Description of Requirements

Context of the Requirement	<p>Project: “Supporting the implementation of the 2030 Agenda in Mongolia”</p> <p>Background: United Nations Development Programme (UNDP) is implementing a project to support the implementation of the Sustainable Development Goals (SDGs) in Mongolia. The project aims to put an impetus to the SDV/SDG localization efforts of UB city, by preparing a roadmap for UB city SDV/SDG 2030, that sets out institutional mechanism, SDV/SDG baselines and goals, and the implementation, financing and monitoring frameworks. Close to half of the country's population resides and 60% of its GDP is generated in Ulaanbaatar, but not all its residents have equally enjoyed the recent progress - one third of Mongolia's population below the poverty line live in Ulaanbaatar. Achieving the SDV and Agenda 2030 targets in the city will be key to Mongolia's development progress overall.</p> <p>The UB city Working Group jointly with UNDP consultants provided a sketch of what UB could look like in 2030, if we continued the historical path of development or introduced incremental improvements. The team reviewed the current policies and programs from an SDG perspective, prepared a roadmap for aligning with the SDGs/SDV and define the SDV aligned policy targets for 2030. In addition, a detailed review of available data was conducted. At the city level SDGs is on the agenda to be discussed at the Citizen's Representatives Council.</p> <p>As a part of the SDG localization efforts at UB city, Songinokhairkhan and Nalaikh districts are selected as pilot areas due to its pressing issues, vulnerabilities and the influential status on UB's development and SDG implementation.</p> <p>Songinokhairkhan district is one of the biggest district regarding a number of the population and social issues. The 23 % of UB total population, 25,5 % of UB land exists in Songinokhairkhan district. Thirty percent of the district's population is leaving under poverty. Seventy three percent of the district household live in ger areas. Air pollution, soil pollution, unemployment, poor access to socio-economic services are the biggest problems in this area.</p> <p>Nalaikh district is a unique regarding most citizens are highly dependent on coal mining. The result of the Government's consultative polls in Nalaikh shows that 35.6 percent of respondents and their families are highly dependent on illegal mining activities and 72.7 percent of the respondents and their families are moderately dependent on it in this district¹. In 2018, The Government prohibited the usage of raw coal in 6 central districts since 15th of May 2019 by its resolution No.62/ 2018.</p>
