

**Questions and Answers upon results on the Pre-Bidding Conference,  
Ref. 765-2020-UNDP-UKR-RFP-Plastics Assessment of plastics waste management practices in the regions of  
Ukraine  
November 30, 2020, 11:00, Zoom meeting**

<b>№</b>	<b>Question</b>	<b>Answer</b>
<b>1.</b>	Is it possible to extend the deadline of the tender?	Deadline extension may be considered by the requesting project subject to reasonable justification and based on the written request. The extension is not automatic, it is possible only in case the project finds it possible to extend the duration of the tender, which will affect time of project implementation.
<b>2.</b>	Is it necessary to provide a notarized copy of consortium agreement for participation in the tender?	It's enough to provide the agreement of intentions, signed by both parties, with clear indication of the main participant and distribution of the workload/tasks. Both participants must correspond to minimum requirements of the TOR.
<b>3.</b>	What is expected under the deliverable 3.4.as per TOR.	Time for task implementation is rather limited, the analysis will be provided by desk review method – local proving grounds and waste treating/recycling companies to be questioned about statistics about solid household waste.
<b>4.</b>	What is expected regarding economic analysis?	First profiles of local HoAs and communities to be developed, regarding their practices with plastics waste. And then morphological analyses to be provided.
<b>5.</b>	Is it a full-scale project or only some stage 1, considering the situation with waste in Ukraine.	It is a pilot business case for HoAs and small communities to start implementing better practices. It is a baseline in frames of a large effort to improve waste management practices in Ukraine.
