<b>Contract Period</b>	60 days
<b>Supervisor</b>	Project Manager, Economic Empowerment of Women and Youth in Myanmar Project.
<b>Location</b>	Home-based with travel to Yangon (one travel)
<b>Country</b>	Myanmar

### A. BACKGROUND

Myanmar is undergoing an unprecedented and complex transition process from conflict to peace, from military rule to a democratic civilian Government and from a largely closed economy to an open market economy. Currently, it is categorized as a Least developed Country with imperatives of creating an enabling environment for foreign investments and economic reforms to foster inclusive and employment rich economic growth. The transformation of Myanmar is driven by a fast-paced growth in the private sector. As a rapidly growing regional economy in a dynamic neighborhood surrounded by ASEAN, China and India, Myanmar needs to undertake structural and economic diversification by nurturing transformative and competitive micro, small and medium enterprises (MSMEs) and building up economy wide productive capacities.

Dynamic MSMEs are widely acknowledged as a key driver of sustainable and inclusive economic growth leading to reduction of poverty and inequality. MSMEs account for bulk of job creation and national economic output in most developing countries. Their contribution becomes even more significant if the informal businesses are included in the calculations. MSMEs have a significant role to play in poverty reduction and bringing about rural transformation including participation in value and supply chains. The Myanmar Private Sector Development Framework and Action Plan produced by the Ministry of Industry refers to MSME's as enabling 'poor and disadvantaged populations, and especially women and ethnic groups, to work their way out of poverty and for the economy to experience inclusive growth'. However, the presence of dynamic future aligned MSMEs particularly women owned and led, is neither automatic nor assured and requires an enabling business environment, conducive policies and systematic capacity building efforts.

UNDP under its Country Programme (2018-2022) has a mandate to promote more inclusive economic growth and economic empowerment with a focus on women and vulnerable groups. UNDP under its newly launched Project Initiation Plan on Promoting the Economic Empowerment of Women and Youth is seeking to strengthen the capacities MSMEs on SDGs in general and on setting up inclusive

businesses, sustainable and responsible business practices as also on supporting a more enabling environment for micro and small businesses to benefit from national, regional and global economic opportunities.

This initiative is aligned to the SDGs 2030 agenda and resonates with a number of SDGs including SDG 1 (No Poverty), SDG 8 (Decent Work and Employment), SDG 9 (Industry, Innovation and Infrastructure), SDG 17 (Partnerships for the SDGs) as well as with Pillar 2 and Goal 3 of the Myanmar Sustainable Development Plan (MSDP) 2018-2030 on Job Creation and Private Sector Led Growth. The MSDP notes that SMEs are vital for private sector-led economic growth and essential for sustained, broad-based job creation. Development of SMEs, including small-to-medium industries (SMIs) is considered as policy priority in the MSDP.

The Myanmar Young Entrepreneurs Association (MYEA) is a leading association of over 1500 entrepreneurs across Myanmar. Its main objective is to empower young Myanmar entrepreneurs and facilitate the creation of a vibrant entrepreneurship ecosystem in the country. In 2016, the MYEA, produced a White Paper on entrepreneurship in Myanmar titled, *Entrepreneurship: Key to Inclusive and Sustainable Growth in Myanmar* in cooperation with USAID. The White Paper reflects the insights from 265 firms and over 100 entrepreneurs from across Myanmar, and documents the key constraints for entrepreneurial success. The White Paper which was prepared in 2016, lays out a vision for Myanmar becoming 'one of the leading entrepreneurial nations in ASEAN with a world-class entrepreneurship ecosystem that facilitates startups and innovation entrepreneurship' by 2025.

A key aspect of UNDP's upstream support to the MSME is preparing a policy document on MSMEs in Myanmar with recommendations for policy makers in Myanmar. As such UNDP in agreement with MYEA seeks to build on the existing White Paper on Entrepreneurship while conducting a rigorous evidence-based stock take of the current state of play on entrepreneurship and constraints in Myanmar and update the White Paper. The bottlenecks faced by young women entrepreneurs and gender friendly enabling environment for women owned and led businesses will be researched and highlighted in the White Paper. A representative sample of women owned and led enterprises will be ensured in the survey. In addition to capturing the progress made towards the vision laid down in the White Paper will seek to revisit the strategy based on lessons learnt to ensure that it remains continually relevant and valid for fostering of an enabling and conducive entrepreneurship ecosystem in Myanmar.

This joint collaboration between UNDP and MYEA is one of UNDP's ongoing initiatives to support Myanmar towards sustainable and inclusive growth through entrepreneurship development

## **B. SCOPE OF WORK, OUTPUTS AND DELIVERABLES**

---

Under the overall guidance of Chief, Sustainable and Inclusive Growth Unit, and the direct supervision of the Project Manager, Economic Empowerment of Women and Youth in Myanmar Project, and in close coordination with the Secretary General, MYEA, the International Consultant, assisted by a national consultant shall:
