1	Item "V", Renewing Website Hosting. Are you looking for a vendor who will supply you with onsite hosting that meets that criteria? Or would a setup on a cloud service such as Amazon Web Services, or Microsoft Azure be acceptable?	The requirement of the hosting is explained in details under section 6. There is no onsite hosting for UNDP. The vendor shall provide dedicated online hosting infrastructure and migrate the knowledge4all applications to it (if the old hosting was not renewed).
2	What is the current content management system that is used in the current website .	It is a customized .Net and Microsoft SQL CMS.
3	Can we change and use another content management system .	Not applicable for this RFQ
4	For mobile app in the RFP it is mentioned two Apps one is android and the other is IOS , is the code written using native code or cross platform?	Native code.
5	Is this project will be in Jordan or the team need to travel to UAE.	No need for travel, this is a homebased assignment.
6	Regarding of data visualization tool , is the data stored in the current website in order to be transferred to data Warehouse, If not, is the tool must have a new CMS to store these data?	The current CMS has been developed to manage and store the data which will be serving data visualization tools.
7	can you provide us with soft copy on word so we can use the same compliance with deliverables ?	We cannot share the Technical Specifications in word document. In case, the bidder cannot comply with any of the requirements or needs to add comments; the bidder must highlight this in the technical proposal.
8	We would like to work on this requirement and help with some of the best cost effective proposition.  However, we need some more time for the proposal submission. Hence, we ardently request you to help us with an extension till <b>5<sup>th</sup> Oct 2019</b> .	Due to project time constraints, we cannot extend the deadline for submission. The deadline remains the same on <b>30 September 2019 at 14:00 hrs (Amman Local Time)</b>
