Addendum- I – Extension of the submission deadline & Response to Supplier's Questions

Tender Description: Supply, Delivery, Installation & Testing of Security Cameras

Tender Number: UNDP/AFG/ITB/2019/ 4464

Dear Mr. /Ms: Bidders:

Please note the following condition has been changed in the subject ITB:

ITB Reference	Description
Deadline for Bid Submission – Bid data Sheet – ITEM # 12	<p>The deadline for submission of the bid has been extended, please refer to the date and time shown in the e-tendering event.</p> <p>Details:</p> <p>Date and Time: As specified in the system (note that time zone indicated in the system in the New York Time zone).</p> <p><u>PLEASE NOTE:</u></p> <p>Date and time visible on the main screen of the event (on E-Tendering portal) will be final and prevail over any other closing time indicated elsewhere, in case they are different. Please also note that the bid closing time shown in the PDF file generated by the system is not accurate due to a technical glitch that we will resolve soon. The correct bid closing time is as indicated in the E-Tendering portal and the system will not accept any bid after that time. It is the responsibility of the bidder to make sure bids are submitted within this deadline. UNDP will not accept any bid that is not submitted directly to the system.</p> <p>Try to submit your bid a day prior or well before the closing time. Do not wait until the last minute. If you face any issue submitting your bid at the last minute, UNDP may not be able to assist.</p>

Site Visit Minutes:

Site Visit: The site visit took place on 02 October 2019, 10:00 AM at AJCJ compound, in total participants from 12 companies attended the site visit. During the site visit, the project focal point briefed the participants on the objective of the project and explained in detail the requirement of the project. The site was thoroughly examined by all participants. During the site visit participants stated that they will raise their questions through procurement.af@undp.org and as such, their question was compiled in the following page and ACJC expert provided the responses.

Note: As stated in the ITB it is not mandatory to attend the site visit, bidders who did not attend the site visit meeting are eligible to submit their bids.

QUESTIONS AND ANSWERS DURING PRE-BID MEETING AND SITE VISIT

During the presentation the following questions and inquiries were raised by the bidders:

#	Question Raised by Vendors via Procurement.af@undp.org	#	Responses provided by UNDP/ACJC
1.	Could you please provide us the camera placement layout along with manhole map as promised.	1.	Manhole map is uploaded in the E-tendering module and Camera placement layout has already been uploaded in E-tendering.
2.	If there is no route underground through manhole what is the solution for cable routing? A) excavation B) routing the cable through the air between poles C) Routing the cables on top of sidewalls.	2.	There is no requirement at this stage for excavation for routing of cables between building 52 and 54. The suppliers should consider routing the cable through the air between Building # 52 and 54 the rest of building are all connected through manholes. Should there be any excavation required, UNDP will discuss with successful bidder, at this stage please do not include the cost of excavation.
3.	In BOQ line no 17 stainless steel pipe is for what purpose please clarify?	3.	The stainless steel pipe is for wiring purposes.
4.	In BOQ line no 7: the amount of the DC power supplies is 50 pcs however we have 88 cameras. Please clarify is this amount enough?	4.	The 50 DC power is enough to support 88 camera.
5.	In BOQ line no 5: is it network based DVR and how much channel should have each of them?	5.	It can be upto 8 channels.
6.	Are all Blocks are sharing the Communication pipes and Communication manholes?	6.	As mentioned above (Q2), all buildings are connected through manhole except building 54 and 52.
7.	Kindly advise if the digging of cabling needed in installation time since it's not included in your BOQ or any items not listed how it will billed.	7.	There is no requirement for digging at this stage. Any changes in scope of works will be discussed with successful bidder. At this stage do not include cost of digging.
8.	Please share the site Map shows all cameras.	8.	The site map has already been uploaded into the e-tendering module, you may download it from e-tendering event.
9.	We have attended the ACJC Project site visit today and our team completed the survey of the ACJC Project, but our survey engineering team was advised to not use Analog Cameras for the installation and bidding of the ACJC Project, Mr. Hamid Etabar Advised us to bid for IP Camera's instead of Analog	9.	The requirement is for the Analogue system.
