

**Reference: UNDP-CYP-ITB-013/2018**

**Subject ITB: Support to cultural heritage monuments of great importance for Cyprus, Phase V Conservation Works**

**Lot 1: Panagia Church Lot 2: Agios Artemon Church**

**Clarifications no:1 dated 7 March 2018**

No	Questions	Answers
1	We would like the tender bid submission deadline for ITB 013/2018- Conservation Works to be extended 10 days.	Please see revision no:1 dated 7 March 2018. (Revised Section 2 – Instruction to Bidders and Data Sheet)
2	With regards to above mentioned tender, in order to be able to prepare a more healthy tender, we kindly would like to ask you extend the submission date to 16.03.2018.	
3	Would one nearly finished and one finished Conservation Works with more than 2,000,000 Euro satisfy the Technical compliance criteria for both Lots?	The project submitted for technical experience must have their substantial completion certificates issued to be evaluated technically compliant.
4	It is stated that if the tenderer bids for one lot then he must have completed at least 2 projects with total value of 300,000 Euros and must submit 2 reference letters from the previous employers. Similarly, according to tender documents, if the tenderer bids for both lots then he must have completed at least 4 projects with total value of 600,000 Euros and must submit 4 reference letters from the previous employers. Does this mean that if tenderer bids for both lots and presents one conservation project with value in excess of 600,000 Euros and submits one reference letter from the employer of that project he shall be evaluated as failing the "technical compliance criteria"?	Please see revision no:1 dated 7 March 2018 (Revised Section 2 – Instruction to Bidders and Data Sheet)
