1. Background:

The United Nations Development Programme (UNDP) is the UN's global development network, advocating for change and connecting countries to knowledge, experience and resources to help people build a better life, as envisaged by 2030 Agenda for Sustainable Development. UNDP is on the ground in more than 170 countries and territories, working with governments and people on their own solutions to global and national development challenges. As they develop local capacity, they draw on the people of UNDP and a wide range of partners that can bring about results.

Starting from 2015, the UNDP Health and Transparency Programme (H&T Programme) is partnered with the Ministry of Health (MoH) of Ukraine to support the procurement of medicines and medical products on behalf of the Ukrainian State Medicines Programmes. Recognizing UNDP's unique capacity as a health development partner and its proven track record in supporting public health institutions, the H&T Programme is fully committed to support the Ministry of Health of Ukraine in its mid- and long-term efforts to reform its procurement and supply management system by bringing its extensive expertise in establishing the procurement system that corresponds to the highest standards of transparency, accountability, cost-effectiveness, equity and sustainability.

In August 2017 the Cabinet of Ministers of Ukraine approved an official Concept Paper for reforming the public procurement in the healthcare sector envisaging establishment of an independent state-owned enterprise "Medical Procurements of Ukraine" (MPU). As soon as the designated entity under the Ministry of Health reaches the required capacity to manage a fully-functioning national medical procurement system, including effective and accountable supply chain management, appropriately trained personnel and efficient administration processes that meet international standards to guarantee that healthcare needs of all Ukrainians are met with integrity, transparency and accountability, UNDP will progressively hand over the procurement of medicines and medical devices to the MPU. This is expected to happen by the end of 2020.

In line with this, UNDP Ukraine is looking for an experienced organisation/company to conduct capacity assessment of the MPU to accelerate the hand over process and to ensure the evidence-based approach to the capacity building and knowledge transfer.

2. Main objective of the assignment

This assignment aims to conduct capacity assessment of the MPU to enable the MPU staff and managers to formulate a shared image of capacity constraints and capacity development opportunities, to prepare an action plan for ongoing MPU capacity development to enable efficient and sustainable development of the state procurement entity.

Specifically, the capacity assessment should analyze:

1. Leadership and political landscape of medical procurement that may impact the process of gradual transfer of medical procurement activities to MPU

- Assess the current level of knowledge on quality standards of health products and minimal tender requirements for ensuring the quality of procured goods.

- Formulate an evidence-based baseline with SMART indicators for monitoring staff capacity development;
- Formulate a capacity development plan to be used for the next two years and to cost all activities in the plan.
- Accountability of MPU in terms of transparency and anti-corruption as per the modus operandi/SOPs of the MPU

• **Scope of work:**

The company will be responsible for conducting the following preliminary activities using a mixed set of qualitative and quantitative assessment methods and tools: desk review, staff surveys (questionnaires), in-depth interviews, direct surveillance (key informant, including respondents from outside of the MPU, interviews/focus group discussions) and other as necessary, based on the approved assessment methodology:

- Analyse through documents review and interviews and present in a narrative form a description of the current leadership of MPU, decision-making process and political landscape that may affect the transfer of activities from UNDP to MPU and suggest appropriate interventions that UNDP may perform, to organically fit the transfer process into the MoH plans;
- Conduct a baseline capacity assessment through individual anonymous closed-book test of the MPU to evaluate knowledge of basic procurement principles and procurement of medicines and medical products by MPU core staff members (up to 15 specialists). The test should be developed in such a way that it could be used as a comparative tool by administering it again in future and the results indicating the change (positive or negative) in the level of expertise;
- Propose a methodology and tools for the collection of data for in-depth capacity assessment of the MPU;
