BUILDING CAPACITY OF SLOVAK COMPANIES AND NATIONAL STAKEHOLDERS FOR STRONGER PRIVATE SECTOR ENGAGEMENT IN SLOVAKIA'S ODA

PROJECT DETAILS

Project title and ID: UNDP-Slovakia Partnership: Effective Development Cooperation Solutions for the SDGs; 00111827

Output 1: Creating an enabling environment for Slovak private companies to contribute to Slovakia's international development cooperation

- <u>Activity Result 1:</u> The capacity of Slovak companies and other relevant national stakeholders that can contribute to the engagement of the private sector in Slovakia's ODA is strengthened.
- <u>Activity Result 2:</u> New programmatic tools for engaging private sector in development cooperation through a shared-value approach are piloted (Private Sector Facility)

Donor: Ministry of Foreign and European Affairs of the Slovak Republic (MFEA SR)

BACKGROUND

Engaging private sector in development cooperation is a globally recognized priority, as emphasized in the Addis Ababa Agenda for Action, and as called for in the Agenda 2030 for Sustainable Development. Traditional and emerging donors alike, as well as the international financial institutions (IFIs) are increasingly focusing on opportunities to collaborate with private sector investors to create a leverage effect and to ensure long-term sustainability of development assistance.

Slovakia too is looking at increased involvement of the private sector in development cooperation as a way of contributing to job creation, domestic resource mobilization and economic growth in developing countries, and to reduce the poverty in beneficiary countries. Private sector engagement is featured in the Slovak Medium-Term Strategy for Development Cooperation 2014 – 2018, and it will form a prominent part in the new strategy that is currently under development. Slovakia has already dedicated some efforts to incentivize private sector involvement in development cooperation, through several initiatives, including the Business Partnership Programme ran by Slovak Agency for International Development Cooperation (further referred to as the SlovakAid agency), and the so called 'Rozvojmajstri'² programme (RM) run by the Ministry of Finance of the Slovak Republic (MF SR) in cooperation with UNDP. Several results were achieved as part of these initiatives: some initial pilots on private sector development in beneficiary countries have been tested (through small grants and feasibility studies preparation support), Slovak companies have received mentoring, training and networking support to increase their competitiveness in bidding for IFI projects on topics relevant to Slovakia's ODA policy, and some seed funding for identifying opportunities for engagement and preparing feasibility studies/building an investment case for Slovak companies' engagement in development initiatives.

² Rozvojmajtsri has been initially implemented within the joint MF SR, MFEA SR (Slovak Ministry of Foreign and European Affairs) and UNDP partnership project (2014-2018). More information is available at www.rozvojmajstri.com.

Having said the above, capacity and/or interest of the private sector, including the Slovak, in terms of becoming the inherent stakeholder in development cooperation is still rather limited, due to low awareness on opportunities, missing experiences in international tenders, but also low trust in fairness of procurement processes.³ To address that, and building on the results already achieved in this field, one of the components of the "UNDP-Slovakia Partnership: Effective Development Cooperation Solutions" project, 2018-2021, focuses on 'creating an enabling environment for Slovak private companies to contribute to Slovakia's international development cooperation' — Private sector engagement (PSE), through piloting new ODA programming modalities capitalizing on additional financial and non-financial resources from the private sector.

PSE is to be supported via two, mutually related, sets of activities / services:

Activity Result 1: The capacity of Slovak companies and other relevant national stakeholders that can contribute to the engagement of the private sector in Slovakia's ODA is strengthened.

- Design and implement activities rising awareness, visibility and capacity of Slovak business entities, MFEA SR, SlovakAid agency and other stakeholder of Slovak ODA on tools, opportunities and modalities for Slovak companies to participate in development aid frameworks and procedures, with a special focus on EU development programmes.

Activity Result 2: New programmatic tools for engaging private sector in development cooperation through a shared-value approach are piloted

Project will design and implement the so called Private Sector Engagement Facility (PSEF), inviting the private sector to co-design, co-finance and implement joint projects transferring Slovak expertise and innovative solutions for SDGs to partner countries, as well as to share inkind and financial resources, risks and responsibilities. Its main objective is to increase development impact, mobilize resources, and by doing so help companies enhance their core business. Projects shall focus on the following thematic priorities, namely water and waste management, energy efficiency, agriculture; with the geographic focus on Western Balkan countries and Moldova.

OBJECTIVES

The overall goal of involving Slovak private sector to development cooperation is the mobilization of private financial resources, knowledge, expertise and technologies that have the potential to support achievement of the SDGs.

Specific objectives of the assignment are:

- 1. Capacity building and awareness raising of the Slovak private sector for their engagement in development cooperation
- 2. Awareness rising, visibility and advisory services especially to MFEA SR and other 'Slovak ODA' institutions, and UNDP, to strengthen their ability to better engage the Slovak private sector in development cooperation
- 3. Support to Private Sector Engagement Facility (PSEF)

Selected applicant is expected to respond to the following capacity development needs identified after consultations with the MFEA SR:

³ Proclamation based on businesses declarations during the RM implementation in 2015-2016.

- Additional capacity building and awareness raising events focused on the opportunities for Slovak business sector to transfer their transition experience and sectoral expertise to developing and emerging markets as defined in the list of Slovak development aid partner countries;
- Policy advocacy and capacity building among Slovak companies towards increased participation in EU procurement procedures with the aim to generate success stories and increase trust of Slovak business community in the system;
- Capacity building and coaching for Slovak companies on including sustainability in their business practices;
- Promotion of networking of Slovak companies and other stakeholders, including CSOs and NGOs already active in the partner countries;
- Proactive and on-demand advisory to MFEA SR on the actions required to support private sector engagement in EU development aid frameworks and procedures;
- Proactive and on-demand advisory to the UNDP and MFEA SR on the actions required to
 mobilize private sector funding including in cooperation with CSOs (alternative sources of
 financing) for maximizing the impact of Slovakia-sponsored development initiatives that are
 implemented wholly or partially through the UNDP;
- Coaching and capacity building of the MFEA respective staff via tailor-made trainings, with special focus on economic diplomats;
- Packaging the overall Rozvojmajstri experience and offering it through UNDP or SlovakAid as part of Slovakia's knowledge transfer to other emerging donors.

Overall capacity development efforts will be directed towards **involvement with the European Union (EU)** development policy and towards strengthened ability of Slovak private sector to participate in utilization of European Union development instruments, focusing especially at the Instrument for Pre-Accession Assistance, IPA and the European Neighborhood Instrument, ENI.

To make this assistance for PSE as effective as possible, it will ideally build up on and use the results of the existing 'Rozvojmajstri' initiative, supported by MF SR. Key results of the RM programme, established in 2015 are:

- Existing and utilized tools for engaging private sector in development, such as RM website, https://rozvojmajstri.com/, presenting the virtual platform for companies and experts willing and able to participate in development business, Business Readiness Checklist, https://rozvojmajstri.com/#checklist list of minimal readiness criteria the company must comply with in order to be supported by RM; Slovak Development Business Portfolio, https://rozvojmajstri.com/#partners currently containing portfolio of 30 Slovak companies already active or interested to enter the global development market place;
- At least 40 companies coached in several aspects of development cooperation, such as identification of priority thematic areas in Slovak ODA programme countries, finding local partners in programme countries, IFIs / IGOs financing opportunities and procedures, and tenders' documents preparation
- At least 15 companies entered the tenders of IFIs such as CEB, EBRD, WB / IFC, with 5 tenders with Slovak companies succeeding:
- Helped prepare and launch Slovak Technical Assistance (TA) Fund with the International Investment Bank and mobilize the market toward several TA assignments for the benefit of Slovak suppliers and investors in Cuba, Mongolia and Vietnam
- Helped prepare and launch Resource Mobilization Facility under the UNDP, facilitated project
 development with country offices in BiH, Montenegro and Serbia, mobilized Slovak companies
 into participating in the ensuing tenders for consultants, resulting in 3 Slovak entities, 1
 Czechoslovak consortium and 1 Croatian entity being contracted by UNDP and 3 Slovak
 investors expressing interest to finance UNDP's investments in the region in the amount of up
 to 20 million USD

- Enlisting 9 municipalities in BiH and 2 municipalities in Montenegro for partnership with UNDP within the RMF
- Several policy papers for the Slovak Ministry of Finance prepared, demonstrating the leverage
 effect options for Slovak ODA contributions and expert assistance to Eximbanka SR with
 preparation for EU DG DEVCO's pillar assessment that will leverage further funds, including for
 the partnership with the UNDP
- Facilitated approval by the EU DG NEAR of 1.8 million USD for UNDP's Ukraine office toward covering their costs related to implementing EIB's loan facility for reconstruction of conflictaffected regions under control of Ukraine government

•

Besides the fact that Rozvojmajstri already has a well-established system for private companies' capacity development and networking, such arrangement would facilitate closer cooperation among the MFEA SR and MF SR. Need for better coordination and cooperation among the ministries involved in Slovak ODA was highlighted by the "OECD DAC REVIEW OF THE DEVELOPMENT CO-OPERATION POLICIES AND PROGRAMMES OF THE SLOVAK REPUBLIC", conducted in September 2018.
