- 10.2 UNDP shall endeavor to provide such responses to clarifications in an expeditious manner, but any delay in such response shall not cause an obligation on the part of UNDP to extend the submission date of the Proposals, unless UNDP deems that such an extension is justified and necessary.

11. Amendment of Proposals

- 11.1 At any time prior to the deadline of Proposal submission, UNDP may for any reason, such as in response to a clarification requested by a Proposer, modify the RFP in the form of a Supplemental Information to the RFP. All prospective Proposers will be notified in writing of all changes/amendments and additional instructions through Supplemental Information to the RFP and through the method specified in the **Data Sheet** (DS No. 18).
- 11.2 In order to afford prospective Proposers reasonable time to consider the amendments in preparing their Proposals, UNDP may, at its discretion, extend the deadline for submission of Proposals, if the nature of the amendment to the RFP justifies such an extension.

C. PREPARATION OF PROPOSALS

12. Cost

The Proposer shall bear any and all costs related to the preparation and/or submission of the Proposal, regardless of whether its Proposal was selected or not. UNDP shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the procurement process.

13. Language

The Proposal, as well as any and all related correspondence exchanged by the Proposer and UNDP, shall be written in the language (s) specified in the **Data Sheet** (DS No 4). Any printed literature furnished by the Proposer written in a language other than the language indicated in the **Data Sheet**, must be accompanied by a translation in the preferred language indicated in the **Data Sheet**. For purposes of interpretation of the Proposal, and in the event of discrepancy or inconsistency in meaning, the version translated into the preferred language shall govern. Upon conclusion of a contract, the language of the contract shall govern the relationship between the contractor and UNDP.

14. Proposal Submission Form

The Proposer shall submit the Proposal Submission Form using the form provided in Section 4 of

this RFP.

15. Technical Proposal Format and Content

Unless otherwise stated in the **Data Sheet** (DS no. 28), the Proposer shall structure the Technical Proposal as follows:

- 15.1 Expertise of Firm/Organization – this section should provide details regarding management structure of the organization, organizational capability/resources, and experience of organization/firm, the list of projects/contracts (both completed and on-going, both domestic and international) which are related or similar in nature to the requirements of the RFP, and proof of financial stability and adequacy of resources to complete the services required by the RFP (see RFP clause 18 and DS No. 26 for further details). The same shall apply to any other entity participating in the RFP as a Joint Venture or Consortium.
- 15.2 Proposed Methodology, Approach and Implementation Plan – this section should demonstrate the Proposer's response to the Terms of Reference by identifying the specific components proposed, how the requirements shall be addressed, as specified, point by point; providing a detailed description of the essential performance characteristics proposed; identifying the works/portions of the work that will be subcontracted; and demonstrating how the proposed methodology meets or exceeds the specifications, while ensuring appropriateness of the approach to the local conditions and the rest of the project operating environment. This methodology must be laid out in an implementation timetable that is within the duration of the contract as specified in the **Data Sheet** (DS nos. 29 and 30).

Proposers must be fully aware that the products or services that UNDP requires may be transferred, immediately or eventually, by UNDP to the Government partners, or to an entity nominated by the latter, in accordance with UNDP's policies and procedures. All proposers are therefore required to submit the following in their proposals :

- a) A statement of whether any import or export licences are required in respect of the goods to be purchased or services to be rendered, including any restrictions in the country of origin, use or dual use nature of the goods or services, including any disposition to end users; and
 - b) Confirmation that the Proposer has obtained license of this nature in the past, and have an expectation of obtaining all the necessary licenses, should their Proposal be rendered the most responsive.
- 15.3 Management Structure and Key Personnel – This section should include the comprehensive curriculum vitae (CVs) of key personnel that will be assigned to support the implementation of the proposed methodology, clearly defining the roles and responsibilities vis-à-vis the proposed methodology. CVs should establish competence and demonstrate qualifications in areas relevant to the TOR.

In complying with this section, the Proposer assures and confirms to UNDP that the personnel being nominated are available for the Contract on the dates proposed. If any of

the key personnel later becomes unavailable, except for unavoidable reasons such as death or medical incapacity, among other possibilities, UNDP reserves the right to consider the proposal non-responsive. Any deliberate substitution arising from unavoidable reasons, including delay in the implementation of the project of programme through no fault of the Proposer shall be made only with UNDP's acceptance of the justification for substitution, and UNDP's approval of the qualification of the replacement who shall be either of equal or superior credentials as the one being replaced.

15.4 Where the **Data Sheet** requires the submission of the Proposal Security, the Proposal Security shall be included along with the Technical Proposal. The Proposal Security may be forfeited by UNDP, and reject the Proposal, in the event of any or any combination of the following conditions:

- a) If the Proposer withdraws its offer during the period of the Proposal Validity specified in the **Data Sheet** (DS no. 11), or;
- b) If the Proposal Security amount is found to be less than what is required by UNDP as indicated in the **Data Sheet** (DS no. 9), or;
- c) In the case the successful Proposer fails:
 - i. to sign the Contract after UNDP has awarded it;
 - ii. to comply with UNDP's variation of requirement, as per RFP clause 35; or
 - iii. to furnish Performance Security, insurances, or other documents that UNDP may require as a condition to rendering the effectivity of the contract that may be awarded to the Proposer.

16. Financial Proposals

The Financial Proposal shall be prepared using the attached standard form (Section 7). It shall list all major cost components associated with the services, and the detailed breakdown of such costs. All outputs and activities described in the Technical Proposal must be priced separately on a one-to-one correspondence. Any output and activities described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, as well as in the final total price.

17. Currencies

All prices shall be quoted in the currency indicated in the **Data Sheet** (DS no. 15). However, where Proposals are quoted in different currencies, for the purposes of comparison of all Proposals:

- a) UNDP will convert the currency quoted in the Proposal into the UNDP preferred currency, in accordance with the prevailing UN operational rate of exchange on the last day of submission of Proposals; and
- b) In the event that the proposal found to be the most responsive to the RFP requirement is quoted in another currency different from the preferred currency as per **Data Sheet** (DS no. 15), then UNDP shall reserve the right to award the contract in the currency of UNDP's preference, using the conversion method specified above.

18. Documents Establishing the Eligibility and Qualifications of the Proposer

18.1 The Proposer shall furnish documentary evidence of its status as an eligible and qualified vendor, using the forms provided under Section 5, Proposer Information Forms. In order to award a contract to a Proposer, its qualifications must be documented to UNDP's satisfaction. These include, but are not limited to, the following:

- a) That, in the case of a Proposer offering to supply goods under the Contract which the Proposer did not manufacture or otherwise produce, the Proposer has been duly authorized by the goods' manufacturer or producer to supply the goods in the country of final destination;
- b) That the Proposer has the financial, technical, and production capability necessary to perform the Contract; and
- c) That, to the best of the Proposer's knowledge, it is not included in the UN 1267/1989 List or the UN Ineligibility List, nor in any and all of UNDP's list of suspended and removed vendors.

18.2 Proposals submitted by two (2) or more Proposers shall all be rejected if they are found to have any of the following:

- a) they have at least one controlling partner, director or shareholder in common; or
- b) any one of them receive or have received any direct or indirect subsidy from the other/s; or
- c) they have the same legal representative for purposes of this RFP; or
- d) they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about, or influence on the Proposal of, another Proposer regarding this RFP process;
- e) they are subcontractors to each other's Proposal, or a subcontractor to one Proposal also submits another Proposal under its name as lead Proposer; or
- f) an expert proposed to be in the team of one Proposer participates in more than one Proposal received for this RFP process. This condition does not apply to subcontractors being included in more than one Proposal.

19. Joint Venture, Consortium or Association

If the Proposer is a group of legal entities that will form or have formed a joint venture, consortium or association at the time of the submission of the Proposal, they shall confirm in their Proposal that : (i) they have designated one party to act as a lead entity, duly vested with authority to legally bind the members of the joint venture jointly and severally, and this shall be duly evidenced by a duly notarized Agreement among the legal entities, which shall be submitted along with the Proposal; and (ii) if they are awarded the contract, the contract shall be entered into, by and between UNDP and the designated lead entity, who shall be acting for and on behalf of all the member entities comprising the joint venture.

After the Proposal has been submitted to UNDP, the lead entity identified to represent the joint venture shall not be altered without the prior written consent of UNDP. Furthermore, neither the lead entity nor the member entities of the joint venture can:

- a) Submit another proposal, either in its own capacity; nor
- b) As a lead entity or a member entity for another joint venture submitting another

Proposal.

The description of the organization of the joint venture/consortium/association must clearly define the expected role of each of the entity in the joint venture in delivering the requirements of the RFP, both in the Proposal and the Joint Venture Agreement. All entities that comprise the joint venture shall be subject to the eligibility and qualification assessment by UNDP.

Where a joint venture is presenting its track record and experience in a similar undertaking as those required in the RFP, it should present such information in the following manner:

- a) Those that were undertaken together by the joint venture; and
- b) Those that were undertaken by the individual entities of the joint venture expected to be involved in the performance of the services defined in the RFP.

Previous contracts completed by individual experts working privately but who are permanently or were temporarily associated with any of the member firms cannot be claimed as the experience of the joint venture or those of its members, but should only be claimed by the individual experts themselves in their presentation of their individual credentials.

If a joint venture's Proposal is determined by UNDP as the most responsive Proposal that offers the best value for money, UNDP shall award the contract to the joint venture, in the name of its designated lead entity. The lead entity shall sign the contract for and on behalf of all other member entities.

20. Alternative Proposals

Unless otherwise specified in the **Data Sheet** (DS nos. 5 and 6), alternative proposals shall not be considered. Where the conditions for its acceptance are met, or justifications are clearly established, UNDP reserves the right to award a contract based on an alternative proposal.

21. Validity Period

Proposals shall remain valid for the period specified in the **Data Sheet** (DS no. 8), commencing on the submission deadline date also indicated in the **Data Sheet** (DS no. 21). A Proposal valid for a shorter period shall be immediately rejected by UNDP and rendered non-responsive.

In exceptional circumstances, prior to the expiration of the proposal validity period, UNDP may request Proposers to extend the period of validity of their Proposals. The request and the responses shall be made in writing, and shall be considered integral to the Proposal.

22. Proposer's Conference

When appropriate, a proposer's conference will be conducted at the date, time and location specified in the **Data Sheet** (DS no. 7). All Proposers are encouraged to attend. Non-attendance, however, shall not result in disqualification of an interested Proposer. Minutes of the proposer's conference will be either posted on the UNDP website, or disseminated to the individual firms who have registered or expressed interest with the contract, whether or not they attended the conference. No verbal statement made during the conference shall modify

the terms and conditions of the RFP unless such statement is specifically written in the Minutes of the Conference or issued/posted as an amendment in the form of a Supplemental Information to the RFP.

D. SUBMISSION AND OPENING OF PROPOSALS

23. Submission

- 23.1 The Financial Proposal and the Technical Proposal Envelopes MUST BE COMPLETELY SEPARATE and each of them must be submitted sealed individually and clearly marked on the outside as either "TECHNICAL PROPOSAL" or "FINANCIAL PROPOSAL", as appropriate. When the Proposals are expected to be in transit for more than 24 hours, the Proposer must ensure that sufficient lead time has been provided in order to comply with UNDP's deadline for submission. UNDP shall indicate for its record that the official date and time of receiving the Proposal is the actual date and time when the said Proposal has physically arrived at the UNDP premises indicated in the **Data Sheet** (DS no. 20).
- 23.3 Proposers submitting Proposals by mail or by hand shall enclose the original and each copy of the Proposal, in separate sealed envelopes, duly marking each of the envelopes as "Original Proposal" and "Copy of Proposal" as appropriate. The 2 envelopes shall then be sealed in an outer envelope. The number of copies required shall be as specified in the **Data Sheet** (DS No. 19). In the event of any discrepancy between the contents of the "Original Proposal" and the "Copy of Proposal", the contents of the original shall govern. The original version of the Proposal shall be signed or initialed by the Proposer or person(s) duly authorized to commit the Proposer on every page. The authorization shall be communicated through a document evidencing such authorization issued by the highest official of the firm, or a Power of Attorney, accompanying the Proposal.
- 23.4 Proposers must be aware that the mere act of submission of a Proposal, in and of itself, implies that the Proposer accepts the General Contract Terms and Conditions of UNDP as attached hereto as Section 9.

24. Deadline for Submission of Proposals and Late Proposals

Proposals must be received by UNDP at the address and no later than the date and time specified in the **Data Sheet** (DS nos. 20 and 21).

UNDP shall not consider any Proposal that arrives after the deadline for submission of Proposals. Any Proposal received by UNDP after the deadline for submission of Proposals shall be declared late, rejected, and returned unopened to the Proposer.

25. Withdrawal, Substitution, and Modification of Proposals

- 25.1 Proposers are expected to have sole responsibility for taking steps to carefully examine in detail the full consistency of its Proposals to the requirements of the RFP, keeping in mind that material deficiencies in providing information requested by UNDP, or lack clarity in the description of services to be provided, may result in the rejection of the Proposal. The Proposer shall assume the responsibility regarding erroneous interpretations or conclusions made by the Proposer in the course of understanding the RFP out of the set of information furnished by UNDP.
- 25.2 A Proposer may withdraw, substitute or modify its Proposal after it has been submitted by sending a written notice in accordance with Clause 23.1, duly signed by an authorized representative, and shall include a copy of the authorization (or a Power of Attorney). The corresponding substitution or modification of the Proposal must accompany the respective written notice. All notices must be received by UNDP prior to the deadline for submission and submitted in accordance with RFP Clause 23.1 (except that withdrawal notices do not require copies). The respective envelopes shall be clearly marked "WITHDRAWAL," "SUBSTITUTION," or "MODIFICATION".
- 25.3 Proposals requested to be withdrawn shall be returned unopened to the Proposers.
- 25.4 No Proposal may be withdrawn, substituted, or modified in the interval between the deadline for submission of Proposals and the expiration of the period of proposal validity specified by the Proposer on the Proposal Submission Form or any extension thereof.

26. Proposal Opening

UNDP will open the Proposals in the presence of an ad-hoc committee formed by UNDP of at least two (2) members. If electronic submission is permitted, any specific electronic proposal opening procedures shall be as specified in the **Data Sheet** (DS no. 23).

The Proposers' names, modifications, withdrawals, the condition of the envelope labels/seals, the number of folders/files and all other such other details as UNDP may consider appropriate, will be announced at the opening. No Proposal shall be rejected at the opening stage, except for late submission, for which the Proposal shall be returned unopened to the Proposer.

27. Confidentiality

Information relating to the examination, evaluation, and comparison of Proposals, and the recommendation of contract award, shall not be disclosed to Proposers or any other persons not officially concerned with such process, even after publication of the contract award.

Any effort by a Proposer to influence UNDP in the examination, evaluation and comparison of

the Proposals or contract award decisions may, at UNDP's decision, result in the rejection of its Proposal.

In the event that a Proposer is unsuccessful, the Proposer may seek a meeting with UNDP for a debriefing. The purpose of the debriefing is discussing the strengths and weaknesses of the Proposer's submission, in order to assist the Proposer in improving the proposals presented to UNDP. The content of other proposals and how they compare to the Proposer's submission shall not be discussed.

E. EVALUATION OF PROPOSALS

28. Preliminary Examination of Proposals

UNDP shall examine the Proposals to determine whether they are complete with respect to minimum documentary requirements, whether the documents have been properly signed, whether or not the Proposer is in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's list of suspended and removed vendors, and whether the Proposals are generally in order, among other indicators that may be used at this stage. UNDP may reject any Proposal at this stage.

29. Evaluation of Proposals

29.1 UNDP shall examine the Proposal to confirm that all terms and conditions under the UNDP General Terms and Conditions and Special Conditions have been accepted by the Proposer without any deviation or reservation.

29.2 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other documentation provided, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet** (DS no. 32). Each responsive Proposal will be given a technical score. A Proposal shall be rendered non-responsive at this stage if it does not substantially respond to the RFP particularly the demands of the Terms of Reference, which also means that it fails to achieve the minimum technical score indicated in the **Data Sheet** (DS no. 25). Absolutely no changes may be made by UNDP in the criteria, sub-criteria and point system indicated in the **Data Sheet** (DS no. 32) after all Proposals have been received.

29.3 In the second stage, only the Financial Proposals of those Proposers who achieve the minimum technical score will be opened for evaluation for comparison and review. The Financial Proposal Envelopes corresponding to Proposals that did not meet the minimum passing technical score shall be returned to the Proposer unopened. The overall evaluation score will be based either on a combination of the technical score and the financial offer, or the lowest evaluated financial proposal of the technically qualified Proposers. The evaluation method that applies for this RFP shall be as indicated in the **Data Sheet** (DS No. 25).

When the Data Sheet specifies a combined scoring method, the formula for the rating of the

Proposals will be as follows:

Rating the Technical Proposal (TP):

$$\text{TP Rating} = (\text{Total Score Obtained by the Offer} / \text{Max. Obtainable Score for TP}) \times 100$$

Rating the Financial Proposal (FP):

$$\text{FP Rating} = (\text{Lowest Priced Offer} / \text{Price of the Offer Being Reviewed}) \times 100$$

Total Combined Score:

$$(\text{TP Rating}) \times (\text{Weight of TP, e.g. 70\%})$$

$$+ (\text{FP Rating}) \times (\text{Weight of FP, e.g., 30\%})$$

Total Combined and Final Rating of the Proposal

29.4 UNDP reserves the right to undertake a post-qualification exercise aimed at determining, to its satisfaction the validity of the information provided by the Proposer. Such post-qualification shall be fully documented and, among those that may be listed in the **Data Sheet** (DS No.33), may include, but need not be limited to, all or any combination of the following :

- a) Verification of accuracy, correctness and authenticity of information provided by the Proposer on the legal, technical and financial documents submitted;
- b) Validation of extent of compliance to the RFP requirements and evaluation criteria based on what has so far been found by the evaluation team;
- c) Inquiry and reference checking with Government entities with jurisdiction on the Proposer, or any other entity that may have done business with the Proposer;
- d) Inquiry and reference checking with other previous clients on the quality of performance on ongoing or previous contracts completed;
- e) Physical inspection of the Proposer's offices, branches or other places where business transpires, with or without notice to the Proposer;
- f) Quality assessment of ongoing and completed outputs, works and activities similar to the requirements of UNDP, where available; and
- g) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.

30. Clarification of Proposals

To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Proposer for a clarification of its Proposal.

UNDP's request for clarification and the response shall be in writing. Notwithstanding the written communication, no change in the prices or substance of the Proposal shall be sought,

offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP Clause 32.

Any unsolicited clarification submitted by a Proposer in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.

31. Responsiveness of Proposal

UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself.

A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.

If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Proposer by correction of the material deviation, reservation, or omission.

32. Nonconformities, Reparable Errors and Omissions

Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.

Provided that a Proposal is substantially responsive, UNDP may request the Proposer to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Proposer to comply with the request may result in the rejection of its Proposal.

Provided that the Proposal is substantially responsive, UNDP shall correct arithmetical errors as follows:

- a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price, in which case the line item total as quoted shall govern and the unit price shall be corrected;
- b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail, and the total shall be corrected; and
- c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to the above.

If the Proposer does not accept the correction of errors made by UNDP, its Proposal shall be rejected.

F. AWARD OF CONTRACT

33. Right to Accept, Reject, or Render Non-Responsive Any or All Proposals

UNDP reserves the right to accept or reject any Proposal, to render any or all of the Proposals as non-responsive, and to reject all Proposals at any time prior to award of contract, without incurring any liability, or obligation to inform the affected Proposer(s) of the grounds for UNDP's action. Furthermore, UNDP shall not be obliged to award the contract to the lowest price offer.

UNDP shall also verify, and immediately reject their respective Proposal, if the Proposers are found to appear in the UN's Consolidated List of Individuals and Entities with Association to Terrorist Organizations, in the List of Vendors Suspended or Removed from the UN Secretariat Procurement Division Vendor Roster, the UN Ineligibility List, and other such lists that as may be established or recognized by UNDP policy on Vendor Sanctions. (See http://www.undp.org/content/undp/en/home/operations/procurement/procurement_protest/ for details)

34. Award Criteria

Prior to expiration of the period of proposal validity, UNDP shall award the contract to the qualified Proposer with the highest total score based on the evaluation method indicated in the **Data Sheet** (DS nos. 25 and 32).

35. Right to Vary Requirements at the Time of Award

At the time of award of Contract, UNDP reserves the right to vary the quantity of services and/or goods, by up to a maximum twenty-five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.

36. Contract Signature

Within seven (7) days from the date of receipt of the Contract, the successful Proposer shall sign and date the Contract and return it to UNDP.

Failure of the successful Proposer to comply with the requirement of RFP Clause 35 and this provision shall constitute sufficient grounds for the annulment of the award, and forfeiture of the Proposal Security if any, and on which event, UNDP may award the Contract to the Proposer with the second highest rated Proposal or call for new Proposals.

37. Performance Security

A performance security, if required, shall be provided in the amount and form provided in Section 9 and by the deadline indicated in the **Data Sheet** (DS no. 14), as applicable. Where a Performance Security will be required, the submission of the said document, and the confirmation of its acceptance by UNDP, shall be a condition for the effectivity of the Contract that will be signed by and between the successful Proposer and UNDP.

38. Bank Guarantee for Advanced Payment

Except when the interests of UNDP so require, it is the UNDP's preference to make no advanced payment(s) on contracts (i.e., payments without having received any outputs). In the event that the Proposer requires an advanced payment upon contract signature, and if such request is duly accepted by UNDP, and the said advanced payment exceeds 20% of the total proposal price, or exceed the amount of USD 30,000, UNDP shall require the Proposer to submit a Bank Guarantee in the same amount as the advanced payment. A bank guarantee for advanced payment shall be furnished in the form provided in Section 8.

39. Vendor Protest

UNDP's vendor protest procedure provides an opportunity for appeal to those persons or firms not awarded a purchase order or contract through a competitive procurement process. In the event that a Proposer believes that it was not treated fairly, the following link provides further details regarding UNDP vendor protest procedures:

	E.28	Preliminary Examination of Proposals	Memo to Offerors (<u>Examples of Bid Rejection</u>) Proposals have been rejected at the submission stage or found to be technically noncompliant due to errors in presentation and failure to follow bidding instructions. Below are some of the more common examples of why proposals are rejected by UNDP. Proposers are urged to read this before submission and to check that their proposal conforms to each of these points and the instructions as noted in the bidding documents. ➤ Proposal is submitted <u>after</u> the deadline for submission, either by hand or electronically. Emailed proposals sent just before the deadline may arrive after the deadline and be rejected. Therefore, make sure to submit your proposals beforehand. ➤ Proposal <u>not</u> submitted to correct physical or electronic address. Note that the address for proposal submission is different to the address for bid questions. ➤ Proposal is submitted as a single package, without separating technical and financial proposal (including CDs). ➤ Proposal is <u>not</u> signed as per the instructions in the RFP. ➤ <u>Not</u> all sufficient documents have been provided. ➤ Documents provided are <u>not</u> in English. ➤ Documents provided do <u>not</u> directly address each point of the evaluation criteria. ➤ Proposal is more like a brochure for the firm without specifically addressing the specific evaluation criteria of the RFP and TOR. ➤ Proposal does <u>not</u> offer goods or services which have been specifically requested by UNDP in the Terms of Reference. ➤ Failure to enclose the Proposal Submission Form (see Section 4). ➤ The Proposer failed to consult the UNDP website before

			the deadline for bid submission and did not see the changes to the RFP/TOR listed there which need to be incorporated in the proposal. ➤ The Proposer failed to read the minutes of the Proposers conference and to include the relevant points in their proposal. ➤ The Proposer declines or proposes a major deviation to UNDP General Conditions of Contract (see Section 9). ➤ Proposal contains viruses and/or corrupted files. The Proposers should ensure that submitted proposals DO NOT contain viruses and/or corrupted files. Such proposals will be rejected. The above examples illustrate some errors which may be made by Proposers. This is a partial list. The bidding documents contain the full list of instructions relevant to each particular bid and should be followed carefully.
32	E.29.2 F.34	Criteria for the Award of Contract and Evaluation of Proposals	See award criteria below.
33	E.29.4	Post-Qualification Actions	✓ Verification of accuracy, correctness and authenticity of the information provided by the Proposer on the legal, technical and financial documents submitted; ✓ Validation of extent of compliance to the RFP requirements and evaluation criteria based on what has so far been found by the evaluation team; ✓ Inquiry and reference checking with other previous clients on the quality of performance on ongoing or previous contracts completed.
34		Conditions for Determining Contract Effectivity	N/A
35		Other Information Related to the RFP	http://procurement-notice.undp.org/ UNDP expects that contracted winning vendors will make available same services and financial offer to any other United Nations Entity interested in entering into a similar arrangement. In such case an UN Entity will sign separate contract with winner LTA vendor.

Section 3: Terms of Reference (TOR)

PURPOSE

The United Nations Development Programme Human Development Report Office (UNDP HDRO) wishes to enter into a three (3) year Long Term Agreement (LTA) subject to satisfactory contract performance with vendor/s for the purpose of translation, typesetting/lay outing, and printing of document from English into Russian.

While UNDP HDRO intends to establish the LTAs there is no fixed committed contract amount and UNDP reserves the right to utilize other sources at its discretion to assure value for money. Once the contract is established with the winning vendor, orders for specific requirement will be placed through the Purchase Orders based on the agreed rates and delivery time of the LTA and the General Conditions of the Contract will be in force.

A. Specific tasks of the Contractor

Under the supervision of the HDR Production Manager, and in close collaboration with the HDRO team, the Contractor will be responsible for: translating the Human Development Report 2019 (HDR 2019), the Overview of the Report and its accompanying Press Kit from English into Russian; incorporating text elements translated into Russian into all graphics, tables, figures, covers, and maps; typesetting and preparing print-ready files of the Russian versions of the HDR 2019 and its Overview; providing Web versions of these Russian editions; printing 500 copies of the Russian version of the HDR; and facilitating distribution to New York and other selected destinations. The translation will include incorporating into the Russian layout files of the HDR 2019 and the Overview any corrections, comments or other additions or deletions as directed by the HDRO into the Russian after printing and supplying revised Web versions of both publications.

1. Below are some translation tasks that the Contractor will need to undertake during the terms of the contract. Some other translation tasks may be requested as needed.

- Translation of the HDR 2019. This includes the following items (see 2016 report at <http://hdr.undp.org/en/2016-report/downloads> (Russian)):
 - a. Cover (all text on all covers, including inside covers);
 - b. Front matter (title page, copyright page, team box, foreword, acknowledgements, acronyms, table of contents);
 - c. Narrative matter (overview, chapters, notes, bibliography, figures, maps, tables, boxes); See Table 2 for estimated word counts and number of tables and graphs.
 - d. Statistical back matter (reader's guide, 18 large statistical tables, technical notes, references, definitions of terms, classification of countries, index for indicators);
 - e. Any further annexes or notes;
 - f. An 8-page Technical Note, to be published online only.
- Translation of the Overview of the HDR 2019. This will include text repeated from the Report as well as new text. The graphics will be repeated from the Report.
- The Contractor is expected to deliver a final translation that has gone through all the steps of the

translation process:

- Proofreading
 - Quality assurance
 - Revising
 - Terminology research, etc.
- Texts for translation will be provided in PDF or Microsoft Word format; statistical tables in Microsoft Excel and PDF format; graphics in Adobe Illustrator format. Translated versions are to be delivered in the same file formats. All files shall be exchanged via FTP, email or Dropbox, as directed by HDRO. *Translation teams must be able to work with the following formats, MS Word, Excel, InDesign and PDF.*
 - The Press Kit will include 3-5 press releases, Frequently Asked Questions, Infographics, Key messages and a PowerPoint presentation script (up to 29,000 words total). The Contractor will send the translated text in Word files to HDRO, no layout services are required.

Notes on the translation process:

- Agreement on key terminology is necessary to assure a high-quality translation. For this reason, the translation process of the HDR begins with the development of a **list of (~500) commonly used terms** relevant for the report. Such a list will be produced by HDRO and made available to the Contractor. When the Contractor's team has translated the terminology list, HDRO will review and return it to the Contractor. It is the Contractor's responsibility to ensure that the terminology cleared in the list is consistently used throughout the document.
- A read-only draft version of the report will also be made available to the Contractor before the final, edited text is available to begin translation. This is to assist in familiarizing translators with the content, terminology and language of the Report.
- As indicated in the schedule, source documents will be delivered in 2 batches: the statistical back matter first, followed by the front and narrative matters.
- *Due to the time constraints in the production process of the HDR 2019, translation work may start with a pre-final version, i.e. the English version that is sent into layout. Heavy changes should not be expected, however the Contractor must be prepared to carry out further translation of altered text or tabular matter. Those will be submitted in the form of a list of changes or as tracked changes in a final document (PDF, Word or in the case of the Statistical Annex, Excel).*

2. Below are some typesetting/layout tasks that the Contractor will need to undertake. Some other typesetting/layout tasks may be requested as needed.

- Typeset the Russian HDR 2019 and its Overview in Adobe InDesign CC, using templates and English layout files provided by HDRO. The English InDesign files will include all fonts, styles and linked graphics. All graphics will be created in Adobe Illustrator CC. All the files will be made available to the Contractor via FTP (or other method, as described in section 1); see Annex 1 for workload estimation.

- The Contractor will proofread all typeset elements to ensure that no mistakes have occurred as a result of the typesetting process.
- The Contractor shall produce PDF files of the typeset Russian HDR 2019 and Overview and submit them to HDRO for clearance.
- The Contractor shall incorporate eventual corrections requested by HDRO and deliver print-ready files (InDesign and PDF) of the final Russian HDR 2019 and Overview. The cover files will be separate PDFs. The Contractor shall check the print-ready files for correctness of the translation and typesetting before submission.

3. The Contractor will undertake the following specific tasks related to print and distribution of the Russian HDR 2019:

- Print 500 copies of the Russian version of the HDR, using the specifications included in Table 2.
- Facilitate shipment of 500 copies of the Russian version of the HDR to selected countries (HDRO to provide the list and cover the costs).

4. The Contractor will undertake the following specific tasks related to the Russian HDR 2019:

- At the end of the contractual period, the Contractor will be responsible to implement the corrections listed in the Errata slip. The Contractor shall submit back to HDRO both the amended In Design files and the PDF versions (low resolution for web use and high resolution with bleeds for printing). If the error was in the English version, the Contractor shall be paid according to the unit rate agreed in the LTA. However, if the error was done by the Contractor, UNDP should not be charged for the correction.

B. Delivery Time

1. **Translation:** 6,500 words/day upon receiving the document ready for translation
2. **Typesetting/Lay Outing:** 45 pages/day upon receiving the document ready for typesetting/lay outing

Liquidated Damages: A one percent of the total Purchase Order amount will be imposed for each week delay.

For each specific translation and typesetting/lay outing tasks required, HDRO will provide the expected delivery time to the winning vendor where the vendor in return will confirm the delivery time. The agreed delivery time will then be used in the Purchase Order issued for that specific requirement.

For a very long time in the post-World War II period, high and rising levels of inequality have been regarded in development economics as inevitable in the early stages of economic development. However, more recent empirical research has refuted the notion that higher inequality is the price to be paid by developing countries in order to achieve sustained growth. It has been demonstrated not only that inequality within growing developing countries falls about as often as it rises, but also that the poorest countries can aspire to pursue broad-based growth without having to fear, for this reason, negative repercussions on the speed and intensity of their development processes.

Thus, if high and rising inequality is not a necessary consequence of economic development, it becomes important to ask: why does inequality matter? And why should we be concerned about it? Arguments based on intrinsic and instrumental reasons respond to these questions.

The argument based on intrinsic reasons is predicated on fairness as well as moral requirements and largely rests on the principles of dignity, respect and non-discrimination that are embodied in the human-rights based approach. According to this perspective, equality is an ideal with an independent moral significance, while inequality is inherently negative, as it entails domination and the imposition of hardships on others. Furthermore, this perspective holds that human beings have an infinite responsibility for 'the Other' because their own individual identity can be constructed only in and through relationships with other human beings.

In contrast to the argument based on intrinsic reasons, the argument based on instrumental reasons is concerned with the economic, social and political consequences of high or rising inequality. Although relatively new, this argument is supported by a very strong empirical basis. Today, we know that high or rising levels of income inequality can harm the rate of growth and the duration of growth spells by reducing the propensity of large segments of the population to invest, thereby limiting the ability of the middle class to be a driver of economic progress and encouraging rent-seeking behaviour, among other things. Furthermore, it is now established that the extent of poverty reduction associated with a given level of growth significantly depends on income inequality levels and trends. In fact, forecasts of future global poverty are very sensitive to assumptions about inequality. In one scenario, the difference between poverty estimated according to current inequality trends versus a hypothetical return to 'best-ever' inequality for every country could be an extra one billion people living below the US\$2 per day poverty line in 2030.

In recent years, strong consensus has grown that a genuinely adequate concept of human well-being must go beyond material aspects of life and include dimensions such as relational human well-being (the ability to act meaningfully and engage in fulfilling social relations) as well as subjective well-being (an individual's sense of self-worth and the level of satisfaction about the conditions of one's life). Inequality has also become highly relevant here. Persistent inequality between different segments of a population can entrench the discriminatory practices and cultural biases that fuel social exclusion. Furthermore, high levels of inequality can distort political decision-making by undermining broad-based democratic

participation. In addition, evidence shows that sharp disparities in access to resources and opportunities can harm subjective wellbeing.

In many developed and developing countries, the distribution of income between households is more unequal now than it was two decades ago. In developing countries, three of every four households are in societies where incomes are more unequally distributed now than in the early 1990s. Population-weighted averages of within-country income inequality show that income inequality has risen by 9 percent in developed countries and by 11 percent in developing countries.

But not all news is bad. A detailed analysis of the trends in income inequality provides insights into the dynamics and drivers of rising income inequality. These insights are interesting mainly because they provide clues for how to design and implement public policy for moderating inequalities.

The first insight is that the rising trend of income inequality is not uniform across all regions or even across time. In fact, the number of countries that experienced an increase in income inequality in the observed period roughly equals that of countries that experienced a decline. Regionally, while income inequality increased on balance in some regions of the developing world (i.e., Asia and the Pacific (A&P) as well as Europe and the Commonwealth of Independent States (ECIS), it fell in others (i.e., sub-Saharan Africa and Latin America and the Caribbean (LAC)).

The second insight is that trends in income inequality are reversible. Several countries have experienced shifts from increasing to decreasing income inequality. Some countries have been able, through policy reforms, to moderate income inequality after decades of increases.

Nevertheless, the analysis of trends also reveals some unsettling insights into the patterns of growth of many developing countries over the past 20 years. Countries that experienced faster-than-average growth performance — mainly countries that graduated to higher income status brackets — had sharper increases in inequality than other countries. For instance, the average income inequality increase for countries that Persistent inequality between different segments of a population can entrench the discriminatory practices and cultural biases that fuel social exclusion.
