

REQUEST FOR QUOTATION (RFQ)

Companies	DATE: 17 April 2019
	REFERENCE: RFQ/018/19 – Supply and Installation of Multi-Tiered Hydroponic
	Unit

Dear Sir / Madam:

We kindly request you to submit your quotation for Supply and Installation of Multi-Tiered Hydroponic Unit, as detailed in Annex 1 of this RFQ. When preparing your quotation, please be guided by the form attached hereto as Annex 2.

Quotations may be submitted on or before **18.00 (GMT 5+), 1 May 2019** and via e-mail, or courier mail to the address below:

United Nations Development Programme

4, Taras Shevchenko Street, Tashkent city, 100029, Republic of Uzbekistan
Procurement Unit

Electronic version of your quotation must be sent to bids.uz@undp.org.

Quotations submitted by email must be limited to a maximum of 10 MB, virus-free and no more than 2 email transmissions. They must be free from any form of virus or corrupted contents, or the quotations shall be rejected.

The following must be on the subject of email with your quotation to be sent to bids.uz@undp.org:

RFQ/018/19 - Supply and Installation of Multi-Tiered Hydroponic Unit²

It shall remain your responsibility to ensure that your quotation will reach the address above on or before the deadline. Quotations that are received by UNDP after the deadline indicated above, for whatever reason, shall not be considered for evaluation. If you are submitting your quotation by email, kindly ensure that they are signed and in the .pdf format, and free from any virus or corrupted files.

Please take note of the following requirements and conditions pertaining to the supply of the abovementioned good/service:

Delivery Terms [INCOTERMS 2010]	☑ CIP Nukus, Karakalpakstan for imported goods☑ DDP Nukus, Karakalpakstan for earlier imported goods or local product				
Customs clearance, if needed, shall be done by:	□ UNDP □				
Exact Address of Delivery Location	 ✓ Nukus Customs Border, Republic of Karakalpakstan, Uzbekistan for imported goods. ✓ Kegeyli, Tahtakopir, Chimbay, Muynak regions of Karakalpakstan for local suppliers 				

 $^{^{\}mathrm{1}}$ Quotations submitted to other email accounts will not be accepted and will be declined

² Email submission that will not contain this subject or without reference to subject tender will not be opened and will be declined 1

Distribution of shipping	⊠ For Int	ernational	suppliers, the cargo shall arrive to Nukus city,						
documents	Karakalpak Republic of Uzbekistan for the name of UNDP CO in								
	Uzbekistan. Goods are supposed to be exported to the end-user with								
	waybill (2 originals), invoice (2 originals) and packing list (2 originals), with								
	other quality confirmation documents if required. In addition, all								
	documents under INCOTERMS 2010.								
			, the goods shall arrive to above mentioned address essary certificates and other documents.						
Latest Expected Delivery	⊠ 60 calen	dar days fr	om the issuance of the Purchase Order (PO)						
Date and Time									
Delivery Schedule	☑ Not Request	uired							
Mode of Transport	☑ LAND ☑ Other								
Preferred	☑ United S	tates Dolla	rs to foreign suppliers;						
Currency of Quotation		rrency: Uzl	pekistan So'm (UZS) to Uzbekistan based Suppliers						
Value Added Tax on Price	☑ Must be	exclusive of	of VAT and other applicable indirect taxes

operating manuals, shall be	Bids and supporting documents in other than English or Russian languages								
in this language			into above either language version.						

List of mandatory documents to be submitted by Offeror's together with their Quotations by the deadline set above List of documents to be requested by UNDP additionally from the three	□ Duly Accomplished Form as provided in Part 1 of Annex 2, and in accordance with the list of technical requirements in Annex 1 □ Declaration of owners' interest in other companies using form provided in Part 2 of Annex 2 □ Company's profile with detailed information (name of the company, address, contact details etc.) using form provided in Part 3 of Annex 2 □ Contact details (email, telephone, website) of clients whom the bidder supplied Multi-Tiered Hydroponic Unit in the last 3 years. At least 2 contracts for supply of Multi-Tiered Hydroponic Unit is must using form provided in Part 4 of Annex 2 □ A statement whether any import or export licenses are required in respect of the goods to be purchased including any restrictions on the country of origin, use/dual use nature of goods or services, including and disposition to end users³ □ Manufacturer's Authorization Letter issued in favour of the bidder allowing selling their product to UNDP (if Supplier is not the manufacturer). The same document must demonstrate that the manufacturer takes an obligation to reserve required quantity of goods offered by the bidder for the tender should the bidder selected □ Verified copy of the latest valid business registration certificate of the Offeror's company⁴ □ Quality Certificates (ISO, etc.), Catalogue with details description of offered product with pictures □ Written Self-Declaration of not being included in the UN Security Council 1267/1989 list, UN Procurement Division list or other UN □ (a) Verified by third party (tax agency or other authorized body) copy of Financial Reports for the last two years
lowest priced bid Offerors ⁵	(b) a bank statement from Offeror's bank, issued not less than 30 days prior the bid submission or quotation date, that Offeror has available or has access to liquid assets (asset that can be readily converted to cash), to meet the obligations/supply cash flow for the contract of not less than Offeror's bid value.
Period of Validity of Quotes starting the Submission Date	☑ 60 calendar days after deadline for submission of quotation In exceptional circumstances, UNDP may request the Vendor to extend the validity of the Quotation beyond what has been initially indicated in this RFQ. The Proposal shall then confirm the extension in writing, without any modification whatsoever on the Quotation.
Partial Quotes	☑ incomplete/partial quotes are not allowed.

Mandatory for the supply of imported goods
 Verified by the signature of the authorized Offeror's representative and Offeror's company stamp/seal

⁵ Non-provision of any of additionally requested documents provided in this section will serve as a ground for disqualification of the Offer

Payment Terms	To Local Supplier (Company registered in Uzbekistan):
,	
	Soums (UZS) by bank transfer to the Supplier's account after delivery and
	acceptance of goods;
	To Foreign Suppliers (Company registered outside Uzbekistan):
	☑ 100% payment will be by bank transfer to the Supplier's account after
	delivery and acceptance of goods. Advance payment up to a maximum of
	15% of contract value can be allowed against the Advanced Payment
	Guarantee from reputable bank. A Bank Guarantee in the full amount of
	the advance payment should be in the form available at
	https://popp.undp.org/ layouts/15/WopiFrame.aspx?sourcedoc=/UNDP POPP DOC UMENT_LIBRARY/Public/PSU_Contract%20Management%20Payment%20and%20 Taxes_Advanced%20Payment%20Guarantee%20Form.docx&action=default.
Liquidated Damages	Will be imposed under the following conditions:
	☑ Penalty will be applied as percentage of contract price per day of delay:
	0.1%, but up to maximum 20% of total contract value
	☑ Next course of action: penalty and termination of contract and return
	of advance payment if applicable
Evaluation Criteria	☐ Technical responsiveness/Full compliance to requirements and lowest
	price
	☑ Strong financial position: (a) Liquidity ratio for the last two years not
	less than 1 if financial statements are presented
	OR
	(b) Confirmation from bank on financial strength of the Offeror as per requirement outlined above
	☑ Full acceptance of the PO/Contract General Terms and Conditions
	☑ Comprehensiveness of after-sales services and guarantee
	☑ At least 2 contracts for supply and installation of Multi-Tiered
	Hydroponic Unit
	☑ Demonstrated availability of a permanent office reachable via landline telephone and permanent staff of at least 5 persons
UNDP will award to:	☑ One supplier.
	UNDP will not consider offers, which include subcontracting.
Type of Contract to be Signed	☑ Purchase Order (PO)
Special conditions of Contract	☑ Cancellation of PO/Contract if amount of penalty for delay in delivery exceeds 20% from total contract value
Conditions for Release of	☑ Written Acceptance of Goods based on full compliance with RFQ
Payment	requirements
Annexes to this RFQ	☑ Specifications of the Goods Required (Annex 1)
	☑ Form for Submission of Quotation (Annex 2)
	☑ General Terms and Conditions / Special Conditions (Annex 3).
	Non-acceptance of the terms of the General Terms and Conditions (GTC)
	shall be grounds for disqualification from this procurement process.

Contact Person for Inquiries (Written inquiries only)	UNDP CO Uzbekistan, Procurement Unit 4, Taras Shevchenko Street, Tashkent city 100029, Uzbekistan Fax: (+998 78) 1203485 Email: pu.uz@undp.org						
	Any delay in UNDP's response shall be not used as a reason for extending the deadline for submission, unless UNDP determines that such ar extension is necessary and communicates a new deadline to the Proposers.						
Post-qualification Actions	 ☑ Verification of accuracy, correctness and authenticity of the information provided by the bidder on the legal, technical and financial documents submitted; ☑ Inquiry and reference checking with Government entities with jurisdiction on the bidder, or any other entity that may have done business with the bidder; ☑ Inquiry and reference checking with other previous clients on the quality of performance on ongoing or previous contracts completed; ☑ Physical inspection of the bidder's plant, factory, branches or other 						
Other	 places where business transpires, with or without notice to the bidder; Offers submitted by two (2) or more Offerors shall all be rejected if they are found to have any of the following: they have at least one controlling partner, director or shareholder in common; or any one of them receive or have received any direct or indirect subsidy from the other/s; or they have the same legal representative for purposes of this RFQ; d) they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about, or influence on the Offer of, another Offeror regarding this RFQ process; they are subcontractors to each other's Offer, or a subcontractor to one Offer also submits another Proposal under its name as lead Offeror; or an expert proposed to be in the team of one Offeror participates in more than one Offer received for this RFQ process. This condition does not apply to subcontractors being included in more than one Offer. 						

Goods offered shall be reviewed based on completeness and compliance of the quotation with the minimum specifications described above and any other annexes providing details of UNDP requirements.

The quotation that complies with all of the specifications, requirements and offers the lowest price, as well as all other evaluation criteria indicated, shall be selected. Any offer that does not meet the requirements shall be rejected.

Any discrepancy between the unit price and the total price (obtained by multiplying the unit price and quantity) shall be re-computed by UNDP. The unit price shall prevail, and the total price shall be corrected. If the supplier does not accept the final price based on UNDP's re-computation and correction of errors, its quotation will be rejected.

After UNDP has identified the lowest price offer, UNDP reserves the right to award the contract based only on the prices of the goods in the event that the transportation cost (freight and insurance) is found to be higher than UNDP's own estimated cost if sourced from its own freight forwarder and insurance provider.

At any time during the validity of the quotation, no price variation due to escalation, inflation, fluctuation in exchange rates, or any other market factors shall be accepted by UNDP after it has received the quotation.

At the time of award of Contract or Purchase Order, UNDP reserves the right to vary (increase or decrease) the quantity of services and/or goods, by up to a maximum twenty-five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.

Any Purchase Order that will be issued as a result of this RFQ shall be subject to the General Terms and Conditions attached hereto. The mere act of submission of a quotation implies that the vendor accepts without question the General Terms and Conditions of UNDP herein attached as Annex 3.

UNDP is not bound to accept any quotation, nor award a contract/Purchase Order, nor be responsible for any costs associated with a Supplier's preparation and submission of a quotation, regardless of the outcome or the manner of conducting the selection process.

Please be advised that UNDP's vendor protest procedure is intended to afford an opportunity to appeal for persons or firms not awarded a purchase order or contract in a competitive procurement process. In the event that you believe you have not been fairly treated, you can find detailed information about vendor protest procedures in the following link: http://www.undp.org/procurement/protest.shtml.

UNDP encourages every prospective Vendor to avoid and prevent conflicts of interest, by disclosing to UNDP if you, or any of your affiliates or personnel, were involved in the preparation of the requirements, design, specifications, cost estimates, and other information used in this RFQ.

UNDP implements a zero tolerance on fraud and other proscribed practices, and is committed to identifying and addressing all such acts and practices against UNDP, as well as third parties involved in UNDP activities. UNDP expects its suppliers to adhere to the UN Supplier Code of Conduct found in this link: http://www.un.org/depts/ptd/pdf/conduct_english.pdf.

Thank you and we look forward to receiving your quotation.

Sincerely yours,

Procurement Unit UNDP in Uzbekistan

Technical Specifications

The requested unit will be used for obtaining green biomass

ITEM #	ITEM DESCRIPTION/SPECIFICATION OF NECESSARY MATERIALS	UNIT OF MEASU RE	Q-TY	LATEST DELEVIRY DATE			
1	DESCRIPTION: MULTI-TIERED HYDROPONIC UNIT WITH A CAPACITY OF 40 KG / DAY. (QUANTITY 2 PIECES)						
	Multi-tiered hydroponic Unit - Capacity: 40 kg per day, with a daily cereals consumption: 8 kg - Daily net production per 1 kg of cereals: 5-6 kg green biomass depending on the quality of the cereal, with provided germination rate	Set	1	Not more than 60 calendar days from day of signing contract			
	not less than 92%. Period of completed germination cycle: 6-7 days. Metallic shelves. Size: 2620-3000 x 1290-1500 x 1900-2100 mm (2 rows of 4 tiers), quantity: 1 unit for placing pallets with cereals. The shelves must be made of metal profile 30X20X2 mm with anti-corrosion powder	Set	1	by both parties			
	coating. Guides made of anodized aluminum profile Length: 2620-2800 mm (wall thickness not less than 2 mm)	Piece	16				
	PVC piping (d 25 mm horizontal feed for spraying, d 32 mm vertical stands)	Set	1				
	Polypropylene durable glossy pallets Size: 630X375X50 mm. Designed for accommodation of the germinated cereals	Piece	56				
	Polyethylene tank Capacity 0.2 m3. Equipped with: • an electric heater of 1.0 kW • a temperature sensor • a mini aeration compressor • a water supply and discharge system. Intended for preparing water and irrigation.	Piece	1				
	Centrifugal pump Power consumption: 0.37 kW Capacity: not less than 90 l/min. Pressure: 2.3 bar Voltage - 220 V	Piece	1				
	Mesh filter for mechanical purification of water	Piece	1				
	Plastic tray 100 mm for water drainage into the tank with a length of 2620-2800 mm	Piece	2				
	Control unit for regulating irrigation, heating and aeration of water	Piece	1

	(QUANTITY 2 PIECES)	Г	T	
	Multi-tiered hydroponic system with daily capacity to produce of 500 kg of green bio mass. Installed in a container-growbox with dimension: length 12.2-13.7 m, width 2.4-2.5 m, height 2.6-2.75 m. Heat and waterproofing of walls, ceiling and floor of the container consists of: - Walls, ceiling are made from sandwich panel with thickness of 50 mm - The floor is paved with concrete base, reinforced with metal mesh 150x150x3 mm and with draining water gutter. Door is made of aluminum profile 2100 x 900 mm - 3 pcs. Window is made of aluminum profile 2000 x 600 mm - 2 pcs. Rack sections are made of anodized, corrosion-resistant aluminum profile, with a thickness at least 1.8 mm. Equipped with PVC-pipe strapping for a uniform water supply with horizontal sprayers. Lighting: moisture-proof LED lamps - 8 pcs. Equipped with polypropylene pallets for accommodation of the germinated grains. Daily grain consumption: 100-105 kg Daily net biomass production, per 1 kg of pledged grain: 4-6 kg of green biomass; Duration of the germination cycle: 6-7 days.	set		Not more than 60 calendar days from day of signing contract by both parties
	Automatic control unit with a touch panel, responsible for monitoring and control the irrigation system, water temperature, water ozonation, water level, indoor temperature and humidity, lighting and fresh air circulation.	piece	1	
	Air conditioner BTU-18000 (English thermal unit). Productivity is not less than 1500 m3/hour Range of power capacity: 2.5-3.5 kW Services to provide optimal microclimate and mode of the fresh air circulation, as well as to maintain the required level of CO_2 . Operating temperature range: -15 \div + 60 $^{\circ}C$	piece	2	0

Sensors:		_
Water temperature	piece	1
Air humidity	piece	3
Air temperature	piece	3
designed to ensure a control over the setting up of all indoor climate		
system. The set of shielded connecting cables with impedance not over		
15 Ohm should be supplied.		
Air ducts made of galvanized tin:	set	1
Total length -16 m;		
Cross section profile: 500 x 300 mm,		
Tin thickness not less than 0.45 mm.		
Used for indoor fresh air feeding and circulation.		
Automatic shutter:	piece	4
Sizing: 500 x 300 x 100 mm.		
Used for regulation of indoor air feeding.		
Material: aluminum		
Mechanical air outlet with shutter.	piece	4
Sizing: 500 x 300 x 100 mm. Used to let wet and stuffy air go out.		
Material: aluminum		
Moisture-proof light with two fluorescent lamps with lighting flux of	set	8
2500-2800 lumens each.		
Total power capacity up to 120 W		
Bactericidal lamps.	piece	4
Designed for air disinfection.		
Power capacity: up to 30 W		
Combined fiber-synthetic winterize air filter.	piece	2
Sizing (500-600) x (300-400) mm.		
Designed for protection against dust and insects.		
Ozone generator.	piece	1
Capacity: 3-7 g O₃ per hour.		
Designed for water disinfection and saturation with oxygen,		
disinfection of steeped cereals and plants during watering.		
Centrifugal pump driven by electrical single-phase motor	piece	1
Capacity 18-20 m3/h,		
pressure generating :2.5-3.0 atm		
Power capacity 3 kW		
Designed for water supplying to the irrigation system.		
Vacuum pump driven by electrical motor	piece	2
Capacity: 10-15 m3/hour,		
Pressure generated 2-2.5 atm,		
Powercapacity: 1.5-2.0 kW.		
One pump is used to keep required water level in the water tank, and		
second is used for washing grain and pallets, and washing the room		
Mechanical back pressure valve. D = 40-50 mm is used to ensure	piece	1
required water pressure evenly distributed the irrigation system		
Polyethylene tank	set	1
Capacity: 1-1.2 m ³ .		
		1
Equipped with:		
Equipped with:an electric heater of 1.5-2.0 kW (3 pcs),		
an electric heater of 1.5-2.0 kW (3 pcs),		

-		
 a water refilling and drainage system. 		
Designed for water treatment (filtration, heating and ozonation of		
water, oxygen saturation) and irrigation.		
Cast-iron bath	piece	1
Sizing: (1500-1700) x (600-750) x (500-600) mm.		
Designed for washing, steeping and disinfecting cereals and washing		
plastic pallets.		
Polypropylene durable glossy pallets	piece	520
Sizing: (630-700) x (375-400) x (50-60) mm.		
Designed for accommodation of the germinated grains		
Plastic boxes	piece	20
Sizing: (600-800) x (300-500) x (150-250) mm for preliminary		
preparation of grain for palletizing		
PVC pipe line (d = 25-32 mm for horizontal pipes, d = 32-40 mm for	set	1
vertical pipes, d = 40-50 mm for water giving system)		
Set of fitting is included.		
Long life demountable sprinklers, with the possibility of cleaning,	piece	136
designed		
Capacity: 100-120 l/h		
Working radius: 360 degrees		
Coverage: 1.5-2 meters		
Mechanical manometer 1-6 atm to control the water pressure in the	piece	1
irrigation system		
Mini electrolysis unit	piece	1
Power capacity: 0.6-1.0 kW		
Productivity: 45-50 l / day.		
It is used to produce a solution of sodium hypochlorite that is used for		
the disinfection of grain, water and sanitary treatment of the room.

Period of completed germination cycle: 6-7 days. Metallic shelves. Size: 2620-3000 x 1290-1500 x 1900-2100 mm (2 rows of 4 tiers), quantity: 2 units for placing pallets with cereals. The shelves must be made of metal profile 30X20X2 mm with anti-corrosion powder coating. Guides made of anodized aluminum profile Length: 2626 mm (wall thickness not less than 2 mm) PVC piping (d 25 mm horizontal feed for spraying, d 32 Set 2 mm vertical stands) Polypropylene durable glossy pallets Size: 630X375X50 mm. Designed for accommodation of the germinated cereals Polyethylene tank Capacity 0.2 m3. Equipped with: an electric heater of 1.0 kW at emperature sensor a mini aeration compressor a melectric heater of 1.0 kW at emperature sensor a mini aeration compressor a mater supply and discharge system. Intended for preparing water and irrigation. Centrifugal pump Power consumption: 0.75 kW Capacity: not less than 100 l/min. Pressure: 3.6 bar Voltage - 220 V Mesh filter for mechanical purification of water Plece 1 Plastic tray 100 mm for water drainage into the tank with a length of 2626 mm Control unit for regulating irrigation, heating and aeration of water Total Prices of Goods		Total Prices of Goods				
Multi-tiered hydroponic Unit - Capacity: 80 kg per day, with a daily cereals consumption: 16 kg - Daily net production per 1 kg of cereals: 5-6 kg green biomass depending on the quality of the cereal, with provided germination rate not less than 92%. Period of completed germination rate not less than 92%. Period of completed germination cycle: 6-7 days. Metallic shelves. Size: 2620-3000 x 1290-1500 x 1900-2100 mm (2 rows of 4 tiers), quantity: 2 units for placing pallets with cereals. The shelves must be made of metal profile 30X20X2 mm with anti-corrosion powder coating. 	Multi-tiered hydroponic system with daily capacity to	set	1		
	produce of 500 kg of green bio mass.				
	Installed in a container-growbox with dimension: length				
	12.2-13.7 m, width 2.4-2.5 m, height 2.6-2.75 m.				
	Heat and waterproofing of walls, ceiling and floor of the				
	container consists of:				
	- Walls, ceiling are made from sandwich panel with				
	thickness of 50 mm				
	- The floor is paved with concrete base, reinforced with				
	metal mesh 150x150x3 mm and with draining water				
	gutter.				
	Door is made of aluminum profile 2100 x 900 mm - 3 pcs.				
	Window is made of aluminum profile 2000 x 600 mm - 2	<u> </u>			14

	pcs.			
	Rack sections are made of anodized, corrosion-resistant			
	aluminum profile, with a thickness at least 1.8 mm.			
	Equipped with PVC-pipe strapping for a uniform water			
	supply with horizontal sprayers.			
	Lighting: moisture-proof LED lamps - 8 pcs.			
	Equipped with polypropylene pallets for accommodation			
	of the germinated grains.			
	Daily grain consumption: 100-105 kg			
	Daily net biomass production, per 1 kg of pledged grain:			
	4-6 kg of green biomass;			
F	Duration of the germination cycle: 6-7 days.			
	Automatic control unit with a touch panel, responsible	piece	1	
	for monitoring and control the irrigation system, water			
	temperature, water ozonation, water level, indoor			
	temperature and humidity, lighting and fresh air			
L	circulation.			
	Air conditioner BTU-18000 (English thermal unit).	piece	2	
	Productivity is not less than 1500 m3/hour			
	Range of power capacity: 2.5-3.5 kW			
	Services to provide optimal microclimate and mode of the			
	fresh air circulation, as well as to maintain the required			
	level of CO ₂ .			
F	Operating temperature range: -15 ÷ + 60 °C			
	Sensors:			
	Water temperature	piece	1	
	Air humidity	piece	3	
	Air temperature	piece	3	
	designed to ensure a control over the setting up of all			
	indoor climate system. The set of shielded connecting			
	cables with impedance not over 15 Ohm should be			
L	supplied.			
	Air ducts made of galvanized tin:	set	1	
	Total length -16 m;			
	Cross section profile: 500 x 300 mm,			
	Tin thickness not less than 0.45 mm.			
L	Used for indoor fresh air feeding and circulation.			
	Automatic shutter:	piece	4	
	Sizing: 500 x 300 x 100 mm.			
	Used for regulation of indoor air feeding.			
L	Material: aluminum			
	Mechanical air outlet with shutter.	piece	4	
	Sizing: 500 x 300 x 100 mm. Used to let wet and stuffy air			
	go out.			
-	Material: aluminum			
	Moisture-proof light with two fluorescent lamps with	set	8	
	lighting flux of 2500-2800 lumens each.			
-	Total power capacity up to 120 W			
	Bactericidal lamps.	piece	4	
	Designed for air disinfection.			
-	Power capacity: up to 30 W	niaa-	2	
	Combined fiber-synthetic winterize air filter.	piece	2	15

Sizing (500-600) x (300-400) mm.			
Designed for protection against dust and insects.			
Ozone generator.	piece	1	
Capacity: 3-7 g O₃ per hour.	piccc	_	
Designed for water disinfection and saturation with			
oxygen, disinfection of steeped cereals and plants during			
watering.			
Centrifugal pump driven by electrical single-phase motor	piece	1	
Capacity 18-20 m3/h,	piece	_	
pressure generating :2.5-3.0 atm			
Power capacity 3 kW			
Designed for water supplying to the irrigation system.			
Vacuum pump driven by electrical motor	piece	2	
Capacity: 10-15 m3/hour,	piece	_	
Pressure generated 2-2.5 atm,			
Powercapacity: 1.5-2.0 kW.			
One pump is used to keep required water level in the			
water tank, and second is used for washing grain and			
pallets, and washing the room			
Mechanical back pressure valve. D = 40-50 mm is used to	piece	1	
ensure required water pressure evenly distributed the	piece	_	
irrigation system			
Polyethylene tank	set	1	
Capacity: 1-1.2 m ³ .	300	_	
Equipped with:			
 an electric heater of 1.5-2.0 kW (3 pcs), 			
 a temperature sensor, 			
a mechanical float,			
 disk diffusers, 			
 a water refilling and drainage system. 			
Designed for water treatment (filtration, heating and			
ozonation of water, oxygen saturation) and irrigation.			
Cast-iron bath	piece	1	
Sizing: (1500-1700) x (600-750) x (500-600) mm.	piece		
Designed for washing, steeping and disinfecting cereals			
and washing plastic pallets.			
Polypropylene durable glossy pallets	piece	520	
Sizing: (630-700) x (375-400) x (50-60) mm.	piece	320	
Designed for accommodation of the germinated grains			
Plastic boxes	piece	20	
Sizing: (600-800) x (300-500) x (150-250) mm for	piece	20	
preliminary preparation of grain for palletizing			
PVC pipe line (d = 25-32 mm for horizontal pipes, d = 32-	set	1	
40 mm for vertical pipes, d = 40-50 mm for water giving	361		
system)			
Set of fitting is included.			
Long life demountable sprinklers, with the possibility of	nieco	136	
	piece	120	
cleaning, designed Capacity: 100-120 l/h			
Working radius: 360 degrees			
Coverage: 1.5-2 meters			
Mechanical manometer 1-6 atm to control the water	piece	1

Table 2 – Table of technical compliance of the offered goods

Description / Specifications of Goods (required by UNDP)	Description / Specifications of Goods (offered by Supplier) ⁶ Please indicate parameters of the offered goods Please indicate for the offered goods: Model: Manufacturer:
DESCRIPTION: MULTI-TIERED HYDROPONIO	COUNTRY OF ORIGIN:
Multi-tiered hydroponic Unit - Capacity: 40 kg per day, with a daily cereals consumption: 8 kg - Daily net production per 1 kg of cereals: 5-6 kg green biomass depending on the quality of the cereal, with provided germination rate not less than 92%. Period of completed germination cycle: 6-7 days.	
Metallic shelves. Size: 2620-3000 x 1290-1500 x 1900-2100 mm (2 rows of 4 tiers), quantity: 1 unit for placing pallets with cereals. The shelves must be made of metal profile 30X20X2 mm with anti-corrosion powder coating.	
Guides made of anodized aluminum profile Length: 2620-2800 mm (wall thickness not less than 2 mm) PVC piping (d 25 mm horizontal feed for spraying, d 32	
mm vertical stands) Polypropylene durable glossy pallets Size: 630X375X50 mm. Designed for accommodation of the germinated cereals	
Polyethylene tank Capacity 0.2 m3. Equipped with: an electric heater of 1.0 kW a temperature sensor a mini aeration compressor	

⁶ Please provide detail description of offered product, model and brand name that must comply with minimum technical specification requirements outlined in Annex 1 above

 a water supply and discharge system. 	
Intended for preparing water and irrigation.	
Centrifugal pump	
Power consumption: 0.37 kW	
Capacity: not less than 90 I/min.	
Pressure: 2.3 bar	
Voltage - 220 V	
Mesh filter for mechanical purification of water	
Plastic tray	
100 mm for water drainage into the tank with a length	
of 2620-2800 mm	
Control unit	
for regulating irrigation, heating and aeration of water	
DESCRIPTION: MULTI-TIERED HYDROPONIC	UNIT WITH A CAPACITY OF 80 KG / DAY
Multi-tiered hydroponic Unit - Capacity: 80 kg per day,	
with a daily cereals consumption: 16 kg	
- Daily net production per 1 kg of cereals: 5-6 kg green	
biomass depending on the quality of the cereal, with	
provided germination rate not less than 92%. Period of	
completed germination cycle: 6-7 days.	
Metallic shelves.	
Size: 2620-3000 x 1290-1500 x 1900-2100 mm (2 rows	
of 4 tiers), quantity: 2 units for placing pallets with	
cereals. The shelves must be made of metal profile	
30X20X2 mm with anti-corrosion powder coating.	
Guides made of anodized aluminum profile	
Length: 2626 mm (wall thickness not less than 2 mm)	
PVC piping (d 25 mm horizontal feed for spraying, d 32	
mm vertical stands)	
Polypropylene durable glossy pallets	
Size: 630X375X50 mm.	
Designed for accommodation of the germinated cereals	
Polyethylene tank	
Capacity 0.2 m3.	
Equipped with:	
 an electric heater of 1.0 kW 	
 a temperature sensor 	
a mini aeration compressor	
 a water supply and discharge system. 	
Intended for preparing water and irrigation.	
Centrifugal pump	
Power consumption: 0.75 kW	
Capacity: not less than 100 l/min.	
Pressure: 3.6 bar	
Voltage - 220 V	
Mesh filter for mechanical purification of water	
Plastic tray	
100 mm for water drainage into the tank with a length	
of 2626 mm	
Control unit	

for regulating irrigation, heating and aeration of water	
DESCRIPTION: MULTI-TIERED HYDROPONIC	UNIT WITH A CAPACITY OF 120 KG / DAY
Multi-tiered hydroponic Unit - Capacity: 120 kg per	
day, with a daily cereals consumption: 24 kg	
- Daily net production per 1 kg of cereals: 5-6 kg green	
biomass depending on the quality of the cereal, with	
provided germination rate not less than 92%. Period of	
completed germination cycle: 6-7 days.	
Metallic shelves.	
Size: 2620-3000 x 1290-1500 x 1900-2100 mm (2 rows	
of 4 tiers), quantity: 3 units for placing pallets with	
cereals. The shelves must be made of metal profile	
30X20X2 mm with anti-corrosion powder coating.	
Guides made of anodized aluminum profile	
Length: 2620-2800 mm (wall thickness not less than 2	
mm)	
PVC piping (d 25 mm horizontal feed for spraying, d 32	
mm vertical stands)	
Polypropylene durable glossy pallets	
Size: 630X375X50 mm.	
Designed for accommodation of the germinated cereals	
Polyethylene tank	
Capacity 0.4 m3.	
Equipped with:	
an electric heater of 1.0 kW	
a temperature sensor	
a mini aeration compressor	
a water supply and discharge system.	
Intended for preparing water and irrigation.	
Centrifugal pump	
Power consumption: 1.1 kW	
Capacity: not less than 120 l/min.	
Pressure: 4 bar	
Voltage - 220 V	
Mesh filter for mechanical purification of water	
Plastic tray	
100 mm for water drainage into the tank with a length	
of 2620-2800 mm	
Control unit	
for regulating irrigation, heating and aeration of water	
DESCRIPTION: MULTI-TIERED HYDROPONIC	UNIT WITH A CAPACITY OF 500 KG / DAY
Multi-tiered hydroponic system with daily capacity to	
produce of 500 kg of green bio mass.	
Installed in a container-growbox with dimension: length	
12.2-13.7 m, width 2.4-2.5 m, height 2.6-2.75 m.	
Heat and waterproofing of walls, ceiling and floor of the	
container consists of:	
- Walls, ceiling are made from sandwich panel with	
thickness of 50 mm	
- The floor is paved with concrete base, reinforced with	
metal mesh 150x150x3 mm and with draining water	19

gutter.	
Door is made of aluminum profile 2100 x 900 mm - 3	
pcs.	
Window is made of aluminum profile 2000 x 600 mm -	
2 pcs.	
Rack sections are made of anodized, corrosion-resistant	
aluminum profile, with a thickness at least 1.8 mm.	
Equipped with PVC-pipe strapping for a uniform water	
supply with horizontal sprayers.	
Lighting: moisture-proof LED lamps - 8 pcs.	
Equipped with polypropylene pallets for	
accommodation of the germinated grains.	
Daily grain consumption: 100-105 kg	
Daily net biomass production, per 1 kg of pledged grain:	
4-6 kg of green biomass;	
Duration of the germination cycle: 6-7 days.	
Automatic control unit with a touch panel, responsible	
for monitoring and control the irrigation system, water	
temperature, water ozonation, water level, indoor	
temperature and humidity, lighting and fresh air	
circulation.	
Air conditioner BTU-18000 (English thermal unit).	
Productivity is not less than 1500 m3/hour	
Range of power capacity: 2.5-3.5 kW	
Services to provide optimal microclimate and mode of	
the fresh air circulation, as well as to maintain the	
required level of CO ₂ .	
Operating temperature range: -15 ÷ + 60 °C	
Sensors:	
Water temperature	
Air humidity	
Air temperature	
designed to ensure a control over the setting up of all	
indoor climate system. The set of shielded connecting	
cables with impedance not over 15 Ohm should be	
supplied.	
Air ducts made of galvanized tin:	
Total length -16 m;	
Cross section profile: 500 x 300 mm,	
Tin thickness not less than 0.45 mm.	
Used for indoor fresh air feeding and circulation.	
Automatic shutter:	
Sizing: 500 x 300 x 100 mm.	
Used for regulation of indoor air feeding.	
Material: aluminum	
Mechanical air outlet with shutter.	
Sizing: 500 x 300 x 100 mm. Used to let wet and stuffy	
air go out.	
Material: aluminum	
Moisture-proof light with two fluorescent lamps with	
lighting flux of 2500-2800 lumens each.	
Total power capacity up to 120 W	

Bactericidal lamps.	
•	
Designed for air disinfection.	
Power capacity: up to 30 W	
Combined fiber-synthetic winterize air filter.	
Sizing (500-600) x (300-400) mm.	
Designed for protection against dust and insects.	
Ozone generator.	
Capacity: 3-7 g O ₃ per hour.	
Designed for water disinfection and saturation with	
oxygen, disinfection of steeped cereals and plants	
during watering.	
Centrifugal pump driven by electrical single-phase	
motor	
Capacity 18-20 m3/h,	
pressure generating :2.5-3.0 atm	
Power capacity 3 kW	
Designed for water supplying to the irrigation system.	
Vacuum pump driven by electrical motor	
Capacity: 10-15 m3/hour,	
Pressure generated 2-2.5 atm,	
Powercapacity: 1.5-2.0 kW.	
One pump is used to keep required water level in the	
water tank, and second is used for washing grain and	
pallets, and washing the room	
Mechanical back pressure valve. D = 40-50 mm is used	
to ensure required water pressure evenly distributed	
the irrigation system	
Polyethylene tank	
Capacity: 1-1.2 m ³ .	
Equipped with:	
 an electric heater of 1.5-2.0 kW (3 pcs), 	
a temperature sensor,	
a mechanical float,	
disk diffusers,	
 a water refilling and drainage system. 	
Designed for water treatment (filtration, heating and	
ozonation of water, oxygen saturation) and irrigation.	
Cast-iron bath	
Sizing: (1500-1700) x (600-750) x (500-600) mm.	
Designed for washing, steeping and disinfecting cereals	
and washing plastic pallets.	
Polypropylene durable glossy pallets	
Sizing: (630-700) x (375-400) x (50-60) mm.	
Designed for accommodation of the germinated grains	
Plastic boxes	
Sizing: (600-800) x (300-500) x (150-250) mm for	
preliminary preparation of grain for palletizing	
PVC pipe line (d = 25-32 mm for horizontal pipes, d =	
32-40 mm for vertical pipes, d = 40-50 mm for water	
giving system)	
Set of fitting is included.	
Long life demountable sprinklers, with the possibility	
	21

of cleaning, designed	
Capacity: 100-120 l/h	
Working radius: 360 degrees	
Coverage: 1.5-2 meters	
Mechanical manometer 1-6 atm to control the water	
pressure in the irrigation system	
Mini electrolysis unit	
Power capacity: 0.6-1.0 kW	
Productivity: 45-50 l / day.	
It is used to produce a solution of sodium hypochlorite	
that is used for the disinfection of grain, water and	
sanitary treatment of the room.	

TABLE 3: Offer to Comply with Other Conditions and Related Requirements

Other Information pertaining to our Quotation		Your Responses				
are as follows:	Yes, we will comply	No, we cannot comply	If you cannot comply, pls. indicate counter proposal			
Terms of supply of equipment at final destination within 60 calendar days						
Warranty and After-Sales Requirements						
a) Minimum one (1) year warranty on both parts and labor						
b) Service Unit to be Provided when the Purchased Unit is Under Repair						
All Provisions of the UNDP General Terms and Conditions						
Other requirements [pls. specify]						

All other information that we have not provided automatically implies our full compliance with the requirements, terms and conditions of the RFQ.

[Name and Signature of the Supplier's Authorized Person] [Designation] [Date]

PART 2: DECLARATION OF INTEREST

Dear Sir/Madam,

We/I, (Name and Title), as shareholder(s)/owner(s) of Company, declare that:

- a) Have no financial and other interests in, association or relationship with, are not employed and do not have relatives (i.e. spouse, parents, children or siblings) employed by the United Nations Development Programme (UNDP) or the Government of Uzbekistan that announced the RFQ; and do not have access to information about, or influence on the selection process for this RFQ
- b) Have no common controlling partner, director, shareholder, legal representative for the purposes of this RFQ with any other entity submitting its Quotation under this RFQ; are not subcontracting or are subcontractors to other entities for the purposes of this RFQ; and that the experts proposed in the team do not participate in more than one Quotation for this RFQ
- c) Are not involved in activities that could have an impact on the objectivity and independence of the Contractor's team in carrying out its duties under the contract or can affect the image of the United Nations and the Government of Uzbekistan.

We certify that the information stated is true, correct and complete to the best of our knowledge and belief. We are obliged to comply with all requests for additional information, documentation, clarification and/or verification concerning the Declaration of Interest statement.

All other information that we have not provided automatically implies our full compliance with the requirements, terms and conditions of the RFQ.

[Name and Signature of the Supplier's Authorized Person] [Designation] [Date]

PART 3: COMPANY PROFILE

1. Offeror's Legal Name [insert Bidder's legal name]					
2. In case of Joint Venture (JV), legal name of each party: [insert legal name of each party in JV]					
3. Actual or intended Country/ies of Registration/Operation: [insert actual or intended Country of Registration]					
4. Year of Registration in its Location: [insert Bidder's year of registration]					
5. Countries of Operation	6. No. of permanent staff in each Country	7.Years of Operation in each Country			
8. Legal Address/es in Country/ies of Registration/Operation ⁷ : [insert Bidder's legal address in country of registration]					
9. Value and Description of Top two (2) Biggest Contracts for the past three (3) years					
10. Latest Credit Rating (Score and Source, if any)					
11. Brief description of litigation history (disputes, arbitration, claims, etc.), indicating current status and outcomes, if already resolved.					
12. Offeror's Authorized Representative Information

General Terms and Conditions

1. ACCEPTANCE OF THE PURCHASE ORDER

This Purchase Order may only be accepted by the Supplier's signing and returning an acknowledgement copy of it or by timely delivery of the goods in accordance with the terms of this Purchase Order, as herein specified. Acceptance of this Purchase Order shall effect a contract between the Parties under which the rights and obligations of the Parties shall be governed solely by the terms and conditions of this Purchase Order, including these General Conditions. No additional or inconsistent provisions proposed by the Supplier shall bind UNDP unless agreed to in writing by a duly authorized official of UNDP.

2. PAYMENT

- 2.1 UNDP shall, on fulfillment of the Delivery Terms, unless otherwise provided in this Purchase Order, make payment within 30 days of receipt of the Supplier's invoice for the goods and copies of the shipping documents specified in this Purchase Order.
- 2.2 Payment against the invoice referred to above will reflect any discount shown under the payment terms of this Purchase Order, provided payment is made within the period required by such payment terms.
- 2.3 Unless authorized by UNDP, the Supplier shall submit one invoice in respect of this Purchase Order, and such invoice must indicate the Purchase Order's identification number.
- 2.4 The prices shown in this Purchase Order may not be increased except by express written agreement of UNDP.

3. TAX EXEMPTION

- 3.1 Section 7 of the Convention on the Privileges and Immunities of the United Nations provides, inter alia, that the United Nations, including its subsidiary organs, is exempt from all direct taxes, except charges for utilities services, and is exempt from customs duties and charges of a similar nature in respect of articles imported or exported for its official use. In the event any governmental authority refuses to recognize UNDP's exemption from such taxes, duties or charges, the Supplier shall immediately consult with UNDP to determine a mutually acceptable procedure.
 - 3.2 Accordingly, the Supplier authorizes UNDP to deduct from the Supplier's invoice any amount representing such taxes, duties or charges, unless the Supplier has consulted with UNDP before the payment thereof and UNDP has, in each instance, specifically authorized the Supplier to pay such taxes, duties or charges under protest. In that event, the Supplier shall provide UNDP with written evidence that payment of such taxes, duties or charges has been made and appropriately authorized.

4. RISK OF LOSS

Risk of loss, damage to or destruction of the goods shall be governed in accordance with Incoterms 2010, unless otherwise agreed upon by the Parties on the front side of this Purchase Order.

5. EXPORT LICENCES

Notwithstanding any INCOTERM 2010 used in this Purchase Order, the Supplier shall obtain any export licenses required for the goods.

6. FITNESS OF GOODS/PACKAGING

The Supplier warrants that the goods, including packaging, conform to the specifications for the goods ordered under this Purchase Order and are fit for the purposes for which such goods are ordinarily used and for purposes expressly made known to the Supplier by UNDP, and are free from defects in

workmanship and materials. The Supplier also warrants that the goods are contained or packaged adequately to protect the goods.

7. INSPECTION

7.1 UNDP shall have a reasonable time after delivery of the goods to inspect them and to reject and refuse acceptance of goods not conforming to this Purchase Order; payment for goods pursuant to this Purchase Order shall not be deemed an acceptance of the goods.

7.2 Inspection prior to shipment does not relieve the Supplier from any of its contractual obligations.

8. INTELLECTUAL PROPERTY INFRINGEMENT

The Supplier warrants that the use or supply by UNDP of the goods sold under this Purchase Order does not infringe any patent, design, trade-name or trade-mark. In addition, the Supplier shall, pursuant to this warranty, indemnify, defend and hold UNDP and the United Nations harmless from any actions or claims brought against UNDP or the United Nations pertaining to the alleged infringement of a patent, design, trade-name or trade-mark arising in connection with the goods sold under this Purchase Order.

9. RIGHTS OF UNDP

In case of failure by the Supplier to fulfil its obligations under the terms and conditions of this Purchase Order, including but not limited to failure to obtain necessary export licenses, or to make delivery of all or part of the goods by the agreed delivery date or dates, UNDP may, after giving the Supplier reasonable notice to perform and without prejudice to any other rights or remedies, exercise one or more of the following rights:

- 9.1 Procure all or part of the goods from other sources, in which event UNDP may hold the Supplier responsible for any excess cost occasioned thereby.
- 9.2 Refuse to accept delivery of all or part of the goods.
- 9.3 Cancel this Purchase Order without any liability for termination charges or any other liability of any kind of UNDP.

10. LATE DELIVERY

Without limiting any other rights or obligations of the parties hereunder, if the Supplier will be unable to deliver the goods by the delivery date(s) stipulated in this Purchase Order, the Supplier shall (i) immediately consult with UNDP to determine the most expeditious means for delivering the goods and (ii) use an expedited means of delivery, at the Supplier's cost (unless the delay is due to Force Majeure), if reasonably so requested by UNDP.

11. ASSIGNMENT AND INSOLVENCY

- 11.1. The Supplier shall not, except after obtaining the written consent of UNDP, assign, transfer, pledge or make other disposition of this Purchase Order, or any part thereof, or any of the Supplier's rights or obligations under this Purchase Order.
- 11.2. Should the Supplier become insolvent or should control of the Supplier change by virtue of insolvency, UNDP may, without prejudice to any other rights or remedies, immediately terminate this Purchase Order by giving the Supplier written notice of termination.

12. USE OF UNDP OR UNITED NATIONS NAME OR EMBLEM

The Supplier shall not use the name, emblem or official seal of UNDP or the United Nations for any purpose.

13. PROHIBITION ON ADVERTISING

The Supplier shall not advertise or otherwise make public that it is furnishing goods or services to UNDP without specific permission of UNDP in each instance.

14. CHILD LABOUR

The Supplier represents and warrants that neither it nor any of its affiliates is engaged in any practice inconsistent with the rights set forth in the Convention on the Rights of the Child, including Article 32 thereof, which, inter alia, requires that a child shall be protected from performing any work that is likely to be hazardous or to interfere with the child's education, or to be harmful to the child's health or physical, mental, spiritual, moral or social development.

Any breach of this representation and warranty shall entitle UNDP to terminate this Purchase Order immediately upon notice to the Supplier, without any liability for termination charges or any other liability of any kind of UNDP.

15. MINES

The Supplier represents and warrants that neither it nor any of its affiliates is actively and directly engaged in patent activities, development, assembly, production, trade or manufacture of mines or in such activities in respect of components primarily utilized in the manufacture of Mines. The term "Mines" means those devices defined in Article 2, Paragraphs 1, 4 and 5 of Protocol II annexed to the Convention on Prohibitions and Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects of 1980.

Any breach of this representation and warranty shall entitle UNDP to terminate this Purchase Order immediately upon notice to the Supplier, without any liability for termination charges or any other liability of any kind of UNDP.

16. SETTLEMENT OF DISPUTES

- 16.1 Amicable Settlement. The Parties shall use their best efforts to settle amicably any dispute, controversy or claim arising out of, or relating to this Purchase Order or the breach, termination or invalidity thereof. Where the Parties wish to seek such an amicable settlement through conciliation, the conciliation shall take place in accordance with the UNCITRAL Conciliation Rules then obtaining, or according to such other procedure as may be agreed between the Parties.
- 16.2 Arbitration. Unless, any such dispute, controversy or claim between the Parties arising out of or relating to this Purchase Order or the breach, termination or invalidity thereof is settled amicably under the preceding paragraph of this Section within sixty (60) days after receipt by one Party of the other Party's request for such amicable settlement, such dispute, controversy or claim shall be referred by either Party to arbitration in accordance with the UNCITRAL Arbitration Rules then obtaining, including its provisions on applicable law. The arbitral tribunal shall have no authority to award punitive damages. The Parties shall be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such controversy, claim or dispute.

17. PRIVILEGES AND IMMUNITIES

Nothing in or related to these General Terms and Conditions or this Purchase Order shall be deemed a waiver of any of the privileges and immunities of the United Nations, including its subsidiary organs.

18. SEXUAL EXPLOITATION:

18.1 The Contractor shall take all appropriate measures to prevent sexual exploitation or abuse of anyone by it or by any of its employees or any other persons who may be engaged by the Contractor to perform any services under the Contract. For these purposes, sexual activity with any person less than eighteen years of age, regardless of any laws relating to consent, shall constitute the sexual exploitation and abuse of such person. In addition, the Contractor

shall refrain from, and shall take all appropriate measures to prohibit its employees or other persons engaged by it from, exchanging any money, goods, services, offers of employment or other things of value, for sexual favors or activities, or from engaging in any sexual activities that are exploitive or degrading to any person. The Contractor acknowledges and agrees that the provisions hereof constitute an essential term of the Contract and that any breach of this representation and warranty shall entitle UNDP to terminate the Contract immediately upon notice to the Contractor, without any liability for termination charges or any other liability of any kind.

18.2 UNDP shall not apply the foregoing standard relating to age in any case in which the Contractor's personnel or any other person who may be engaged by the Contractor to perform any services under the Contract is married to the person less than the age of eighteen years with whom sexual activity has occurred and in which such marriage is recognized as valid under the laws of the country of citizenship of such Contractor's personnel or such other person who may be engaged by the Contractor to perform any services under the Contract.

19. OFFICIALS NOT TO BENEFIT:

The Contractor warrants that no official of UNDP or the United Nations has received or will be offered by the Contractor any direct or indirect benefit arising from this Contract or the award thereof. The Contractor agrees that breach of this provision is a breach of an essential term of this Contract.

20. AUTHORITY TO MODIFY:

Pursuant to the Financial Regulations and Rules of UNDP, only the UNDP Authorized Official possess the authority to agree on behalf of UNDP to any modification of or change in this Agreement, to a waiver of any of its provisions or to any additional contractual relationship of any kind with the Contractor. Accordingly, no modification or change in this Contract shall be valid and enforceable against UNDP unless provided by an amendment to this Agreement signed by the Contractor and jointly by the UNDP Authorized Official.
