

UNDP CYP ITB 018 2019

ITB Subject: Forensic Genetic Laboratory services for the Committee on Missing Persons in Cyprus

Clarifications no 3 dated 27 March 2019

	QUESTIONS	ANSWERS
1	Further to the Issue of Clarification No 1 dated 21 March, could we reiterate the request from another bidder that you allow us to submit our tender electronically rather than by hand to avoid the loss of several days in the tendering process?	This could be considered in case of any revision is made to the bid documents close to the bid submission deadline.
2	Please could you give an indication of the number of samples to be submitted between contract start-up (1 May 2019) and the end of December 2019 and the frequency of those submissions.	This will be depending on the progress of the works.
3	Please can you confirm that all bone/teeth samples are currently available for submission, or is 3,000 the expectation that will be recovered during the next 3.5 years?	The estimated number of samples to be tested are 3000 samples within 36 months.
4	In addressing section 2.1 on Form E, please could you clarify if there is any requirement for the testing laboratory to visit Cyprus or carry out any work in Cyprus?	No
5	<p>Evaluation of Submissions: we understand the pass/fail criteria on certain aspects of the submissions and that the detailed evaluation will be focussed on the 3 - 5 lowest priced bids. You state that the technical bids shall be evaluated on a pass/fail basis for compliance or non-compliance with the technical specifications.</p> <p>Could you possibly elaborate further on your scoring mechanism and also whether any questions are weighted for importance?</p> <p>If the technical submissions are not to be graded and a number of providers meet the technical specification, will the choice of supplier just be based on price?</p>	<p>The `Lowest priced technically responsive, eligible and qualified Bid` will be evaluated for contract award.</p> <p>No, there are no evaluation criteria to be weighted for importance.</p> <p>Yes</p>
