

Question and Answer under RFQ 027/16

Supply of Agro Machinery

Q1: All our tractors have mechanical transmission. Is it a mandatory point that the transmission should be automatic?

A1: Automatic transmission of the tractor is Mandatory, since it will be operated by handicapped person. It is also preferable to arrange manual adjustments for disabled person (brake and accelerator).

Q2: Regarding the plough, it is a bit not clear to us what type of plough you need. Do you mean that the plough should have 2 fixed and 1 reversible furrows? Please note that we can provide a plough with 3 fixed furrows. If this option is suitable for you, please inform us.

A2: The plough should have 2 fixed and 1 reversible furrow. Plough with 3 fixed furrows is not acceptable.

Q3: Concerning the sprayer, we can provide sprayers with the tank capacity of 300 L and 600 L or above. Would you please let us know whether we can offer one of these types of sprayers for this bid or it should have only 400-500 L tank?

A3: 600 liter capacity sprayer is acceptable in case it is compatible with the offered type of the tractor.

Q4: And the tiller that we want to offer is foreseen for tractors with 12-22 HP. Is it acceptable for you?

A4: Tiller should be compatible with the offered type of the tractor.
