

Request for Proposal (RFP)

The Solomon Islands Peace Building Fund II Perception Survey

The Clarification Note to Bidder's queries

Ref No: UNDP-SOI-RFP-2019-013

Reference to the above RFP, UNDP has received the below queries from bidder and we would like to share the clarification as below:

No.	Questions	Answers
1	Would it be possible to have a copy of the detailed methodology from the baseline survey? We have located a summary report online but have not been able to find many details of the previous methodology.	A detailed report from the previous 2017 Perception Survey with methodology from page 101 onwards of the attached file << 2017 Perception Survey Solomon Is>>.
2	Would it be possible to get more detail on the areas you wish to target in this survey? They are listed as Honiara, Guadalcanal North Coast, North Malaita and Western Province border region. We are very familiar with Solomon Islands and have completed proper proportional sampling projects in both urban and rural areas, so are seeking some finer detail on these target areas.	Prospective target areas would include <ol style="list-style-type: none">Honiara township: from around selected settlementsGuadalcanal Weather Coast: around MarauNorth Malaita: around ManaobaWestern Province: around Balalae
