

UNDP CYP ITB 024 2019 - Conservation of the Agios Sergios & Vackhos Church
Clarifications no:1 dated 5 April 2019

	QUESTION	ANSWER
1	Specs 1.7.4 specifies pictures No.192 and 193 in Drawing EX 06, which is not found.	Please specify what is not found, drawings of EX06 or the pictures? Drawing EX06 is in the drawings file.
2	BOQ items 1.7 and 1.7.3 to 1.7.10 describe the same work? Correct?	1.7 refers to items of archaeological & architectural values. 1.7.3 to 1.7.10 refer to fragments, maintenance and gathering in a designated place.
3	BOQ item 4.2's Unit "sum" would be "m ² " right?	As described in the technical specifications 4.2 these activities will be carried out and pricing will be a sum.
4	Is the meaning of the below in BOQ page "Preambles" such that contractor is responsible from the actual quantities observed during the implementation of works even if it is not shown in BOQ: The Contractor should price all Sums or include in his rates for everything that is mentioned in the Bills of Quantities. If any page is missing or duplicated or if any works or figures are indistinct or ambiguous, the Contractor is requested to notify immediately the Engineer. The Contractor should price all Sums for all sections which he considers have a value. If any Sums are not priced by the Contractor, it shall be deemed that their value has been spread throughout the rates of the other Sums.	This means that all the items in the bills must be priced. If there are works that the contractor assesses there are no bill items to price, the contractor to notify.
5	BOQ item 1.4's unit to be "item" rather than "sum", correct?	The unit is sum and quantity is 1
6	In BOQ page, "TOTAL OF SECTION 13-17" to be TOTAL OF SECTION 12-14" to match with Summary page, right?	The cell number G308 sums up the cells from SUM (G268:G307). Bidders must check the formulas and summations so that correct entries are made
7	BOQ item 4.2's unit to be "m ² " rather than "sum", right?	The unit is sum and quantity is 1
8	BOQ item 4.10's unit to be "m ² " rather than "sum" right?	Sum items equivalent to 3 buttresses and as per technical specifications 4.10
9	BOQ item, 10.1 to be "item" not "m ² "	Item is m ² as described in technical specifications 10.1

10	BOQ item 4.14 Grout Injection - unit for a better pricing (lower) is preferred to be kg rather than "m"	The unit is meter as per the technical specifications 4.14
11	Number of security cameras preferred is not known in "Preliminaries"	The requirement is given; "The contractor shall install cameras that will monitor the site during the works day and night (...). CCTV cameras must be installed in all possible locations that will cover all the site.
12	BOQ 1.2.1 and Preliminaries NO.8 is the same work, isn't it?	Site delimiting barriers are around the site whereas the BoQ 1.2.1 is for the works items to be carried out
13	In BOQ 1.3 "scaffolding", unit is preferred to be m2	Sum is the correct unit
14	In general requirements "First-Aid Certificate" is required? There is not anybody delivering first-Aid courses currently?	Designated personnel must have first aid training
15	Name of the required tests for materials not know?	Tests are given on page 8 of technical specifications.
16	Location of "temporary supports" in BOQ item 1.4 not known	Temporary supporting system will be executed in order to support the ceiling and buttresses.
17	We would like to have an extension of at least 15 days to submit the bid from the date of submission.	Please see revision no:1 dated 5 April 2019.
