Section 2. Instruction to Bidders

A. GENERAL PROVISIONS	
1. Introduction	1.1 Bidders shall adhere to all the requirements of this RFP, including any amendments in writing by UNDP. This RFP is conducted in accordance with the UNDP Programme and Operations Policies and Procedures (POPP) on Contracts and Procurement which can be accessed at https://poppp.undp.org/SitePages/POPPBSUnit.aspx?TermID=254a9f96-b883-476a-8ef8-e81f93a2b38d
	1.2 Any Proposal submitted will be regarded as an offer by the Bidder and does not constitute or imply the acceptance of the Proposal by UNDP. UNDP is under no obligation to award a contract to any Bidder as a result of this RFP.
	1.3 As part of the bid, it is desired that the Bidder registers at the United Nations Global Marketplace (UNGM) website (www.ungm.org). The Bidder may still submit a bid even if not registered with the UNGM. However, if the Bidder is selected for contract award, the Bidder must register on the UNGM prior to contract signature.
2. Fraud & Corruption, Gifts and Hospitality	2.1 UNDP strictly enforces a policy of zero tolerance on proscribed practices, including fraud, corruption, collusion, unethical or unprofessional practices, and obstruction of UNDP vendors and requires all bidders/vendors observe the highest standard of ethics during the procurement process and contract implementation. UNDP's Anti-Fraud Policy can be found at http://www.undp.org/content/undp/en/home/operations/accountability/audit/office_of_audit_and_investigation.html#anti
	2.2 Bidders/vendors shall not offer gifts or hospitality of any kind to UNDP staff members including recreational trips to sporting or cultural events, theme parks or offers of holidays, transportation, or invitations to extravagant lunches or dinners.
	2.3 In pursuance of this policy, UNDP (a) Shall reject a proposal if it determines that the selected bidder has engaged in any corrupt or fraudulent practices in competing for the contract in question; (b) Shall declare a vendor ineligible, either indefinitely or for a stated period of time, to be awarded a contract if at any time it determines that the vendor has engaged in any corrupt or fraudulent practices in competing for, or in executing a UNDP contract.
	2.4 All Bidders must adhere to the UN Supplier Code of Conduct, which may be found at http://www.un.org/depts/ptd/pdf/conduct_english.pdf
3. Eligibility	3.1 A vendor should not be suspended, debarred, or otherwise identified as ineligible by any UN Organization or the World Bank Group or any other international Organization. Vendors are therefore required to disclose to UNDP whether they are subject to any sanction or temporary suspension imposed by these organizations.
	3.2 It is the Bidder's responsibility to ensure that its employees, joint venture members, sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by UNDP.

4. Conflict of Interests	4.1 Bidders must strictly avoid conflicts with other assignments or their own interests, and act without consideration for future work. Bidders found to have a conflict of interest shall be disqualified. Without limitation on the generality of the above, Bidders, and any of their affiliates, shall be considered to have a conflict of interest with one or more parties in this solicitation process, if they: a) Are or have been associated in the past, with a firm or any of its affiliates which have been engaged by UNDP to provide services for the preparation of the design, specifications, Terms of Reference, cost analysis/estimation, and other documents to be used for the procurement of the goods and services in this selection process; b) Were involved in the preparation and/or design of the programme/project related to the services requested under this RFP; or c) Are found to be in conflict for any other reason, as may be established by, or at the discretion of UNDP. 4.2 In the event of any uncertainty in the interpretation of a potential conflict of interest, Bidders must disclose to UNDP, and seek UNDP's confirmation on whether or not such a conflict exists. 4.3 Similarly, the Bidders must disclose in their proposal their knowledge of the following: a) If the owners, part-owners, officers, directors, controlling shareholders, of the bidding entity or key personnel are family members of UNDP staff involved in the procurement functions and/or the Government of the country or any Implementing Partner receiving services under this RFP; and b) All other circumstances that could potentially lead to actual or perceived conflict of interest, collusion or unfair competition practices. Failure to disclose such an information may result in the rejection of the proposal or proposals affected by the non-disclosure. 4.4 The eligibility of Bidders that are wholly or partly owned by the Government shall be subject to UNDP's further evaluation and review of various factors such as being registered, operated and managed as an independent business entity, the extent of Government ownership/share, receipt of subsidies, mandate and access to information in relation to this RFP, among others. Conditions that may lead to undue advantage against other Bidders may result in the eventual rejection of the Proposal.

27. Evaluation of Proposals	27.1 The Bidder is not permitted to alter or modify its Proposal in any way after the proposal submission deadline except as permitted under Clause 24 of this RFP. UNDP will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals. 27.2 Evaluation of proposals is made of the following steps: - Preliminary Examination - Minimum Eligibility and Qualification (if pre-qualification is not done) - Evaluation of Technical Proposals - Evaluation of Financial Proposals
28. Preliminary Examination	28.1 UNDP shall examine the Proposals to determine whether they are complete with respect to minimum documentary requirements, whether the documents have been properly signed, and whether the Proposals are generally in order, among other indicators that may be used at this stage. UNDP reserves the right to reject any Proposal at this stage.

Evaluation of Eligibility and Qualification	29.1 Eligibility and Qualification of the Bidder will be evaluated against the Minimum Eligibility/Qualification requirements specified in the Section 4 (Evaluation Criteria). 29.2 In general terms, vendors that meet the following criteria may be considered qualified: - They are not included in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's ineligible vendors' list; - They have a good financial standing and have access to adequate financial

	resources to perform the contract and all existing commercial commitments, c) They have the necessary similar experience, technical expertise, production capacity where applicable, quality certifications, quality assurance procedures and other resources applicable to the provision of the services required; d) They are able to comply fully with UNDP General Terms and Conditions of Contract; e) They do not have a consistent history of court/arbitral award decisions against the Bidder; and f) They have a record of timely and satisfactory performance with their clients.
30. Evaluation of Technical and Financial Proposals	30.1 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other RFP documents, applying the evaluation criteria, sub-criteria, and point system specified in the Section 4 (Evaluation Criteria). A Proposal shall be rendered non-responsive at the technical evaluation stage if it fails to achieve the minimum technical score indicated in the BDS. When necessary and if stated in the BDS, UNDP may invite technically responsive bidders for a presentation related to their technical proposals. The conditions for the presentation shall be provided in the bid document where required. 30.2 In the second stage, only the Financial Proposals of those Bidders who achieve the minimum technical score will be opened for evaluation. The Financial Proposals corresponding to Technical Proposals that were rendered non-responsive shall remain unopened, and, in the case of manual submission, be returned to the Bidder unopened. For emailed Proposals and e-tendering submissions, UNDP will not request for the password of the Financial Proposals of bidders whose Technical Proposal were found not responsive. 30.3 The evaluation method that applies for this RFP shall be as indicated in the BDS, which may be either of two (2) possible methods, as follows: (a) the lowest priced method which selects the lowest evaluated financial proposal of the technically responsive Bidders; or (b) the combined scoring method which will be based on a combination of the technical and financial score. 30.4 When the BDS specifies a combined scoring method, the formula for the rating of the Proposals will be as follows: <u>Rating the Technical Proposal (TP):</u> TP Rating = (Total Score Obtained by the Offer / Max. Obtainable Score for TP) x 100 <u>Rating the Financial Proposal (FP):</u> FP Rating = (Lowest Priced Offer / Price of the Offer Being Reviewed) x 100 <u>Total Combined Score:</u> Combined Score = (TP Rating) x (Weight of TP, e.g. 70%) + (FP Rating) x (Weight of FP, e.g., 30%)
31. Due Diligence	31.1 UNDP reserves the right to undertake a due diligence exercise, also called post qualification, aimed at determining to its satisfaction, the validity of the information provided by the Bidder. Such exercise shall be fully documented and may include, but need not be limited to, all or any combination of the

	following: a) Verification of accuracy, correctness and authenticity of information provided by the Bidder; b) Validation of extent of compliance to the RFP requirements and evaluation criteria based on what has so far been found by the evaluation team; c) Inquiry and reference checking with Government entities with jurisdiction on the Bidder, or with previous clients, or any other entity that may have done business with the Bidder; d) Inquiry and reference checking with previous clients on the performance on on-going or contracts completed, including physical inspections of previous works, as necessary; e) Physical inspection of the Bidder's offices, branches or other places where business transpires, with or without notice to the Bidder; f) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.
32. Clarification of Proposals	32.1 To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Bidder for a clarification of its Proposal. 32.2 UNDP's request for clarification and the response shall be in writing and no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP. 32.3 Any unsolicited clarification submitted by a Bidder in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.
33. Responsiveness of Proposal	33.1 UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself. A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission. 33.2 If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Bidder by correction of the material deviation, reservation, or omission.
34. Nonconformities, Repairable Errors and Omissions	34.1 Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation. 34.2 UNDP may request the Bidder to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Section 5. Terms of Reference

UNDP project "Modernization of Agriculture VET and Extension systems in Georgia" is supporting the Ministry of Education, Science, Culture and Sport in implementation of the newly approved Law on vocational education and training. The project is soliciting call for proposal for selection of NGO or a Coalition of Organizations to support the ministry and stakeholders in introducing new policy on the provision of integrated 4th level vocational programs.

I. BACKGROUND INFORMATION

The approval of the new VET-law in September 2018 opened new opportunities for the VET reform in Georgia. The popularity of vocational education in society was hindered by the fact that there were no structural and contextual links between vocational education and other levels of education that created a so-called "Educational dead end". Starting from 2016 MoESCS and NCEQE with UNDP support conducted a pilot implementation of the new, integrated programs in two professions based on the new methodology. In 2018 VET law passed the floor for the roll out of this pilot initiative and by 2019 the full-scale introduction of the integrated programs on the 4th level of NQF (national qualification framework) in VET system has to be started.

II. OBJECTIVE

Objective of the call is to support the new VET Law implementation by underpinning the Ministry and stakeholders in introducing new policy and system on the provision of integrated vocational programs (national qualification framework NQF level 4).

III. SCOPE OF WORK

Following tasks should be undertaken by the service providing organization/organizations until the end of December 2020.

The contractor will perform the following activities:

- 1) Development of modules for expert-trainer ToT, VET providers and authorization experts (introductory module and subject specific modules) based on integration concept, integrated modules and guidelines;
- 2) Recruitment of trainers;
- 3) Planning, organizing and conducting trainings including catering and lodging.
 - a. Capacity building of the expert-trainer's team to build the resource group for the future teacher training (ToT);
 - b. VET provider administrative staff training general;
 - c. Authorization experts training in program assessment.
- 4) Conducting final evaluation of trainees in the case of expert ToT;
- 5) Provision of the training reports including assessment component;
- 6) Drafting the paper on support scheme including coaching component and other components if available;
- 7) Conducting support scheme including coaching component and other components if available;
- 8) Conducting monitoring and evaluation of an implementation process;
- 9) Providing final M&E report;
- 10) Organizing the final conference and discussing the key findings with stakeholders
- 11) Conducting information seminar for educational resource centers
- 12) Creating informational video for public
- 13) Informational video promotion on the social network

Activity 1.: Capacity building

UNDP supported MoESCS and NCEQE to pilot the integrated programs starting from year 2017. The monitoring and evaluation findings provided by the project evidenced that the key challenge for an upscale of the pilot will be the capacities of all stakeholders, including teachers, VET school administration and the authorization experts who will assess the VET schools performance against standards. Therefore, following capacity strengthening activities need to be conducted considering an experience gained by UNDP/NCEQE team:

- Capacity building of the expert-trainer's team in order to build the resource group for the future teacher training (ToT) (7 group of 20 people / 2 day introductory and at least 6 day subject specific trainings).
- VET provider administrative staff training general (4 groups of 20 people/ 2 day training).
- VET authorization expert group trainings (4 groups of 20 people / 3 day training).

It is expected that modules for expert-trainer ToT and VET providers and authorisation experts (introductory module and subject specific modules) will be developed based on integration concept, integrated modules and guidelines, authorisation standards and regulation.

Following task are envisaged under this activity:

- 1.1. Development of modules for expert-trainer ToT, VET providers and authorization experts (introductory module and 7 subject specific modules) based on integration concept, integrated modules and guidelines, authorisation standards and regulation;
- 1.2. Planning, organizing and conducting trainings including catering and lodging.
- 1.3. Conducting final evaluation of trainee;
- 1.4. Provision of the training reports including assessment component.

Activity 2.: Implementation support

UNDP/NCEQE team designed the methodology of M&E of the integrated program (including general education learning outcomes on the level 4 NQF) piloting process and accordingly conducted study and intensive observation to identify key findings and challenges which are presented in the final report. The challenges are mainly concerning human capacities and administration. As the scale of implementation is bigger this time and there are very limited resources in the system to support the provision of the integrated secondary VET programs, there is a strong need to design the support and coaching scheme for providers, to ensure smooth implementation of the programs and the permanent capacity building of the staff. It is also important to link the coaching scheme with an internal quality assurance mechanisms so that providing institution is supported to keep the results of the piloting sustainable and applies the good practice gained from this process to all other integrated programs. The support and coaching scheme should finally be agreed with MoESCS/NCEQE and the project team and put in place during the implementation period (1,5 year).

Following task are envisaged under this activity:

- 2.1. Drafting the paper on support scheme and agreement on with project team and MoESCS/NCEQE
- 2.2. Conducting piloting, monitoring and evaluation of the scheme including all components
- 2.3. Providing final M&E report draft
- 2.4. Organizing workshop and discussing the key findings with stakeholders

Sub-activity 3: Information campaign

Integrated secondary VET program is the new VET law initiative, so the awareness about this development among society will be very low. It is important to inform the pupils and their parents about the benefits they can get from the program and their career perspectives. It is expected that the contractor will provide

an awareness rising action plan to underpin the MoESCS in the awareness rising campaign on integrated secondary VET programs to deliver the key messages about the reform to the public.

Following task are envisaged under this activity:

3.1. Development and agreement on the awareness rising action plan including but not limited with following components:

- 3.1.1. Conducting information one seminar for educational resource centers
- 3.1.2. Creating infographic e-banners (5 electronic banners)
- 3.1.3. Creating one informational video for public

3.2. Informational video promotion (boosting) on the social media during one month in every quarter of the period of 1 year (4 month in total), to achieve 400 000 views in total, starting from December 2019.

IV. METHODOLOGY

Implementation of integrated programs will start in November 2019. It is expected that the bidder will provide the detailed plan and methodology of ToTs to supply the system with pull of trainers who should train the teachers later, before the implementation starts.

The bidder must provide the support scheme/coaching methodology and come up with a preliminary plan of visits/ support interventions. It is also expected to receive the methodology of all other interventions to be conducted for the internal quality assurance support.

It is also expected that the bidder will provide an outline of the awareness rising plan including but not limited with all components listed in ToR.
