Section 5a: Schedule of Requirements and Technical Specifications/Bill of Quantities

Project Background

After more than 40 years of the conflict in Mindanao, a historical milestone was achieved when the Philippine Congress passed the Bangsamoro Organic Law (BOL) in July 2018. Subsequently, the Government of the Philippines (GPH) conducted plebiscites on 21st January and on 6th February 2019 to obtain the citizen's feedback on the ratification of the BOL—to which there was positive response and even the inclusion of additional cities and municipalities under the newly established Bangsamoro Autonomous Region of Muslim Mindanao or BARMM. The President has also appointed the members of the Bangsamoro Transitional Authority (BTA) as interim government until the establishment of the Bangsamoro Government, which is envisioned to be up and running by July 2022. To help advance the successful transition towards peace and to prevent a step backwards, urgent assistance for the Normalisation Phase is deemed crucial.

Through the generous support of the Government of Japan, UNDP will provide technical and administrative support to enhance the capacities of the Joint Peace Security Teams (JPSTs). One of the contributions of this project is to construct 10 JPST stations in the BARMM. The Joint Normalization Committee (JNC) and the Office of Presidential Advisor on Peace Process (OPAPP) will decide sites for construction.
