Query:-

"Regarding the specification of Texturometer, you have only mentioned that probe is required. However, what sorts of Probe do you require is not clearly mentioned and also, the detail specification of probe is not attached. As we know that probe is an important part of Texturometer so we would like to have some detail specification of the Probe."

UNDP's response:-

Specification of the Probe: Needle probe of stainless steel with 2-3 mm outside diameter

All other terms and conditions of the RFQ will remain the same.
