

# UN-CITY auditoriums AV user-interface

This document outlines the principles of user interface for the remote control system.

The system is operated by the in-house technicians only and will be supplemented by direct control of the video matrix system, video processing system, the audio system and individual apparatus.

The final functionality and layout is subject to the approval of the user representative and project management

Single screen presentation shown.

The screenshot shows a control interface for Auditorium 2+3. At the top left is a blue back arrow button labeled "Returns to main". The title "Auditorium 2+3" is centered at the top. Below the title are two buttons: "Side-by-side" (blue) and "Single screen" (green, indicating the current mode). The main interface is divided into six vertical panels: "Light", "S.I.", a blank panel, "Center", "Audio", and "Preview". The "Light" panel has two vertical sliders for "Ceiling" and "Stage", both set to 35%. The "S.I." panel has buttons for "PC 1" (green), "PC 2", "Camera", and "VCON". The "Center" panel has buttons for "PC 1", "PC 2" (green), "Camera", "VCON", "BLANK", and "MUTE". The "Audio" panel has buttons for "PC 1" (green), "PC 2", "VCON", and "MUTE". The "Preview" panel has buttons for "PC 1" (green), "PC 2", "Camera", and "VCON". At the bottom center is a "To Aud. 1" button, and at the bottom right is a green power button icon.
