

REQUEST FOR QUOTATION (RFQ) (Goods)

United Nations Development Programme 1191 Nile Corniche, Souq Al ASR, Bulaq, Cairo Governorate, 8 th floor	DATE: November 12, 2019
	REFERENCE: RFQ/UNDP/012/2019

Dear Sir / Madam:

Referring to the seventy sixth meeting of the executive committee of the multilateral fund for the implementation of the Montreal protocol, which approved for Demonstration project of Low Cost Options for the Conversion to non-ODS Technologies in PU Foams at Very Small Users (VSUs).

The objective of this project is support very small PU users in a cost-effective way by optimizing, validating and disseminating easy to use low cost PU metering equipment.

While the earmarked technologies will be applicable to VSUs anywhere in the world, the country selected for implementation is Egypt. Egypt is a Party to the Vienna Convention and the Montreal Protocol and ratified the London, Copenhagen and Montreal amendments. The country is fully committed to the phaseout of HCFCs and willing to take the lead in assessing and implementing new HCFC phaseout technologies, particularly in the foam sector—as it did for CFCs in 1992 when it submitted and completed the first foam sector investment projects ever under the MLF. Egypt has local PU system houses that frequently combine importations and distributions for major international chemical and equipment manufacturers with local blending for SMEs. In addition, most international PU chemicals suppliers are represented with offices or their own system houses. Its existing HCFC phaseout program has a section dedicated to VSUs that is in need for the outcome of this demonstration project but will not require additional investment funding. Similar projects in Brazil, Mexico and Nigeria are also in need to address its VSU customers.

We kindly request you to submit your quotation for **Mobile foam dispenser for rigid PU foam**, as detailed in Annex 1 of this RFQ. When preparing your quotation, please be guided by the form attached hereto as Annex 2.
