3. Any Proposal submitted will be regarded as an offer by the Proposer and does not constitute or imply the acceptance of any Proposal by UNDP. UNDP is under no obligation to award a contract to any Proposer as a result of this RFP.

4. UNDP implements a policy of zero tolerance on proscribed practices, including fraud, corruption, collusion, unethical practices, and obstruction. UNDP is committed to preventing, identifying and addressing all acts of fraud and corrupt practices against UNDP as well as third parties involved in UNDP activities. (See http://www.undp.org/about/transparencydocs/UNDP_Anti_Fraud_Policy_English_FINAL_june_2011.pdf and http://www.undp.org/content/undp/en/home/operations/procurement/procurement_protest/ for full description of the policies)

5. In responding to this RFP, UNDP requires all Proposers to conduct themselves in a professional, objective and impartial manner, and they must at all times hold UNDP’s interests paramount. Proposers must strictly avoid conflicts with other assignments or their own interests, and act without consideration for future work. All Proposers found to have a conflict of interest shall be disqualified. Without limitation on the generality of the above, Proposers, and any of their affiliates, shall be considered to have a conflict of interest with one or more parties in this solicitation process, if they:

5.1 Are or have been associated in the past, with a firm or any of its affiliates which have been engaged UNDP to provide services for the preparation of the design, specifications, Terms of Reference, cost analysis/estimation, and other documents to be used for the procurement of the goods and services in this selection process;

In the event of any uncertainty in the interpretation of what is potentially a conflict of interest,
proposers must disclose the condition to UNDP and seek UNDP's confirmation on whether or not such conflict exists.

6. Similarly, the Proposers must disclose in their proposal their knowledge of the following:

6.1 That they are owners, part-owners, officers, directors, controlling shareholders, or they have key personnel who are family of UNDP staff involved in the procurement functions and/or the Government of the country or any Implementing Partner receiving services under this RFP; and

6.2 All other circumstances that could potentially lead to actual or perceived conflict of interest, collusion or unfair competition practices.

Failure of such disclosure may result in the rejection of the proposal or proposals affected by the non-disclosure.

7. The eligibility of Proposers that are wholly or partly owned by the Government shall be subject to UNDP's further evaluation and review of various factors such as being registered as an independent entity, the extent of Government ownership/share, receipt of subsidies, mandate, access to information in relation to this RFP, and others that may lead to undue advantage against other Proposers, and the eventual rejection of the Proposal.

8. CONTENTS OF PROPOSAL

9. Sections of Proposal

Proposers are required to complete, sign and submit the following documents:

9.1 Acknowledgement Form (see RFP Section 4);
9.2 Proposal Submission Cover Letter Form (see RFP Section 5);
9.3 Documents Establishing the Eligibility and Qualifications of the Proposer (see RFP Section 6);
9.4 Technical Proposal (see prescribed form in RFP Section 7);
9.5 Financial Proposal (see prescribed form in RFP Section 8);
9.6 Any attachments and/or appendices to the Proposal.

10. Clarification of Proposal

10.1 Proposers may request clarifications of any of the RFP documents no later than the date indicated in the Data Sheet (DS no. 16) prior to the proposal submission date. Any request for clarification must be sent in writing via courier or through electronic means to the UNDP address indicated in the Data Sheet (DS no. 17). UNDP will respond in writing, transmitted by electronic means and will transmit copies of the response (including an explanation of the query but without identifying the source of inquiry) to all Proposers who have provided confirmation of their intention to submit a Proposal.

10.2 UNDP shall endeavor to provide such responses to clarifications in an expeditious manner, but any delay in such response shall not cause an obligation on the part of UNDP to
extend the submission date of the Proposals, unless UNDP deems that such an extension is justified and necessary.

11. Amendment of Proposals

11.1 At any time prior to the deadline of Proposal submission, UNDP may for any reason, such as in response to a clarification requested by a Proposer, modify the RFP in the form of a Supplemental Information to the RFP. All prospective Proposers will be notified in writing of all changes/amendments and additional instructions through Supplemental Information to the RFP and through the method specified in the Data Sheet (DS No. 18).

11.2 In order to afford prospective Proposers reasonable time to consider the amendments in preparing their Proposals, UNDP may, at its discretion, extend the deadline for submission of Proposals, if the nature of the amendment to the RFP justifies such an extension.

C. PREPARATION OF PROPOSALS

12. Cost

The Proposer shall bear any and all costs related to the preparation and/or submission of the Proposal, regardless of whether its Proposal was selected or not. UNDP shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the procurement process.

13. Language

The Proposal, as well as any and all related correspondence exchanged by the Proposer and UNDP, shall be written in the language(s) specified in the Data Sheet (DS No 4). Any printed literature furnished by the Proposer written in a language other than the language indicated in the Data Sheet, must be accompanied by a translation in the preferred language indicated in the Data Sheet. For purposes of interpretation of the Proposal, and in the event of discrepancy or inconsistency in meaning, the version translated into the preferred language shall govern. Upon conclusion of a contract, the language of the contract shall govern the relationship between the contractor and UNDP.

14. Proposal Submission Form

The Proposer shall submit the Proposal Submission Form using the form provided in Section 5 of this RFP.

15. Technical Proposal Format and Content

Unless otherwise stated in the Data Sheet (DS no. 28), the Proposer shall structure the Technical Proposal as follows:

15.1 Expertise of Firm/Organization – this section should provide details regarding management structure of the organization, organizational capability/resources, and experience of organization/firm, the list of projects/contracts (both completed and on-
going, both domestic and international) which are related or similar in nature to the requirements of the RFP, and proof of financial stability and adequacy of resources to complete the services required by the RFP (see RFP clause 18 and DS No. 26 for further details). The same shall apply to any other entity participating in the RFP as a Joint Venture or Consortium.

15.2 Proposed Methodology, Approach and Implementation Plan – this section should demonstrate the Proposer’s response to the Terms of Reference by identifying the specific components proposed, how the requirements shall be addressed, as specified, point by point; providing a detailed description of the essential performance characteristics proposed; identifying the works/portions of the work that will be subcontracted; and demonstrating how the proposed methodology meets or exceeds the specifications, while ensuring appropriateness of the approach to the local conditions and the rest of the project operating environment. This methodology must be laid out in an implementation timetable that is within the duration of the contract as specified in the Data Sheet (DS nos. 29 and 30).

Proposers must be fully aware that the products or services that UNDP requires may be transferred, immediately or eventually, by UNDP to the Government partners, or to an entity nominated by the latter, in accordance with UNDP’s policies and procedures. All proposers are therefore required to submit the following in their proposals:

a) A statement of whether any import or export licences are required in respect of the goods to be purchased or services to be rendered, including any restrictions in the country of origin, use or dual use nature of the goods or services, including any disposition to end users; and

b) Confirmation that the Proposer has obtained license of this nature in the past, and have an expectation of obtaining all the necessary licenses, should their Proposal be rendered the most responsive.

15.3 Management Structure and Key Personnel – This section should include the comprehensive curriculum vitae (CVs) of key personnel that will be assigned to support the implementation of the proposed methodology, clearly defining the roles and responsibilities vis-à-vis the proposed methodology. CVs should establish competence and demonstrate qualifications in areas relevant to the TOR.

In complying with this section, the Proposer assures and confirms to UNDP that the personnel being nominated are available for the Contract on the dates proposed. If any of the key personnel later becomes unavailable, except for unavoidable reasons such as death or medical incapacity, among other possibilities, UNDP reserves the right to consider the proposal non-responsive. Any deliberate substitution arising from unavoidable reasons, including delay in the implementation of the project of programme through no fault of the Proposer shall be made only with UNDP’s acceptance of the justification for substitution, and UNDP’s approval of the qualification of the replacement who shall be either of equal or superior credentials as the one being replaced.

15.4 Where the Data Sheet requires the submission of the Proposal Security, the Proposal Security shall be included along with the Technical Proposal. The Proposal Security may be forfeited by UNDP, and reject the Proposal, in the event of any or any combination of the following conditions:

a) If the Proposer withdraws its offer during the period of the Proposal Validity specified in the Data Sheet (DS no. 11), or;
b) If the Proposal Security amount is found to be less than what is required by UNDP as indicated in the Data Sheet (DS no. 9), or;
c) In the case the successful Proposer fails:
   i. to sign the Contract after UNDP has awarded it;
   ii. to comply with UNDP’s variation of requirement, as per RFP clause 35; or
   iii. to furnish Performance Security, insurances, or other documents that UNDP may require as a condition to rendering the effectivity of the contract that may be awarded to the Proposer.

16. Financial Proposals

The Financial Proposal shall be prepared using the attached standard form (Section 8). It shall list all major cost components associated with the services, and the detailed breakdown of such costs. All outputs and activities described in the Technical Proposal must be priced separately on a one-to-one correspondence. Any output and activities described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, as well as in the final total price.

17. Currencies

All prices shall be quoted in the currency indicated in the Data Sheet (DS no. 15). However, where Proposals are quoted in different currencies, for the purposes of comparison of all Proposals:

a) UNDP will convert the currency quoted in the Proposal into the UNDP preferred currency, in accordance with the prevailing UN operational rate of exchange on the last day of submission of Proposals; and
b) In the event that the proposal found to be the most responsive to the RFP requirement is quoted in another currency different from the preferred currency as per Data Sheet (DS no. 15), then UNDP shall reserve the right to award the contract in the currency of UNDP’s preference, using the conversion method specified above.

Proposals submitted by two (2) or more Proposers shall all be rejected if they are found to have any of the following:

a) they have at least one controlling partner, director or shareholder in common; or
b) any one of them receive or have received any direct or indirect subsidy from the other/s; or
c) they have the same legal representative for purposes of this RFP; or
d) they have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about, or influence on the Proposal of, another Proposer regarding this RFP process;
e) they are subcontractors to each other’s Proposal, or a subcontractor to one Proposal also submits another Proposal under its name as lead Proposer; or an expert proposed to be in the team of one Proposer participates in more than one Proposal received for this RFP process. This condition does not apply to subcontractors being included in more than one Proposal.

18. Documents Establishing the Eligibility and Qualifications of the Proposer

The Proposer shall furnish documentary evidence of its status as an eligible and qualified vendor, using the forms provided under Section 6, Proposer Information Forms. In order to award a contract to a Proposer, its qualifications must be documented to UNDP’s satisfaction.
These include, but are not limited to, the following:

a) That, in the case of a Proposer offering to supply goods under the Contract which the Proposer did not manufacture or otherwise produce, the Proposer has been duly authorized by the goods’ manufacturer or producer to supply the goods in the country of final destination;

b) That the Proposer has the financial, technical, and production capability necessary to perform the Contract; and

c) That, to the best of the Proposer’s knowledge, it is not included in the UN 1267/1989 List or the UN Ineligibility List, nor in any and all of UNDP’s list of suspended and removed vendors.

19. Joint Venture, Consortium or Association

If the Proposer is a group of legal entities that will form or have formed a joint venture, consortium or association at the time of the submission of the Proposal, they shall confirm in their Proposal that: (i) they have designated one party to act as a lead entity, duly vested with authority to legally bind the members of the joint venture jointly and severally, and this shall be duly evidenced by a duly notarized Agreement among the legal entities, which shall be submitted along with the Proposal; and (ii) if they are awarded the contract, the contract shall be entered into, by and between UNDP and the designated lead entity, who shall be acting for and on behalf of all the member entities comprising the joint venture.

After the Proposal has been submitted to UNDP, the lead entity identified to represent the joint venture shall not be altered without the prior written consent of UNDP. Furthermore, neither the lead entity nor the member entities of the joint venture can:

a) Submit another proposal, either in its own capacity; nor

b) As a lead entity or a member entity for another joint venture submitting another Proposal.

The description of the organization of the joint venture/consortium/association must clearly define the expected role of each of the entity in the joint venture in delivering the requirements of the RFP, both in the Proposal and the Joint Venture Agreement. All entities that comprise the joint venture shall be subject to the eligibility and qualification assessment by UNDP.

Where a joint venture is presenting its track record and experience in a similar undertaking as those required in the RFP, it should present such information in the following manner:

a) Those that were undertaken together by the joint venture; and

b) Those that were undertaken by the individual entities of the joint venture expected to be involved in the performance of the services defined in the RFP.

Previous contracts completed by individual experts working privately but who are permanently
or were temporarily associated with any of the member firms cannot be claimed as the experience of the joint venture or those of its members, but should only be claimed by the individual experts themselves in their presentation of their individual credentials.

If a joint venture’s Proposal is determined by UNDP as the most responsive Proposal that offers the best value for money, UNDP shall award the contract to the joint venture, in the name of its designated lead entity. The lead entity shall sign the contract for and on behalf of all other member entities.

20. Alternative Proposals

Unless otherwise specified in the Data Sheet (DS nos. 5 and 6), alternative proposals shall not be considered. Where the conditions for its acceptance are met, or justifications are clearly established, UNDP reserves the right to award a contract based on an alternative proposal.

21. Validity Period

Proposals shall remain valid for the period specified in the Data Sheet (DS no. 8), commencing on the submission deadline date also indicated in the Data Sheet (DS no. 21). A Proposal valid for a shorter period shall be immediately rejected by UNDP and rendered non-responsive.

In exceptional circumstances, prior to the expiration of the proposal validity period, UNDP may request Proposers to extend the period of validity of their Proposals. The request and the responses shall be made in writing, and shall be considered integral to the Proposal.

22. Proposer’s Conference

When appropriate, a proposer’s conference will be conducted at the date, time and location specified in the Data Sheet (DS no. 7). All Proposers are encouraged to attend. Non-attendance, however, shall not result in disqualification of an interested Proposer. Minutes of the proposer’s conference will be either posted on the UNDP website, or disseminated to the individual firms who have registered or expressed interest with the contract, whether or not they attended the conference. No verbal statement made during the conference shall modify the terms and conditions of the RFP unless such statement is specifically written in the Minutes of the Conference, or issued/posted as an amendment in the form of a Supplemental Information to the RFP.

D. SUBMISSION AND OPENING OF PROPOSALS

23. Submission

23.1 The Financial Proposal and the Technical Proposal Envelopes MUST BE COMPLETELY SEPARATE and each of them must be submitted sealed individually and clearly marked on the outside as either “TECHNICAL PROPOSAL” or “FINANCIAL PROPOSAL”, as appropriate. Each envelope MUST clearly indicate the name of the Proposer. The outer envelopes shall bear the address of UNDP as specified in the Data Sheet (DS no.20) and shall include the Proposer’s name and address, as well as a warning that state “not to be opened before the
time and date for proposal opening" as specified in the Data Sheet (DS no. 24). The Proposer shall assume the responsibility for the misplacement or premature opening of Proposals due to improper sealing and labeling by the Proposer.

23.2 Proposers must submit their Proposals in the manner specified in the Data Sheet (DS nos. 22 and 23). When the Proposals are expected to be in transit for more than 24 hours, the Proposer must ensure that sufficient lead time has been provided in order to comply with UNDP's deadline for submission. UNDP shall indicate for its record that the official date and time of receiving the Proposal is the actual date and time when the said Proposal has physically arrived at the UNDP premises indicated in the Data Sheet (DS no. 20).

23.3 Proposers submitting Proposals by mail or by hand shall enclose the original and each copy of the Proposal, in separate sealed envelopes, duly marking each of the envelopes as "Original Proposal" and "Copy of Proposal" as appropriate. The 2 envelopes shall then be sealed in an outer envelope. The number of copies required shall be as specified in the Data Sheet (DS No. 19). In the event of any discrepancy between the contents of the "Original Proposal" and the "Copy of Proposal", the contents of the original shall govern. The original version of the Proposal shall be signed or initialed by the Proposer or person(s) duly authorized to commit the Proposer on every page. The authorization shall be communicated through a document evidencing such authorization issued by the highest official of the firm, or a Power of Attorney, accompanying the Proposal.

23.4 Proposers must be aware that the mere act of submission of a Proposal, in and of itself, implies that the Proposer accepts the General Contract Terms and Conditions of UNDP as attached hereto as Section 10.

24. Deadline for Submission of Proposals and Late Proposals

Proposals must be received by UNDP at the address and no later than the date and time specified in the Data Sheet (DS nos. 20 and 21).

UNDP shall not consider any Proposal that arrives after the deadline for submission of Proposals. Any Proposal received by UNDP after the deadline for submission of Proposals shall be declared late, rejected, and returned unopened to the Proposer.

25. Withdrawal, Substitution, and Modification of Proposals

25.1 Proposers are expected to have sole responsibility for taking steps to carefully examine in detail the full consistency of its Proposals to the requirements of the RFP, keeping in mind that material deficiencies in providing information requested by UNDP, or lack clarity in the description of services to be provided, may result in the rejection of the Proposal. The Proposer shall assume the responsibility regarding erroneous interpretations or conclusions made by the Proposer in the course of understanding the RFP out of the set of information furnished by UNDP.

25.2 A Proposer may withdraw, substitute or modify its Proposal after it has been submitted by sending a written notice in accordance with Clause 23.1, duly signed by an authorized representative, and shall include a copy of the authorization (or a Power of Attorney).
The corresponding substitution or modification of the Proposal must accompany the respective written notice. All notices must be received by UNDP prior to the deadline for submission and submitted in accordance with RFP Clause 23.1 (except that withdrawal notices do not require copies). The respective envelopes shall be clearly marked “WITHDRAWAL,” “SUBSTITUTION,” or “MODIFICATION”.

25.3 Proposals requested to be withdrawn shall be returned unopened to the Proposers.

25.4 No Proposal may be withdrawn, substituted, or modified in the interval between the deadline for submission of Proposals and the expiration of the period of proposal validity specified by the Proposer on the Proposal Submission Form or any extension thereof.

26. Proposal Opening

UNDP will open the Proposals in the presence of an ad-hoc committee formed by UNDP of at least two (2) members. If electronic submission is permitted, any specific electronic proposal opening procedures shall be as specified in the Data Sheet (DS no. 23).

The Proposers’ names, modifications, withdrawals, the condition of the envelope labels/seals, the number of folders/files and all other such other details as UNDP may consider appropriate, will be announced at the opening. No Proposal shall be rejected at the opening stage, except for late submission, for which the Proposal shall be returned unopened to the Proposer.

27. Confidentiality

Information relating to the examination, evaluation, and comparison of Proposals, and the recommendation of contract award, shall not be disclosed to Proposers or any other persons not officially concerned with such process, even after publication of the contract award.

Any effort by a Proposer to influence UNDP in the examination, evaluation and comparison of the Proposals or contract award decisions may, at UNDP’s decision, result in the rejection of its Proposal.

In the event that a Proposer is unsuccessful, the Proposer may seek a meeting with UNDP for a debriefing. The purpose of the debriefing is discussing the strengths and weaknesses of the Proposer’s submission, in order to assist the Proposer in improving the proposals presented to UNDP. The content of other proposals and how they compare to the Proposer’s submission shall not be discussed.

E. EVALUATION OF PROPOSALS

28. Preliminary Examination of Proposals

UNDP shall examine the Proposals to determine whether they are complete with respect to minimum documentary requirements, whether the documents have been properly signed, whether or not the Proposer is in the UN Security Council 1267/1989 Committee’s list of
terrorists and terrorist financiers, and in UNDP’s list of suspended and removed vendors, and whether the Proposals are generally in order, among other indicators that may be used at this stage. UNDP may reject any Proposal at this stage.

29. Evaluation of Proposals

29.1 UNDP shall examine the Proposal to confirm that all terms and conditions under the UNDP General Terms and Conditions and Special Conditions have been accepted by the Proposer without any deviation or reservation.

29.2 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other documentation provided, applying the evaluation criteria, sub-criteria, and point system specified in the Data Sheet (DS no. 32). Each responsive Proposal will be given a technical score. A Proposal shall be rendered non-responsive at this stage if it does not substantially respond to the RFP particularly the demands of the Terms of Reference, which also means that it fails to achieve the minimum technical score indicated in the Data Sheet (DS no. 25). Absolutely no changes may be made by UNDP in the criteria, sub-criteria and point system indicated in the Data Sheet (DS no. 32) after all Proposals have been received.

29.3 In the second stage, only the financial Proposals of those Proposers who achieve the minimum technical score will be opened for evaluation for comparison and review. The Financial Proposal Envelopes corresponding to Proposals that did not meet the minimum passing technical score shall be returned to the Proposer unopened. The overall evaluation score will be based either on a combination of the technical score and the financial offer, or the lowest evaluated financial proposal of the technically qualified Proposers. The evaluation method that applies for this RFP shall be as indicated in the Data Sheet (DS No. 25).

When the Data Sheet specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:

\[
\text{Rating the Technical Proposal (TP):} \\
\text{TP Rating} = \frac{\text{Total Score Obtained by the Offer}}{\text{Max. Obtainable Score for TP}} \times 100
\]

\[
\text{Rating the Financial Proposal (FP):} \\
\text{FP Rating} = \frac{\text{Lowest Priced Offer}}{\text{Price of the Offer Being Reviewed}} \times 100
\]

\[
\text{Total Combined Score:} \\
(\text{TP Rating}) \times \text{(Weight of TP, e.g. 70%)} + (\text{FP Rating}) \times \text{(Weight of FP, e.g., 30%)}
\]

\[
\text{Total Combined and Final Rating of the Proposal}
\]
29.4 UNDP reserves the right to undertake a post-qualification exercise aimed at determining, to its satisfaction the validity of the information provided by the Proposer. Such post-qualification shall be fully documented and, among those that may be listed in the Data Sheet (DS No.33), may include, but need not be limited to, all or any combination of the following:

a) Verification of accuracy, correctness and authenticity of information provided by the Proposer on the legal, technical and financial documents submitted;
b) Validation of extent of compliance to the RFP requirements and evaluation criteria based on what has so far been found by the evaluation team;
c) Inquiry and reference checking with Government entities with jurisdiction on the Proposer, or any other entity that may have done business with the Proposer;
d) Inquiry and reference checking with other previous clients on the quality of performance on ongoing or previous contracts completed;
e) Physical inspection of the Proposer’s offices, branches or other places where business transpires, with or without notice to the Proposer;
f) Quality assessment of ongoing and completed outputs, works and activities similar to the requirements of UNDP, where available; and
g) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.

30. Clarification of Proposals

To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Proposer for a clarification of its Proposal.

UNDP’s request for clarification and the response shall be in writing. Notwithstanding the written communication, no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP Clause 32.

Any unsolicited clarification submitted by a Proposer in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.

31. Responsiveness of Proposal

UNDP’s determination of a Proposal’s responsiveness will be based on the contents of the Proposal itself.

A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.

If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Proposer by correction of the material deviation, reservation, or omission.
32. Nonconformities, Reparable Errors and Omissions

Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.

Provided that a Proposal is substantially responsive, UNDP may request the Proposer to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Proposer to comply with the request may result in the rejection of its Proposal.

Provided that the Proposal is substantially responsive, UNDP shall correct arithmetical errors as follows:

a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price, in which case the line item total as quoted shall govern and the unit price shall be corrected;

b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and

c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to the above.

If the Proposer does not accept the correction of errors made by UNDP, its Proposal shall be rejected.

F. AWARD OF CONTRACT

Section 3: Terms of Reference (TOR)

Provision of Third Party Monitoring Services for HPF-Turkey Projects in Syria

1. BACKGROUND

With the establishment of a Humanitarian Pooled Fund (HPF) in Turkey in 2014, the implementation of a comprehensive Accountability Framework is essential. As the level of operational, financial and reputational risks are considered to be substantial in Turkey within the Syrian Crisis Context.

HPF Turkey is funding activities in an environment which is often highly volatile and only partially accessible due to security constraints. This has severely affected the ability of the humanitarian community, including HPF, to provide oversight, monitor and verify the delivery of assistance and evaluate the impact of humanitarian action in Syria. Consequently, ensuring that assistance provided reaches those in greatest need has been particularly challenging in this context.

The HPF Accountability Framework was develop in 2014 to further improve fund management and increase the accountability towards the affected population, donors and other stakeholders by introducing the risk management approach to the HPF. The Framework builds on the HPF Terms of Reference and the Global CHF Monitoring and Reporting Framework, adopted in March 2012.

Monitoring is one of the four major components of the Accountability Framework, next to reporting, audit and capacity assessment, which, jointly assure that the prioritization for oversight and verification of the activities and outputs is based on a systematized risk analysis of partners, locations and activities.

The primary purpose of the monitoring in HPF is to verify and ensure that the funded projects are implemented as set out in project proposals and, through this, provide the required level of assurance to stakeholders that the Fund is operating effectively and efficiently.

Four monitoring methods were identified as feasible:

- Field visits in accessible areas;
- Third party monitoring (TPM) in inaccessible areas;
- Peer Monitoring
- Remote monitoring through the call center and SMS;

Third party monitoring has been piloted by some Humanitarian actors in Syria in 2014-2015. The exercise resulted in recommendations to scale up the third party monitoring approach for future HPF allocations. Observations and lessons learned from the pilot emphasized the need for an inclusive, consultative and targeted process, building on cluster-specific expertise and partner engagement.
Within the Syria context, *third party monitoring* is understood as a program monitoring approach, which enables HPF to obtain independently verified information about the status of implementation of HPF projects in inaccessible areas, with particular emphasis on the achievement of pre-defined outputs, and combining the methods of field visits and desk review of the available HPF project documentation (project proposals or any other relevant information/documentation).

**2. OBJECTIVE AND PURPOSE**

1. To identify 4 parties to undertake monitoring of 24 Projects over of 79 locations in Syria.
2. Verify whether the activities contracted are implemented as per the contract and work plan. Through this HPF(Turkey) is able to satisfy the minimum standard of demonstrating that its implementing partners are doing what they committed to do.
3. Obtain independent information about the quality of achieved outputs. The TPM contractor will employ technically sound cluster-specific guidelines. This contributes to quality assurance through contractor expressing the opinion about the implemented outputs, which is shared with HPF (Turkey) and other stakeholders.
4. Obtain independent information about the direction of activities and effectiveness of the funded intervention during its implementation.
5. Accountability: Verify if the beneficiaries have been selected according to the selection criteria etc.

**3. METHODOLOGICAL FRAMEWORK**

**3.1 BASIC PRINCIPLES**

In its approach, the selected TPM contractor will be closely guided by the HPF Turkey Secretariat (OCHA/HPF), which coordinates the implementation of the HPF Turkey Accountability Framework and, specifically, the monitoring activities within the Framework.

The TPM approach will be closely tied to HPF allocation and monitoring prioritization processes, during which the individual project’s internal and external monitoring plans will be identified or drafted.

**3.2 THIRD PARTY MONITORING SCOPE**

HPF Turkey TPM approach consists of the following key four components: prioritization and planning, desk review, field visits, analysis/feedback.

1. **Desk review and visit planning:**
   - During TPM planning the contractor will closely engage with HPF Turkey. A quantitative and qualitative analysis of project documentation, available prior to the TPM visit will be conducted by the contractor and will include, among others:
     a. Project document;
     b. Narrative and financial reports (interim and final);
     c. Monitoring reports From GMD and template
     d. Partner capacity assessment;
     e. Other relevant monitoring or evaluation information provided by the partner or cluster;
     f. Any other relevant documentation contained in HPF Turkey Database or referred to the partner by the HPF Turkey Secretariat.
2. Field visits:

Based on project TPM planning and desk review, the contractors will conduct a total of 79 field visits to selected project locations\(^3\) in order to perform verification, monitoring and impact evaluation in accordance with the objectives of HPF TPM (see above, Focus and purpose section). During the field visit, the team will collect information in order to:

a. Be able to determine whether the contracted activities are implemented;
b. Obtain independent information about the quality of achieved outputs;
c. Obtain independent information about the direction of activities and effectiveness and impact of the intervention.

The contracted party will consult and interview project beneficiaries, key informants in the area, implementing partners' project and support staff, other aid agencies working in the area, and local authorities as deemed necessary.

Information collection needs to be conducted in accordance with HPF Operational Handbook and Monitoring and Risk Framework, which the contractor is required to consult before commencing the TPM exercise. Pre-monitoring planning (selection of activities and locations, pre-defined means of verification) will serve as a basis for targeted and sampled monitoring and will require contractor’s close engagement with other entities. The choice of field may also take into account the synergy with other HPF projects and presence of other HPF partners in the area that require monitoring.

The contractor will keep HPF Turkey Secretariat updated in real time about the progress of TPM and flag any observations that require immediate attention by the Fund.

3. Analysis, report production and feedback:

The contractor will provide HPF Turkey with immediate monitoring feedback if deemed necessary (programmatic changes, budgetary changes etc.), as well as detailed monitoring feedback in the form of a detailed report, produced by the contractor’s monitoring team for each project monitored.). In addition to the feedback on the implementation progress of individual projects, the contractor will be expected to share the lessons learned and observations about the HPF-Turkey TPM throughout the period of the exercise, resulting in a final set of recommendations at the end of the contractual period (Final Report on TPM within two weeks after the submission of the last TPM Project Report).

4. Deliverables and Reporting Requirements

The selected contractor will be expected to abide by the following reporting requirements and provide HPF Turkey with the following deliverables:

1. TPM Operational Plan –

At the commencement of the contract a TPM operational plan will be drafted by the contractor. This drafting will happen in close coordination with the HPF Secretariat (OCHA/HPF), Partners and will be based on the Joint Monitoring Planning Review. At the time of each HPF Turkey Standard Allocation, such operational plan will be regularly updated. The TPM operational plan will therefore be a single document, applicable to projects from different allocation rounds. It will specify the projects to be monitored and specificities required for the individual TPM instance (locations and activities of interest, identification of particular focus of the visit, cluster-specific guidelines on costing and implementation to be used including the means of verification, time-frame, the team to be deployed etc.).

\(^3\) For details of locations see section 8
2 TPM Flash Reports (within 7 days after TPM completion) –

An email notification to HPF Turkey specifying project and location visited, and activities monitored. A quick initial assessment (300 words max) should flag the most pressing issues that require immediate attention of HPF-OCHA management.

3 TPM Project Reports (79- Total for all LOTs/TPM instances, each submitted report within three weeks after TPM completion) –

One interactive report per project monitored, integrated in the HPF GMS database (technical platform for reporting provided by HPF), following HPF substantive and methodological guidance.

This will be an interactive report, integrated in the HPF GMS database. Substantive guidance and technical platform for reporting will be provided by HPF (see the attached monitoring template for basic substantive guidance, which will be further elaborated at the time of planning). The report, which will contain a detailed and comprehensive set of reference and supporting materials (photography, data sets, methodology, sub-reports, documentation collected etc.), will cross-check and triangulate the information acquired through observation, sampling and verification in the field with other available sources of information (see the desk review section, above).

The contractor will be required to provide a qualified and justifiable assessment of implementation progress, based on the qualitative and quantitative analysis of implemented activities and achieved outputs. The contractor will also be required to provide justified opinion about the overall assessment of the efficiency and effectiveness of the intervention (to the extent possible at the time of monitoring), point to the pressing short- and mid-term issues that require the attention of HPF management. Apart from cluster-specific focus, particular attention will also have to be dedicated to gender and community participation components, and monitoring aspects. The report will also include a detailed set of actionable recommendations for HPF Turkey management, the implementing partner, clusters or any other relevant entity.

4. Final Report on TPM (within 2 weeks after the submission of the last TPM Project Report) – Final report, providing lessons learned and observations about the HPF Turkey. The final report should not be longer than 10 pages (approximately 500 words/page, excluding the appendices and including the executive summary of up to one page). It will include a set of specific, targetted and action-orientated recommendations aimed at improving the performance of HPF Turkey and its partners, focusing in particular on the Accountability Framework aspects. They should also be realistic and should suggest where the responsibility for follow-up should lie.
5. ORGANIZATION OF TPM (SUPPORTING ROLES AND RESPONSIBILITIES):

The selected TPM contractor will work closely with the following stakeholders and entities: HPF Turkey (OCHA/HPF), which will provide day-to-day support, including:

- Manage the TPM process and its progress on a daily basis, in accordance with the agreed budget and timeline;
- Facilitate regular coordination and information flow between all the relevant stakeholders;
- Maintain regular exchange and follow-up with the monitoring contractor on all operational and substantive issues;
- Provide all the necessary support to the monitoring contractor;
- Ensure the real-time application and input of TPM results into the HPF Accountability Framework.

The necessary funding for contracting the TPM services will be provided by HPF, using UNDP Turkey as a procurement service provider.
