**Subject: Response to Bidder's Requests for Clarifications: ITB-152/16, Provision, Construction and Installation of Sewage Networks in IDPs/Returnees Durable Shelter Compound in Ramadi, Anbar Governorate**

All Interested Bidders are requested to not the following response to bidder's request for clarification:

**Question:**

I am asking about the location of the project of the bid of **Provision, Construction, and Installation of Sewage Networks in IDPs/Returnees Durable Shelter Compound in Ramadi, Anbar Governorate**. What is the name of this IDPs camp? and what is its location?

**Response:**

The plot location is in Ramadi- Near Omar AlRawi Residential Compound (about 250 meters far from the compound).

**Question:**

the nature of the ground which should be excavated to extend the waste water pipes.

**Response:**

The nature of the ground is flat in general with some required cut/fill works. There are debris in the site (i.e. huge pieces of T-walls and a central mixer which has to be removed).

Please be guided accordingly.

Thank you.
