A. GENERAL PROVISIONS			
1. Introduction	Bidders shall adhere to all the requirements of this RFP, including any amendments in writing by UNDP. This RFP is conducted in accordance with the UNDP Programme and Operations Policies and Procedures (POPP) on Contracts and Procurement which can be accessed at <u>https://popp.undp.org/SitePages/POPPBSUnit.aspx?TermID=254a9f96-b883- 476a-8ef8-e81f93a2b38d</u>		
	Any Proposal submitted will be regarded as an offer by the Bidder and does not constitute or imply the acceptance of the Proposal by UNDP. UNDP is under no obligation to award a contract to any Bidder as a result of this RFP.		
	As part of the bid, it is desired that the Bidder registers at the United Nations Global Marketplace (UNGM) website (<u>www.ungm.org</u>). The Bidder may still submit a bid even if not registered with the UNGM. However, if the Bidder is selected for contract award, the Bidder must register on the UNGM prior to contract signature.		
2. Fraud & Corruption, Gifts and Hospitality	UNDP strictly enforces a policy of zero tolerance on proscribed practices, including fraud, corruption, collusion, unethical or unprofessional practices, and obstruction of UNDP vendors and requires all bidders/vendors observe the highest standard of ethics during the procurement process and contract implementation. UNDP's Anti-Fraud Policy can be found at http://www.undp.org/content/undp/en/home/operations/accountability/audit/offic e of audit andinvestigation.html#anti		
	2 Bidders/vendors shall not offer gifts or hospitality of any kind to UNDP staff members including recreational trips to sporting or cultural events, theme parks or offers of holidays, transportation, or invitations to extravagant lunches or dinners.		
	 In pursuance of this policy, UNDP (a) Shall reject a proposal if it determines that the selected bidder has engaged in any corrupt or fraudulent practices in competing for the contract in question; (b) Shall declare a vendor ineligible, either indefinitely or for a stated period of time, to be awarded a contract if at any time it determines that the vendor has engaged in any corrupt or fraudulent practices in competing for, or in executing a UNDP contract. 		
	All Bidders must adhere to the UN Supplier Code of Conduct, which may be found at <u>http://www.un.org/depts/ptd/pdf/conduct_english.pdf</u>

	Programme
Duty Station:	Addis Ababa
Type of the Contract:	Contract for Professional Services (only national firm is eligible to apply)
Duration of the Assignment:	6 Months
Expected Start Date:	As soon as possible

1. Background

Ethiopia is in the midst of a democratic transition in which the realization and noticeable actions to the promises made in the fight against corruption plays a profound role to make the transition successful. The transition of power within the ruling EPRDF coalition and the access to power of Prime Minister Dr. Abiy Ahmed had sparked a new wave of hope across the country and the consequent bold action to crack-down corruption and human rights violations made the public to expect more from the new leadership and an added impetus in the fighting corruption. Further, there are high expectations from the people on the new political leadership to set a vision for the country where transparency, accountability and integrity are core pillars of the country's development strategy.

Over the last few years, the issue of corruption has attracted renewed interest, both among the public and policy makers. There are a number of reasons why this topic has come under fresh scrutiny. The need to improve governance and fight corruption has recently gained prominence in Ethiopia as part of efforts to ensure effective implementation of government development policies and to improve welfare of citizens. While broader governance challenges continue to adversely impact development efforts, corruption and rent-seeking practices remain major impediments to the achievement of development goals that Ethiopia has committed nationally and globally.

Ethiopia has since 1990s implemented a number of civil service programme, including the establishment of the Ethics and Anti-Corruption Commission (FEACC) in 2001. To extend and intensify the fight against corruption throughout the country, since 2007, all regional states followed suit in passing laws and establishing their own anti-corruption bodies. Today, all nine regional administrations have Regional Ethics and Anti-Corruption Commissions (REACCs). The nine regional states represent diverse demographic, socio-economic and geographical compositions and are bound to have an impact on the level and form of corruption each region experiences.

Over the last eighteen years, the FEACC and REACCs have achieved significant results in educating, preventing, investigating and prosecuting corruption. Millions of citizens have been educated on ethics and integrity; thousands of corrupters have been investigated and prosecuted²; an estimated value of more than two Billion Birr has been returned to public treasury by confiscation through court orders. In prevention realms, the working procedures of hundreds of public institutions and enterprises have been studied to identify and address practices that are prone to corruption and remedial recommendations rendered to fill

² FEACC investigation and prosecution power has been taken over by the act that establishes the Attorney General (2016) and the power has been given to the federal police and federal attorney general respectively.

the observed loopholes. Additionally, more than 300,000 elected officials, political appointees and eligible civil servants have been made to declare and register their assets throughout the country to promote transparency and curb corruption in public institutions.

Despite these efforts, corruption practices seem to be on the ascendancy in Ethiopia. Ethiopia scored 34 points out of 100 on the 2018 Corruption Perceptions Index reported by Transparency International. Corruption Index in Ethiopia averaged 29.28 Points from 2000 until 2018, reaching an all-time high of 35 Points in 2002 and a record low of 22 Points in 2005. These figures tell a long way to go in terms of ensuring a transparent and accountable system of governance across all government structures and fully mainstream ethics and integrity in the education system of the country in the move to create a generation of public service and society that is accountable, responsive and transparent.

The coming to power of a new leadership within the EPRDF government brought fresh momentum to the fight against corruption and prompting and ensuring integrity in the public sectors. A number of reform programs are being implemented by the government to take the reform agenda forward. For example, FEACC placement and line of responsibility has been changed and the commission is reporting and accountable to the House of Peoples Representative (HOPR) of the FDRE³. In line with the reform programme and as part of the Commission's plan to fully understand the nature and extent of corruption in Ethiopia and to develop a baseline information for the purpose of measuring progress in anti-corruption efforts in the country, the commission plans to conduct a national corruption perception survey taking into account the politico and socio-economic situation of the country. The result of the survey is expected to provide useful information on corruption dynamics, intensity and trends regarding corruption throughout the country.

The FEACC conducted the second survey in 2011 and since then, there have not been other specific surveys solely on the issue of corruption. The second survey contains diverse information on corruption and provides a rich pool of information for a greater choice of focus for further study. According to the second survey result, corruption is not considered as the topmost problems among a host of socio-economic problems. Petty corruption is the most prevalent form of corruption and regional government institutions, municipal offices, the judiciary and the police are mainly vulnerable to this form of corruption. There is also lack of transparency and instances of corruption in the dealings of public institutions with business enterprises as well as in areas such as customs clearance, taxes and revenue collection, application and interpretation of regulations, as well as government procurement procedures. The public service is also not free from abuse of authority, favouritism, ethnicity and nepotism in the recruitment and promotion of employees despite the government commitment to combating corruption through the various mechanisms and legislation that it had instituted. Those perceived assertion of the second survey results may have persisted or declined or took a new form which is yet to be verified by the third survey.

The third survey will enable the Government of Ethiopia to be able to come up with appropriate and effective policy/strategy and programmatic responses to corruption. The task will support the ongoing anticorruption endeavor of the federal and regional governments by identifying and analysing the changes and new incidences revealed since the second survey in 2011 and to provide recommendations for the government to pursue in combating corruption.

It is against this background that FEACC partners with UNDP through the Governance and Democratic Participation Programme (GDPP) to conduct the national corruption perception survey and seeking a firm level consultancy that would ensure a sound end product which can drive new policy/strategy development in the area of good governance and particularly, in the field of civil service reform and anti-corruption.

³ This is clearly stipulated in a proclamation (no. 1097/2018) issued to provide for the definition of the powers and duties of the executive organs of the FEDRE.

2. Objectives and Scope of the Consultancy
