when such time of future performance actually begins.

#### **19. PRIVILEGES AND IMMUNITIES**

Nothing in or relating to the Individual Contract shall be deemed a waiver, express or implied, of any of the privileges and immunities of the United Nations, including its subsidiary organs.

Offerors who reach a minimum of 49 points and achieve the 3 highest scores after evaluation of technical criteria (items A, B, C, D, E, F and G of Evaluation Matrix), will be considered RESPONSIVE and will continue for interview and the final stage of financial evaluation of proposals.

## **FINANCIAL EVALUATION OF PROPOSALS**

The maximum number of points assigned to the financial proposal is allocated to the lowest price proposal (daily rate offered). All other price proposals receive points in inverse proportion.

$$p = y (\mu/z)$$

Where:

p = points for the financial proposal being evaluated

y = maximum number of points for the financial proposal

$\mu$  = price of the lowest priced proposal

z = price of the proposal being evaluated
