

BBITB66003 – Provision of Unarmed Private Security Services

Clarifications 26th March 2019

No.	Question	Response
1.	Does the United Nations Development Programme (UNDP) Barbados and the OECS preferably look for local security companies that work with local personnel, or foreign security companies that work with foreign personnel to bid on this project?	The tender is open to any company who is legally registered and licensed to operate Unarmed private security services in Barbados. Please note page 23 of ITB – Minimum Eligibility and Qualifications Criteria
2.	Annex 2 – PAHO – Scope of works states man hours 24hrs Monday to Sunday, but it does not stipulate how many officers are needed for that post, can you please provide?	Please note that one person is required. The assignment during the 24 hour period is dependent on the shift cycle proposed by the vendor. Please note that the assignments to PAHO should be designated (i.e) it should not be different guards every day but rather a team of two to three within the 24 hour period.
3.	Annex 1 – UNDP – Is there a stipulation at anyone on site must be shift leader or supervisor?	As per the TOR requires 1 chief of guards or supervisor to be on site daily.
