Dear Sir/Madam,

The United Nations Development Programme (UNDP) hereby invites you to submit a Proposal to this Request for Proposal (RFP) for the above-referenced subject.

Detailed Terms of Reference (TOR) as well as other requirements are listed in the RFP available on UNDP ATLAS e-Tendering system (<https://etendering.partneragencies.org>) Event ID: **4175**.

Your offer, comprising of a Technical and Financial Proposal, should be submitted in accordance with the RFP requirements, through the UNDP ATLAS e-Tendering system and by the deadline indicated in <https://etendering.partneragencies.org>.

NOTE: The Technical Proposal and Financial Proposal files MUST BE COMPLETELY SEPARATE and uploaded separately in the system and clearly named as either "TECHNICAL PROPOSAL" or "FINANCIAL PROPOSAL", as appropriate. Each document shall include the Proposer's name and address. The file with the "FINANCIAL PROPOSAL" must be encrypted with a password so that it cannot be opened nor viewed until the Technical Proposal has been found to be pass the technical evaluation stage. Once a Technical Proposal has been found to be responsive by passing the technical evaluation stage, UNDP shall request the Proposer to submit the password to open the Financial Proposal. The Proposer shall assume the responsibility for not encrypting the Financial Proposal. **NOTE: DO NOT ENTER BID AMOUNT IN THE SYSTEM, INSTEAD ENTER THE NUMBER 1.**

In the course of preparing and submitting your Proposal, it shall remain your responsibility to ensure that it is submitted into the system by the deadline. The system will automatically block and not accept any bid after the deadline. In case of any discrepancies, the deadline indicated in the system shall prevail.

Kindly ensure that supporting documents required are signed and stamped and in the .pdf format, and free from any virus or corrupted files and the **FINANCIAL PROPOSAL IS PASSWORD PROTECTED**.

NOTE: The file name should contain only Latin characters (No Cyrillic or other alphabets.).

You are kindly requested to indicate whether your company intends to submit a Proposal by clicking "**Accept Invitation**" but not later than **16 August 2019**. If this is not the case, UNDP would appreciate indicating your reason, for our records.

If you have not registered in the system before, you can register by logging in using:

Username: event.guest

Password: why2change

The step by step instructions for registration of bidders and quotation submission through the UNDP ATLAS e-Tendering system is available in the attached "Instructions Manual for the Bidders". Should you require any training on the UNDP ATLAS e-Tendering system or face any difficulties when registering your company or submitting your quotation, please send an email to sylvia.indriani@undp.org cc. martin.kurnia@undp.org.

Please note that ATLAS has following minimum requirements for password:

1. Minimum length of 8 characters;
2. At least one capital letter; and
3. At least one number.

New proposer registering for the first time, the system will not accept any password that does not meet the above requirement, and thus registration cannot be completed.

For existing vendor whose current password does not meet the abovementioned password requirements, the system will prompt you to change your password upon signing in. Please change your password in accordance with the abovementioned password requirements to be able to login to the system.

The user guide and video are available to you in the UNDP public website in this link: <http://www.undp.org/content/undp/en/home/operations/procurement/business/procurement/notices/resources/>. You can also access the instruction from youtube with link: <https://www.youtube.com/watch?v=Trv1FX6reu8&feature=youtu.be>.

You are advised to use Internet Explorer (Version 10 or above) to avoid any incompatibility issues with the re-tendering system.

No hard copy or email submissions will be accepted by UNDP.

UNDP looks forward to receiving your Proposal and appreciate your interest to participate in UNDP procurement opportunities.

Yours sincerely,

Martin Kurnia
Procurement Analyst

Section 2. Instruction to Bidders

I. GENERAL PROVISIONS	
1. Introduction	<p>1.1 Bidders shall adhere to all the requirements of this RFP, including any amendments in writing by UNDP. This RFP is conducted in accordance with the UNDP Programme and Operations Policies and Procedures (POPP) on Contracts and Procurement which can be accessed at https://popp.undp.org/SitePages/POPPBSUnit.aspx?TermID=254a9f96-b883-476a-8ef8-e81f93a2b38d</p> <p>1.2 Any Proposal submitted will be regarded as an offer by the Bidder and does not constitute or imply the acceptance of the Proposal by UNDP. UNDP is under no obligation to award a contract to any Bidder as a result of this RFP.</p> <p>1.3 As part of the bid, it is desired that the Bidder registers at the United Nations Global Marketplace (UNGM) website (www.ungm.org). The Bidder may still submit a bid even if not registered with the UNGM. However, if the Bidder is selected for contract award, the Bidder must register on the UNGM prior to contract signature.</p>
	<p>2.1 UNDP strictly enforces a policy of zero tolerance on proscribed practices, including fraud, corruption, collusion, unethical or unprofessional practices, and obstruction of UNDP vendors and requires all bidders/vendors observe the highest standard of ethics during the procurement process and contract implementation. UNDP's Anti-Fraud Policy can be found at http://www.undp.org/content/undp/en/home/operations/accountability/audit/office_of_audit_andinvestigation.html#anti</p> <p>2.2 Bidders/vendors shall not offer gifts or hospitality of any kind to UNDP staff members including recreational trips to sporting or cultural events, theme parks or offers of holidays, transportation, or invitations to extravagant lunches or dinners.</p> <p>2.3 In pursuance of this policy, UNDP (a) Shall reject a proposal if it determines that the selected bidder has engaged in any corrupt or fraudulent practices in competing for the contract in question; (b) Shall declare a vendor ineligible, either indefinitely or for a stated period of time, to be awarded a contract if at any time it determines that the vendor has engaged in any corrupt or fraudulent practices in competing for, or in executing a UNDP contract.</p> <p>2.4 All Bidders must adhere to the UN Supplier Code of Conduct, which may be found at http://www.un.org/depts/ptd/pdf/conduct_english.pdf</p>

3. Eligibility	<p>3.1 A vendor should not be suspended, debarred, or otherwise identified as ineligible by any UN Organization or the World Bank Group or any other international Organization. Vendors are therefore required to disclose to UNDP whether they are subject to any sanction or temporary suspension imposed by these organizations.</p> <p>3.2 It is the Bidder's responsibility to ensure that its employees, joint venture members, sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by UNDP.</p>
4. Conflict of Interests	<p>4.1 Bidders must strictly avoid conflicts with other assignments or their own interests, and act without consideration for future work. Bidders found to have a conflict of interest shall be disqualified. Without limitation on the generality of the above, Bidders, and any of their affiliates, shall be considered to have a conflict of interest with one or more parties in this solicitation process, if they:</p> <ul style="list-style-type: none"> a) Are or have been associated in the past, with a firm or any of its affiliates which have been engaged by UNDP to provide services for the preparation of the design, specifications, Terms of Reference, cost analysis/estimation, and other documents to be used for the procurement of the goods and services in this selection process; b) Were involved in the preparation and/or design of the programme/project related to the services requested under this RFP; or c) Are found to be in conflict for any other reason, as may be established by, or at the discretion of UNDP. <p>4.2 In the event of any uncertainty in the interpretation of a potential conflict of interest, Bidders must disclose to UNDP, and seek UNDP's confirmation on whether or not such a conflict exists.</p> <p>4.3 Similarly, the Bidders must disclose in their proposal their knowledge of the following:</p> <ul style="list-style-type: none"> a) If the owners, part-owners, officers, directors, controlling shareholders, of the bidding entity or key personnel are family members of UNDP staff involved in the procurement functions and/or the Government of the country or any Implementing Partner receiving services under this RFP; and b) All other circumstances that could potentially lead to actual or perceived conflict of interest, collusion or unfair competition practices. <p>Failure to disclose such an information may result in the rejection of the proposal or proposals affected by the non-disclosure.</p> <p>4.4 The eligibility of Bidders that are wholly or partly owned by the Government shall be subject to UNDP's further evaluation and review of various factors such as being registered, operated and managed</p>

		as an independent business entity, the extent of Government ownership/share, receipt of subsidies, mandate and access to information in relation to this RFP, among others. Conditions that may lead to undue advantage against other Bidders may result in the eventual rejection of the Proposal.
II. PREPARATION OF PROPOSALS		
5. General Considerations	5.1	In preparing the Proposal, the Bidder is expected to examine the RFP in detail. Material deficiencies in providing the information requested in the RFP may result in rejection of the Proposal.
	5.2	The Bidder will not be permitted to take advantage of any errors or omissions in the RFP. Should such errors or omissions be discovered, the Bidder must notify the UNDP
6. Cost of Preparation of Proposal	6.1	The Bidder shall bear any and all costs related to the preparation and/or submission of the Proposal, regardless of whether its Proposal was selected or not. UNDP shall not be responsible or liable for those costs, regardless of the conduct or outcome of the procurement process.
7. Language	7.1	The Proposal, as well as any and all related correspondence exchanged by the Bidder and UNDP, shall be written in the language (s) specified in the BDS.
8. Documents Comprising the Proposal	8.1	The Proposal shall comprise of the following documents: c) Documents Establishing the Eligibility and Qualifications of the Bidder; d) Technical Proposal; e) Financial Proposal; f) Proposal Security, if required by BDS; g) Any attachments and/or appendices to the Proposal.
9. Documents Establishing the Eligibility and Qualifications of the Bidder	9.1	The Bidder shall furnish documentary evidence of its status as an eligible and qualified vendor, using the Forms provided under Section 6 and providing documents required in those forms. In order to award a contract to a Bidder, its qualifications must be documented to UNDP's satisfaction.
10. Technical Proposal Format and Content	10.1	The Bidder is required to submit a Technical Proposal using the Standard Forms and templates provided in Section 6 of the RFP.
	10.2	The Technical Proposal shall not include any price or financial information. A Technical Proposal containing material financial information may be declared non-responsive.
	10.3	Samples of items, when required as per Section 5, shall be provided within the time specified and unless otherwise specified by UNDP, and at no expense to UNDP

	10.4	When applicable and required as per Section 5, the Bidder shall describe the necessary training programme available for the maintenance and operation of the services and/or equipment offered as well as the cost to the UNDP. Unless otherwise specified, such training as well as training materials shall be provided in the language of the Bid as specified in the BDS.
11. Financial Proposals	11.1	The Financial Proposal shall be prepared using the Standard Form provided in Section 6 of the RFP. It shall list all major cost components associated with the services, and the detailed breakdown of such costs.
	11.2	Any output and activities described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, as well as in the final total price.
	11.3	Prices and other financial information must not be disclosed in any other place except in the financial proposal.
12. Proposal Security	12.1	A Proposal Security, if required by BDS, shall be provided in the amount and form indicated in the BDS. The Proposal Security shall be valid up to thirty (30) days after the final date of validity of the Proposal.
	12.2	The Proposal Security shall be included along with the Technical Proposal. If Proposal Security is required by the RFP but is not found along with the Technical Proposal, the Proposal shall be rejected.
	12.3	If the Proposal Security amount or its validity period is found to be less than what is required by UNDP, UNDP shall reject the Proposal.
	12.4	In the event an electronic submission is allowed in the BDS, Bidders shall include a copy of the Bid Security in their proposal and the original of the Proposal Security must be sent via courier or hand delivery as per the instructions in BDS.
	12.5	The Proposal Security may be forfeited by UNDP, and the Proposal rejected, in the event of any one or combination, of the following conditions: <ul style="list-style-type: none"> a) If the Bidder withdraws its offer during the period of the Proposal Validity specified in the BDS, or; b) In the event that the successful Bidder fails: <ul style="list-style-type: none"> i. to sign the Contract after UNDP has issued an award; or
	12.6	to furnish the Performance Security, insurances, or other documents that UNDP may require as a condition precedent to the effectivity of the contract that may be awarded to the Bidder.
13. Currencies	13.1	All prices shall be quoted in the currency or currencies indicated in the BDS. Where Proposals are quoted in different currencies, for the purposes of comparison of all Proposals:

		<ul style="list-style-type: none"> a) UNDP will convert the currency quoted in the Proposal into the UNDP preferred currency, in accordance with the prevailing UN operational rate of exchange on the last day of submission of Proposals; and b) In the event that UNDP selects a proposal for award that is quoted in a currency different from the preferred currency in the BDS, UNDP shall reserve the right to award the contract in the currency of UNDP's preference, using the conversion method specified above.
14. Joint Venture, Consortium or Association	<p>14.1 If the Bidder is a group of legal entities that will form or have formed a Joint Venture (JV), Consortium or Association for the Proposal, they shall confirm in their Proposal that : (i) they have designated one party to act as a lead entity, duly vested with authority to legally bind the members of the JV, Consortium or Association jointly and severally, which shall be evidenced by a duly notarized Agreement among the legal entities, and submitted with the Proposal; and (ii) if they are awarded the contract, the contract shall be entered into, by and between UNDP and the designated lead entity, who shall be acting for and on behalf of all the member entities comprising the joint venture.</p> <p>14.2 After the Deadline for Submission of Proposal, the lead entity identified to represent the JV, Consortium or Association shall not be altered without the prior written consent of UNDP.</p> <p>14.3 The lead entity and the member entities of the JV, Consortium or Association shall abide by the provisions of Clause 9 herein in respect of submitting only one proposal.</p> <p>14.4 The description of the organization of the JV, Consortium or Association must clearly define the expected role of each of the entity in the joint venture in delivering the requirements of the RFP, both in the Proposal and the JV, Consortium or Association Agreement. All entities that comprise the JV, Consortium or Association shall be subject to the eligibility and qualification assessment by UNDP.</p> <p>14.5 A JV, Consortium or Association in presenting its track record and experience should clearly differentiate between:</p> <ul style="list-style-type: none"> a) Those that were undertaken together by the JV, Consortium or Association; and b) Those that were undertaken by the individual entities of the JV, Consortium or Association. <p>14.6 Previous contracts completed by individual experts working privately but who are permanently or were temporarily associated with any of the member firms cannot be claimed as the experience of the JV, Consortium or Association or those of its members, but should only be claimed by the individual experts themselves in their presentation</p>	

	<p>of their individual credentials.</p> <p>14.7 JV, Consortium or Associations are encouraged for high value, multi-sectoral requirements when the spectrum of expertise and resources required may not be available within one firm.</p>
15. Only One Proposal	<p>15.1 The Bidder (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture.</p> <p>15.2 Proposals submitted by two (2) or more Bidders shall all be rejected if they are found to have any of the following:</p> <ul style="list-style-type: none"> a) they have at least one controlling partner, director or shareholder in common; or b) any one of them receive or have received any direct or indirect subsidy from the other/s; or c) they have the same legal representative for purposes of this RFP; or d) they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about, or influence on the Proposal of, another Bidder regarding this RFP process; e) they are subcontractors to each other's Proposal, or a subcontractor to one Proposal also submits another Proposal under its name as lead Bidder; or f) some key personnel proposed to be in the team of one Bidder participates in more than one Proposal received for this RFP process. This condition relating to the personnel, does not apply to subcontractors being included in more than one Proposal.
16. Proposal Validity Period	<p>16.1 Proposals shall remain valid for the period specified in the BDS, commencing on the Deadline for Submission of Proposals. A Proposal valid for a shorter period may be rejected by UNDP and rendered non-responsive.</p> <p>16.2 During the Proposal validity period, the Bidder shall maintain its original Proposal without any change, including the availability of the Key Personnel, the proposed rates and the total price.</p>
17. Extension of Proposal Validity Period	<p>17.1 In exceptional circumstances, prior to the expiration of the proposal validity period, UNDP may request Bidders to extend the period of validity of their Proposals. The request and the responses shall be made in writing, and shall be considered integral to the Proposal.</p> <p>17.2 If the Bidder agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal.</p> <p>17.3 The Bidder has the right to refuse to extend the validity of its Proposal, and in which case, such Proposal will not be further evaluated.</p>

18. Clarification of Proposal	<p>18.1 Bidders may request clarifications on any of the RFP documents no later than the date indicated in the BDS. Any request for clarification must be sent in writing in the manner indicated in the BDS. If inquiries are sent other than specified channel, even if they are sent to a UNDP staff member, UNDP shall have no obligation to respond or confirm that the query was officially received.</p> <p>18.2 UNDP will provide the responses to clarifications through the method specified in the BDS.</p> <p>18.3 UNDP shall endeavor to provide responses to clarifications in an expeditious manner, but any delay in such response shall not cause an obligation on the part of UNDP to extend the submission date of the Proposals, unless UNDP deems that such an extension is justified and necessary.</p>
19. Amendment of Proposals	<p>19.1 At any time prior to the deadline of Proposal submission, UNDP may for any reason, such as in response to a clarification requested by a Bidder, modify the RFP in the form of an amendment to the RFP. Amendments will be made available to all prospective bidders.</p> <p>19.2 If the amendment is substantial, UNDP may extend the Deadline for submission of proposal to give the Bidders reasonable time to incorporate the amendment into their Proposals.</p>
20. Alternative Proposals	<p>20.1 Unless otherwise specified in the BDS, alternative proposals shall not be considered. If submission of alternative proposal is allowed by BDS, a Bidder may submit an alternative proposal, but only if it also submits a proposal conforming to the RFP requirements. UNDP shall only consider the alternative proposal offered by the Bidder whose conforming proposal ranked the highest as per the specified evaluation method. Where the conditions for its acceptance are met, or justifications are clearly established, UNDP reserves the right to award a contract based on an alternative proposal.</p> <p>20.2 If multiple/alternative proposals are being submitted, they must be clearly marked as "Main Proposal" and "Alternative Proposal"</p>
21. Pre-Bid Conference	<p>21.1 When appropriate, a Bidder's conference will be conducted at the date, time and location specified in the BDS. All Bidders are encouraged to attend. Non-attendance, however, shall not result in disqualification of an interested Bidder. Minutes of the Bidder's conference will be disseminated on the procurement website and shared by email or on the e-Tendering platform as specified in the BDS. No verbal statement made during the conference shall modify the terms and conditions of the RFP, unless specifically incorporated in the Minutes of the Bidder's Conference or issued/posted as an amendment to RFP.</p>

II. SUBMISSION AND OPENING OF PROPOSALS

<p>22. Submission</p>	<p>22.1 The Bidder shall submit a duly signed and complete Proposal comprising the documents and forms in accordance with the requirements in the BDS. The submission shall be in the manner specified in the BDS.</p> <p>22.2 The Proposal shall be signed by the Bidder or person(s) duly authorized to commit the Bidder. The authorization shall be communicated through a document evidencing such authorization issued by the legal representative of the bidding entity, or a Power of Attorney, accompanying the Proposal.</p> <p>22.3 Bidders must be aware that the mere act of submission of a Proposal, in and of itself, implies that the Bidder fully accepts the UNDP General Contract Terms and Conditions.</p>
<p>Hard copy (manual) submission (Not applicable)</p>	<p>22.4 Hard copy (manual) submission by courier or hand delivery allowed or specified in the BDS shall be governed as follows:</p> <p>g) The signed Proposal shall be marked "Original", and its copies marked "Copy" as appropriate. The number of copies is indicated in the BDS. All copies shall be made from the signed original only. If there are discrepancies between the original and the copies, the original shall prevail.</p> <p>h) The Technical Proposal and the Financial Proposal envelopes MUST BE COMPLETELY SEPARATE and each of them must be submitted sealed individually and clearly marked on the outside as either "TECHNICAL PROPOSAL" or "FINANCIAL PROPOSAL", as appropriate. Be addressed to UNDP as specified in the BDS</p> <p>iii. Bear a warning that states <i>"Not to be opened before the time and date for proposal opening"</i> as specified in the BDS.</p> <p>If the envelopes and packages with the Proposal are not sealed and marked as required, UNDP shall assume no responsibility for the misplacement, loss, or premature opening of the Proposal.</p>
<p>Email Submission (Not applicable)</p>	<p>22.5 Email submission, if allowed or specified in the BDS, shall be governed as follows:</p> <p>a) Electronic files that form part of the proposal must be in accordance with the format and requirements indicated in BDS;</p>

<p>eTendering submission</p>	<p>b) The Technical Proposal and the Financial Proposal files MUST BE COMPLETELY SEPARATE. The financial proposal shall be encrypted with different passwords and clearly labelled. The files must be sent to the dedicated email address specified in the BDS.</p> <p>c) The password for opening the Financial Proposal should be provided only upon request of UNDP. UNDP will request password only from bidders whose Technical Proposal has been found to be technically responsive. Failure to provide correct password may result in the proposal being rejected.</p> <p>22.6 Electronic submission through eTendering, if allowed or specified in the BDS, shall be governed as follows:</p> <p>a) Electronic files that form part of the proposal must be in accordance with the format and requirements indicated in BDS;</p> <p>b) The Technical Proposal and the Financial Proposal files MUST BE COMPLETELY SEPARATE and each of them must be uploaded individually and clearly labelled.</p> <p>d) The Financial Proposal file must be encrypted with a password so that it cannot be opened nor viewed until the password is provided. The password for opening the Financial Proposal should be provided only upon request of UNDP. UNDP will request password only from bidders whose technical proposal has been found to be technically responsive. Failure to provide the correct password may result in the proposal being rejected.</p> <p>c) Documents which are required to be in original form (e.g. Bid Security, etc.) must be sent via courier or hand delivery as per the instructions in BDS.</p> <p>d) Detailed instructions on how to submit, modify or cancel a bid in the eTendering system are provided in the eTendering system Bidder User Guide and Instructional videos available on this link: http://www.undp.org/content/undp/en/home/operations/procurement/business/procurement-notices/resources/</p>
<p>23. Deadline for Submission of Proposals and Late Proposals</p>	<p>23.1 Complete Proposals must be received by UNDP in the manner, and no later than the date and time, specified in the BDS. UNDP shall only recognize the date and time that the bid was received by UNDP</p> <p>23.2 UNDP shall not consider any Proposal that is submitted after the deadline for the submission of Proposals.</p>
<p>24. Withdrawal, Substitution, and Modification of Proposals</p>	<p>24.1 A Bidder may withdraw, substitute or modify its Proposal after it has been submitted at any time prior to the deadline for submission.</p> <p>24.2 Manual and Email submissions: A bidder may withdraw, substitute or modify its Proposal by sending a written notice to UNDP, duly signed by an authorized representative, and shall include a copy of the authorization (or a Power of Attorney). The corresponding</p>

	<p>substitution or modification of the Proposal, if any, must accompany the respective written notice. All notices must be submitted in the same manner as specified for submission of proposals, by clearly marking them as "WITHDRAWAL" "SUBSTITUTION," or "MODIFICATION"</p> <p>24.3 eTendering: A Bidder may withdraw, substitute or modify its Proposal by Canceling, Editing, and re-submitting the proposal directly in the system. It is the responsibility of the Bidder to properly follow the system instructions, duly edit and submit a substitution or modification of the Proposal as needed. Detailed instructions on how to cancel or modify a Proposal directly in the system are provided in Bidder User Guide and Instructional videos.</p> <p>24.4 Proposals requested to be withdrawn shall be returned unopened to the Bidders (only for manual submissions), except if the bid is withdrawn after the bid has been opened</p>
25. Proposal Opening	<p>25.1 There is no public bid opening for RFPs. UNDP shall open the Proposals in the presence of an ad-hoc committee formed by UNDP, consisting of at least two (2) members. In the case of e-Tendering submission, bidders will receive an automatic notification once their proposal is opened.</p>
V. EVALUATION OF PROPOSALS	
26. Confidentiality	<p>26.1 Information relating to the examination, evaluation, and comparison of Proposals, and the recommendation of contract award, shall not be disclosed to Bidders or any other persons not officially concerned with such process, even after publication of the contract award.</p> <p>26.2 Any effort by a Bidder or anyone on behalf of the Bidder to influence UNDP in the examination, evaluation and comparison of the Proposals or contract award decisions may, at UNDP's decision, result in the rejection of its Proposal and may be subject to the application of prevailing UNDP's vendor sanctions procedures.</p>
27. Evaluation of Proposals	<p>27.1 The Bidder is not permitted to alter or modify its Proposal in any way after the proposal submission deadline except as permitted under Clause 24 of this RFP. UNDP will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals.</p> <p>27.2 Evaluation of proposals is made of the following steps:</p> <ul style="list-style-type: none"> i) Preliminary Examination j) Minimum Eligibility and Qualification (if pre-qualification is not done) k) Evaluation of Technical Proposals l) Evaluation of Financial Proposals
28. Preliminary Examination	<p>28.1 UNDP shall examine the Proposals to determine whether they are complete with respect to minimum documentary requirements, whether the documents have been properly signed, and whether the</p>

	<p>Proposals are generally in order, among other indicators that may be used at this stage. UNDP reserves the right to reject any Proposal at this stage.</p>
<p>29. Evaluation of Eligibility and Qualification</p>	<p>29.1 Eligibility and Qualification of the Bidder will be evaluated against the Minimum Eligibility/Qualification requirements specified in the Section 4 (Evaluation Criteria).</p> <p>29.2 In general terms, vendors that meet the following criteria may be considered qualified:</p> <ul style="list-style-type: none"> a) They are not included in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's ineligible vendors' list; b) They have a good financial standing and have access to adequate financial resources to perform the contract and all existing commercial commitments, c) They have the necessary similar experience, technical expertise, production capacity where applicable, quality certifications, quality assurance procedures and other resources applicable to the provision of the services required; d) They are able to comply fully with UNDP General Terms and Conditions of Contract; e) They do not have a consistent history of court/arbitral award decisions against the Bidder; and f) They have a record of timely and satisfactory performance with their clients.
<p>30. Evaluation of Technical and Financial Proposals</p>	<p>30.1 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other RFP documents, applying the evaluation criteria, sub-criteria, and point system specified in the Section 4 (Evaluation Criteria). A Proposal shall be rendered non-responsive at the technical evaluation stage if it fails to achieve the minimum technical score indicated in the BDS. When necessary and if stated in the BDS, UNDP may invite technically responsive bidders for a presentation related to their technical proposals. The conditions for the presentation shall be provided in the bid document where required.</p> <p>30.2 In the second stage, only the Financial Proposals of those Bidders who achieve the minimum technical score will be opened for evaluation. The Financial Proposals corresponding to Technical Proposals that were rendered non-responsive shall remain unopened, and, in the case of manual submission, be returned to the Bidder unopened. For emailed Proposals and e-tendering submissions, UNDP will not request for the password of the Financial Proposals of bidders whose Technical Proposal were found not responsive.</p> <p>30.3 The evaluation method that applies for this RFP shall be as indicated in the BDS, which may be either of two (2) possible methods, as follows: (a) the lowest priced method which selects the lowest</p>

	<p>evaluated financial proposal of the technically responsive Bidders; or (b) the combined scoring method which will be based on a combination of the technical and financial score.</p> <p>30.4 When the BDS specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:</p> <div style="border: 1px solid black; padding: 10px; margin: 10px 0;"> <p><u>Rating the Technical Proposal (TP):</u></p> <p>TP Rating = (Total Score Obtained by the Offer / Max. Obtainable Score for TP) x 100</p> <p><u>Rating the Financial Proposal (FP):</u></p> <p>FP Rating = (Lowest Priced Offer / Price of the Offer Being Reviewed) x 100</p> <p><u>Total Combined Score:</u></p> <p>Combined Score = (TP Rating) x (Weight of TP, e.g. 70%) + (FP Rating) x (Weight of FP, e.g., 30%)</p> </div>
31. Due Diligence	<p>31.1 UNDP reserves the right to undertake a due diligence exercise, also called post qualification, aimed at determining to its satisfaction, the validity of the information provided by the Bidder. Such exercise shall be fully documented and may include, but need not be limited to, all or any combination of the following:</p> <ol style="list-style-type: none"> a) Verification of accuracy, correctness and authenticity of information provided by the Bidder; b) Validation of extent of compliance to the RFP requirements and evaluation criteria based on what has so far been found by the evaluation team; c) Inquiry and reference checking with Government entities with jurisdiction on the Bidder, or with previous clients, or any other entity that may have done business with the Bidder; d) Inquiry and reference checking with previous clients on the performance on on-going or contracts completed, including physical inspections of previous works, as necessary; e) Physical inspection of the Bidder's offices, branches or other places where business transpires, with or without notice to the Bidder; f) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.
32. Clarification of Proposals	<p>32.1 To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Bidder for a clarification of its Proposal.</p>

	<p>32.2 UNDP's request for clarification and the response shall be in writing and no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP.</p> <p>32.3 Any unsolicited clarification submitted by a Bidder in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.</p>
33. Responsiveness of Proposal	<p>33.1 UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself. A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.</p> <p>33.2 If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Bidder by correction of the material deviation, reservation, or omission.</p>
34. Nonconformities, Repairable Errors and Omissions	<p>34.1 Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.</p> <p>34.2 UNDP may request the Bidder to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Bidder to comply with the request may result in the rejection of its Proposal.</p> <p>34.3 For Financial Proposal that has been opened, UNDP shall check and correct arithmetical errors as follows:</p> <ul style="list-style-type: none"> a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price; in which case the line item total as quoted shall govern and the unit price shall be corrected; b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail.

	34.4	If the Bidder does not accept the correction of errors made by UNDP, its Proposal shall be rejected.
V. AWARD OF CONTRACT		
35. Right to Accept, Reject, Any or All Proposals	35.1	UNDP reserves the right to accept or reject any Proposal, to render any or all of the Proposals as non-responsive, and to reject all Proposals at any time prior to award of contract, without incurring any liability, or obligation to inform the affected Bidder(s) of the grounds for UNDP's action. UNDP shall not be obliged to award the contract to the lowest priced offer.
36. Award Criteria	36.1	Prior to expiration of the proposal validity, UNDP shall award the contract to the qualified Bidder based on the award criteria indicated in the BDS.
37. Debriefing	37.1	In the event that a Bidder is unsuccessful, the Bidder may request a debriefing from UNDP. The purpose of the debriefing is to discuss the strengths and weaknesses of the Bidder's submission, in order to assist the Bidder in improving its future proposals for UNDP procurement opportunities. The content of other proposals and how they compare to the Bidder's submission shall not be discussed.
38. Right to Vary Requirements at the Time of Award	38.1	At the time of award of Contract, UNDP reserves the right to vary the quantity of services and/or goods, by up to a maximum twenty-five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.
39. Contract Signature	39.1	Within fifteen (15) days from the date of receipt of the Contract, the successful Bidder shall sign and date the Contract and return it to UNDP. Failure to do so may constitute sufficient grounds for the annulment of the award, and forfeiture of the Proposal Security, if any, and on which event, UNDP may award the Contract to the Second Ranked Bidder or call for new Proposals.
40. Contract Type and General Terms and Conditions	40.1	The types of Contract to be signed and the applicable UNDP Contract General Terms and Conditions, as specified in BDS, can be accessed at http://www.undp.org/content/undp/en/home/procurement/business/how-we-buy.html
41. Performance Security	41.1	40.1 A performance security, if required in BDS, shall be provided in the amount specified in BDS and form available at https://popp.undp.org/layouts/15/WopiFrame.aspx?sourcedoc=/UNDP POPP DOCUMENT LIBRARY/Public/PSU Solicitation Performance%20Guarantee%20Form.docx&action=default within fifteen (15) days of the contract signature by both parties. Where a performance security is required, the receipt of the performance security by UNDP

		shall be a condition for rendering the contract effective.
42. Bank Guarantee for Advanced Payment	42.1	Except when the interests of UNDP so require, it is UNDP's preference to make no advance payment(s) (i.e., payments without having received any outputs). If an advance payment is allowed as per BDS, and exceeds 20% of the total contract price, or USD 30,000, whichever is less, the Bidder shall submit a Bank Guarantee in the full amount of the advance payment in the form available at https://popp.undp.org/layouts/15/WopiFrame.aspx?sourcedoc=/UNDP POPP DOCUMENT LIBRARY/Public/PSU Contract%20Management%20Payment%20and%20Taxes Advanced%20Payment%20Guarantee%20Form.docx&action=default
43. Liquidated Damages	43.1	If specified in BDS, UNDP shall apply Liquidated Damages resulting from the Contractor's delays or breach of its obligations as per the Contract.
44. Payment Provisions	44.1	Payment will be made only upon UNDP's acceptance of the work performed. The terms of payment shall be within thirty (30) days, after receipt of invoice and certification of acceptance of work issued by the proper authority in UNDP with direct supervision of the Contractor. Payment will be effected by bank transfer in the currency of contract.
45. Vendor Protest	45.1	UNDP's vendor protest procedure provides an opportunity for appeal to those persons or firms not awarded a contract through a competitive procurement process. In the event that a Bidder believes that it was not treated fairly, the following link provides further details regarding UNDP vendor protest procedures: http://www.undp.org/content/undp/en/home/operations/procurement/business/protest-and-sanctions.html
46. Other Provisions	46.1	In the event that the Bidder offers a lower price to the host Government (e.g. General Services Administration (GSA) of the federal government of the United States of America) for similar services, UNDP shall be entitled to same lower price. The UNDP General Terms and Conditions shall have precedence.
	46.2	UNDP is entitled to receive the same pricing offered by the same Contractor in contracts with the United Nations and/or its Agencies. The UNDP General Terms and Conditions shall have precedence.
	46.3	The United Nations has established restrictions on employment of (former) UN staff who have been involved in the procurement process as per bulletin ST/SGB/2006/15 http://www.un.org/en/ga/search/view_doc.asp?symbol=ST/SGB/2006/15&referer

Section 3. Bid Data Sheet

The following data for the services to be procured shall complement, supplement, or amend the provisions in the Request for Proposals. I. PROJECT DESCRIPTION

A. Rationale / background and the project objectives

The challenge.

In 2018 Indonesia was struck by two particularly severe natural disasters: a 7.0 magnitude earthquake in West Nusa Tenggara (NTB) on 5 August and, less than 8 weeks later - on 28th September - a 7.4 magnitude earthquake, followed by a tsunami and a rare phenomenon known as 'soil liquefaction', in Central Sulawesi.

In Lombok, according to the National Disaster Management Authority (BNPB), 564 people died; 73,000 houses were heavily damaged, and approximately 400,000 people were displaced as a result of the earthquake; total loss is estimated at IDR 18,20 trillion (Euro 1 billion). Affected infrastructure, besides housing, includes over 600 education facilities and nearly 100 health facilities; the economic livelihoods of local communities, inter alia, have also been severely impacted by the earthquake.

In Central Sulawesi, over 2,096 people are known to have died as a result of the disaster, with more than 4,438 people seriously injured and 1,373 people missing. 68,451 houses are estimated to have been directly damaged and over 173,522 people are displaced. Affected public service infrastructure includes 176 health facilities (among which two hospitals, in Palu city and Parigi Moutong, have been severely impacted) and 1509 education buildings (ranging from elementary schools to universities). Local economic infrastructure has not been immune to damage: 13 market places and 9718 ha of agricultural land have been adversely impacted—with extensive losses being reported in other sectors, such as fisheries and public administration.

The programmatic response. Beyond the immediate humanitarian and relief assistance, UNDP has initiated engagements with national and local governments and international

partners in support of Central Sulawesi and NTB's recovery efforts. **The Sulawesi / Lombok Programme for Earthquake and Tsunami Infrastructure Reconstruction Assistance** ('PETRA' in short) has been designed to contribute to such transition: from the immediate response to *longer-term recovery*.

The ultimate goal of PETRA is to contribute to the rehabilitation and reconstruction of key infrastructure to support the resilient recovery of disaster-affected communities in both provinces.

It addresses the need to accelerate the restoration of critical public services (such as health and education), improve economic livelihood opportunities for affected communities, while, at the same time, enhancing resilience to future shocks in both provinces. It will be guided and informed by the post-disaster needs assessments and will be fully aligned with relevant national and sub-national recovery plans.

PETRA will deliver two outputs, namely:

(a) rehabilitation and reconstruction of partially and fully damaged infrastructure for critical public services; and

(b) rehabilitation of affected communities' economic infrastructure to promote more resilient and sustainable livelihoods

Lessons learned and knowledge generated by the Project will also be leveraged to inform wider efforts – in other provinces and/or at national level.

PETRA-supported investments will be delivered through coordinated, inclusive and well-informed (national and sub-national) decision-making processes, with due attention to *vulnerable populations* and the need to promote *gender-sensitive development*.

'*Build back better*' principles will be reflected throughout the initiative, with a view to enhance the safety, resilience and energy-efficiency of the local infrastructure.

Accessibility considerations (to enable and facilitate physical access to persons with disabilities) will also inform the design of infrastructure rehabilitation or reconstruction projects.

Best practice in *social and environmental standards* will also be adopted by the Project.

PETRA's objectives are aligned with the Sustainable Development Goals (SDGs) as well as with the Sendai Framework for Disaster Risk Reduction. Very importantly, **the project will be guided and informed by nationally-led and locally driven recovery efforts, with a view to ensure full national and local ownership and sustainability.**

B. Context of the required services

The required services are critical to the timely restoration of public health and education infrastructures to mitigate the everyday and longer-term impacts on community wellbeing and formal learning processes.

Waste management is a concomitant challenge which determines environmental air and bacterial quality, thus impacts on human longevity through disease vector control, air cleanliness and a community good feeling about a tidy and litter free habitat

Equally critical are the initiatives and strategies which will enable "build back better" outcomes from empathetic facilities restoration which are both durably climate change resilient and structurally reliable, free from the destructive effects of poor design, careless materials specification and negligent quality control over construction materials acceptance and site workmanship.

Highly important are solid and thorough engagement with National, Provincial, District and Village authorities to ensure agreement with all aspects. **In all encounters the Consultant will be expected to behave with respect and sympathy to disaster survivors and to the memories of those unfortunately lost.**

C. Community, cultural & environmental considerations

The affected communities are considerably remote from Indonesia's national capital.

It must also be aware of community and political sensitivities, biases and practices toward religious practices, child labor, LGBT, women's role as breadwinners in infrastructure labor intensive works and drivers of family survival initiatives

II. SCOPE OF SERVICES AND EXPECTED OUTPUTS

A. Scope of Services for Palu, Sigi, Donggala and Parigi Mountong

The Consultant shall be required to provide design and construction supervision services for the sub-projects listed :

PALU

The scope of the required services has been divided into the following four basic phases:

- **Phase I:** Detailed Designs and Portions of the Bidding Documents.
- **Phase II:** Pre-Construction and Bidding Support Services
- **Phase III:** Construction Supervision.
- **Phase IV:** Defects and Liability Period

These phases have been furthermore subdivided into tasks/activities covering the broad spectrum of required services as presented in the following sections. Offerors are alerted that the proposed tasks/activities to achieve the overall objective of the project called upon by the scope of services shall not be considered exhaustive; they are rather indicative.

B. Phase I: Detailed Designs and Portions of the Bidding Documents.

The Consultant's design services shall include but not be limited to the following:

- establishing formal contact and working arrangements with Health and Education authorities, Provincial administrators and community stakeholders
- assisting authorities in identifying school and medical facility equipment needs
- for each sub project, reviewing the Preparatory Checklist: Provincial Site Assessment and resolving all outstanding verification/ information needs
- for each subproject, identifying the appropriate Departmental standard building designs to be used and the applicable technical specifications
- using lessons learned from recent disaster damages not just Builder Back Better but Build Back Tougher – look for better value designs for roof trusses, ceiling panels/ suspension and lateral stabilization for internal wall blockwork
- verifying that each site is clear of debris, otherwise requesting local authorities for removal of condemned footings, columns and floor slabs
- identifying opportunities for introducing and applying international building standards and specifications to enable realization of Build Back Better modalities
- identifying design detailing for marrying new structures into existing undamaged buildings
- updating site layout plans and producing construction drawings according to prevailing Gol practice
- designing for handicapped person access to functional areas and weather protected toilet/ washroom facilities
- designing climatically comfortable interior environments, using cross flow and ceiling space ventilation, under-cladding & ceiling insulation and high reflectivity roofing paints
- developing and socializing Environmental and Social Management Frame work and Plans for use throughout all subproject site activity and later occupancy

- preparing bills of quantity and construction cost estimates
- ensuring all designs are signed off by the appropriate government agency.
- preparing ITB invitation for bids and bidding documents for open competitive bidding and assist in bid evaluations and contract preparations
- preparation of regular reports

The Consultant's design services shall acknowledge that all restorative and replacement works shall be based on standard government plans and specifications, are fundamentally simple structures, with contextual needs already known to local officials and community stakeholders. Services will include but not be limited to the following:

1. Preliminary Stakeholder Engagement & Securing Notice to Proceed

- establishing formal contact and working arrangements with Health and Education authorities, Provincial administrators and community stakeholder
- verifying that each site is clear of debris, otherwise requesting local authorities for removal of condemned footings, columns and floor slabs
- for each sub project, reviewing the Preparatory Checklist: Provincial Site Assessment and resolving all outstanding verification/ information needs
- developing and socializing the PETRA Environmental and Social Management Framework and planning for use throughout all subproject site activity and later occupancy. This shall be enabled by the ESMF Monitor and Community Developer and formally monitored via monthly stakeholder workshops and progress reports
- securing documentary proof that all required licenses and permits are in place
- the above shall be confirmed and discussed in the Consultant's Inception Report

2. Preliminary Design, Investigations and Planning

- for each subproject, identifying the appropriate Health and Education Departmental standard building designs to be used and the applicable technical specifications. These shall be documented by confirming Compliance Memoranda from responsible departments
- updating and where needed, amending site layout plans and producing construction drawings according to prevailing GoI practice and national standards engineering/ architectural drawing practice vs. preferred or mandatory scales, projections and print sizes, among others
- undertaking geotechnical/ soils investigations to identify local medium to high risk sites under earthquake conditions, as a basis for strategizing risk and damage management. The testing domain will vary considerably from site to site and will be prescribed and managed by the Geotechnical Engineer, in close collaboration with local Public Works testing authorities. Investigation results, risk assessments and recommendations shall be communicated via monthly Geotechnical Reports
- using lessons learned from recent disaster damages, embodying the spirit of not just Build Back Better but Build Back Tougher – look for better value designs for

roof trusses, ceiling panels/ suspension and lateral and vertical stabilization for internal wall blockwork

- anticipating significant future violent atmospheric disturbances in the form of cyclones and offshore vortices, review present cyclone risk ratings and upgrade safety factors for structural wind damage and tidal surge. Identify preventative measures to strengthen existing structures, particularly roof superstructures and sheet fastenings
- identifying opportunities for introducing and applying international building standards and specifications to enable realization of Build Back Better modalities. These shall be applied only with prior written approval from responsible authorities
- identifying design detailing for marrying new structures into existing undamaged buildings. This shall examine the interface and conjoinment modalities to ensure structural integrity and longevity of new structural elements and the continuing adequacy/ service life of connected surviving elements. The Structural Specialist shall oversee and provide expert advice on all such examinations, also providing guidance on resilient design and building strategy. Outcomes shall be detailed in the Structural Integrity Report.
- designing for disadvantaged person access to functional areas and weather protected toilet/ washroom facilities, reflecting national standards and emerging international best practice
- designing climatically comfortable energy efficient interior environments, using solar energy panels & storage, cross flow and ceiling space ventilation, ceiling fans under-cladding & ceiling insulation and high reflectivity roofing paints
- producing draft drawings, specifications, bills of quantity and confidential Engineers Estimate for approval by concerned Government authorities and UNDP
- producing a concise, exception oriented Preliminary Design Report
- facilitating the Preliminary Design Stakeholder Workshop, focusing on innovation compliance and constructive participation in the way forward
- confirming Preliminary Design approval and consent to proceed with the Detailed Design phase

3. Detailed Design

During this phase, the Consultant shall refine consolidate and finalize all documentation necessary for solid readiness for procurement completion and commencement of the construction supervision phase. Services will mainly comprise but not be limited to the following:

- very carefully clarifying standard specification for all materials and related purchasing safeguards, such as destructive sampling, non- destructive testing, aging, validity of packaging and labeling to obviate fakery, manufacturers' quality certificate and product branding "small print" identifiers for specification grades (

particularly for steel products, cables/ wiring, electrical hardware, potable water piping / fittings, sewerage and drainage pipes

- preparing bills of quantity to levels of detail which will enable easy and accurate cost estimation, which will be conducive to submission of responsive, compliant and trustworthy contractor bids for the required building works
- construction cost estimating which will produce accurate and reliable confidential priced bills of quantity/ Engineers Estimates serving as a detailed check and balance for excessive front loading, excessive unit rates and unreasonable materials, equipment and labor pricing
- finalizing structural and architectural drawings which may with approval include features and embellishments to reflect local cultural character and traditions
- preparation of the Detailed Design Report
- facilitating the Detailed Design workshop which shall concisely on principal design features and foreseeable risks if any, construction phase quality assurance and strict compliance in job site work practices
- confirming Final Design approval and consent to proceed with the Preconstruction and Bidding Support phase

Based on the findings of forgoing activities, the consultant shall further the approved preliminary designs in such a manner that reflects the facilities as they should be constructed. The consultant shall prepare all necessary detailed designs and technical specifications for the works under consideration, including architectural, landscaping, structural, civil, mechanical, electrical, control, instrumentation, etc. for both sites including all components. It is important that the Consultant follows all appropriate Government of Indonesia regulations with respect to constructing health and education facilities.

Detailed architectural drawings shall be prepared for all buildings. Detailed plans shall be plotted to suitable scales in accordance with international standards, illustrating different parts of the buildings, fully dimensioned and detailed. Sections, elevations and side views shall be prepared to illustrate the different parts, finishing, and levels of the various internal and external slabs. Reflected ceiling plans to show the required ceiling design and lighting fittings locations shall also be prepared. Special details to larger scale shall be prepared showing staircases, WC's, and any special purpose parts with the purpose of clearly portraying the scope of required works.

Finishing materials schedules doors and window schedules and detailed drawings shall be prepared. Detailed drawings for the latter shall also be prepared to define their construction, shape model, size, materials, size, type of glass, and specify hardware lists. The architectural drawings shall also allow for detailing of any other construction or finishing requirements such as; damp-proofing treatment, dust control, balustrades, and special details for fixation of equipment.

Landscaping plans for both sites shall also be prepared including parking lots, green areas, walkways, pavement, site illumination, etc.

Mechanical drawings shall be in adequate detail illustrating; equipment; piping; fittings; electromechanical components; connections, etc.

Electrical drawings shall include wiring diagrams, transformers, single line diagrams, standby power generation set; site illumination, cabling, grounding, control, instrumentation, etc. for all components and for both sites. The drawings shall illustrate electric operation and control panels, switchboards; measurement equipment panels; synchronizing equipment; lighting panels, etc.

Careful studies shall be carried out to select the most appropriate and economic structural design. The latter shall ensure reduction of both construction period and costs. Detailed structural drawings shall be prepared illustrating the required detail for the foundations, reinforcement, tie beams, axes, columns, etc.

Foundations for relevant electromechanical equipment such as switchboards, standby diesel generation sets, etc. shall also be drawn in sufficient details showing all required insulations and supports.

Work drawings to suitable scales (1:100 and 1:50) and large-scale details shall be prepared. The drawings will comprise plans, sections and elevations and will provide sufficient details for the construction and installation of all works.

The consultant shall prepare all required technical specifications in accordance with international and UNDP standards for all works components designed. Furthermore, detailed BOQ's shall also be prepared of all items of works and for each component and subcomponent on separate basis. The BOQ's shall be developed to such a level of details as to allow easy estimation of construction costs, which would allow receipt of responsive contractor bids for the works under consideration.

Following preparation of the BOQ's, the consultant shall utilize the data and information collected in foregoing tasks to prepare detailed cost estimates of all included works. The specifications and BOQ's shall be formatted as per an agreed format.

Detailed Design and Portions of the Bidding Documents Report will be prepared. The report includes all collected data and information, carried out designs, calculation, prepared drawings, etc. and shall clearly portray all spent efforts during the entire phase. The report shall be submitted for review, remarks and approval by the SC.

The report shall be submitted in draft format (i.e. 2 hard copies to UNDP and 2 to the counterparts) then the final version incorporating all remarks shall be submitted in 6 hard copies and 2 electronic copies.

C. Phase II: Pre-Construction and Bidding Support Services

This phase is the critical stage of the project in which potential bidders are identified, the procurement process executed and the contract is readied for award to the preferred successful bidder. This phase will include;

- supporting the final Invitation to Bid (ITB), which for good transparency shall include a Form of Contract pro forma, general conditions of contract and proforma special conditions schedule.

- directly approaching the contractor market through UN channels, industry journals/ websites and public news media directly through international open competitive bidding, without prequalification.
- supporting responses in pre-bid meeting technical and procedural clarifications
- providing oversight to bid openings, bid evaluations and contract negotiation; supporting preparation of the Bid Evaluation Report and related approval processes
- participating in the pre-award contract meeting with the preferred bidder
- assisting authorities in identifying school and medical facility equipment needs

D. Phase III: Construction Supervision.

The Consultant' construction supervision services shall include but not be limited to:

- responsibility for oversight and direct supervision of construction activity, including managing worksite liaison with Contractor's personnel, along with representatives of Health and Education departments, Provincial government and community stakeholders
- instructing the works contractor's site management staff and trades/ labor personnel as to PETRA and stakeholder expectations on quality assurance in supply of construction materials and building practices to be applied throughout works execution
- inspecting and certifying all materials site deliveries to firm compliance with materials specifications and national standards, particularly sand, gravel, cement, electrical & plumbing materials
- providing opportunities and on-job learning for gender sensitive and handicapped labor in site building activity
- directing hold points at critical construction stages to enable close inspection of works in progress
- applying UAV inspection for regular site progress data monitoring
- ensuring site security measures to minimize losses through pilfering
- certifying progress payment certificates after thorough inspection for structural integrity, high grade finishing and competent workmanship throughout
- verifying contractor final completion of works, certifying final payments and release of retention amounts and performance security
- assisting the concerned responsible agency with building permit (Ijin Mendirikan Bangunan/IMB) and completion certificate (Sertifikat Laik Fungsi/SLF) approvals
- providing the local community with on-the-job learning opportunities for simple building planning, design principles and basic hands on skills
- ensuring all site personnel are issued with and use personal protection equipment
- ensuring compliance with relevant provisions of the ESMF
- enabling monthly site meetings and ad hoc conferences when required

- providing Monthly Progress reports
- coordinating ultimate handover to concerned agencies

While not mentioned earlier, the consultant shall be responsible for activities such as liaising with the counterparts and contractor for handing over the both sites' including minutes of meetings, examination of areas, assistance with fixing boundary marks, etc.

The consultant's main task shall be the management and supervision of construction activities. The Services shall also include some duties normally performed by UNDP field staff, which includes the establishment and maintenance of contacts with counterparts and other stakeholders, liaisons, coordination and similar activities.

Upon site handover to the contractor, the consultant shall take charge and be responsible for managing, supervising, monitoring, verifying, certifying etc. all site activities and acting on behalf of UNDP.

1. The detailed scope of services to be delivered by the Consulting Engineers (Consultant) is listed below.

1.1 Design Review

The consultant's general responsibilities under this aspect shall include, yet not be limited to, the following:

- Receipt, review and development of comments to contractor's technical submittals.
- Receipt, review and development of comments to contractor's construction methodology, work plan, alternatives, working drawings and any other subjects related to the contract.
- Review and approve the contractor's program for submitting designs, drawings and documents.

1.2 Contract Administration

The consultant's general responsibilities under this aspect shall include, yet not be limited to, the following:

- Maintain project construction records and issue correspondence, certificates, notices and instructions on behalf of UNDP to the contractor as may be required by the provisions of the construction contract documents.
- Assist UNDP as expert witness in litigation arising from the development or construction of the project and in hearings before various approving and regulatory agencies.
- Review and certify Contractor's progress payment requests, and accompanying support data and schedules.

- Verify amounts due to the Contractor based on the on-site observations and Contract requirements.
- Certify, in writing, to UNDP payments to be made to the Contractor with all required support documentation including progress report, photographs and so forth.
- Withhold payment for any work which has been rejected or any work which is not in compliance with the contract documents.
- Issue certification of substantial completion on completed construction contract.
- Review and certify the request for final payment submitted by the contractor at the completion of construction under contract.
- Review the calculations for the final payment due to the contractor accounting for all guarantees and retainage in accordance with the actual work performed following conclusion of such and although UNDP-Consultant contract would have physically expired.
- Make recommendations to UNDP regarding costs for works not specified in the contract documents.
- Determine the value of the works at the date of termination, in the event of the termination of the contract.
- Identify any Change/Variation Order as being issued under one at the following categories:
 - Variations which alter, amend or delete items contained in the Contract and which variation does not alter the Scope of the Works and is not charged against contingencies and which does not increase the contract value.
 - Variations which may increase the Contract value, requiring the commitment of additional funds.
- Manage all claims, activities and provide expert advice regarding the handling of the claims made.
- Prepare input for project control system.
- Review the construction contractor's Critical Path Method (CPM) construction schedule for contract and monitor schedule compliance.
- Develop and implement a comprehensive project control system during the Preconstruction Period including:
 - An updated and current CPM network.
 - Weekly progress reports listing significant progress, lack of progress, current problem, proposed solution, and other pertinent information.
 - Monthly progress, summarizing pertinent information developed from the above control information, special studies developing recommended solutions or alternate solutions to current or anticipated problems.
- Receive and catalog all samples, drawings, instructions, manuals, certifications and the correspondence submitted by the contractor.

- Review, revise, as necessary, and obtain UNDP approval, of lists of recommended Operating spare parts and supplies, prepared by the contractor. Instruct the contractor as to those items that shall be procured for the Project.

1.3 Construction Monitoring

The construction management and supervision during the construction stage shall include activities keyed for the day to day site inspection and testing of materials, site reports and financial aspects. The consultant's general responsibilities under this aspect shall include, yet not be limited to, the following:

- Establish procedures for coordination among UNDP, Contractors and consultant with respect to all aspects of the project and implement such procedures.
- Schedule and conduct progress meetings at which Contractors and consultant can discuss jointly such matters as procedures, progress, problems and programming, record and distribute minutes reflecting decisions on issues raised and keep UNDP informed on critical matters orally and in writing.
- Provide regular monitoring of the program as construction progresses.
- Identify potential variations between program and probable completion dates.
- Review schedule for work not started or incomplete and recommend to UNDP and contractor adjustments in the schedule to meet the probable completion date.
- Provide summary reports of each monitoring and document all changes in schedule.
- Determine the adequacy of the contractor's personnel and equipment and the availability of materials and supplies to meet the program.
- Recommend courses of action to UNDP when requirements of a contract are not being met.
- Maintain cost accounting records on authorized work performed under day works, actual costs for labor and material, and any other costs requiring accounting records.
- Develop and implement a system for the preparation, review and processing of change orders.
- Recommend necessary or desirable variations to UNDP, review requests to changes, submit recommendations and assist in negotiating variation orders.
- Observe work performed by the contractor for compliance with the drawings, specifications, contract documents and acceptable engineering practice. Take such action, as appropriate, to urge the Contractor to carry out acceptable corrective measures where and when required.
- Advise on all aspects of varied works and recommend any redesign necessary.
- Advise UNDP on all aspects and matters for the project.
- Liaise with UNDP, other relevant authorities and counterparts.

- Review, finalize, as appropriate, and submit to UNDP, and other relevant authorities detailed operation instructions and maintenance manuals for the facilities and plant provided under the contract and for facilities required for training of personnel.
- Testing and approving construction materials and equipment before being used in the work.
- Monitor the Quality Control Program (QCP) to be established by the contractor. This program shall cover the inspection and tests of all materials and equipment to be procured as well as all construction activities related to the project.
- Monitor the contractor's QCP, including field tests of materials, and review laboratory test results for compliance with contract documents and acceptable engineering practices.
- Direct the contractor to provide representative samples of materials to be utilized in the works and where required, submit them to the designated Laboratory to test for compliance with quality standards and technical specifications.
- Observe tests and notify UNDP and the contractor in writing of acceptance or rejection of materials or equipment tested. When appropriate, direct the contractor to take necessary action to remove, replace or correct work which does not comply with the contract documents and withhold payments for such work until the appropriate corrective actions are taken and the work is completed to the consultant's satisfaction.
- Review and note any exceptions which are taken relative to the results of the contractor's on-site inspection program and QCP. Instruct the contractor to take necessary actions to resolve any exceptions which are noted and report such activities in the Monthly Progress Reports.
- Conduct regular measurements of quantities of work performed by the contractor.
- Maintain comprehensive construction progress photo albums. Photos shall be shot by the Contractor on a regular monthly basis or shorter intervals as deemed prudent. Each photo shall be identified as to location, activity/subject matter, date, time and photographer.
- Perform final inspections of each component of the work for compliance.
- Witness all final performance tests and prepare completion certificates and acceptance documents for all completed work.
- Inspecting and supervising construction all works and installations to insure compliance with document and drawings.
- Review and approve contractor's submittals including methodologies, requests and shop drawings. Accurate records shall be maintained relative to date due, date received, date review completed, date returned and/or any other action required.
- Receive, review and ultimately approve the following specific submittals: shop drawings, operating and maintenance manuals, safety program and procedures,

start up procedures, instructions, schedules, guarantees, bonds and certificates of inspection which are to be provided by the contractor in accordance with the contract documents.

- Review and approve proposed installation and commissioning procedures.
- Coordinate and inspect the work of individual sub-contractors.
- Maintain job diaries, drawing register and other records.
- Coordinate all construction work efforts with relevant counterparts.
- Maintain competent full-time staff at the project site to coordinate and provide technical observation of construction and general direction of the work and progress to the contractor on the project.

Review "As built Drawings" and all related information and documents for submission to U NDP, and related local authorities.

2. Specific Responsibilities during the Construction Phase:

2.1 General

These shall include, yet not be limited to, the following:

- Project Management
- Project Administration
- Project Delivery: Including Daily Construction Status Report, Daily Log/Diary, Weekly Status Report, Monthly Work Progress Chart, Monthly Progress Reports, Material Samples and Test Log, Contractor's Submittals Log, Meeting Records and Construction Photographs.

2.2 Pre-construction Services

These shall include, yet not be limited to, the following:

- Review, furnishing comments and recommendations regards contractor's detailed construction program, procurement, installation, construction and commissioning and hand-over schedules.
- Review and evaluate qualification and experience of nominated sub-contractors.
- Agree on program for submission of methodologies for each element of construction.
- Inspect and record original condition of site, equipment, ground and buildings.

2.3 Contractor's Documents Review and Construction Management and Supervision

These shall include, yet not be limited to, the following:

- Review and approve contractors detailed designs, shop and erection drawings
- Review and approval of design calculations
- Review and approval of equipment documentation

- Review and approval of instrumentation and automatic control systems (As Applicable)
- Review and approval of pneumatic diagrams (As Applicable)
- Review and approval of civil designs
- Factory inspection and witness testing of manufactured items (As Applicable)

2.4 Construction Management and Supervision Services

These shall include, yet not be limited to, the following:

- Project management and related procedures.
- Quality assurance plan and related procedures.
- Quality control and related procedures.
- Progress control and related procedures.
- Cost control and related procedures.
- Change order Procedures.
- Commissioning, testing and related procedures.
- Training delivery and related procedures.
- Substantial completion - Handing Over.

2.4 Substantial Completion Close-out Report

These shall include, yet not be limited to, the following:

- The report shall be a collective report including and presenting all aspects of "Jobsite Work Implementation Management, Supervision and Monitoring" inclusive of all original documentation, photographs...etc. The report shall first be submitted in a draft form to both UNDP.
- The report shall then be presented in its final form following incorporation of all UNDP comments and remarks.
- The consultant shall, at least, submit two (2) hard copies to UNDP and one (1) soft copy to UNDP.

E. Phase IV: Defects and Liability Period (1 year after the completion of the civil works)

1. Key activities include:

- during this period, the Consultant shall make its team available to provide input as required into the completion of As-Built drawings and to the preparation of project related final accounts and contractual close-out
- the Consultant may also be requested to maintain a presence on site for the supervision of remaining construction works or the repair of identified defects.
- when the Client requires that the Consultant performs additional services after the issue of the certificate of substantial completion, the extent of these services shall be agreed on a case by case basis and shall be deemed to be an Additional Service under the Contract.

- it is expected in this phase the service provider to cover the resolution of all outstanding contractual and residual issues relating to the Project and its close-out. It also deals with the review of the project to ascertain the lessons to be learned for future projects.
- Management of the defects period including management of snagging and handover of as built records.
- Close-out of all land and property issues.

2. Key deliverables:

- During the Defects Liability Period the consultant shall ensure, the contractor finish the work, if any, outstanding at the date of Certificate of Substantial Completion and shall monitor and instruct the contractor all such work of repair, amendment, reconstruction, rectification and making good defects, imperfections, shrinkages or other faults as may be required. The Certification process must be in line with Government of Indonesia regulations with a signed Sertifikat Laik Fungsi.
- Upon satisfactory completion of all the work outstanding on the Works and approval by UNDP, the consultant shall within twenty eight (28) days of the expiration of Defects Liability period issue the contractor with the Certificate of Final Completion.

3. Final Close out Report

These shall include, yet not be limited to, the following:

- The report shall be a collective report including and presenting all aspects encountered during the "Defects Liability Period" inclusive of all original documentation, photographs...etc. The report shall first be submitted in a draft form to UNDP
- The Report will contain the following sections:
 - Closeout Report
 - Financial Report
 - Lessons learnt Report
 - Performance Evaluation
- The report shall then be presented in its final form following incorporation of all UNDP comments and remarks.
- The consultant shall, at least, submit two (2) hard copies to UNDP of the final version and one (1) soft copy to UNDP.

III. EXPECTED OUTPUTS

This contract is expected to result in

- timely completion of 23 socially critical buildings which will enable restoration of primary health cares, elementary, junior and senior secondary education to affected communities
- community participation for the restoration of such infrastructure to better than customary national standards, with better disaster and climate change resilience
- through each subproject having its own environmental and social management plan, in line with the Programme's Environmental and Social Management Framework (Annex 2)
- the Consultant's completion of full construction tender documentation for the restoration of primary and sub primary health care and senior secondary education:
 - The documentation shall include Bills of Quantities, the General and Special Conditions of Contract, the Technical Specifications and the Drawings compliant with UNDP best practice standards
 - The Consultant shall also produce a confidential priced Bill of Quantities for the use of UNDP in verifying the veracity and reasonableness of bids submitted
- All documentation shall be both in English and Bahasa Indonesia.

IV. GENERAL RESPONSIBILITIES/REQUIREMENTS

The consultant's cost shall be deemed included and/or surcharged in/to the consultant's fee rates under each phase.

1. Facilities Provided By UNDP

No site facilities shall be provided by UNDP.

2. Facilities to be Provided by the Consultant

All required facilities for proper development of all phases of the assignment shall be its own responsibility. Unless otherwise explicitly called upon, any facilities shall be deemed included and/or surcharged in/to the consultant's fee rates.

3. Liaison

The consultant shall liaise with counterparts on all matters related to the execution of the contract. All activities are to be conducted according to UNDP rules and regulations. The consultant shall also obtain the counterparts' endorsement of all its submittals.

4. Reference and Compliance Standards

The Consultant must be thoroughly conversant and fully compliant with the following primary Government of Indonesia standards and UNDP guidance

- SNI Indonesia (national standards catalog)
- Specifically, materials manufacturing and installation benchmark standards impacting electrical, plumbing and structural health, safety and longevity
- Law No 28/2002 Concerning Buildings
- Daftar Standar Dan Pedoman – Bahan Konstruksi Bangunan dan Rekayasa Sipil: BADAN PENILAIAN DAN PENGEMBANGAN DPU (222pp)
- Peraturan Menteri Perkajaan Nomor: 45/ PRT/ M/2007 tentang Pedoman Teknis Pembangunan Bangunan Gedung Negara

MINISTRY OF EDUCATION

- Penduan Teknis Pembangun Gedung Sekolah dengan Mekanisme Partipasi Masyarakat Th 2016
- Peraturan Nomor 24 Th 2007 Menteri Pendidikan Nasional
- Peraturan Menteri Pendidikan dan Kebudayaan RI Nomor 26 Tahun 2016

MINISTRY OF HEALTH

- Lampiran Peraturan Menteri Kesehatan Nomor 75 Tahun 2014 Tentang Pusat Kesehatan Masyarakat

UNDP

- Sulawesi Lombok Programme For Earth Quake and Tsunami Infrastructure Reconstruction Assistance (PETRA) – UNDP Proposal, 10 December 2018
- Environmental and Social Management Framework PETRA UNDP Jakarta April 2019

5. Institutional Arrangement

• Supervising Authorities – Contract Execution and Completion

The Consultant shall be primarily and ultimately responsible to the PETRA Project Manager regarding securing certifications for services completion, after sign off by the Ministries of Health and Education.

• Reporting Content and Frequency

The Consultant shall report weekly by email to the PETRA Project Manager or designated deputy, copied to concerned project partner liaison manager. Reports shall confirm sub project commencement, progress and completion, supported by photographs and site shop drawings reflecting changes, where appropriate.

The Consultant shall also submit an Inception Report within 30 days of activity commencement, a monthly report covering both design and contract supervision and separate completion reports for both components.

On completion or otherwise upon request, the Consultant shall report by AV presentation or site meetings where warranted.

Proposals for the use of Unmanned Aerial Vehicles for progress monitoring shall be encouraged. These however shall support but not at all supplant physical inspection and contractor liaison on site

All irregular or emergency events or situations will be immediately reported to the PETRA Project Manager

Reports will cover the following:

- Meetings held with counterparts, contractors, etc.
- Progress reporting, delays, etc
- Staff employed by consultant, contractors, counterparts.
- Contractor's plant and equipment.
- Financial status, predicted cash flow, expected variations.
- Technical Issues.
- Challenges and means to resolve these.
- Security incidents.
- Completed, in-progress, delayed, envisaged, etc activities.

The consultant's cost shall be deemed included and/or surcharged in/to the consultant's fee rates under each phase.

- **Regular Liaison – Community/ Local Business Community**

Identify institutions/organizations/individuals with whom the Service Provider is expected to liaise/interact/collaborate/meet with in the course of performing the work (e.g., other agencies, project co-implementors, donors, communities, local government units, etc.)

- **External Contributors to Contract Monitoring and Evaluation**

Define roles / extent of participation of entities involved in the management/implementation of the contract (e.g., as respondents to survey, resource persons to confer with, approving authority, evaluating performance, etc.)

- **Facilities/ support to be provided by UNDP, partner & beneficiary agencies**

The consultant shall be self-sufficient in all material aspects and support services which shall be fully covered and priced in its Financial Proposal, notwithstanding force majeure and additional services which may be requested by UNDP, warranting payment to the Consultants

V. DURATION OF THE WORK

- **Completion Date**

All works for contracts secured by Invitation to Bid are to be completed by March 2021. Thus all construction supervision shall also be completed by this date.

All design work shall be completed within a period of 100 days from commencement of consulting services. This recognizes that all buildings shall be constructed to existing standard configurations of the Ministry of Education and Ministry of Health and thus not requiring a large amount of complex design.

- **Approval Lead Time by UNDP**

Given that UNDP and its development shall be kept regularly and fully informed of the restoration program's progress and satisfactory completion, final payment for Consultants services shall be effected within thirty days of payment approval.

- **Impacts of Delays by Donors and the Government**

Reduction in PETRA funding or deferment of program implementation will have very damaging impacts on the recovery process for thousands of affected citizens thus must be avoided.

VI. LOCATION OF WORK

- **Services Delivery Location**

The Consultant's services shall be delivered progressively at all sub project locations identified in the agreed Workplan or other locations that may be deemed necessary by the Project Management Unit, for purposes of assessing possible future works

- **Service Provider Communication**

The Consultant shall maintain regular daily contact with the Project Management Unit via email and/ or mobile phone to confirm satisfactory progress and the movement of its team members throughout sub project locations

Form E: Format of Technical Proposal

Name of Bidder:	[Insert Name of Bidder]	Date:	Select date
RFP reference:	[Insert RFP Reference Number]		

The Bidder's proposal should be organized to follow this format of Technical Proposal. Where the bidder is presented with a requirement or asked to use a specific approach, the bidder must not only state its acceptance, but also describe how it intends to comply with the requirements. Where a descriptive response is requested, failure to provide the same will be viewed as non-responsive.

SECTION 1: Bidder's qualification, capacity and expertise

- 1.1 Brief description of the organization, including the year and country of incorporation, and types of activities undertaken.
- 1.2 General organizational capability which is likely to affect implementation: management structure, financial stability and project financing capacity, project management controls, extent to which any work would be subcontracted (if so, provide details).
- 1.3 Relevance of specialized knowledge and experience on similar engagements done in the region/country, especially your understanding on Government of Indonesia regulations and its applications to construction projects
- 1.4 List of contracts showing experiences in post disaster recovery and reconstruction for developing countries and multidisciplinary consulting engineering services with complete information on the nature of the service, duration of the service given, and email address of the client's focal point for that contract.
- 1.5 Quality assurance procedures and risk mitigation measures.
- 1.6 Organization's commitment to sustainability.

SECTION 2: Proposed Methodology, Approach and Implementation Plan

This section should demonstrate the bidder's responsiveness to the TOR by identifying the specific components proposed, addressing the requirements, providing a detailed description of the essential performance characteristics proposed and demonstrating how the proposed approach and methodology meets or exceeds the requirements. All important aspects should be addressed in sufficient detail and different components of the project should be adequately weighted relative to one another.

- 2.1 A detailed description of the approach and methodology for how the Bidder will achieve the Terms of Reference of the project, keeping in mind the appropriateness to local conditions and project environment. Details how the different service elements shall be organized, controlled and delivered.
- 2.2 The methodology shall also include details of the Bidder's internal technical and quality assurance review mechanisms.

- 2.3 Explain whether any work would be subcontracted, to whom, how much percentage of the work, the rationale for such, and the roles of the proposed sub-contractors and how everyone will function as a team.
- 2.4 Description of available performance monitoring and evaluation mechanisms and tools; how they shall be adopted and used for a specific requirement.
- 2.5 Implementation plan including a Gantt Chart or Project Schedule indicating the detailed sequence of activities that will be undertaken and their corresponding timing.
- 2.6 Demonstrate how you plan to integrate sustainability measures in the execution of the contract.
- 2.7 Any other comments or information regarding the project approach and methodology that will be adopted.

SECTION 2A: Bidder's Comments and Suggestions on the Terms of Reference

Provide comments and suggestions on the Terms of Reference, or additional services that will be rendered beyond the requirements of the TOR, if any.

SECTION 3: Management Structure and Key Personnel

- 3.1 Describe the overall management approach toward planning and implementing the project. Include an organization chart for the management of the project describing the relationship of key positions and designations. Provide a spreadsheet to show the activities of each personnel and the time allocated for his/her involvement.
- 3.2 Provide CVs for key personnel that will be provided to support the implementation of this project using the format below. CVs should demonstrate qualifications in areas relevant to the Scope of Services.
