

Minutes of Pre-bid Meeting

Date: 24 February 2016

Time: 14.30-15.00 Bangkok time

1. Does the local expert/team leader need to be a Thai national or anyone who has expertise in this region and is a resident of the place?

Answer: The team leader/expert can be of any nationality. However, to achieve effective, quality project operation and results, s/he should really understand Thai/northern development contexts. Also, s/he can reside in any place but the firm should manage its operational cost, i.e. travels of the personnel from abroad to project sites and this does have cost implication.
