

UNDP Expression of Interest
EOI/UNDP/PETRA/001/2019 - Programme for Earthquake and Tsunami Infrastructure
Reconstruction Assistance (PETRA)

UNDP Indonesia invites interested companies to apply on the following:

Summary of proposal:

“UNDP is the UN's global development network, an organization advocating for change and connecting countries to knowledge, experience and resources to help people build a better life. We are on the ground in about 170 countries and territories, including Indonesia, working to eradicate poverty while protecting the planet. UNDP supports implementation of the Sustainable Development Goals (SDGs). In Indonesia, UNDP works with the Government to integrate SDGs into national plan and policies.”

In response to the recent Central Sulawesi and NTB earthquakes and tsunami, UNDP has initiated the Sulawesi / Lombok Programme for Earthquake and Tsunami Infrastructure Reconstruction Assistance ('PETRA' in short) to support the Government of Indonesia's Rehabilitation and Reconstruction programmes in the two Provinces.

The ultimate goal of PETRA is to contribute to the rehabilitation and reconstruction of key infrastructure to support the resilient recovery of disaster-affected communities in both provinces. It addresses the need to accelerate the restoration of critical public services (such as health and education), improve economic livelihood opportunities for affected communities, while, at the same time, enhancing resilience to future shocks in both provinces. It will be guided and informed by the post-disaster needs assessments and will be fully aligned with relevant national and sub-national recovery plans.

UNDP Indonesia is planning to identify suitable service providers to be contracted between 2019 and 2022, in Central Sulawesi and NTB in the following areas and invites eligible International or national civil work contractors to indicate their Expression of Interest for the following civil work activities in the above Provinces:

- Facilitating an Environmental Impact Assessment and Social Safeguards;
- Developing detailed engineering designs;
- Tender documents;
- Construction supervision;
- Construction;

Outputs:

PETRA will deliver two outputs, namely: (a) Rehabilitation and reconstruction of partially and fully damaged infrastructure for critical public services; and (b) Rehabilitation of

affected communities' economic infrastructure to promote more resilient and sustainable livelihoods. PETRA will rehabilitate and/or construct: integrated waste management facility in Palu; waste facility Dongola; hospitals; health centers; schools; roads; irrigation systems; and government buildings.
