

QUESTIONS	ANSWERS
1. Please confirm whether 5.5kw /18Hp diesel engine is acceptable or not?	Alternatives may be considered, Specifications corrected including the wording "or similar"
2. Please kindly confirm whether this machine is used for producing burn-free brick or not?	Yes, burn free.
3. Please kindly provide photos for actual brick type so that we can match accurately.	It is understood that prices are similar for the two types of molds, e.g. 'Normal' and 'Interlocked'. It is requested to provide the standard prices of three molds. If awarded the end user may choose among available molds.
4. Regarding "2 compression chambers" & "pre-compacting top gate assembly", Please kindly provide more detailed explanation for these 2 requirements.	These features enable higher production rate without compromising the quality.
5. Please kindly confirm whether we can offer the freight cost (CPT Freetown port) at a later stage after deadline?	Yes, FCA is accepted, if awarded, CPT Freetown may be requested at a second stage
6. Can the deadline be extended	We are not planning to extend the deadline
