

14 June 2019

**Bid Bulletin No. 2
RFP-084-2019-PHL**

**Services of a PR Firm for the Bangsamoro Autonomous Region in Muslim Mindanao
(BARM)**

Dear All,

Please see response below from one of the inquiry received from prospective bidder.

Inquiry	Response
One of the requirements is for us to submit the latest audited Financial Statement. Is this a mandatory requirement? We are asking since our company is not a listed company and we do not normally share our financial statements.	We require submission of the audited financial statement to check the liquidity standing of a firm that UNDP will be engaging with. We need to check if the company/organization is in good financial standing, and has it a demonstrated record of good fiscal management and responsibility. If in case an audited financial statement won't be available, you may submit an equivalent document showing the company's financial standing.

Please be guided accordingly.

Thank you.

Yours sincerely,

Alka Aneja
Procurement Specialist
