- 10.2 UNDP shall endeavor to provide such responses to clarifications in an expeditious manner, but any delay in such response shall not cause an obligation on the part of

UNDP to extend the submission date of the Proposals, unless UNDP deems that such an extension is justified and necessary.

## **11. Amendment of Proposals**

- 11.1 At any time prior to the deadline of Proposal submission, UNDP may for any reason, such as in response to a clarification requested by a Proposer, modify the RFP in the form of a Supplemental Information to the RFP. ## **C. PREPARATION OF PROPOSALS**

### **12. Cost**

The Proposer shall bear any and all costs related to the preparation and/or submission of the Proposal, regardless of whether its Proposal was selected or not. UNDP shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the procurement process.

### **13. Language**

The Proposal, as well as any and all related correspondence exchanged by the Proposer and UNDP, shall be written in the language (s) specified in the **Data Sheet** (DS No 4). Any printed literature furnished by the Proposer written in a language other than the language indicated in the **Data Sheet**, must be accompanied by a translation in the preferred language indicated in the **Data Sheet**. For purposes of interpretation of the Proposal, and in the event of discrepancy or inconsistency in meaning, the version translated into the preferred language shall govern. Upon conclusion of a contract, the language of the contract shall govern the relationship between the contractor and UNDP.

### **14. Proposal Submission Form**

The Proposer shall submit the Proposal Submission Form using the form provided in Section 4 of this RFP.

### **15. Technical Proposal Format and Content**

Unless otherwise stated in the **Data Sheet** (DS no. 28), the Proposer shall structure the Technical Proposal as follows:

- 15.1 Expertise of Firm/Organization – this section should provide details regarding management structure of the organization, organizational capability/resources, and experience of organization/firm, the list of projects/contracts (both completed and on-

going, both domestic and international) which are related or similar in nature to the requirements of the RFP, and proof of financial stability and adequacy of resources to complete the services required by the RFP (see RFP clause 18 and DS No. 26 for further details). The same shall apply to any other entity participating in the RFP as a Joint Venture or Consortium.

- 15.2 Proposed Methodology, Approach and Implementation Plan – this section should demonstrate the Proposer’s response to the Terms of Reference by identifying the specific components proposed, how the requirements shall be addressed, as specified, point by point; providing a detailed description of the essential performance characteristics proposed; identifying the works/portions of the work that will be subcontracted; and demonstrating how the proposed methodology meets or exceeds the specifications, while ensuring appropriateness of the approach to the local conditions and the rest of the project operating environment. This methodology must be laid out in an implementation timetable that is within the duration of the contract as specified in the **Data Sheet** (DS nos. 29 and 30).

Proposers must be fully aware that the products or services that UNDP requires may be transferred, immediately or eventually, by UNDP to the Government partners, or to an entity nominated by the latter, in accordance with UNDP’s policies and procedures. All proposers are therefore required to submit the following in their proposals:

- a) A statement of whether any import or export licences are required in respect of the goods to be purchased or services to be rendered, including any restrictions in the country of origin, use or dual use nature of the goods or services, including any disposition to end users; and
- b) Confirmation that the Proposer has obtained license of this nature in the past, and have an expectation of obtaining all the necessary licenses, should their Proposal be rendered the most responsive.

- 15.3 Management Structure and Key Personnel – This section should include the comprehensive curriculum vitae (CVs) of key personnel that will be assigned to support the implementation of the proposed methodology, clearly defining the roles and responsibilities vis-à-vis the proposed methodology. CVs should establish competence and demonstrate qualifications in areas relevant to the TOR.

In complying with this section, the Proposer assures and confirms to UNDP that the personnel being nominated are available for the Contract on the dates proposed. If any of the key personnel later becomes unavailable, except for unavoidable reasons such as death or medical incapacity, among other possibilities, UNDP reserves the right to consider the proposal non-responsive. Any deliberate substitution arising from unavoidable reasons, including delay in the implementation of the project of programme through no fault of the Proposer shall be made only with UNDP’s acceptance of the justification for substitution, and UNDP’s approval of the qualification of the replacement who shall be either of equal or superior credentials as the one being replaced.

- 15.4 Where the **Data Sheet** requires the submission of the Proposal Security, the Proposal Security shall be included along with the Technical Proposal. The Proposal Security may be forfeited by UNDP, and reject the Proposal, in the event of any or any combination of the following conditions:

- a) If the Proposer withdraws its offer during the period of the Proposal Validity specified in the **Data Sheet** (DS no. 11), or;
- b) If the Proposal Security amount is found to be less than what is required by UNDP as indicated in the **Data Sheet** (DS no. 9), or;
- c) In the case the successful Proposer fails:
  - i. to sign the Contract after UNDP has awarded it;
  - ii. to comply with UNDP's variation of requirement, as per RFP clause 35; or
  - iii. to furnish Performance Security, insurances, or other documents that UNDP may require as a condition to rendering the effectivity of the contract that may be awarded to the Proposer.

## 16. Financial Proposals

The Financial Proposal shall be prepared using the attached standard form (Section 7). It shall list all major cost components associated with the services, and the detailed breakdown of such costs. All outputs and activities described in the Technical Proposal must be priced separately on a one-to-one correspondence. Any output and activities described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, as well as in the final total price.

## 17. Currencies

All prices shall be quoted in the currency indicated in the **Data Sheet** (DS no. 15). However, where Proposals are quoted in different currencies, for the purposes of comparison of all Proposals:

- a) UNDP will convert the currency quoted in the Proposal into the UNDP preferred currency, in accordance with the prevailing UN operational rate of exchange on the last day of submission of Proposals; and
- b) In the event that the proposal found to be the most responsive to the RFP requirement is quoted in another currency different from the preferred currency as per **Data Sheet** (DS no. 15), then UNDP shall reserve the right to award the contract in the currency of UNDP's preference, using the conversion method specified above.

Proposals submitted by two (2) or more Proposers shall all be rejected if they are found to have any of the following:

- a) they have at least one controlling partner, director or shareholder in common; or
- b) any one of them receive or have received any direct or indirect subsidy from the other/s; or
- c) they have the same legal representative for purposes of this RFP; or
- d) they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about, or influence on the Proposal of, another Proposer regarding this RFP process;
- e) they are subcontractors to each other's Proposal, or a subcontractor to one Proposal also submits another Proposal under its name as lead Proposer; or
- f) an expert proposed to be in the team of one Proposer participates in more than one Proposal received for this RFP process. This condition does not apply to subcontractors being included in more than one Proposal.

## **18. Documents Establishing the Eligibility and Qualifications of the Proposer**

The Proposer shall furnish documentary evidence of its status as an eligible and qualified vendor, using the forms provided under Section 5, Proposer Information Forms. In order to award a contract to a Proposer, its qualifications must be documented to UNDP's satisfaction. These include, but are not limited to, the following:

- a) That, in the case of a Proposer offering to supply goods under the Contract which the Proposer did not manufacture or otherwise produce, the Proposer has been duly authorized by the goods' manufacturer or producer to supply the goods in the country of final destination;
- b) That the Proposer has the financial, technical, and production capability necessary to perform the Contract; and
- c) That, to the best of the Proposer's knowledge, it is not included in the UN 1267/1989 List or the UN Ineligibility List, nor in any and all of UNDP's list of suspended and removed vendors.

## **19. Joint Venture, Consortium or Association**

If the Proposer is a group of legal entities that will form or have formed a joint venture, consortium or association at the time of the submission of the Proposal, they shall confirm in their Proposal that : (i) they have designated one party to act as a lead entity, duly vested with authority to legally bind the members of the joint venture jointly and severally, and this shall be duly evidenced by a duly notarized Agreement among the legal entities, which shall be submitted along with the Proposal; and (ii) if they are awarded the contract, the contract shall be entered into, by and between UNDP and the designated lead entity, who shall be acting for and on behalf of all the member entities comprising the joint venture.

After the Proposal has been submitted to UNDP, the lead entity identified to represent the joint venture shall not be altered without the prior written consent of UNDP. Furthermore, neither the lead entity nor the member entities of the joint venture can:

- a) Submit another proposal, either in its own capacity; nor
- b) As a lead entity or a member entity for another joint venture submitting another Proposal.

The description of the organization of the joint venture/consortium/association must clearly define the expected role of each of the entity in the joint venture in delivering the requirements of the RFP, both in the Proposal and the Joint Venture Agreement. All entities that comprise the joint venture shall be subject to the eligibility and qualification assessment by UNDP.

Where a joint venture is presenting its track record and experience in a similar undertaking as those required in the RFP, it should present such information in the following manner:

- a) Those that were undertaken together by the joint venture; and
- b) Those that were undertaken by the individual entities of the joint venture expected to be involved in the performance of the services defined in the RFP.

Previous contracts completed by individual experts working privately but who are

permanently or were temporarily associated with any of the member firms cannot be claimed as the experience of the joint venture or those of its members, but should only be claimed by the individual experts themselves in their presentation of their individual credentials.

If a joint venture's Proposal is determined by UNDP as the most responsive Proposal that offers the best value for money, UNDP shall award the contract to the joint venture, in the name of its designated lead entity. The lead entity shall sign the contract for and on behalf of all other member entities.

## **20. Alternative Proposals**

Unless otherwise specified in the **Data Sheet** (DS nos. 5 and 6), alternative proposals shall not be considered. Where the conditions for its acceptance are met, or justifications are clearly established, UNDP reserves the right to award a contract based on an alternative proposal.

## **21. Validity Period**

Proposals shall remain valid for the period specified in the **Data Sheet** (DS no. 8), commencing on the submission deadline date also indicated in the **Data Sheet** (DS no. 21). A Proposal valid for a shorter period shall be immediately rejected by UNDP and rendered non-responsive.

In exceptional circumstances, prior to the expiration of the proposal validity period, UNDP may request Proposers to extend the period of validity of their Proposals. The request and the responses shall be made in writing, and shall be considered integral to the Proposal.

## **22. Proposer's Conference**

When appropriate, a proposer's conference will be conducted at the date, time and location specified in the **Data Sheet** (DS no. 7). All Proposers are encouraged to attend. Non-attendance, however, shall not result in disqualification of an interested Proposer. Minutes of the proposer's conference will be either posted on the UNDP website, or disseminated to the individual firms who have registered or expressed interest with the contract, whether or not they attended the conference. No verbal statement made during the conference shall modify the terms and conditions of the RFP unless such statement is specifically written in the Minutes of the Conference, or issued/posted as an amendment in the form of a Supplemental Information to the RFP.

- 23.3 Proposers submitting Proposals by mail or by hand shall enclose the original and each copy of the Proposal, in separate sealed envelopes, duly marking each of the envelopes as "Original Proposal" and "Copy of Proposal" as appropriate. The 2 envelopes shall then be sealed in an outer envelope. The number of copies required shall be as specified in the **Data Sheet** (DS No. 19). In the event of any discrepancy between the contents of the "Original Proposal" and the "Copy of Proposal", the contents of the original shall govern. The original version of the Proposal shall be signed or initialed by the Proposer or person(s) duly authorized to commit the Proposer on every page. The authorization shall be communicated through a document evidencing such authorization issued by the highest official of the firm, or a Power of Attorney, accompanying the Proposal.
- 23.4 Proposers must be aware that the mere act of submission of a Proposal, in and of itself, implies that the Proposer accepts the General Contract Terms and Conditions of UNDP as attached hereto as Section 11.

#### **24. Deadline for Submission of Proposals and Late Proposals**

Proposals must be received by UNDP at the address and no later than the date and time specified in the **Data Sheet** (DS nos. 20 and 21).

UNDP shall not consider any Proposal that arrives after the deadline for submission of Proposals. Any Proposal received by UNDP after the deadline for submission of Proposals shall be declared late, rejected, and returned unopened to the Proposer.

#### **25. Withdrawal, Substitution, and Modification of Proposals**

- 25.1 Proposers are expected to have sole responsibility for taking steps to carefully examine in detail the full consistency of its Proposals to the requirements of the RFP, keeping in mind that material deficiencies in providing information requested by UNDP, or lack clarity in the description of services to be provided, may result in the rejection of the Proposal. The Proposer shall assume the responsibility regarding erroneous interpretations or conclusions made by the Proposer in the course of understanding the RFP out of the set of information furnished by UNDP.
- 25.2 A Proposer may withdraw, substitute or modify its Proposal after it has been submitted by sending a written notice in accordance with Clause 23.1, duly signed by an authorized representative, and shall include a copy of the authorization (or a Power of Attorney). The corresponding substitution or modification of the Proposal must accompany the respective written notice. All notices must be received by UNDP prior to the deadline for submission and submitted in accordance with RFP Clause 23.1 (except that withdrawal notices do not require copies). The respective envelopes shall be clearly marked "WITHDRAWAL," "SUBSTITUTION," or "MODIFICATION".

- 25.3 Proposals requested to be withdrawn shall be returned unopened to the Proposers.
- 25.4 No Proposal may be withdrawn, substituted, or modified in the interval between the deadline for submission of Proposals and the expiration of the period of proposal validity specified by the Proposer on the Proposal Submission Form or any extension thereof.

## **26. Proposal Opening**

UNDP will open the Proposals in the presence of an ad-hoc committee formed by UNDP of at least two (2) members. If electronic submission is permitted, any specific electronic proposal opening procedures shall be as specified in the **Data Sheet** (DS no. 23).

The Proposers' names, modifications, withdrawals, the condition of the envelope labels/seals, the number of folders/files and all other such other details as UNDP may consider appropriate, will be announced at the opening. No Proposal shall be rejected at the opening stage, except for late submission, for which the Proposal shall be returned unopened to the Proposer.

## **27. Confidentiality**

Information relating to the examination, evaluation, and comparison of Proposals, and the recommendation of contract award, shall not be disclosed to Proposers or any other persons not officially concerned with such process, even after publication of the contract award.

Any effort by a Proposer to influence UNDP in the examination, evaluation and comparison of the Proposals or contract award decisions may, at UNDP's decision, result in the rejection of its Proposal.

In the event that a Proposer is unsuccessful, the Proposer may seek a meeting with UNDP for a debriefing. The purpose of the debriefing is discussing the strengths and weaknesses of the Proposer's submission, in order to assist the Proposer in improving the proposals presented to UNDP. The content of other proposals and how they compare to the Proposer's submission shall not be discussed.

# **E. EVALUATION OF PROPOSALS**

## **28. Preliminary Examination of Proposals**

UNDP shall examine the Proposals to determine whether they are complete with respect to minimum documentary requirements, whether the documents have been properly signed, whether or not the Proposer is in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's list of suspended and removed vendors, and whether the Proposals are generally in order, among other indicators that may be used at this stage. UNDP may reject any Proposal at this stage.

## **29. Evaluation of Proposals**

29.1 UNDP shall examine the Proposal to confirm that all terms and conditions under the UNDP General Terms and Conditions and Special Conditions have been accepted by the Proposer without any deviation or reservation.

29.2 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other documentation provided, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet** (DS no. 32). Each responsive Proposal will be given a technical score. A Proposal shall be rendered non-responsive at this stage if it does not substantially respond to the RFP particularly the demands of the Terms of Reference, which also means that it fails to achieve the minimum technical score indicated in the **Data Sheet** (DS no. 25). Absolutely no changes may be made by UNDP in the criteria, sub-criteria and point system indicated in the **Data Sheet** (DS no. 32) after all Proposals have been received.

29.3 In the second stage, only the Financial Proposals of those Proposers who achieve the minimum technical score will be opened for evaluation for comparison and review. The Financial Proposal Envelopes corresponding to Proposals that did not meet the minimum passing technical score shall be returned to the Proposer unopened. The overall evaluation score will be based either on a combination of the technical score and the financial offer, or the lowest evaluated financial proposal of the technically qualified Proposers. The evaluation method that applies for this RFP shall be as indicated in the **Data Sheet** (DS No. 25).

When the Data Sheet specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:

<p><u>Rating the Technical Proposal (TP):</u></p> <p><b>TP Rating</b> = (Total Score Obtained by the Offer / Max. Obtainable Score for TP) x 100</p> <p><u>Rating the Financial Proposal (FP):</u></p> <p><b>FP Rating</b> = (Lowest Priced Offer / Price of the Offer Being Reviewed) x 100</p> <p><u>Total Combined Score:</u></p> $\frac{(\text{TP Rating}) \times (\text{Weight of TP, e.g. 70\%}) + (\text{FP Rating}) \times (\text{Weight of FP, e.g., 30\%})}{\text{Total Combined and Final Rating of the Proposal}}$
--

29.4 UNDP reserves the right to undertake a post-qualification exercise aimed at determining, to its satisfaction the validity of the information provided by the Proposer. Such post-qualification shall be fully documented and, among those that may be listed in the **Data Sheet** (DS No.33), may include, but need not be limited to, all or any combination of the following :

  - f) Quality assessment of ongoing and completed outputs, works and activities similar to the requirements of UNDP, where available; and
  - g) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.

### **30. Clarification of Proposals**

To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Proposer for a clarification of its Proposal.

UNDP's request for clarification and the response shall be in writing. Notwithstanding the written communication, no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP Clause 32.

Any unsolicited clarification submitted by a Proposer in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.

### **31. Responsiveness of Proposal**

UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself.

A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.

If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Proposer by correction of the material deviation, reservation, or omission.

### **32. Nonconformities, Reparable Errors and Omissions**

Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.

Provided that a Proposal is substantially responsive, UNDP may request the Proposer to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Proposer to comply with the request may result in the rejection of its Proposal.

Provided that the Proposal is substantially responsive, UNDP shall correct arithmetical errors as follows:

- a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price, in which case the line item total as quoted shall govern and the unit price shall be corrected;
- b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to the above.

If the Proposer does not accept the correction of errors made by UNDP, its Proposal shall be rejected.

## **F. AWARD OF CONTRACT**

### **33. Right to Accept, Reject, or Render Non-Responsive Any or All Proposals**

UNDP reserves the right to accept or reject any Proposal, to render any or all of the Proposals as non-responsive, and to reject all Proposals at any time prior to award of contract, without incurring any liability, or obligation to inform the affected Proposer(s) of the grounds for UNDP's action. Furthermore, UNDP shall not be obliged to award the contract to the lowest price offer.

UNDP shall also verify, and immediately reject their respective Proposal, if the Proposers are found to appear in the UN's Consolidated List of Individuals and Entities with Association to Terrorist Organizations, in the List of Vendors Suspended or Removed from the UN Secretariat Procurement Division Vendor Roster, the UN Ineligibility List, and other such lists that as may be established or recognized by UNDP policy on Vendor Sanctions. (See [http://www.undp.org/content/undp/en/home/operations/procurement/procurement\\_prot\\_est/](http://www.undp.org/content/undp/en/home/operations/procurement/procurement_prot_est/) for details)

### **34. Award Criteria**

Prior to expiration of the period of proposal validity, UNDP shall award the contract to the qualified Proposer with the highest total score based on the evaluation method indicated in the **Data Sheet** (DS nos. 25 and 32).

### **35. Right to Vary Requirements at the Time of Award**

At the time of award of Contract, UNDP reserves the right to vary the quantity of services and/or goods, by up to a maximum twenty five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.

### **36. Contract Signature**

Within fifteen (15) days from the date of receipt of the Contract, the successful Proposer shall sign and date the Contract and return it to UNDP.

Failure of the successful Proposer to comply with the requirement of RFP Clause 35 and this

provision shall constitute sufficient grounds for the annulment of the award, and forfeiture of the Proposal Security if any, and on which event, UNDP may award the Contract to the Proposer with the second highest rated Proposal, or call for new Proposals.

### **37. Performance Security**

A performance security, if required, shall be provided in the amount and form provided in Section 9 and by the deadline indicated in the **Data Sheet** (DS no. 14), as applicable. Where a Performance Security will be required, the submission of the said document, and the confirmation of its acceptance by UNDP, shall be a condition for the effectivity of the Contract that will be signed by and between the successful Proposer and UNDP.

### **38. Bank Guarantee for Advanced Payment**

Except when the interests of UNDP so require, it is the UNDP's preference to make no advanced payment(s) on contracts (i.e., payments without having received any outputs). In the event that the Proposer requires an advanced payment upon contract signature, and if such request is duly accepted by UNDP, and the said advanced payment exceeds 20% of the total proposal price, or exceed the amount of USD 30,000, UNDP shall require the Proposer to submit a Bank Guarantee in the same amount as the advanced payment. A bank guarantee for advanced payment shall be furnished in the form provided in Section 10.

### **39. Vendor Protest**

UNDP's vendor protest procedure provides an opportunity for appeal to those persons or firms not awarded a purchase order or contract through a competitive procurement process. In the event that a Proposer believes that it was not treated fairly, the following link provides further details regarding UNDP vendor protest procedures:

### **B. BACKGROUND**

Under its new Country Programme Document 2013-2015, UNDP's livelihood support is programmed to address social cohesion issues in Myanmar, and is targeted across 311 villages across 07 ceasefire and high-poverty states. To-date livelihood assistance has largely been needs-based, and comprising of capital assistance, training and infrastructure. UNDP wishes to add-value to the work it has started in its target locations by strengthening the twin elements of technological innovations and entrepreneurship.

In May 2014, UNDP undertook a scoping mission on *introducing affordable technologies to vulnerable communities*. This mission undertook consultations with government institutions at the local level and non-governmental organizations (I/NGOs); and conducted technology fairs that showcased a sample of products (in Mon and Kayin states). These consultations and technology fairs were well-received and demonstrated interest in the ideas and demand for products, and relative purchasing power for affordable products.

Based on findings from the scoping mission, UNDP wishes to implement a 15-month pilot project on *AFFORDABLE TECHNOLOGY INNOVATIONS FOR RURAL COMMUNITIES*.

The objectives of this pilot phase are:

- To increase market access to affordable technologies to poor and vulnerable communities;
- To increase income-generation and enterprise-development opportunities, especially of women and youth in target locations;
- To use the intervention as a further strategy for strengthening social cohesion among target communities;
- To test model for scale-up across all target locations.

The key principles of this pilot phase are:

- **Strengthening social cohesion:** Social cohesion will be an underlying thread across the intervention which will aim to a) reduce socio-economic disparities and improve socio-economic opportunities for vulnerable persons and communities; and b) improve intra and inter-community networks, interactions, trust and unity. At the local level, village-based CBOs will play a lead role in planning, mobilization and monitoring activities. In some locations they will be complemented by federated women's groups, who will support mobilization and the identification of women entrepreneurs.<sup>3</sup> The technologies themselves will help improve livelihood and income-generation opportunities directly (of local entrepreneurs) and indirectly (of end-user communities). The action will especially benefit women, directly (local women entrepreneurs) and indirectly by reducing women's socio-economic burdens for example around firewood collection and cooking and improving women's security, for example through improved lighting. The intervention will help reduce local/community conflicts around natural and energy resources, for example, in some communities where there are localized conflicts around firewood shortages.
- **Adopting market-based approaches:** the intervention will help to connect demand and supply that will be sustainable beyond this intervention and contribute to developing local entrepreneurship capacities.
- **Benefitting livelihood development and income-generation:** the intervention will provide direct income generating or employment opportunities for local distributors and help individuals and communities to increase productivity and reduce overhead costs.
- **Building on past work:** As part of its larger livelihood and social cohesion portfolio, UNDP has established relationships with communities in the target locations and with government institutions and I/NGOs at the local level; provided a package of social protection (food-banks), capital grants for agriculture, fisheries, livestock and SME; provided community extension training for agriculture and livestock services; constructed small livelihood and community infrastructure; facilitated interaction, exposure and dialogue activities; strengthened the capacity of community governance mechanisms; and provided livelihood and vocational training. The intervention will build on this work. The network of village-based CBOs are well-placed to lead community mobilization, planning and monitoring activities.

While the feasibility mission showcased a number of innovative technology products, during the pilot UNDP wishes to work with 3 products only.

- 1) Fuel-efficient cook-stoves
- 2) Portable Solar lights (d. light S20)
- 3) Solar light/charger (brightbox)

These technologies demonstrated the highest need/demand during the feasibility mission. They are also likely to contribute to the most direct improvements to socio-economic development and livelihoods. The solar lights and chargers are also likely to have the highest value for the community as a whole (for example, useful for community buildings etc).

---

<sup>3</sup> Under its Human Development Initiative (prior to 2013) UNDP supported the formation and capacity-development of Self-Reliance Groups (SRGs). During the HDI transition phase, UNDP supported federating SRGs with 3-tiered federated approach to ensure the sustainability of such groups. SRGs formed Cluster Leading Groups (CLG) and then Township Leading Groups (TLGs). As of early Aug 2014, over 22,000 women members are directly participating and benefiting from 1,979 SRGs which are federated into 112 CLGs and 31 TLGs in 8 Regions/States of Myanmar. Currently, these CLGs and TLGs are being supported with further capacity-development for interfacing with government and networking.

UNDP wishes to identify an Implementing Partner (IP) (non-governmental organization) to undertake the scope of work for the pilot project.

### **C. SCOPE OF WORKS, DELIVERABLES, TIMELINES**

The IP's scope of work is as follows:

#### **1. INCEPTION PHASE**

- UNDP, in partnership with a technical partner, will conduct orientation and training for the IP. As this is a pilot, UNDP and the IP will use the inception phase to collaboratively refine and concretize the intervention. The orientation sessions will include: introduction to approaches and principles; methodology for technology fairs, products, pricing method, marketing material and training of distributors.
- The IP with UNDP will cluster the target villages (4-5 villages per cluster). This is done to facilitate a market demand that is larger than the village unit. Clustering villages together will allow for greater opportunity for income generation based on higher demands.
- The IP will prepare a brochure of the product line in the local languages.
- UNDP and the IP will establish indicators for measuring results; agree on reporting templates and timelines; and develop preliminary concepts for knowledge-product and events.

***Expected duration: 04 weeks (December 2014/January 2015)***

#### **2. CONDUCT ASSESSMENTS IN ALL TARGET LOCATIONS**

- The IP will conduct Technology Fairs in all target clusters. The objective of the fairs is to assess the interest and demand for the technologies in target locations, specifically, the type of products demanded at the household level (which will have direct and indirect beneficial impacts on livelihoods and income-generation) and the demand for products for communal use (for example, cook-stoves for a community hall or solar chargers for the local school). The fairs will showcase the catalogue of available products; demonstrate their functions, benefits and usage. The aim of the fairs is to demonstrate the usefulness of the technologies and assess market demand for individual items.
- Additional to the fairs, the IP will also conduct a focus-group discussion (FGD) at village cluster level with a sample of community representative, and join UNDP in meetings with government institutions at the local level, civil society organizations (CSOs), and 2-3 development organizations. The objective of these meetings will be to complement the assessment of market demand with more contextual information, including on local economic conditions, social and conflict dynamics and similar activities. particularly examining social cohesion dynamics and impacts; i.e. how will the introduction of products help reduce socio-economic disparities and inequalities in the community; how will the intervention strengthen inter-community networks and relations; and how will the intervention mitigate local conflicts, say for example around natural energy resource shortages? The IP will use these meetings to also confirm and seek feedback on a potential product(s) that could benefit the community as a whole.
- During the assessment phase, the IP will also assess interest of individuals interested in serving as product distributors.
- The IP will prepare a report per state that summarizes key findings.

***Expected duration: 08 weeks (Feb/March 2015)***

#### **3. SETTING-UP A DISTRIBUTION NETWORK AND RELATED CAPACITY-DEVELOPMENT**

- In parallel, the IP will identify local distributors for the products. It is proposed to identify 1-2 local distributors per product category per village cluster (i.e. 1-2 persons for the cook-stoves

and 1-2 persons for the solar products). These could be existing entrepreneurs (e.g. grocery-shop owners, mobile grocers etc.) or new entrepreneurs. Individuals will be identified based on assessed interest and capacity. Consideration will be given to supporting women and youth entrepreneurs. Consideration will also be given to including persons from traditionally excluded or marginalized groups and for setting-up a network of persons that are representative of different demographics (gender, ethnicity, language etc).

- The IP will provide a package of capacity-development (training, mentoring and related support) to the distributors including the following:
  - a) In partnership with the product suppliers, training on the technical aspects of the products they will handle (e.g. operation, repair, after-sales service, maintenance etc).
  - b) Training on methodology (technology fairs, pricing etc)
  - c) Training on business development in order to be successful local distributors, including formulating business plans.
  - d) As part of the business development exercise, the IP will also assess the requirements and make provisions for start-up capital per distributor (e.g. for setting-up a kiosk or purchasing a motor-bike).
  - e) In partnership with UNDP awareness on community cohesion.

#### **4. PRODUCT SOURCING AND PURCHASING**

- Based on the assessment of markets per cluster, the IP will source the 3 products. The IP will consider affordability, durability, quality of products and the quality of after-sales services. The IP's arrangements with the suppliers should also include provisions for training the IP, and in turn, the local distributors, on the technical aspects of the products. In the medium to longer-term, the IP should facilitate a direct relationship between the suppliers and distributors (and through them the communities) that would maintain and develop the market, independent of the IP and UNDP.
- The IP will make an upfront procurement of the products, based on best case estimates generated from the fairs and the business plans formulated by the local distributors. The IP will also procure the products identified for its communal/collective value.

***Expected duration: 12 weeks (April-May-Jun 2015)***

#### **F) CONTINUED SUPPORT TO DISTRIBUTERS/RETAIL OF PRODUCTS TO COMMUNITIES/PROVISION OF TECHNOLOGIES TO THE COMMUNITIES**

- UNDP and the IP will hand-over the community-identified product to the community to be maintained as a 'collective asset' at the outset. Aside from the community-strengthening impact, this product is also meant to have a 'demonstration' effect for the entrepreneurial model that follows.
- The IP will hand over the first stock of products to the distributors, who will start their retail enterprises in the community. Where assessed, distributors will be encouraged to retail on an instalment basis to households with low purchasing power. The sales and profits will be used by the distributors to purchase new stocks. While this will be technically facilitated by the IP for 1 additional round following the first stock purchase (using sales and profits) by approximately end-2015, it is envisaged that there will be a direct market relationship between the distributors and the technology service-providers.
- The IP will ensure the efficient monitoring of stocks and logistical coordination.
- The IP will maintain close relationship with the distributors throughout the intervention, providing on-the-job training and mentoring. The IP will also devise innovative ways for incentivizing distributors.

***Expected duration: 24 weeks (July 2015 to January 2016).***

**G) MONITORING, REPORTING AND KNOWLEDGE MANAGEMENT**

- The IP will provide continuous monitoring services, looking at the intervention's results vis-à-vis income-generation and employment creation for local entrepreneurs; improvements to livelihoods and socio-economic conditions of end-user communities; and strengthened social cohesion in target communities. As this is a pilot, UNDP and the IP will use the inception phase to collaboratively develop the indicators and reporting products.
- The IP will also collaborate with UNDP to develop a knowledge-product and to convene knowledge-sharing events for stakeholders in order to share results and lessons of the intervention.
- The IP will also hold a fair/competition for local technological innovations for 1 of the 3 product categories.
- The IP will comply with all reporting obligations, as agreed with UNDP during inception phase.

***Expected duration: Throughout (December 2014 – March 2016). Knowledge-management products and events between January/February 2016. Completion report no later than June 2016.***

**Note on scale-up:** UNDP will conduct an assessment at the end of the pilot to determine if the project addressed the intended objectives. If the model proves scalable, it will be expanded to the other states and townships in 2016. The scale-up could potentially include strategies for fostering local technology development, for example by hosting local technology competitions to sprout new ideas and solutions using affordable technology and partnering with Universities to support students to develop original products and introduce them to marginalized communities.
