- b) In the event that the proposal found to be the most responsive to the RFP requirement is quoted in another currency different from the preferred currency as per **Bid Event**, then UNDP shall reserve the right to award the contract in the currency of UNDP's preference, using the conversion method specified above.

18. Documents Establishing the Eligibility and Qualifications of the Proposer

22. Proposer's Conference

Each document shall include the Proposer’s name and address. The file with the “FINANCIAL PROPOSAL” must be encrypted with a password so that it cannot be opened nor viewed until the Proposal has been found to pass the technical evaluation stage. Once a Proposal has been found to responsive by passing the technical evaluation stage, UNDP shall request the Proposer to submit the password to open the Financial Proposal. The Proposer shall assume the responsibility for not encrypting the financial proposal.

23.2 In the unlikely and exceptional event that the Proposers encounter technical problems when submitting the proposal in the system, then the Proposal can be sent via email as instruction in the Data Sheet (DsNo. D.23.2 D.26). Proposers are however strongly advised to undertake all necessary efforts, including requesting support from UNDP, to submit the Proposal through the online system. In all cases, email submission must be authorized and accepted by UNDP prior to the submission deadline indicated.

24.1 Proposers are expected to have sole responsibility for taking steps to carefully examine in detail the full consistency of its Proposals to the requirements of the RFP, keeping in mind that material deficiencies in providing information requested by UNDP, or lack clarity in the description of services to be provided, may result in the rejection of the Proposal. 24.2 A Proposer may withdraw, substitute or modify its Proposal after it has been submitted by cancelling or editing their bid in the system.

In the event that a Proposer is unsuccessful, the Proposer may seek a meeting with UNDP for a debriefing. The purpose of the debriefing is discussing the strengths and weaknesses of the Proposer’s submission, in order to assist the Proposer in improving the proposals presented to UNDP. The content of other proposals and how they compare to the Proposer’s submission shall not be discussed.

E. EVALUATION OF PROPOSALS

26. Preliminary Examination of Proposals

UNDP shall examine the Proposals to determine whether they are complete with respect to minimum documentary requirements, whether the documents have been properly signed, whether or not the Proposer is in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's list of suspended and removed vendors, and whether the Proposals are generally in order, among other indicators that may be used at this stage. UNDP may reject any Proposal at this stage.

27. Evaluation of Proposals

- 27.1 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other documentation provided, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet** (DS no. 32). Each responsive Proposal will be given a technical score. A Proposal shall be rendered non-responsive at this stage if it does not substantially respond to the RFP particularly the demands of the Terms of Reference, which also means that it fails to achieve the minimum technical score indicated in the **Data Sheet** (DS no. 25). Absolutely no changes may be made by UNDP in the criteria, sub-criteria and point system indicated in the **Data Sheet** (DS no. 32) after all Proposals have been received.
- 27.2 In the second stage, only the Financial Proposals of those Proposers who achieve the minimum technical score will be opened for evaluation for comparison and review. The overall evaluation score will be based either on a combination of the technical score and the financial offer, or the lowest evaluated financial proposal of the technically qualified Proposers. The evaluation method that applies for this RFP shall be as indicated in the **Data Sheet** (DS No. 25).

When the Data Sheet specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:

Rating the Technical Proposal (TP):

$$\text{TP Rating} = (\text{Total Score Obtained by the Offer} / \text{Max. Obtainable Score for TP}) \times 100$$

Rating the Financial Proposal (FP):

$$\text{FP Rating} = (\text{Lowest Priced Offer} / \text{Price of the Offer Being Reviewed}) \times 100$$

Total Combined Score:

$$\begin{aligned} & (\text{TP Rating}) \times (\text{Weight of TP, e.g. 70\%}) \\ & + (\text{FP Rating}) \times (\text{Weight of FP, e.g., 30\%}) \end{aligned}$$

Total Combined and Final Rating of the Proposal

- 27.3 UNDP reserves the right to undertake a post-qualification exercise aimed at determining, to its satisfaction the validity of the information provided by the Proposer. Such post-qualification shall be fully documented and, among those that may be listed in the **Data Sheet** (DS No.33), may include, but need not be limited to, all or any combination of the following :

- g) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.

28. Clarification of Proposals

To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Proposer for a clarification of its Proposal.

UNDP's request for clarification and the response shall be in writing. Notwithstanding the written communication, no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP Clause 32.

Any unsolicited clarification submitted by a Proposer in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.

29. Responsiveness of Proposal

UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself.

A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.

If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Proposer by correction of the material deviation, reservation, or omission.

30. Nonconformities, Reparable Errors and Omissions

Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.

Provided that a Proposal is substantially responsive, UNDP may request the Proposer to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Proposer to comply with the request may result in the rejection of its Proposal.

Provided that the Proposal is substantially responsive, UNDP shall correct arithmetical errors as follows:

- a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price, in which case the line item total as quoted shall govern and the unit price shall be corrected;

- b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to the above.

If the Proposer does not accept the correction of errors made by UNDP, its Proposal shall be rejected.

F. AWARD OF CONTRACT

31. Right to Accept, Reject, or Render Non-Responsive Any or All Proposals

UNDP reserves the right to accept or reject any Proposal, to render any or all of the Proposals as non-responsive, and to reject all Proposals at any time prior to award of contract, without incurring any liability, or obligation to inform the affected Proposer(s) of the grounds for UNDP's action. 34. Contract Signature

Within fifteen (15) days from the date of receipt of the Contract, the successful Proposer shall sign and date the Contract and return it to UNDP.

Campaign and Outreach to Popularize IVR (10941)

A. Project Title:
Comprehensive Disaster Management Programme (CDMP-II)
B. Description of the Assignment
<p>The Comprehensive Disaster Management Programme (CDMP) is a flagship collaborative initiative of the Bangladesh Ministry of Disaster Management and Relief (MoDMR) and UNDP. Its core objective is to strengthen national capacity to manage risks related to disasters, as well as the immediate response and the recovery efforts. It is done through a comprehensive approach that focuses on all hazards, all phases of disaster management, and is involving all relevant stakeholders.</p> <p>The rise of mobile phone uses open up the avenue to introduce pull protocol based early warning system which offers the valuable golden hours to be prepared well ahead of time. CDMP in partnership with Bangladesh TeleTalk Ltd. (state-owned mobile phone company), Bangladesh Meteorological Department (BMD) and Flood Forecasting and Warning Centre (FFWC) introduced Interactive Voice Response (IVR) based (by dialing 10941) early warning system. This has enabled 110 million cell-phone users of the country to have direct access to receive early warnings of approaching hydro-meteorological disasters and to be prepared well ahead of time.</p> <p>Accessible by dialing ‘10941’ from all mobile phone operators, the ‘Early Warning’ is disseminating hazard-related information, i.e. daily weather forecast, rainfall, cyclone, flood and landslide.</p> <p>To be effective, early warning systems through IVR 10941 need to reach the communities at risk, facilitate awareness of disaster risks, effectively disseminate messages and warnings and ensure there is constant state of preparedness. This rigorous communication and outreach initiative will help early warning communication technology to reach the entire population, including populations living in disaster prone areas such as coastal communities, flood prone communities. In this line, it is needed to popularize IVR to end users by Audio-visual production and airing, Billboard, engagement of celebrity Brand Ambassador and communication & outreach campaign.</p> <p>It is expected that the campaign will enable us:</p> <ol style="list-style-type: none">1. To reach the targeted communities in order to aware them about the IVR-10941 and to make it popular.2. IVR based early warning and community response capacity strengthened in disaster situation.3. Community ability to respond effectively to early warnings assessed.4. Public awareness on disaster response and preparedness enhanced. <p>Target audience:</p> <ul style="list-style-type: none">▪ Primary: Cyclone prone communities, Flood prone communities, Fishermen communities in the coastal area, and mass audience.▪ Secondary: Local administration of the government, NGOs and INGOs working in the local communities where primary audience belongs.▪ Tertiary: National government, Development partners and donor communities.<ul style="list-style-type: none">• (It is to be noted that CDMP is partnered with 13 ministries, 12 departments and 28 educational and training institutes, Community Radios and several local NGOs. They can be utilized to some extent to channel the intended communication).

⁶ This document serves as a guide to Requestor on how to write the TOR for the RFP, by suggesting contents. This document is not to be shared with Proposers in this current state and form. The TOR actually written by the Requestor shall be the TOR that will be attached to this part of the RFP.

C. Project Description:

The second phase of the Comprehensive Disaster Management Programme 2010-2015 (CDMP II) aimed to further reduce Bangladesh's vulnerability to adverse natural and anthropogenic hazards and extreme events, including the potentially devastating impacts of climate change. It is working towards this through risk management and mainstreaming. CDMP II was a natural expansion and a logical scaling up of the Project's first phase (2004-2009), which laid the foundations for institutionalizing risk reduction approaches and frameworks developed through pilot testing.

CDMP II aimed to further institutionalize the adoption of risk reduction approaches, not only in its host Ministry of Disaster Management and Relief, but more broadly across key ministries and agencies.

The project has six outcomes:

1. The development of strong, well-managed and professional institutions in Bangladesh those are able to implement a comprehensive range of risk reduction programmes and interventions.
 - Primarily working with: Ministry of Disaster Management and Relief – Department of Disaster Management and 41 academic and training institutions
2. Reduced risk to rural populations through structural and non-structural interventions, empowerment of rural communities and improved awareness of, and planning for, natural hazard events, including the likely impacts of climate change.
 - Primarily working with: District authorities, Upazila and Union Disaster Management Committees, NGOs and communities.
3. Reduced risk to urban populations through structural and non-structural interventions, improved awareness of natural hazard events and the piloting of urban community risk reduction methodologies that target the extreme poor.
 - Primarily working with: Municipal authorities, line authorities, first responding institutions, Disaster Management Committees, NGOs and communities.
4. Improved overall effectiveness and timeliness of disaster preparedness and response in Bangladesh by strengthening management capacity and coordination, as well as networking facilities at all levels.
 - Primarily working with: Ministry of Disaster Management and Relief – Department of Disaster Management, Fire Service and Civil Defense, Disaster Management Committees, CPP and NGOs.
5. Improved and broadened disaster-proofing of development funding in eleven government ministries by generating increased awareness of hazard risks and providing technical information, advisory services and resources to stimulate positive changes in planning and investment decisions over the long-term.
 - Primarily working with: National Curriculum and Textbook Board, Flood Forecasting and Warning Center, Bangladesh Metrological Department, Department of Agricultural Extension, Department of Livestock Services, Department of Fisheries, Department of Environment, Fire Service and Civil Defense, Geological Survey of Bangladesh, Department of Public Health Engineering, Department of Women Affairs, Directorate General of Health Services and the Ministry of Land.
6. Community-level adaptation to disaster risks from a changing climate is effectively managed.
 - Primarily working with: academic and research institutions that conducted studies and offering new tools for CC sensitive planning, helping the partner ministries and departments to realize their plan more climate risk sensitive.
