Dear Sir / Madam:

We kindly request you to submit your Proposal for Risk Assessment: Electronic Know Your Customer and Credit Reporting Proposal

Please be guided by the form attached hereto as Annex 2, in preparing your Proposal.

Proposals may be submitted on or before Friday, 16th August 2019 (FJ Time) and via email to the address below:

Etenderbox.pacific@undp.org

Your Proposal must be expressed in the English, and valid for a minimum period of 150 days.

In the course of preparing your Proposal, it shall remain your responsibility to ensure that it reaches the address above on or before the deadline. Proposals that are received by UNDP after the deadline indicated above, for whatever reason, shall not be considered for evaluation. If you are submitting your Proposal by email, kindly ensure that they are signed and in the .pdf format, and free from any virus or corrupted files.

Services proposed shall be reviewed and evaluated based on completeness and compliance of the Proposal and responsiveness with the requirements of the RFP and all other annexes providing details of UNDP requirements.

The Proposal that complies with all of the requirements, meets all the evaluation criteria and offers the best value for money shall be selected and awarded the contract. Any offer that does not meet the requirements shall be rejected.

Any discrepancy between the unit price and the total price shall be re-computed by UNDP, and the unit price shall prevail and the total price shall be corrected. If the Service Provider does not accept the final price based on UNDP’s re-computation and correction of errors, its Proposal will be rejected.
No price variation due to escalation, inflation, fluctuation in exchange rates, or any other market factors shall be accepted by UNDP after it has received the Proposal. At the time of Award of Contract or Purchase Order, UNDP reserves the right to vary (increase or decrease) the quantity of services and/or goods, by up to a maximum twenty five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.

Any Contract or Purchase Order that will be issued as a result of this RFP shall be subject to the General Terms and Conditions attached hereto. The mere act of submission of a Proposal implies that the Service Provider accepts without question the General Terms and Conditions of UNDP, herein attached as Annex 3.

Please be advised that UNDP is not bound to accept any Proposal, nor award a contract or Purchase Order, nor be responsible for any costs associated with a Service Providers preparation and submission of a Proposal, regardless of the outcome or the manner of conducting the selection process.

UNDP’s vendor protest procedure is intended to afford an opportunity to appeal for persons or firms not awarded a Purchase Order or Contract in a competitive procurement process. In the event that you believe you have not been fairly treated, you can find detailed information about vendor protest procedures in the following link: 
http://www.undp.org/content/undp/en/home/operations/procurement/protestandsanctions/

UNDP encourages every prospective Service Provider to prevent and avoid conflicts of interest, by disclosing to UNDP if you, or any of your affiliates or personnel, were involved in the preparation of the requirements, design, cost estimates, and other information used in this RFP.

UNDP implements a zero tolerance on fraud and other proscribed practices, and is committed to preventing, identifying and addressing all such acts and practices against UNDP, as well as third parties involved in UNDP activities. UNDP expects its Service Providers to adhere to the UN Supplier Code of Conduct found in this link: http://www.un.org/depts/ptd/pdf/conduct_english.pdf

Thank you and we look forward to receiving your Proposal.

<tr>
<td>Implementing Partner of UNDP</td>
<td>Pacific Financial Inclusion Programme</td>
</tr>
<tr>
<td>Brief Description of the Required Services&lt;sup&gt;1&lt;/sup&gt;</td>
<td>PFIP is a Pacific-wide programme that has helped 2.1 million low-income Pacific Islanders gain access to financial services and financial education. It achieves these results by funding innovation with financial services and delivery channels, supporting policy and regulatory initiatives, and empowering consumers. PFIP operates from the UNDP Pacific Office in Fiji and has offices in Papua New Guinea, Samoa and the Solomon Islands. It is jointly administered by the UN Capital Development Fund (UNCDF) and the United Nations Development Fund (UNDP) and receives funding from the Australian Government, the European Union and the New Zealand Government. <strong>Background on the assignment</strong> Identification credentials for the purpose of accessing and using financial services continues to be a barrier worldwide with an estimated 1.7 billion people being unable to prove who they are. PFIP is planning to implement an e-KYC and digital credit history reporting solution in selected Pacific Island countries and has received a proposal for the same. As part of this work, PFIP is keen to undertake a risk assessment of the proposal that it has been presented with. The e-KYC solution proposed leverages decentralized ledger technology (DLT) to enable the identification and verification of digital identities that can be used in the offline world. The solution is intended to be self-sovereign and GDPR-compliant for privacy by design. The digital credit history solution also leverages DLT to enable both informal and formal financial service providers to integrate their credit data into a single verifiable ledger and facilitate economical credit checks for all users. The primary focus of the assessment is to understand how DLT-driven e-KYC can catalyse the development and use of the proposed digital credit history reporting solution.</td>

Risk Assessment: Electronic Know Your Customer and Credit Reporting Proposal

BACKGROUND

Pacific Financial Inclusion Programme
PFIP is a Pacific-wide programme that has helped 2.1 million low-income Pacific Islanders gain access to financial services and financial education. It achieves these results by funding innovation with financial services and delivery channels, supporting policy and regulatory initiatives, and empowering consumers.

PFIP operates from the UNDP Pacific Office in Fiji and has offices in Papua New Guinea, Samoa and the Solomon Islands. It is jointly administered by the UN Capital Development Fund (UNCDF) and the United Nations Development Fund (UNDP) and receives funding from the Australian Government, the European Union and the New Zealand Government.

Background on the assignment
Identification credentials for the purpose of accessing and using financial services continues to be a barrier worldwide with an estimated 1.7 billion people being unable to prove who they are.

PFIP is planning to implement an e-KYC and digital credit history reporting solution in selected Pacific Island countries and has received a proposal for the same. As part of this work, PFIP is keen to undertake a risk assessment of the proposal that it has been presented with.

The e-KYC solution proposed leverages decentralized ledger technology (DLT) to enable the identification and verification of digital identities that can be used in the offline world. The solution is intended to be self-sovereign and GDPR-compliant for privacy by design.

The digital credit history solution also leverages DLT to enable both informal and formal financial service providers to integrate their credit data into a single verifiable ledger and facilitate economical credit checks for all users.

The primary focus of the assessment is to understand how DLT-driven e-KYC can catalyse the development and use of the proposed digital credit history reporting solution.

• The technology being proposed, including proprietary vs open nature and standards.
• Compliance relative to data protection regulation for both the e-KYC and digital credit reporting solutions and where they intersect.
• Other key considerations that should ideally be made when assessing such interventions.

• The firm will in liaison with PFIP, provide recommendations on the minimum stakeholder requirements to enable local stakeholders to sustain and manage such systems at Government, FSP and other key stakeholder level.
• The firm will identify and map considerations that UNCDF PFIP needs to make prior to and during implementation of the proposal, should the decision be made to proceed.
• The firm will provide recommendations on the level and nature of PFIP support towards the proposed PFIP project, taking into account PFIP’s mandate.
• The firm will present the literature referencing best practice to both the e-KYC and digital credit reporting history practice areas and provide a comparative analysis of the proposed project.
