1 Common Definitions:

Bid	A submission of an offer on an event.
Bid Factor	<p>Bid requirements and evaluation criteria, that may or may not be cost-related, which factors into the award of an event. Bid factors can be of pass or fail or can be assigned weightings and used to determine the best qualified bid.</p> <p>Examples of bid factors include price, product warranties, service level agreements, and defect ratings.</p>
Bidder	Anyone registered to place a bid on an event. The term <i>bidder</i> applies whether it is a sell event (i.e. when UNDP is selling goods) or a buy event (i.e. when UNDP is the buyer).
Business Unit	An identification code that represents a high-level organization of business information usually representing an UNDP Country Office or HQ department.
Buy Event	<p>In a buy event, UNDP wants to buy goods or services. In addition to price, the creator may specify other bid factors and assign weightings, which factors into the award decision. Bidders must submit their bids, including responses to the bid factors, by a specified End Date after which time the bids are evaluated and the event is awarded. In PeopleSoft Strategic Sourcing, there are three types of buy events:</p> <p><i>Auction</i>: Also known as a reverse auction. All bids are visible to all bidders. Bidders can enter multiple bids, to beat the current highest-scoring bid.</p> <p>.</p> <p><i>Sealed RFX</i>: Similar to a RFX event, yet also restricts the event creator from viewing the bids until after the event has ended. It is used by UNDP for Invitation to Bid (ITB) and request for Proposals (RFP) type of processes.</p>
End Date	The date and time the event closes meaning that bids are no longer accepted.
Event Creator	The originator of the event in the system.
Factor Type	The type of information being requested on the bid factor, such as monetary, numeric, date, text, yes/no, or list.
Preview Date	The time available before an event's start date. During preview, bidders may view the event, and may enter bid data into the system but will not be able to submit their bid. Having a preview time for an event is optional.
Public Event	An event on which any person or organization may bid.
RFX	A request for information or request for quote event in which each bidder bids once; bidders cannot see each others' bids and scores.
Sell Event	Most familiarly known as an <i>auction</i> . In a sell event, the event creator offers a good or service for sale. In addition to price, the creator may specify other bid factors which helps determine the award decision. Bidders must submit their bids, including

responses to the bid factors, by a specified end date at which time the bids are evaluated and the winners are declared. In PeopleSoft Strategic Sourcing, there are two types of sell events:

Auction: All bids and scores are visible to all bidders. Bidders can enter multiple bids, to beat the current highest-scoring bid.

RFx: Each bidder submits one bid by the specified end date, at which time the event creators evaluates bids and awards the event. Bidders never see others' bids but the event creator can see all bids throughout the event.

SetID An identification code that represents a set of control table information or tablesets. A tableset is a group of tables (records) necessary to define your organization's structure and processing options.

Start Date The date and time at which the event becomes open for bidding.

User ID The system identifier for the individual who generates a transaction.

Weighting Both bid factors and line items are weighted to reflect their level of importance. Weighting is used to analyze and score bids.

2 Business Process

The eTendering module is designed to facilitate collaboration between buyers and suppliers of goods and services. Through the functionalities offered in the module, users (buyers) can manage bidding events, monitor participations, and evaluating offers, thus stream line the bidding process.

When creating an event, users have the option of inviting individual suppliers/ vendors or making the event public. An invitation is automatically sent to all invitees once the event is posted. **In order to participate in an event, suppliers must first register as a Bidder via the supplier portal** and then enter bids for the events that they are invited to. Features such as bid factors, allows users to assign weightings and ideal answers for evaluation purposes.

3 Bidder Registration

This section describes the steps that bidders must follow in order to register in the eTendering system. It is a self-registration and one time process where bidders must provide pertinent information about them such as name, email, address, and organization information if they represent one. Once registration is completed, bidder can sign in the system using its own username and password.

For the first time registrants, use the following details to login and create access:

Username: event.guest
Password: why2change

Please note:

- 1. It is strongly recommended to create your username with two parts, your first name and last name separated by '.', similar to the one shown above.*
- 2. The registration page enables Bidders to create a user ID. System will generate a temporary password that will be sent to the bidder to the email address provided by Bidder during registration process. Bidders will be prompted to create their own password.*

Navigation: Manage Events and Place Bids > Register Bidder

1.) Enter bidder information: As soon as bidder logs in for the first time with the username and password above, bidders must register themselves following the steps below:

You will receive a confirmation email with your username and password. Please note there may be delay in granting the necessary access to you. Therefore, please close this browser completely and wait for 15 minutes and use the url provided in the email

OK

Once you have complete all of the steps above, clear history and close the browser. This is a very important step. If you do not clear browser history, the temporary password may not work (internet browser will try to use the “why2change” password which is saved in its browsing memory. You will receive an email from the system sent to the registered address containing a temporary password. Wait for about 30 minutes to allow the system to update your profile to ensure proper access is granted and use that password to log into the system to view and bid on open events.

When you sign in for the first time with the temporary password, you will be prompted to change the password to a password of your choice. Once you have changed, you will be logged into the system and will be able to view bidding processes and submit bids.

4 Submitting and managing bids

This section contains instructions on how to search for bid events and view solicitation documents, bid on events, and manage submitting bids.

4.1 Searching for a bid Event in the system

The system does not send automatic notifications when an event is posted. Nevertheless, UNDP will publish procurement notices in UNDP website, UNGM, and other media as relevant making reference to the eTendering system. However, bidders who are invited directly through the system to participate in a Bid Event will receive an email notification informing about the bid event and containing all Bid event attachments and direct link to the bid event in the system. .

To search for bid events, go to Manage Events and Place bids >> View Events and Place Bids:

Personalize [Content](#) | [Layout](#)

Menu will expand. Click again on “Manage Events and Place Bids”

Search for the bid event you are interested. Several search fields are available. You have to select a filter, otherwise there will no search results shown:

The second step is to submit the prices for all lines required and specific information related to each line. Bidders here can input the quantity that they are required to quote on and the unit price. The system will calculate the total per each line and the total of all lines. To make specific comments per each line or to upload documents that are specific to that line, e.g. the technical specification, you must click on the bubble icon on the right of each line and a uploading screen will appear.

Step 2: Enter Line Bid Responses

This event contains one or more individual lines that await your bid response. Some or all lines may require your bid in order for consideration by the Event Administrator.

At any point in the bid response process you may save an in-progress bid and resume completion at later time. When your bid response is complete, submit for consideration.

[Return to Event Search](#)

Once you have submitted all the information required, you can either save your bid for later submission or submit it right away.

Important note: If you “Save for Later” your bid is not submitted. A Bid is submitted only one you click on “Submit bid” in which case a confirmation email is received with a copy of the bid submitted.

You can click on “Validate entries” to check if the responses provided meet the minimum responses required in the bid event and confirm if the bid is ready to be submitted.

4.2.3 Submitting Alternate Bids

In the cases when UNDP accepts alternate bids, Bidders will be allowed to submit more than one bid in the system, with one of them being the primary bid and the other/s being alternate bids. There are different methods of how to submit an alternate bid as described below:

Method 1: Submit an alternate bid directly.

In this method you will submit a bid directly entering all the required information such as: responses to bid questions; prices, attachments, etc from scratch. To do so, simply click on “Bid on Event”.

The screenshot displays the 'Event Details' page in the Alias Finance system. On the left is a navigation menu with options like 'Manage Events and Place Bids' and 'View Events and Place Bids'. The main content area shows event details for 'USER'S GUIDE' with fields for Event ID, Format, Round, Version, Start/End Dates, and Description. A 'Bid on Event' button is highlighted with a red box. In the 'Bidding Shortcuts' section, the link 'View, Edit or Copy from Saved Bids' is also highlighted with a red box. At the bottom, the 'Multiple Bids' field is set to 'Allowed' and is highlighted with a red box.

Method 2: Copy from previous bid.

You can use this method if you want to use the information submitted in your previous/original submitted bid and then make only necessary changes. To do so, click on “View, Edit, or Copy from Saved bids” and then click on the link “copy”. System will

prompt the bid already completed with same information as the original bid and Bidder can then make necessary changes.

The screenshot shows the Atlas Finance web application interface. At the top, there is a navigation bar with the Atlas logo and a welcome message: "Welcome Roland Koxhaj, Your Atlas Finance Last Login Datetime : 29.Oct.2013 14:30:49 GMT". Below this is a menu on the left side with options like "Manage Events and Place Bids", "View Events and Place Bids", "My Event Activity", "Maintain My User Contact", "My Bidder Profile", "My Categorizations", "My IM Settings", "Maintain IM Info - Hidden", and "View Terms & Conditions". The main content area is titled "View, Edit or copy from Saved Bids" and includes a sub-header "Welcome, PSO Copenhagen". Below this, there is a summary box for the event "USER' S GUIDE" with details such as Event ID (UNDP1-0000000077), Event Round (1), Event Format/Type (Sell Event RFX), Event Start Date (31/10/2013 4:49AM EDT), Event End Date (28/11/2013 04:49 AM EST), Event Version (2), Multiple Bids (Allowed), and Currency (US Dollar). Below the summary box is a table of saved bids with columns: Bid ID, Round, Version, Bid Status, Event Status, Bid Last Saved, and Action. The table contains one row with Bid ID 1, Round 1, Version 2, Bid Status Posted, Event Status Posted, Bid Last Saved 31/10/2013 6:01AM EDT, and Action buttons View/Edit Copy, Cancel, and Upload. The "View/Edit Copy" button is highlighted with a red box. Below the table is a "Return to Event Search" link.

Important note: Make sure that the bid you are trying to copy from corresponds to the latest version of the Bid event, otherwise you will receive a system error and will not be able to use that bid.

In cases when alternate bids are allowed, bidders must clearly identify which is the alternate bid and also cancel any bid that is not valid. How to cancel a bid is explained further below.

4.3 Managing Submitted Bids

This section contains instructions on how to view, edit, or cancel a bid that has been already submitted.

4.3.1 View Bid

It is highly recommended that you view your submitted bid to ensure that you have provided all the required information. To do so, open your submitted bid by going to “View Events and Place bids” and selecting the corresponding Bid Event. Click on “View, Edit or Copy from Saved Bids”

4.3.2 Edit or Cancel Bid

Bidder can edit a bid directly in the system until the bidding deadline is over. To edit an already submitted bid, you must open it by clicking on “View/Edit” in the same way as you do to view the bid (section above). This will open the bid submitted and you can overwrite to make the necessary changes and submit again.

Important note: To submit the amended bid, bidder must click on “Submit bid”. Otherwise, bid will not be posted in the system and will be considered as “not submitted”

To cancel a bid go to “View, Edit or Copy from saved bids” and click on “Cancel” on the bid that you wish to cancel. Pay attention to the Bid Status columns. If only one bid is required, then there must be only one bid with status as “Posted”.

View before bid is cancelled. Look at column BidID on the left and status shown as “Posted” for both bids. This means that you have submitted 2 bids in the system.

4.3.3 Amending your bid when bid event is amended

If UNDP amends the bid event and its requirements, an automatic email notification will be sent by the system to all bidders who have either accepted bid invitation, have been invited directly by UNDP, or who have already submitted a bid on the original version of the Bid Event. The amendments may consist of various aspects and how the bidder can

modify his bid accordingly depends on what changes have been made in the bid event. In any case, there are two main categories of changes:

- a) Changes include also changes in line items or bid factors.
- b) No changes made to line items or bid factors.

If no changes have been made to the bid factors or line items, bidder can follow the same steps for editing his bid by clicking on “View/Edit” link and overwriting the information.

Bidder can also submit a new bid, in the same way as if when submitting an alternate bid and cancelling the previous bid, as explained above.

If the ammendment of the bid event include changes in bid factors or line item, bidder cannot edit previous bid or copy it and create a new bid. If bidder click on the “View/Edit” or “Copy” links corresponding to the previous bid for the original version of the bid event, a system error will appear.

To submit a revised bid for the new version with changes in bid factors or line items, bidders must submit a new bid by clicking on “Submit bid” link in the main page and cancel their previous bid.

The screenshot shows the Atlas Finance web application interface. At the top, a blue banner reads "Welcome Roland Koxhaj, Your Atlas Finance Last Login Datetime : 31.Oct.2013 16:09:10 GMT". On the left is a navigation menu with a search bar and a list of links including "Manage Events and Place Bids", "View Events and Place Bids", "My Event Activity", "Maintain My User Contact", "My Bidder Profile", "My Categorizations", "My IM Settings", "Maintain IM Info - Hidden", and "View Terms & Conditions". The main content area is titled "Event Details" and features a yellow button labeled "Bid on Event" which is highlighted with a red rectangle. To the right of this button are "Bidding Shortcuts" with links for "View Edit or Copy from Saved Bids", "View Your Bid Activity", "View Bidding Documents", and "Upload XML Bid Response". Below this is a detailed event information section with fields for Event Name, ID, Format/Type, Round, Version, Start/End Dates, and Description. The description reads "New Version - No changes made to Line items or Bid Factors". Further down are contact details for Roland Koxhaj and payment terms. At the bottom, there is a "Display:" section with a dropdown menu set to "All Lines", a "Bid Required" indicator, and a "Line Comments/Files" link. Below this is a table with columns for Line, Description, Unit, Requested Quantity, and Status. The table contains two rows: Line 1 for "SUVA/NADI/SUVA: STANDARD AIR FARE" with unit "EA" and quantity "10.0000", and Line 2 for "computer" with unit "DOZ" and quantity "10.0000".

4.4 Submitting bids via xml files

You can prepare your response off-line outside the system and then upload it in the system when ready, using xml files. To do this first you need to download the XML version of the bid event by going to “View Event Package” and then downloading Event bid Package in XML format. Once the page is downloaded, you must save it in your computer.

Then open Excel and open the save XML file from there. You must open the XML file by “Open File” menu in Excel and not by clicking on the XML file itself in the folder. Note: you can upload your bid using XML feature only once. Once a bid has been posted, the XML file cannot override the bid information in the system. Only exception is when “Alternate Bids” is allowed. In this case, uploading your bid using XML file will create a new bid in the system.

You can provide your responses in the excel table. Once responses have been provided you can save the files as an XML excel file and upload your responses in the system. Worksheet “General Details” is used to respond to the general bid factors and the worksheet “Line details” is used for completing the responses for each line item.

To upload the XML file into the system go to the start page of the Bid event and click on “Upload XML Bid Response”.

NOTE: Documents cannot be attached through XML files. They must be uploaded in the system directly.

5 Managing Your Account

This section describes some additional features that enable the bidder to view his bidding activity, change his account information, etc.

5.1 View Activity

System records the bidder activity. To view it, click on “My Event Activity”. You can use several filters to search for specific activity or simply click on the numbered link on the top to view all events that you have bid on.

5.2 Update Bidder Profile

Bidder can update his profile by clicking on “My Bidder Profile” in the menu and changing the information as relevant. Switch between the tabs on top: Main, Addresses, and Contacts to navigate through the different profile information, as grouped below:

- “Main” tab: Company website. Company name cannot be changed.
- “Addresses” tab: Add new address, change existing address.
- “Contacts” tab: change existing contact information (first and last name, title, telephone and fax, email address, etc.). Username cannot be changed.

The screenshot shows the 'My Bidder Profile' page in the Atlas Finance system. The browser address bar displays the URL: https://etendering-training.partneragencies.org/psp/UNDPFST25/SUPPLIER/ERP/c/AUC_MANAGE_EVENTS.AUC_BID_ACT_MY.GBL?PORTALPARAM_PTCNAV=EP_AUC_BID_ACT. The page header includes the Atlas Finance logo and a welcome message: "Welcome Roland Jakarta, Your Atlas Finance Last Login Datetime : 06.Nov.2014 10:33:05 GMT".

The left sidebar contains a menu with the following items:
