# Terms of Reference For

# Preparation of Revenue Improvement Action Plans (RIAPs) for selected six Municipalities in Nepal

Location	Kathmandu and Preparation of RIAP in six	
	Municipalities	
Type of Contract	Consulting Firm	
Duration of Work	Three Months	
Starting Date	17 November, 2016	

# 1. Background

The Local Self-Governance Act (LSGA) 1999 and the Local Self-Governance Regulation (LSGR) 1999/2000 provides legal authorities to Municipalities for various kinds of functional assignments and delivery of services to citizens. To deliver the services -Municipalities have enough authority to raise and collect taxes as well as other forms of revenues. In addition to that, the central government also provides conditional and unconditional grants to Municipalities. The central government provides annually minimum grants, conditional and performance based grants to Municipalities. The conditional grants are provided for specific purpose and performance based grants are subject to meeting the Minimum Conditions (MCs) and Performance Measures (PMs) and therefore there is uncertainty of receiving the performance based grants unless the MCPM results are established. The revenue sharing is another source of funds for municipalities. The central government collects revenue, land registration, electricity, forest etc. and shares the revenue collected with local bodies including municipalities. However, the release and size of funds are normally delayed and difficult to project in advance.

Given the above mentioned background, collection of own source revenue by Municipalities themselves is the best option going forward. Municipalities are independent and have the discretionary power to spend their own source revenue in various development projects identified and prioritized by themselves. The existing rules and regulations provides Municipalities the authority to generate own source revenue via various forms of taxes, fees and other forms of non-tax revenues. Municipalities are expanding their infrastructures and other services which need continued growth of own source revenue to finance new infrastructures, sustain the operations and maintenance of existing infrastructures and improve the service delivery standards.

The Ministry of Federal Affairs and Local Development (MoFALD) understands the importance of increasing local revenue and supporting municipalities to enhance own source revenue. This ToR partly includes the capacity development support to enhance own source revenue for selected municipalities where MoFALD has planned to promote Local Economy Development (LED).

# 2. Objectives of the Assignment

MoFALD through the LGCDP framework has started to design and implement LED in selected 10 municipalities. As part of building the capacity for LED, MoFALD has planned to assist six municipalities in preparing the Revenue Improvement Action Plans (RIAP). Out of 10 municipalities selected for LED, the RIAP will be prepared in six municipalities in the first phase. The six selected Municipalities include- Birtamod (Jhapa), Kashikhand - Daptcha, Byas (Tanhun), Walling (Syanja), Narayan (Dailekh) and Tikapur (Kailali). The objective of this assignment is to work closely with the municipal authorities and provide technical support to produce individual RIAP in the selected six municipalities as mentioned above.

Despite numerous legal provision and operational guidelines, Municipalities are not able to raise local revenues in accordance with their legal authorities and revenue potentials. In general, the majority of municipalities are not being able to increase local revenue collection against their potential full compliance of and provisions, instituting Integrated Property Tax (IPT), identification of revenue potential and minimizing cost for tax collection. In order to enhance the local revenue, an important aspect is to develop a comprehensive RIAP. In general, majority of municipalities have limited capacity to produce RIAP on their own. The capacity of newly created municipalities require additional support in comparison to older municipalities.

## 2.1 Objectives of the Assignment

- Review and Analyse the current status of own source revenue collected by Municipalities against revenue potential and revenue mobilization capacity; (The data should be collected for a minimum of last three fiscal years and analysed as applicable)
